Mothers and Fathers, for the Lord's sake and your sake, read the following:

My wife, on Dec. 10th, had pneumonia and she gave birth in the meantime. The Doctor came to see her two or three times during the day and did all he could for her, but she seemed to grow worse. She had a terrible pain in her right side that, at times, would cause her to holler. We tried everything for that pain that we knew of, but nothing did it any good. She was suffering so much I went after the Doctor again and he remarked to me that it was not worth while for him to come, he had done all he could. He also told one of my friends that she was bound to die, but as a good doctor will do. he came over and wrote a prescripup hope Mrs. Steed came and Joy and rub my wife and she believed it would cure her. I went over to the Goose Grease House at once and got a box of Mother's Joy and rubbed it on as directed, and in fifteen minutes she was asleep and slept all night, but had not slept any in five nights before applying Mother's Joy.
I sincerely believe that if it

had not been for Mother's Joy my wife would have been dead. I have sworn to this statement should know what Mother's Joy

Charity or Business

The germ of Fire Life and Insurance had its rise in the custom of taking up a collection for the strickened family. We all chipped in, in the hope and expectation that if we were snuffed out by sickness or accident, the neighbors would do as much for us. Fire and Life Insurance avoids the uncertainty of leaving things to the neighbors. It is a business plan founded on the laws, mathematics and sound economy, to provide for those depending upon us in case of death. Fire and Life Insurance is a duty, and it is a privilege. Don't leave your loved ones to the care of the public or of the neighbors. We represent some of the oldest and best Fire and Life Insurance companies in the

world, and we would be glad to write either for you.

Entered as second-class matter May 20, 1908, at the post office at Burling ton, North Carolina, under the Act of Congress of March 3 1879.

Wednesday, March 9, 1910.

Burlington is not the only place in the state where the law is being violated, therefore our ministers should not take the matter too seriously.

We never strike below the belt, as our neighbor 'The News,' would have you believe. He is just out of sorts, because he got the worst end of the juggling controversy.

Since the meat boycott was inagurated, meat has advanced 1 cent per pound. Perhaps, after all, it would have been safer and saner to have bucked the vegetable trust.

not stand for re-election as Su- News was afraid of the third deperintendent of the city schools gree, and cried hold McDuff. for another year is regretable. There is no better educator in the our neighbor when he is down State than Prof. Curtiss, and his and out, therefore we are willing equal will be hard to find.

Burlington is not the only place he juggled clear out. in North Carolina where the prohibition law is being violated.

We do not blame our neighbor. "The News," for taking water News in its issue of the 2nd, inst ready been broke off in him.

and in doing so the Dispatch are behind the law. wants it understood that we were not complaining at any particular person, but with that class that call themselves good and law-abiding citizens. Our business 38 being white males, 46 colored is publishing a newspaper, some males, one white female and 9 others may be destroying blind tigers. Every man to his calling or profession, is the motto of mg liquor, 1. the Dispatch.

Cornered at Last.

Our neighbor, The Burlington News, finding itself cornered, throws up the sponge and calls for the calf rope. We sympathize with our neighbor, and we are sorry we showed him up in such a sorry plight: Once so powerful and self-confident, now discredited and all undone. But such is the way of the juggler, professional side-stepper and artful dodger. The once all powerful "orgin" of an unterrified Democracy begs for one more word, just as a drowning man will catch at straws, and then says it refuses to be stung. If it didn't feel the poignant pangs of the word stung.

of further argument by tee colossal exposure of his expert juggling. He says in effect that the Democrats did not spend the balance of the money paying Reitems of \$2,929.00 and \$685.00 left over by the Republican board for the Democrats to pay was counted in the \$23,928.00, spent by the Democratic board. So now you have it from the jugglers own pen that he was just he got caught, has owned up that these Republican debts have all the statement. been paid and accounted for in the \$23,928.00.

before it admitted all its juggling is past finding out. It is said than Judge Manning. that a criminal usually confessesto all his wrong doing when put through the third degree, and as hed themselves by going to a rethe Dispatch had put the News staraunt, robbing it and getting through the second degree and out without tipping a single wai-The fact that Prof. Curtiss will got part of the confession, The

We do not believe in hitting to wait until the News thinks the people have forgotten, and he Sixteen cases in Raleigh police gathers up sufficient courage to court in one day and the most of juggle some more. More Good Crops Promised.

Last year the world's wheat crops was the largest ever grown Russia especially was notable among the great grain-producing nations, because that country harvested more wheat than it ever before produced in one season, and for the first time the Russian yield was larger than the American. For all countries the wheat crop was well above all previous high records, and now the outlook is favorable to anot-

Australia has been reaping the biggest wheat crop ever produced in that part of the world.

Argentina has another large yield of wheat to help start the new year well. In the principal winter wheat counties of Europe, where the season is farther advanced as a rule, than it is in the United States, the conditions are generally favorable, Chile is harvesting a wheat crop which is about 6,000,000 ahead of the yield of 1909. In the United States the abundant snow in many of the winter wheat states is likely to bring the crop through to the spring in good condition. The Canadian harvest was very fine last year, but there will be so large an in the acreage in 1910 that with average weather the yield should be of record-breaking proportions next summer. The world needs this fair promise of abundant bread. The popula-tion of nearly all civilized countries is steadily increasing, and the general condition of trade and industry is favorable to liberal consumption of food.

The supply of George Washington anecdotes is rather meager owing to the fact that he lived in a time of very limited magazine enterprises.

One Kind or Manners.

If I had my way there should be but one kind of manners, and that good," says Virginia Terhine Van de Water in the Wo-MAN'S HOME COMPANSON for behavior, he would practise none.

known to themselves, a differ1959.
The public service furnished the City for seven in does not consider it worth while ing to nods to his sister, whom he meets alone on the street, will take off his hat when that sister is accomnanied by pretty chum.

'As for knocking at the door of the room of any member of the family-who thinks of doing it? But let us recall at the same time that we do not rush into our guest's rooms without a preliminary knock and a gentle, oh, so gentle, 'May I come in?' Personally, I believe that this disregard of personal privacy in our families is one of the worst of our set of habitual bad manners.

If the courts hold that a club has the right to keep it on hand and dispose of it to its members the prohibition might as well be done away with. - Durham He-

It Saved His Lea.

"All thought I'd lose my leg," writes J. A. Swenson, of Watertown, Wis. "Ten years of eczema Making a total of that 15 doctors could not cure, had at last laid me up. FIRE INSURANCE RATES Too High

losses. The total cost of fires in the United States in 1908. excluding that of forest fires and marine losses (in themselves extensive), amounted to the enormous sum of over \$456,485.000, a tax on the American people exceeding the total value of all the gold, silver, copper and petroleum produced in the United States that year.

The estimated cost of new buildings erected in the entire in 1910 your home, furniture country for the same year was \$1.000,000.000 Thus it will be seen that nearly onehalf of the value of all the new buildings constructed within one year are destroyed by fire.

Rates cannot be lower as long as this awful waste continues, but you that read this | largest companies in the world can help to reduce this waste, at reasonable rates through by seeing at least every six our office.

But the rates are based on the months that your flues and chimneys are safe that matches are kept in metal safes, that no oily rags are allowed to remain in the house. that attics are from rubbish. that no ashes are piled beside the house or left in wooden vessels, and above all realize what a dangerous enemy you have should it once get start-

> Out of the millions of dollars that will go up in smoke barn, store, mill or shop may be one to contribute to this ash heap.

Are You Protected?

It's too late after the firemen come to buy your insurance but you can now, and in the
