Labor Conditions.

About ten years ago was started a movement in the United States of making the conditions of labor better. That movement has not stopped yet. This month of May has seen the usual number of labor disputes, and it is noticeable that the wishes of discontented workmen are often for something besides more pay and less work. They have demanded better surroundings where work, in a good many instances. Employers of labor have sometimes yielded to the workmen and have taken part in some team play by capital and labor; others have refused and are still combatting the suspicion of their employes. Some people call the present movement "industrial betterment." Others call it "welfare work." Whatever it is called, it stands for better factories, places to work in that are hygienic and sanitary, it does not necessarily include club houses or paternal care, because American workmen do not like to be patronized.

Industrial betterment has a good influence on both the business and the morals of the whole community. Some of this good work is probably done by employers selfish reasons; much also, more than most people think, is done through sentiment and kind feeling. There are precious things in business that money cannot buy. It can and does buy loyalty and good will, which are things valuable to the employer.

SHOWER OF METEORS

When the Earth Passes Through Tail of Halley's Comet.

Cambridge, Mass., May 17.—Harvard astronomers expect the passing of the earth through the tail of Halley's comet to be accompanied by a shower of meteors. "There will probably be an unusual glow in the heavens," said Prof. Edward C. Pickering today, "or a few meteors or falling stars, but it is doubtful if any of these will be visible, as the atmosphere at the comet's tail is 100 times rarer than the atmosphere near the earth. The comet is so tenuous that it is possible to photograph stars right through it."

"The best observations will be obtained in Japan. The comet and earth are approaching one another at a speed of 43 miles a second. The time of transit we expect to be 58 minutes, showing that the tail, where the earth will pass through it, is 150,000 miles wide. The transit will begin at exactly 10:50 p. m. Wednesday, and will be concluded at 11:48 p. m."

Spring Cleaning Days.

Inasmuch as the warm summer days are about due, according to schedule, when malaria and typhoid are most prevalent, it is the purpose of the city to minimize the dangers from these causes, and with this in view days have been set apart for cleaning and removing from the city all filth of whatever nature. The citizens of the first and second wards are asked to have their premises cleaned and the filth placed at convenient places on the streets in front of their homes, when the city will remove the same without cost to the property owners Tuesday, May 24th.

The citizens of the Third and Fourth wards are asked to do the same work so that the filth may be removed on Wednesday and Thursday, May 25th and 26th. It is important this work be done on the day before the above dates, as the wagons will be sent out to take up this filth on these days only.

Don't overlook the old tin cans and other receptacles of stagnant water—breeding places of mosquitos.

A. F. BARRETT, Mayor.

Miss Virdie Faucette visited her father Saturday night and Sunday.

WILMINGTON HAS A STARTLING CASE

Wilmington, May 12.—Startling revelations of the receipt of more than seven hundred barrels and cases of liquor by little more than a dozen consignees in Wilmington since January 1st, 1910, were made today at a continued hearing before the mayor under the special statute of the Revisal of 1905, these disclosures coming upon the submission of the records of the local Seaboard Air Line freight agency given by General Counsel Leigh R. Watts. Subpoenas were issued yesterday for the receiving clerk and an assistant in the Seaboard office, the names of suspected parties, including eleven near beer dealers, and these negro draymen for saloons of that character.

The investigation was prosecuted by Attorney J. O. Carr for the Citizens' Committee and the shipments were given in detail with dates. The consignments ranged in the aggregate from five to 350 barrels to each person, removing the quantity beyond the range of personal or private consumption. Further investigations of the records, which it is stated will be used as corroborative evidence, are said to be on top with the likelihood of wholesale prosecutions to follow.

Haw River Items.

Halley's comet is the talk now. Some of our people set their alarm clocks to get up in time to see it and then missed seeing it. It goes on just the same.

Mr. Rimer and two of his children, of Mebane, attended worship at Haw River Sunday.

Pastor Arnet filled his appointment Sunday morning and administered the ordinance of Baptism Sunday evening. There were twelve baptized—three women and nine young men.

The Sunday-schools are working like beavers getting ready for the township convention which meets at the M. P. church at Haw River the fourth Sunday in May.

Arthur Neece, of Lexington, was in town shaking hands with his many friends. We saw him with his best girl, we suspect the wedding bells will ring in the near future. She is all O. K.

Mr. and Mrs. W. J. Crutenfield attended the school closing of C. R. I., returned home and reports the best closing in the history.

Capt. S. A. Vest has made some improvements around his front yard which will add much to the appearance.

When will the good roads force come this way? We have waited long, our time will come after a while.

Judging from the visiting drummers here, business must be looking up for the better.

OUR RALEIGH LETTER.

Special to the Dispatch.

Raleigh, N. C., May 14.—The Democratic party in Wake county, the metropolitan county of the State, has split; and not only has two factions begun a war of extermination, but they are charging and countercharging every manner of infamy.

The Josephus Daniels—J. Wm. Bailey faction today held a mass meeting in Raleigh and nominated a ticket from top to bottom against the present county officers. This ticket is to contest with the "Ins" in the Democratic Primary June 26th. Now some of the Democratic Executive Committee are claiming that perhaps these Mass Meeting Democrats, who have defied the county committee, have ruled themselves out of the party and may not be allowed to take part in the primaries.

The speech of J. Wm. Bailey, before the Mass Meeting today, breathed defiance and denunciation against the present party management. He declared that the Democratic party in Wake county was now run selfish ends and denounced in severest language The State Democrat, without naming it, a weekly paper here edited by J. C. Caddell, who was stigmatized by Bailey in the severest terms. He asserted that this paper was a subsidized and could not exist when cut off from the county treasury. He also asserted that a County Commissioner now carried elections at Wake Forest precinct with whiskey.

The platform adopted by the Daniels-Bailey crowd reiterated the previous denunciation of the present Democratic County Machine, calls for representation at the polls in the coming Democratic primary and demands that the county officer be put on a salary basis.

The ticket nominated by the Daniels-Bailey faction was E. W. Sykes, a professor in Wake Forest College and formerly of Union county, for Senator; and Richard W. Battle, lawyer, Ed. R. Pace, a mechanic, and John Judd, a farmer, for the House. The County officers are to be Dillard Mial, for Clerk of the Court; C. Anderson, for Register of Deeds; H. D. Rand, for Sheriff; and Geo. T. Norwood, for Treasurer.

Opposed to this ticket the Amstead Jones faction stands for W. M. Riss, for Clerk of the Court; J. J. Bernard for Register of Deeds; Brown Pegram, for Treasurer and J. N. Sears, for Sheriff. Wm. E. Jones and Jno. W. Hinsdale, jr., will again run for the Senate and House respectively.

Many people of this county are disgusted with the row between the prohibition Democrats, headed by Daniels and Bailey, and the supposed "wet" Democrats, headed Solicitor Armstead Jones. It is a war to the death now and many predict the disruption of the Democratic party.

At a recent meeting of the Board of Aldermen of the City of Raleigh, the drug stores in the city stated that they could not pay \$500.00 license to sell whiskey. J. Sherwood Upchurch favored reducing the license to the original \$125.00, saying that he had only asked to have the license increased in order to see who was selling the whiskey, the drug stores or the near beer joints; that the stores refused to the increased license and stopped selling whiskey; that he believed the people now knew a few things.

In the appointment of Henry Gray Brown as Corporation Commissioner to succeed R. F. Aycock, deceased, Governor Kitchin probably made the best selection he could from his party, but politicians admit that he made a political blunder. Kitchin got the nomination on the strength of his anti-trust, anti-railroad platform. Yet, when elected, he framed the Legislature's trust bill, which Josephus Daniels says is without teeth, appointed Manning to the bench and showed his friendship for corporations. Now when it came to naming a corporation commissioner he had a chance to gratify the element of his party which gave him the

THE LADIES INTERESTED IN ALAMANCE HOSPITAL.

There is every probability that the men of Alamance will in the near future erect a county hospital on suitable location, to be chosen by them. What more fitting than that the women of the county should furnish this hospital, if possible, entirely, but in part at least? With this object in view we wish to call a mass meeting of the women of Alamance, to meet in the Alamance Court House, May 24th, 1910, at two o'clock p. m. Come prepared to talk, to express your opinions and advance ideas as to the best ways of doing this. Bring your neighbors.

nomination but instead he has seen fit to delight the railroads. The Governor dropped his last trump.

The Comet end Fear.

Between each seventy-five and seventy-eight years since long before christ was born, Halley's Comet has regularly returned to the sun and blazed upon the earth. It is as much a part of our solar system as Mercury, distant Jupiter, or the moon.

How many times its tail, through which the earth is now passing, has switched us, no one definitely knows, but for centuries this brilliant messenger of the skies has been a terror to humanity. Only within the last century has the mind of man risen to calmness in contemplating it, and came to realize its magnificent procession is not a token of the wrath of God, but a superb illustration of the perfection of his laws.

Halley's comet has never wrought the earth or its people harm, but for generations, on its approach, bells were rung, churches thrown open, special prayers for Divine protection offered, invocations made against "the evil thing."

To-day no such spectacles are witnessed. Swirling through space at the rate of over three million miles a day, Halley's comet is welcomed by millions as a marvelous, educational, soul-inspiring phenomenon of those heavens studded with stars to the honor and glory of God.

Man has grown nearer to God through the ages, and that is the most helpful lesson Halley's comet imprints upon our hearts: this day. Intelligence is replacing ignorance and superstition, and the more intelligence there is in this world, the clearer will God's merciful face be seen shining beyond the comet's flare.

He was 62 years 7 months and 22 days of age, was a good neighbor, clever citizen, and for a number of years a worthy member of Bethlehem church. He will be greatly missed in the home by his loved ones, in the neighborhood by his many friends and in the church by the entire congregation.

A contest was given in which Margie Loy received the prize and Claud Holt the booby. Refreshments were served, games played and the entire crowd returned thanks to Miss Barrett for the pleasant evening of amusement and enjoyment.

Great Banquet.

The Improved Order of Redmen Keywases Tribe No. 97 celebrated "Tartan Day" in their hall over Freeman's Drug Store Thursday night. Quite an interesting programme portraying the traits of the aboriginal chiefs was rendered. After the exercises was finished, one of the grandest banquets of the season was participated in by more than three hundred men women and children. Cream and cake was served and some of the largest speeches imaginable were expounded. The time, place and crowd had met and an enjoyable occasion was the result.

Convicts and Good Roads.

Many things have been done in Colorado that are hardly worthy examples for other states to follow; but its present method of employing its convict labor furnishes an object lesson that deserves wide consideration. Last summer about 40 per cent. of the Colorado convicts were put to work outside their prison walls. A thousand were used exclusively in road building. The cost for each prisoner employed was 36 cents a day and the counties where the roads were built paid this amount, less the amount the state would have to pay to maintain them in the prison. The day's work was eight hours, and for each month's service there was a substantial subtraction from the term of imprisonment. No chains were attached, no strips were worn and there was no armed guard to patrol the work camps; yet less than one-half of 1 per cent. of those thus employed were lost by escapes.

The success of the method may be due largely to the tact and judgment of the warden. The road work is said to be the desire of every prisoner, but he must earn the privilege by good conduct. The warden personally has a talk with each prisoner before assigning him to this service and receives his pledge that he will be true and faithful to his trust. "The best effect of this," he says, "is that every man who goes from prison to road work and keeps his word with me, has taken a long step toward reformation."

The Parson's Wife Told Her.

The wife of a clergyman of a certain suburban parish was mending clothes the other day when a visitor was announced. The hostess went on with her sewing for the caller was a well-known paishoner. After awhile the visitor glanced toward the sewing table and exclaimed:

"Why, there are some buttons exactly like some my husband had on his last winter suit. They are an odd kind of button, too, when did you get them?"

The clergyman's wife smiled roguishly. "In the collection basket," she answered quietly.

"I found a good many of the same kind. I am saving them up for possible use."

The caller changed the subject as hastily as she could and somehow or other she did not stay very long.—Boston Traveler.

Not Sorry For Blunder.

It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, lagrippe, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c, \$1.00. Trial bottle free. Guaranteed by Freeman Drug Co."

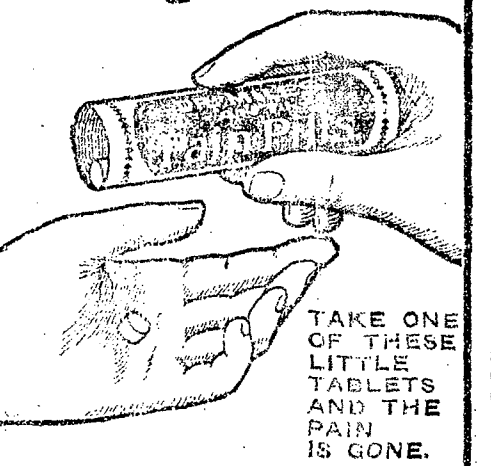

Concrete Boats Better Than Others.

Washington, May 12—It will puzzle most people to know that a boat built of concrete will not only float, but has a greater carrying capacity, is more durable, and even lighter, than a strongly constructed wooden boat.

The Panama canal commission has just launched on the banks of the Panama canal a big barge built of concrete, which weighs 600,000 pounds, and two other will soon be finished. These vessels, it is said, are unaffected by sea worms, marine vegetation does not adhere to them and they are practically indestructible.

Enjoy a pleasant hour at the Grotto you will not regret it.

A Poor Trade.

What could the Democrats do if they should capture the House? They could not enact any laws. They could not enforce any policies. They could embarrass the opposition, but in the end they would be compelled to vote for appropriations to carry on a Republican administration. They would be thwarted in any effort to initiate reforms. The phantom honors of the House might start all kinds of intestinal struggles among the Democrats. The losers would be sore, and the winners would discover that they had traded off friends for empty honors.—Washington Post.

Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, fagged feelings, backache or headache constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure, 25c at Freeman Drug Co.

NEIGHBORHOOD NOTES

Items of General Interest Clipped From our Exchanges.

Washington Dispatch.

Yesterday Contractor W. Lee Harbin received a telegram from the Baptist church there, announcing the fact that he had won the contract to build the \$30,000 Baptist church there. Mr. Harbin built the Hay street church in Fayetteville last year, and has captured a number of important contracts in outside places.

Lexington is joining in the automobile march and one by one people here are adding to the number of automobiles owned by the citizens. Our good neighbor Thomasville has a flat-top number of machines and is justly proud of it; fact is has been sort of poking fun at Lexington about it. "We are comin'."

Greensboro Patriot.

Rev. S. M. Rankin has received information that several of the property owners in Alleghany county have donated sites for buildings adjoining the Glade Valley school, which is now nearing completion. The sites will be given to parties wishing to live near the school.

C. U. Hinshaw, a well known citizen of Clay township, is strong endorsed for the position of agricultural superintendent of Guilford county, an office the last legislature authorized the county commissioners to establish and which will probably be created in the near future. Mr. Hinshaw has a splendid endorsement from the North Carolina College of Agriculture and Mechanic Arts, where he spent some time last winter taking the special course in agriculture.

Roxboro Courier.

A. J. Burch, a brother of our townsman John H. Burch and one of the Burch brothers mentioned of which was made in The Courier a few weeks ago as to their war record, died at his home in Alamance county last Sunday, aged 87 years.

Lee County Times.

James Martin of Anson county who is 92 years of age and his son J. T. Martin, 59 years of age who spent several days here last week returned home Saturday. The son was here prospecting and his father said if he was even as young as 65 years old he would spend the remainder of his life in Lee county.

Littleton News-Reporter.

Trains 38 and 41 had to stop near Vaughan last Thursday to keep from killing one Sam Walker a demented white man, who had chosen to get on the track near a sharp curve. Friday Walker tried to hang himself to a barn pole but the pole broke, nothing daunted he next jumped in a well but failed in his efforts at suicide. Officers took him in charge, and it is thought he will be sent to the asylum.

Chas Patriot.

A colt belonging to C. F. Morrison of this place, while loose in a lot Monday attempted to jump a wire fence, and in the attempt its front leg became entangled in the fence, breaking above the knee joint. The animal had later to be killed.

A very painful, though not serious accident befell Edgar Carson, of North Wilkesboro, Monday evening. He was operating a moulding machine at the Oak Furniture Company's factory when the belt which pulled the machine broke, and painfully dislocated three of his fingers and bruising his whole hand. Medical assistance was rendered immediately and he is getting along nicely.

Fayetteville Gazette.

A. M. Holbrook, a young business man of Draper, was severely injured last Tuesday by a runaway horse. Mr. Holbrook was thrown from the buggy in which he was riding, and his head struck the ground or something else with such violence as to render him unconscious for some time. So far as we can learn, he will soon recover from the effects of the accident.

Union Republican.

Ernest Newsum of King, Stokes county, has a fiddle that was made in 1713. Mr. Newsum purchased this fiddle from Robt Fulp about five years ago, and it is in good condition.

Our Methodist Protestant friends are considering an improvement of their place of worship in this city and will either build an addition to the present church or erect a new and more modern structure.

P. L. Wilhelm, Register of deeds of Yadkin county and an excellent citizen, died at Yadkinville, May 6th, after a brief illness. The remains were buried at New Hope, near East Bend, by the Jr. O. U. A. M.'s. which order he was an honor member.

C. H. Haynes left Monday Chas. Childress, Jim and Walter Cox, who were convicted at the last Superior Court. The first named goes to the penitentiary for one year.

Accident on the Frontier.

Kansas City Journal

Charley Colt, expert civil engineer for the Kansas states board of railroad commissioners, tells a story of early surveying days. It was years ago, when he was with a number of transit men making an Indian survey. The party was in a Nebraska town, which was then considered the frontier. One of the members of the party had been drinking and was rather deep in his cuffs. With others, this man was sitting in front of the hotel, over the air chamber. The air chamber was covered with a slatted wood floor, a popular method of the days gone by. The four legs of his chair were carefully placed on the slats, and he was very comfortable. But in talking he forgot about his location and hitched his chair to one side. The legs dropped into the openings and the occupant was pitched forward on his nose. "Say," he said, getting up and hiccoughing. "I've been out here a long, long while, but this is the first time that I ever fell off the frontier."

Women Read Advertisements.

To womankind the news of the retail stores as seen in the advertising makes an intimate personal appeal because closely related to home interests.

Did you ever watch a woman read a newspaper? inquires a writer. If not try it. Our observation both at home and abroad, indicates that women show a very keen interest in the advertising. They look with avidity to see who is cutting prices, who has the most fetching styles. They weigh every word of what the merchant says to them. It is with less personal interest that they turn to the political and general news.

Retail advertising is to the homekeeper what the crop news is to the farmer and what the wholesale market reports are to the grocer. Women naturally feel this alert interest in the advertising because it is full of information essential to their comfort to make the family income accomplish the largest results. Merchants who fail to co-operate with this effort by an adequate public statement of prices and values are simply ignored in the appointment of domestic expense.

Get the Grotto habit and be pleased.

Saves an Iowa Man's Life

The very grave seemed to yawn before Robt. Madsen, of West Burlington Iowa, when, after seven weeks in the hospital, four of the best physicians gave him up. Then was shown the marvelous curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting help from other remedies or doctors, five bottles of this matchless medicine completely cured him. It's positively guaranteed for Stomach, Liver or Kidney troubles and never disappoints. Only 50c. at Freeman Drug Co.

Entered as second-class matter May 20, 1908, at the post office at Burlington, North Carolina, under the Act of Congress of March 3, 1879.

Wednesday, May 18, 1910.

There are other places in North Carolina just as bad as Wilmington. The trouble is, no efforts are made to unearth the business.

It is gratifying to note that Mayor Barrett has designated cleaning up days. This effort on the part of the Mayor should be met by an earnest effort on the part of the citizens.

Let us not only be content with the best and most prosperous town in the State, but also the cleanest and most attractive. Heed the Mayor's notice of cleaning up days.

It appears that Josephus and Josiah think they are the whole cheese in Wake county Democratic politics. We pity the people when they turn the leadership over to a demagogue like Josephus.

If the reports from Wilmington are true, and we doubt them not, there is a disgraceful state of affairs existing there. 703 barrels of whiskey shipped there in four months and apparently no effort made to enforce the law.

We are glad to see the ladies of the county interesting themselves in the movement to establish a hospital in the county. This means much to the institution and will go a long way in the furtherance of this movement. Let the good work go on, this is one of the most laudable movements started in the county in a long time and we hope to see it take a more tangible shape.

Yes, Just As Responsible.

The Republican party is said to be responsible for the condition of affairs, that is, high living, hard times, and factories running on short time.—Lexington Leader.

Yes, just as responsible as the Democratic party was for the hard times and soup-houses during the last National Democratic National administration, you have forgotten that fact though, hadn't you brother?

Bitter No Doubt, But Take It.

Some of the Democrats of this township are disposed to be worth over the alleged action of deputy sheriff Fagg in his refusal to permit inspection of his tax books prior to May 1. If all that has been said about the deputy is true, he merits adverse criticism, because unfair methods for partisan purposes precludes an honest election and does not meet the obligation to the people of a public officer. But did Sheriff Fagg invent a new trick to disfranchise opposing voters, or was he simply following Democratic precedent? If the latter, then it is rather puerile for Democrats to raise a howl. It is always best to take bitter medicine with at least a moderate straight face. Contortions, under self-invited conditions, excite ridicule.—Leaksville Gazette.

If this deputy sheriff is guilty, which we seriously doubt, of the

charges made against him he deserves the criticism heaped upon him, but the abuse coming from the source it does displays very poor taste. Everybody knows that this is an old Democratic trick practised in many counties and communities, and no doubt has been done at this same place by the emaculate Democratic predecessors. It is not right to practice such methods, but when the Democrats get a dose of their own medicine thrust down their throats, it raises a howl, but take the pill boys, you know you deserve it.

With Poor Grace They Critic.

Wilkes Patriot.

Some of the Democratic papers of the State have recently seen fit to condemn to Republican deputy sheriffs of Rockingham county, because it is alleged that they withheld from Democrats information as to what Democratic voters had not paid their poll tax. It is not our purpose here to defend those two deputy sheriffs; we too, not knowing the provocation, however, think that they did not extend the proper courtesy, although it was not their function, but that of the sheriff, to give the sought-for information. If indeed, they withheld this information, as alleged, they only did, so far as we now know, is done by every Democratic sheriff of the State, and especially by what few Democratic sheriffs there are, or have been, in this part of the State.

There is a near-by county which is afflicted with one of these selfish Democratic sheriffs who not only flatly refused this year, we are informed, to let the Republicans know who had or had not paid their yoll tax, but he had to be hunted down, "treed," as it were, by Republicans who wished to pay their poll tax. The Republicans of that county, knowing that this information would be given to Democrats, were compelled, at great trouble and expense, to make a house to house canvass, of every township, like taking a census, to ascertain who the Republican delinquents were, and to urge them to pay before the first of May, provided, of course, they could locate the sheriff. When the sheriff was finally found and when a large number wished to pay, he refused to give them any receipt or sign receipts already filled out. The Republicans, thereupon, deposited their money in a common fund in a bank and gave checks for their yoll tax, that they might have some evidence that it was paid and some assurance that the proper credits were given.

In another Democratic county in this district, the sheriff was more polite, yet no less firm in his refusal to give Republicans information concerning delinquents. In sharp contrast with this treatment, was the courtesy extended to Democrats by a Republican sheriff, we have in mind, who made typewritten copies of all delinquents, which he gave to Republicans alike. It seems to us, therefore, that it comes with mighty poor grace for Democrats anywhere to criticize Republicans for withholding information about poll taxes.

News Over the State

Logan White, of Guilford county, convicted in August, 1909, the crime being larceny, and the sentence twelve months on the roads, was pardoned by Gov. Kitchin last week. The State prison management announces the sale of the remainder of the last year's crop of cotton amounting to 695 bales to Rogers & McCabe at 14 3/4 for the fun of the stock. A special road tax election for Youngsville township, Franklin county, was held last Wednesday and the special tax won out. The vote was: For tax, 105; against 45. The tax is 30 cents on the \$100, and will raise \$2,500 annually.

The interment was at Pinnacle. Rev. C. C. Haymore, of Mount Airy, conducting the funeral services. Pleading guilty to housebreaking, Fred Caldwell and Kid Danger, colored, were given five years each in the State prison by Judge Biggs, in Rowan Superior Court at Salisbury last week. Bill Evans and George Mathews, colored, tried for complicity in the crime, were given light terms on the county roads.

The county commissioners of Forsyth county last week awarded to R. L. Peters of Knoxville, Tenn., the contract to build four miles of macadam road on the Pfafftown highway, the price to be \$31,285. Misplaced Sympathy.

Charleston News and Courier.

It is a good thing sometimes for a person to be looked upon as a "tower of strength," to feel that there are others who rely upon him for advice and guidance. Such a condition increases his self-confidence and sharpens his desire to live up to the standards have unconsciously set for him; but, nevertheless, there are times when a knowledge of this reliance and of the wholesale sympathy which he is expected to dispense makes his existence almost unbearable. Does it ever occur to those who forever imagine that their load of trouble is too heavy to bear alone, and who consequently seek sympathy and counsel from some friend whose well of pity seems inexhaustible, that he to whom they turn may have sorrows of his own? Indeed, it is those who have experienced the deepest grief, and who have sounded distress to its heart's depths, who make the best confidants. The happy, joyous nature, while diffusing a radiance all its own and shining brighter for all the dark places around it, cannot be expected to understand conditions which it has never shared. Like the butterfly it flits through the sunny paths of life sipping only the sweets which lie in wait, and like the butterfly happy only in the present, for all too soon the lurking shadows begin to lengthen and that out the sunshine all around. Not until the butter-sweets of life touch our lips, and gradually we begin to learn something of their meaning, are we in position to thoroughly understand and sympathize with those who lay their burdens in our hands.

In the number of its mineral species North Carolina is said to exceed any other state in the Union.

At a late hour Monday evening of last week General Manager Walter A. Post, who was returning to Newport News in his yacht Marietta from Norfolk, picked up four young men who had been capsized in Hampton Roads and were clinging to the bottom of their sailboat.

That the United States will receive a million immigrants during the fiscal year ending June 30 is the prediction of the officials at Washington. During April 233,276 arrived, making a total of 801,225 thus far this year. The last million immigrant year was in 1907.

The big agricultural lime plant of the T. C. Andrew's Company was burned at Portsmouth, Va., last week, with a loss of \$75,000. The fire was caused by rain leaking in on the lime. The flames were confined to the origin, though extensive water front property was damaged.

Miss Mahala Durham, without doubt the oldest person in the piedmont section of South Carolina, died last week at Brushy Creek, 12 miles from Greenville. Miss Durham was born in 1805 and was therefore 105 years old. She was a member of a large family and has two sisters living, one at the age of 97 and the other 94.

Charles Callahan, 21 years old, has just arrived at Mexico, Mo., having walked all the way from Indianapolis, carrying a weight of 47 pounds. The distance between the cities is 800 miles, and Callahan made the trip in three weeks. Last year he walked the same route carrying a weight of 35 pounds.

The Oklahoma supreme court last week instructed the secretary of state to receive and file a petition signed by 59,000 names submitted by the Sons of Washington, a secret society, whose object is to restore licensed saloons and to initiate a movement looking to the enactment of an amendment to the state constitution providing for high license local option.

A Triumph of Common Sense.

London got all excited over the arrest of the lady who caused the arrest of a theater manager. The lady declined to remove an immense hat when courteously requested. The manager ejected her. The lady caused the manager's arrest on a charge of assault. The magistrate acquitted the manager, and complimented him on his action. And all London applauded—at least all male London.

London has no anti-hat law. It should have. It is selfish and ridiculous for one person to spoil the enjoyment of another, merely for the purpose of cheap ostentation. In Paris, where there is really an abundance of common sense, all feminine headgear is removed from sight well before the beginning of any theatrical performance. In Rome, on the other hand, where they do not do things nearly so well, it is considered barbarous to think of asking a lady to remove her hat or to do anything else. A row of women in a Rome theater will sit calmly and happily crowned with enormities that utterly and completely shut off the view of the stage, so that the unhappy one behind must sorrowfully resign themselves to an evening peeping and craning, an aftermath of sore necks. An American woman who goes to an Italian theater and takes off her hat is looked upon as outlandish and rather improper.

Financiering in Kansas.

Here is an incident that a Chanute man tells the Kansas City Journal as having occurred in a certain Kansas town. He was in the ticket office and watched the proceedings.

A man came up to the window and asked for a ticket to Kansas City, inquiring the price.

"Two twenty-five," said the agent.

The man dug down into a well worn pocketbook and fished out a bill. It was a bank note for \$2. It was also all the money he had.

"How soon does this train go?" he required.

"In 15 minutes," replied the agent.

The man hurried away. Soon he was back with three silver dollars with which he bought a ticket.

"Pardon my curiosity," said the ticket seller, "but how did you get that money? It isn't a loan, for I see you have disposed of the \$2 bill.

"That's all right," said the man. "No I didn't borrow. I went to pawn shop and soaked the bill for \$1.50. Then as I started back here I met an old acquaintance, to whom I sold the pawn ticket for \$1.50. I then had \$3 and he has the two dollar bill stands as security."

Three Fine United States Judges.

Wilmington Dispatch, 11th.

Judge James E. Boyd made his debut in Wilmington yesterday as a court presiding officer. Unquestionably he is a fine presiding officer. He is a constant, vigorous worker and he knows how to accomplish a large amount of work in a short period of time. He is also decidedly reasonable, conservative and direct-from-the-shoulder in handling matters. He has the reputation of being an able lawyer, which can only serve the ends of justice well when knotty, serious problems at law arise. Truly, in Judge Jeter C. Pritchard, of the Circuit Court, and in Judges Henry G. Connor and James E. Boyd, of the District Courts, North Carolina is blessed with three able justs for the United States tribunals.

Prof. Sargent on Dignity.

Washington Star.

Professor Dudley A. Sargent, physical director of Harvard, said recently that the female figure was improving more notably than the male—and no wonder, since woman took healthy exercise, while man slaved in an office. "To look at some of our men," said Professor Sargent, "you would believe that sentiments like Blank's were universal.

"Blank, a very fat millionaire, was arranging to have his portrait painted. The length—three-quarters—was settled, and then the painter said: "And shall the view be profile or fullface, Mr. Blank?" "Profile, by all means," was the reply. "The curve of the stomach gives a dignity to the figure."

Do farmers eat the proper sort of food?

The farmer of today buys a much larger proportion of the food that goes on the table than he did ten years ago. It's a good thing that this is so because he has a great variety to select from. He should, however, use great care in selecting for the best results in health and strength.

The widespread tendency in the city to increase the amount of Quaker Oats eaten is due very largely to the recent demonstrations by scientific men that the Quaker Oats fed man is the man with greatest physical endurance and greatest mental vigor.

Farmers should give this subject careful thought and should increase the quantity of Quaker Oats eaten by themselves, their children and the farm hands.

Moving Pictures in the Church.

Jane Addams says that on a Sunday night in Chicago one sixth of the entire population is packed into four hundred and sixty places of entertainment. Says WOMAN'S HOME COMPANION for May, "Churches? No—moving-picture shows! The churches on Sunday night in Chicago, and, we fear, in many other places, are not conspicuously crowded. The is this: If the Chicago churches had presented an up-to-date moving-picture show, instead of a sermon, would the crowd have followed the films? Inasmuch as the church admission is free and the theater admission is from five to twenty-five cents, it is a fair assumption that the churches would have been filled. Now, if the object of the Sunday-night service is primarily to reach the crowd on the street, and if, as has been shown, the moving picture is a much more vivid and attractive way of reaching that crowd than is a sermon, why, in all seriousness, don't churches give us the thrilling stories of the Old Testament, its beautiful tales of the New Testament and its modern illustrations of Christian heroism in this and other lands, in the up-to-date form—in moving pictures? They may answer that they cannot get hold of the films and the machine, but this answer is not a good answer. Excellent sacred pictures are shown in the present professional entertainments, and many illustrations of modern heroism, self-sacrifice and virtue are in every program. Moreover, a demand for films for church use would enlarge the supply. Moving-picture machines are not expensive and can be easily operated. You can do it in your church. Why don't you?"

The contract for the erection of the new building for the Imperial Tobacco company on the lot recently purchased by this company, fronting on Main and Church streets, Winston, has been awarded to I. G. Lawrence, of Durham, and the contract calls for the completion of the building not later than October 1, 1910. The approximate cost of the new building will be \$45,000.

Gen. Johnston's Surrender.

Statesville Landmark. When one speaks of the surrender, the Appomattox incident of April 9th, 1865, is recalled. But there was a surrender a little later, on North Carolina soil, of which the younger generation has heard little. Major H. A. London, editor of the Chatham Record a Confederate soldier and well posted on all matters pertaining to Confederate history, mentions that April 26 was the forty-fifth anniversary of the surrender of the Confederate army commanded by Gen. Joseph E. Johnston, to the Union army commanded by Gen. W. T. Sherman. This surrender, says the record, occurred, that is the two generals met, at the Bennett house, about four miles from Durham, on the public road leading to Hillsboro and in sight of the railroad. Nearly all of Gen. Johnston's army was at and near Greensboro and Gen. Sherman's army was at various points between Raleigh and Durham.

Every Day Mother's Day

Miss Anna Jarvis, who is connected with the Mother's Day movement, recently wrote Governor Wilson of Kentucky asking him to set apart such a day in that state. The governor wrote back that in his opinion every day was Mother's day with right thinking men and women, and those who are not right thinking will not be affected by the observance of such a day, and he declined to set apart a day to be so observed. He declared in his letter that he had not found any general demand in Kentucky for the adoption of the day.
