To the Republican Voters of North Carolina.

Pursuant to a resolution passed by the Republican State Executive Committee, at a meeting held in the city of Greensboro, N. C., on the 27th day of May, 1910, a State Convention of the Republican party of North Carolina is hereby called to meet in the city of Greensboro, N. C., at twelve o'clock noon, on Wednesday, the tenth day of August, A. D., 1910.

This Convention is called for the purpose of nominating a Chief Justice and two Associate Justices of the Supreme Court of North Carolina, to ratify the nomination of Superior Court Judges in the various districts where candidates for judge are to be nominated this year, to nominate two Corporation Commissioners, also to elect a Chairman of the Republican State Executive Committee and one Committeeman from each Congressional District, the last named to be designated by the district delegation when assembled at the State Convention, and to transact such other business as may come before the convention.

The plan of organization requires that delegates and alternates to the State Convention shall be elected by duly constituted county conventions, called on at least fifteen days notice of the time and place of such conventions. Representation in county conventions shall consist of one delegate and one alternate for every twenty-five Republican votes, or fractional part thereof, cast in the precinct for the Republican candidate for Governor at the previous election, and in all other conventions one delegate and one alternate are apportioned to every one hundred votes, or fractional part thereof, cast at election for Republican candidate for Governor. Provided, however, that each county shall be entitled to at least two votes in State, Congressional Judicial conventions.

The county chairmen, as well as the precinct chairmen are earnestly urged to use all diligence in seeing that their respective counties and precincts are well and fully represented in the conventions, as well as to give their conventions when called the widest publicity. Let us urge upon you that the conventions in each county and township shall be conducted in such manner as to have full representation in the respective conventions, and let every voter feel that he has a voice in the affairs of the county.

SPENCER B. ADAMS,
Chm. Repub. State Ex. Com.
T. J. HARKINS,
Secretary.

May 20, 1910.

We Were a Little Hasty.

It appears that we were a little hasty last week in announcing that Burlington got left by failing to secure an appropriation for a public building site. Through the efforts of Senators Overman and Simmons an amendment was tacked onto the public building bill in the Senate, appropriating \$10,000.00, ten thousand dollars for a building site at Burlington. While the appropriation is small and hardly adequate for the purpose, yet we are thankful to get this much, which is a nucleus for a larger appropriation for a building later on. While Burlington is provided for, yet the next Congress will have to appropriate the money and no site can be bought until this is done.

We had hoped that Burlington would be provided with both site and building in the general bill, but from some cause, which we are not able to explain, this was not done. The credit for the appropriation rightfully belongs to Senators Overman and Simmons, and Representative Thomas of North Carolina. Senator Overman was upon the conference committee upon the part of the Senate, and Representative Thomas upon the part of the House, and through their efforts the amendment was retained in the bill. Post Master Waller made two or three special trips to Washington in the interest of the bill. We care not who gets the credit, what we want is the building, having made a start, we will bide our time for the remainder.

Death of a Baby.

The friends of Col. and Mrs. Eugene Holt deeply sympathize with them in the loss of their one year old daughter. The little one had been critically ill for several days and last week it was carried to Wrightsville Beach, near Wilmington, in the hope of benefiting its health but the disease, cholera infantum had gained such headway that the hands of skilled physicians and tender nursing could not stay the hand of death. It passed away Friday evening. The remains were brought home for burial, arriving here on the 6:30 train Saturday afternoon. The funeral was conducted from St. Athanasius Episcopal church Sunday afternoon at 2 o'clock by Rev. E. L. Ogilby, after which the remains were buried in the cemetery near the church. The DISPATCH joins the many friends of the family in extending heartfelt sympathy in this sad hour of bereavement.

Childrens Exercises at Reformed.
Sunday night beginning at eight o'clock the Childrens Day exercises of the Reformed Church which consisted of songs recitations and pantomines was rendered to a house packed full of people. The children all did well and showed no lack of training on the part of Misses Bertha Hoffman and Daphna Fowler, who had the exercise in charge. The arch around the pulpit was completely covered with daisies and roses which made the service all the more impressive. At the close of the exercise Rev. Andrew made a few encouraging remarks on Sunday School work.

Bank Moved into New Home.

The First National Bank moved the past week into its handsome new building on the corner of Main and Front. This building is one of the nicest in town and the bank should be congratulated upon this building also the beautiful fixtures inside which are equal to any in the state. This gives our town three banks in building and supplied with equipments that many towns of 20,000 population would be proud of.

Got a Job He Doesn't Want.

Charles W. Freeman, a young traveling salesman, of Alton, Ill., is in a tight place as a result of having applied for a mail route in the Yellowstone Park. While out west a year ago, Freeman made application to the postoffice department for the position. Since that time has taken a lucrative traveling position. Last week word came to him that he had been awarded the mail route and that he was to begin work July 1. Freeman wired he could not accept and the officials replied back that he would have to do it or forfeit a bond of \$5,000 and spend 12 months in jail. He has appealed to Congressman Rodenburg, of his district, to try and get relief for him. In the meantime he will have to resign his position and start west to pack mail over a lonely route in the Yellowstone.

REPORTS SHOW REAL FACTS

The latest interstate-commerce commission reports show that during the month of March eleven systems, representing every railroad, north and west on a line drawn through Chicago and St. Louis, show an increase in gross earnings for the month of March, of nearly \$7,000,000 compared with March, 1909, while the net earnings for the same roads in the same period show a decrease of \$965,000; and the interstate-commerce commission figures for the ten months, July to March 31, in 1910, as compared with 1909, show an increase in gross of over \$50,000,000, while the net earnings of these same systems in the same period of comparison, show a falling off of over \$3,500,000. And as comparatively little of the increases in wages had even gone into effect during March, the railroads must provide some means to increase a revenue that is already decreasing on an increased amount of business, and there is no way for railroads to provide this except by increasing their rates and surely these is "reason for the need of it."

Met at Salisbury.

Jno. R. Hoffman, Sec. and Tr., of the Burlington Merchants Association and Treasurer of the N. C. Retail Association returned Friday from Salisbury where he attended the eighth annual convention of the Association. The State organization is composed of 90 local organizations more than two-third of this number being represented Mr. Hoffman reports the meeting a great success and makes special mention of the kind and hospitable treatment by the Salisbury people. Speeches were delivered by such men as E. J. Justice of Greensboro Ex. Speaker of the house, and Mr. Johnson, Editor of the Merchants Journal. The next annual meeting will be held at Henderson.

Killed by Electricity.

Chas. Beasley a lineman for the Southern Power Company was killed last Wednesday morning while working on the company's line about five miles from Greenville S. C. In some way he got mixed up in the wires and fell about sixty feet. His body was badly burned, his right arm being torn from the socket and his left shoe being torn from his foot by the voltage. Mr. Beasley was raised near Altamahaw his mother living at present at Carolina. He was buried at Bethlehem Thursday. He was married at Greensboro last fall to Miss Lizzie Hackney, who was visiting relatives at Kinston when the news was received of the tragic and distressing occurrence.

Home Agriculture.

The greatest drawback to the agriculture in this State now is the scarcity of farm labor. Many farmers have been compelled to greatly reduce their farming operations on this account. North Carolina does not grow enough wheat, hay, hogs, and dairy products for home consumption. One-half of the farmers want more labor—that is to say fifty thousand farmers want labor. Many farmers this year, so far, have suffered heavy loss and inconvenience for the want of labor to harvest and store their crops at the proper time. As is the result, usually, during harvest times each year the crops are visited by frequent rains.

Watson No. 1.

Mr. and Mrs. Henry Horne was pleasant visitors at W. G. Warren last Sunday and Mr. and Mrs. Henry Ward spent the afternoon last Sunday there too. Robert Warren is late at his work some mornings but we all think that the cause of it is by sitting up at night and rocking his son Clyde. Mrs. W. G. Warren spent several days last week with her son Robert Warren.

Amus Ward called on Miss Lillian Warren last Saturday night. We had a very hard storm last Friday afternoon which did right smart of damage.

OUR RALEIGH LETTER.

Special to the Dispatch.
Raleigh June 25th.—The result of the Democratic fight in Wake County waged in the primary Saturday resulted in a victory for the so-called Anti-Ring ticket, which was backed by Editor Josephus Daniels of the News and Observer and J. W. Bailey. The "Ring" or present officers carried the City of Raleigh by handsome majorities, receiving some 350 to over 500. But in the county precincts the new crowd developed unsuspected strength and over came all of those majorities for the vote was very close. A total of 5,000 votes was cast and the only one of the present officers in the county who was re-nominated, was Sheriff J. H. Sears his majority being about 25. Clerk of the Court Russ was defeated for renomination by eleven votes. There are about 9,000 qualified voters in Wake County. Hence, notwithstanding the hot fight, not more than half of the voters of the county seemed to participate in the primary Saturday. Of the 5,000 who voted in these primaries no questions were asked of some non residents, men who had not been in the county or precinct sufficient length of time, and many who had not paid their poll taxes took part. At Harris' Store, House's Creek Township, several negroes voted in the Democratic primary. This may have happened in some of the other precincts. It is significant that Judge Manning, for Associate Justice of the Supreme Court, carried the County by about 500. It is no secret in Raleigh that Governor Kitchin was friendly towards the "Ring," or present officers and they were anxious to pile up a good majority for his appointee as an expression of appreciation for his efforts and because the News & Observer had been hostile to him. This accounts for the victory of Judge Manning over Judge Allen, for both of these Justices are well known in Wake County. There are already plans on foot for the nomination of a strong opposition ticket and it is confidently predicted by many Democrats that the Republicans stand a splendid chance to carry Wake County in November.

A Comparison.

The farming industry of North Carolina is more than fifty years behind that of the Manufacturing. It seems that every one has turned their time and attention to Cotton Mills, Hosiery Mills, Trousers Factories, Overall Factories, Tobacco Factories, Cigarette Factories, etc., etc., instead of farming. Our labor is constantly leaving the farm and going to these factories, which reduces the farm product and increases the consumption—and then cry—high prices. You never turn to look back at that vacant farm that you left behind. You go around talking politics, high tariff, Democratic party and Republican party, as though what you eat to sustain life, grow in any of these parties. You must increase your farming product as you do your population—keep each on an equal and then you will keep the prices of what you consume on a level. Increase the product and then you will decrease the demand and by so doing will bring the prices of everything on a level footing.

German Millet.

What is German Millet? It is one of the finest of feed for horses cattle. It is an easy crop to make. You can mow from this millet field from four to five crops per year and at less expense than any other crop you can plant. It is a strong food and acts as forage and grain when mowed while in bloom. Much interest could be said of this crop, but as it takes so little to grow it, it is of but little or no use. You try one acre—prepare your land well, so early in spring, cut often and see the results.

Races will start at 1:30. Five entries in free for all. Four entries in 3 year-old race. Five entries in 2:40 class.

JULY FOURTH BIG DAY AT MEBANE

Mr. Editor:
Mebane, N. C., June 25—There will be a grand day of it in Mebane July 4th. The Tournament and the Coronation Ball, under the management of Mr. F. W. Graves and plenty of Marshalls, will be on a very large scale. There will be 20 or 25 riders and the Dance or Coronation Ball, will be in the large tobacco warehouse, which has plenty of room for 200 couples.

Mr. Felix Graves, as Knight of India and Chief Marshall, will deliver the goods in great shape. The music, which will be of the finest, will arrive early July 4th. Mebane Lodge No. 301 I. C. O. F. will have a public Installation of Officers by Hon. W. H. Coverton, of Durham, and Hon. C. E. McMichael, of Wentworth. Other lodges will be on hand to aid in the good work.

Hon. C. E. McMichael will deliver the 4th of July Oration, which insures a speech of very high order, as Mr. McMichael is one of the finest speakers in North Carolina. The Base Ball game, Cedar Grove vs Mebane, will be a big drawing card and will be a very hot game as these teams played a week ago a 12 inning game, score 3 to 3, game called on account of darkness.

The Baby Show and many other drawing cards, such as the candidates, who have promised to be on hand to be judges at the Baby Show, insures a record breaking crowd.

Clapp, of High Point Graded-school have consented to address us. These are talented young men and delightful speakers. We also expect Rev. P. H. Fleming, county Supt. of Public Schools, and other speakers of note that we have not yet heard from to take part in the exercises of the day. All who are interested in education cannot fail to attend this educational picnic.

Workingman More Prosperous.

The times are becoming better for the rank and file of American citizens. Wages are not falling; in fact, they are in the ascendency, taking the nation as a whole. In money, the average wages paid the workmen of America were never higher than they are today. But just as important, and perhaps more so, is the fact that wages will buy more now than they would only a short time ago. Market prices are sliding downward, and with the influx of fresh vegetables, incidental to the season, they will continue to ebb to the satisfaction of buyers of produce. For many months to come the workingman will not have to buy expensive fuel nor over-burden himself with clothing and neither will he have to be a liberal patron of the butcher. In all, it looks like a highly prosperous summer for the workingman. This may lead to further advantages for those who are employed as the wave of prosperity continues to come in.

On the evening of June 11th, twenty-six young people met at the home of Miss Grettie Stuart and about dark they formed a line and marched over to the home of Miss Cleo Thompson to give her a surprise birthday party. And it was a surprise to her but we think an agreeable one. The evening was spent very pleasantly and about ten o'clock the crowd dispersed leaving their gifts and wishing her many more happy birthdays.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CUNNEY & Co., Toledo, O. Sold by Druggists, 75. Take Hall's Family Pills for constipation.

Roy Moore, a white boy, was struck in the eye by a missile from a bean-shooter, while on Fayetteville Street Tuesday afternoon. He is suffering much pain from the accident. The police say that in future all possessors of bean-shooters will be hauled before the court.

A wind and hail storm did much damage to fruit and growing crops in Wake County Monday afternoon. So far as the reporter has learned the worst damage was done around Wyatt, and also in the southern part of the county, twelve or fifteen miles south of Raleigh. Fruit was beaten off the trees by the hail and wind, and in many places the corn and cotton were beaten to the ground. Luckily, the storm did not cover a very large area.

Monday Dr. Buchanan, superintendent of health, went far down the river to inspect the camps along the Southbound because of reports which had reached the state board of health that there was smallpox there. He found none, but did find another case at Miller's camp near Cotton Grove, the same camp near Cotton Grove, the same camp where he found a case some weeks since.

Cicero Young, of Conrad Hill, reports a startling little incident he observed Saturday while cutting his wheat. His dogs were running a rabbit in the wheat, and as they bounded up and over the top of the grain, as dogs do when chasing a cottontail in such cover, one of them bounded up and came down on his head on a stump; and never wiggled thereafter. He "killed himself dead."

Union Republican
During a severe electric storm in this city, Sunday evening lightning struck a chimney ran down into a house and struck William Graham, colored on the spot, tearing his shoe to pieces, but strange to say he was not hurt beyond a slight shock and a fearful scare. The Supreme Court.
Charleston News and Courier.
The Supreme Court of the United States is again getting behind with its cases. In 1890, when the Circuit Court of Appeals was created there were 1,800 cases on the docket. Since that time about 422 cases on average have been decided each year. Two of the seats on the Supreme Bench have been vacant during the last year, however, one, that of Justice Moody, for the entire year, and the other, owing to the death of two of the justices, for a part of the time. The result has been that only 391 cases have been disposed of at the term which has just ended and there are on the docket today 586 cases, or 108 more than were there a year ago. Some of these cases are of great importance, not to individual litigants alone, but to the business interests of the country generally, and the delay in passing upon them has been a matter of regret.

Some of the members of the Supreme Court are now advanced in years. It is not to be expected that they should turn out as much work as younger men would be able to do. There are plenty of able and upright lawyers in the country. It ought to be a comparatively easy matter to keep all the seats on the Supreme Bench occupied, and that by men of vigorous health and judicial attainments. To this end provision has been made for the retirement on full pay of justices who have reached an age at which most men are no longer capable of sustaining for long periods the heavier burdens of life.

Why does Great Britain buy its oatmeal of us?
Certainly it seems like carrying coals to Newcastle to speak of exporting oatmeal to Scotland and yet, every year the Quaker Oats Company sends hundreds of thousands of cases of Quaker Oats to Great Britain and Europe.

The reason is simple; while the English and Scotch have for centuries eaten oatmeal in quantities and with a regularity that has made them the most rugged physically, and active mentally of all people, the American has been eating oatmeal and trying all the time to improve the methods of manufacture so that he might get that desirable foreign trade.

How well he has succeeded would be seen at a glance at the export reports on Quaker Oats. This brand is without a rival; is packed in regular packages, and in hermetically sealed tins for hot climates.

John and the Farmer.
John:--Farmer I am going to try a new plan this year on my farm. I am going to sow grass, German Clover, Alfalfa, Vetch and Cow Peas. I am going to gather one crop from all this sowing then later in the season I am going to turn it all under the soil for manure. My land is getting so poor that I can hardly grow corn any more. It seems to be turned and lost all vitality.

Farmer:--John, that will be a lot of trouble and take so much your time. I am going to have some fun myself; going to town, on the excursion, hunt some, and various other amusements, and in the spring I will take all my teams to town and get fertilizers and plant my crop, and if the Lord, land and fertilizer don't make me anything--let it go. That's the way we farm in my section.

Wednesday, June 29, 1910.

Now that we have it, no one cares for the history. Let them who can claim the credit.

Perhaps those people in Charlotte were just getting themselves in trim for the big fight to be pulled off there July 6th.

We presume the fight between the Recorder of Charlotte and the Chief of Police of the city, was the result of "pernicious activity" in politics.

Some people delight in eating crow without making a wry face. This will have to be done by the Democracy in Wake county, or the result can be easily guessed.

Ten thousand plunks is a small sum, yet it ought to buy a small farm in a country town. But and is high in the city of Love and flowers. Verily we must be a city.

The friends of Senators Overman and Simmons say they did it, and the friends of Congressman Morehead say that he did it. But it was done, and we don't care who did it.

The indications are that Associate Justice Manning of the Supreme court was defeated in the primaries last Saturday. Is it possible that Governor Kitchin is losing his hold upon the people?

About all the consolation the old Democratic ring in Wake county can get out of their defeat is the fact that they carried the home towns of the newspapers that fought for the anti ring ticket.

The indications are that the fight to be pulled off at Reno, Nev., on July the 4th, will be a tame affair compared to the one to be pulled off in Charlotte two days later. The Democratic State Convention.

Josephus Daniels does not appear to be crowing much over his victory in Wake county. He realizes now that his candidates have got to be elected, and that cannot be done without votes. Will they be forth-coming? We will see.

The 'Caucasian, published at Raleigh, one of the brightest Republican weeklies in the State, has put on a new dress. It has been greatly enlarged and otherwise improved. It stands at top of the column among the best weeklies in North Carolina.

We promised to give a full history of the efforts to secure an appropriation for a public building at Burlington in this issue, but in as much as we did secure a small appropriation for the site, we will refrain from burdening our readers with ancient history. Let every one get busy now and start the ball rolling for a seventy-five thousand dollar appropriation at the hands of the next Congress. We are entitled to it and should have it.

Roosevelts Great Popularity.

No man was ever accorded such a welcome and greeting as was tendered Col Theodore Roosevelt in New York; the second largest city in the world, on the 18th day of June, on his return from a trip to Africa and other foreign lands, to his native state and country. New York city's physical capacity was taxed to its utmost to furnish space for the many military and civic organizations that paraded the streets and kept step to music rendered almost every conceivable kind of band, while vast crowds of people pressed against each other and made the welkin ring with their cheers.

It has been said of General Grant that he had seen in the course of his life more men than any mortal man known in history. As commander of the army of the United States in the time of the Civil War he had seen millions of men, during his two terms as President he had seen many millions more to say nothing of those he saw while on his trip around the world. Grant at one period in his life also enjoyed the distinction of being one of the most notable characters in history. Besides the distinction of being hero of one of the greatest wars which history records, he was twice at the head of one of the greatest countries in the world. Though not a conquering hero

as was Grant, Roosevelt has the distinction of having caused the termination of the war between Russia and Japan, and like Grant has been twice at the head of the greatest government in the world. It is beyond any human ken to know the mind of Theodore Roosevelt, whether or not he has political aspirations beyond seeing the reforms and policies inaugurated by himself for the betterment of the American people carried out. However it should be plain to the most obtuse mind that if Mr. Roosevelt would only consent to be the candidate of his party in 1912, he would not only secure the nomination, but would be triumphantly elected President again. It may be, and it is the opinion of many wise ones that Col. Roosevelt does not care to accept the presidential chair the third term, and will throw all his influence towards nominating and electing President Taft to a second term. The Richmond, (Va.) News-Leader, commenting editorially on Col. Roosevelt's great popularity remarks:

"King Edward was doubtless the most beloved man in the world at the time of his death. Ex-President Roosevelt, judging from his reception in New York and his trip through Europe, is the most popular man alive in the world today. If this popularity continues, future historians may determine if they can the real basis upon which it is founded. But

they must admit that while it lasted Mr. Roosevelt's hold on the democracy of the world was real, spontaneous and undeniable."

The News-Leader concludes its article in these words:

We have gifts differing in this world, and those men who are both able to incite the populace and then constructively use the forces they have set free are rare. Caesar was such an one, but even the great Napoleon rode on the storm that others had aroused. There is work enough to do in this country to solve the problems that lie before us, and Mr. Roosevelt has been singularly fortunate in the gifts he showed for pointing out these problems. Will he have the power or the opportunity to help in solving them for us? That is the question. If he does not, then June 18, 1910, will be the high water mark of his career."

Another Mikado Song.

The continuing success of the revival of the opera "Mikado" at the Casino Theatre, Broadway, N. Y., has led the New York World to publish another Mikado song. This time it will be "The Moon and I," one of the sweetest songs in the opera which has lived for over twenty years. The words and music of this song, arranged for popular use, will be given free with next Sunday's New York World. Copies of Sunday World can be secure by applying at the DISPATCH Office.

Jno. R. Foster Pres. of the Merchants Association spent couple days last week in Salisbury attending the annual meeting of the Retail Mer. Association

The regular annual meeting of the Pleasant Hill Temperance Society will be held at Pleasant Hill church, in the southern part of the county, on the fourth day of July at 10 o'clock a. m. The meeting will be addressed by Hon. F. R. McNinch of Charlotte and others and every body cordially invited to attend.

The F. R. Peen Tobacco Company, Reidsville, at last gets the additional siding facilities that have been the bone of contention in litigation that has been pending for quite a while with the tobacco company, the Southern Railway and a number of property owners as the litigants. Now the corporation commission makes an order for the siding to be provided by the Southern within sixty days.

M. C. Lookabill, of Thomasville, was the victim of a awful accident last Tuesday evening at 7:30 o'clock on the Southern Railway yards at Pomona. Governor Kitchin heard last Wednesday afternoon special pleas by Col. J. C. L. Harris and Walter Clark, jr., for the pardon of H. B. WASHINGTON LETTER.

From our Regular Correspondent. Crowded out last week.

Washington June 18th.—Another Republican pledge was redeemed by the passage of the Postal Savings Bank bill. Thus three great measures will be enacted into law, to say nothing of various other important acts, during the first two sessions of the 61st Congress; a complete revision of the tariff; a most comprehensive railroad law, and the establishment of Postal Savings Banks; and the end is not yet, for much legislation is in progress some of which is bound to be completed.

The fact of the matter is the Administration of President Taft within but a few months over a year, has seen more important legislation than any preceding similar period. The President should have full credit for his part in the splendid result, and Republican leaders in Congress should also receive their share of credit.

The recent results in Iowa and Wisconsin show that the misrepresentations of certain disgruntled newspapers have not influenced the people to any appreciable degree. Both Iowa and Wisconsin gave the President a special endorsement, and the so-called progressive or insurgent movement in both States received a death blow. La Follette & Co. can no longer be Republicans before election day and anti-Republicans after election.

But Mr. Taft has grown in popular esteem all over the country, for the people appreciate more and more every day that he is working for the best interests of all. He does not propose to injure any business, but he does propose to see that every one obeys the law, or if the law is unjust that it shall be changed. That is the kind of President the people want and the kind of President possess.

He is undoubtedly strengthening the party, just as in return the party is strengthening him. And we no longer have the claim that the next House of Representatives is sure to be Democratic. It has been said in these letters repeatedly that as soon as the people learned the truth about the party and the President there would be no fear of Democratic success.

On the contrary, everything now points to a splendid Republican victory throughout the country next November. With a deficit melting away. With falling prices. With increased earnings and with a general satisfaction over the work of Congress and a most successful Administration there is no issue for the Democrats to raise with any hope of success.

On the other hand, the Republicans will go before the country with three distinct issues—the successful operation of the tariff law, the legislation of the present session and the splendid Administration of President Taft. Each of these issues will win the support of every loyal Republican from Theodore Roosevelt down to the humblest citizen and that will spell success on the 8th of next November.

The Republican Congressional Committee is awake to the situation and is preparing to lay the truth before the people in speeches, both printed and spoken. All requests for speeches are promptly granted, and already several million copies of various pamphlets have been distributed. And the effect is already apparent in the hundreds of letters received by the Committee praising its methods and line of work. It seems a stupendous task to undertake and run down the misrepresentation that has gone forth, but the people are fast learning the truth about legislation in general, and about the President. And these facts are vote getters.

Then, too, the splendid work being done by the National Republican League under the direction of John Hays Hammond is having a wonderful effect throughout the country, the young men especially rallying to the Republican Standard. Look out for the great convention and dinner speeches to be made in New York on the 24th and 25th. They will be well worth reading by all. The campaign of 1910 is on and from now till the 8th of November every Republican should exert his best effort in spreading the truth.

Champ Clark wants Speaker Cannon's chair so they say, but as Champ has been wanting it for a number of years it wont hurt him so bad when he is disappointed.

Knox Scores a Triumph.

Omaha Bee. The type is hardly cold on an editorial in a fault-finding paper criticizing and Secretary Knox's policy in Nicaragua and concluding that it "has doubtless weakened American prestige in the Central and South American republics," when the report comes that the Secretary of State's offer of mediation between Peru and Ecuador has been accepted by both countries and that they have agreed to attend their preparations for war which have been in progress for months.

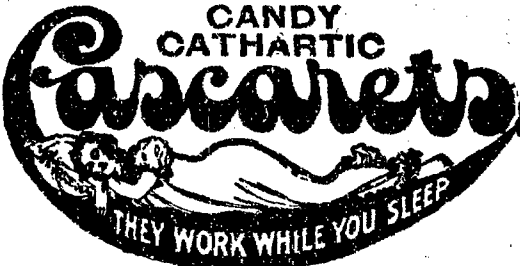

Whatever may have been the effect of Secretary Knox's conduct of the Yelaya case, it certainly has not weakened the prestige of the United States in that part of the world, but, if anything has increased that prestige if the Peru-Ecuador situation is to be taken as a criterion. The acceptance by these two countries of the Knox terms of peace is a triumph for the State Department. The South American temper may be ever so quick on the trigger but the fact remains that animosities of long standing existed between these states and their amicable adjustment has been despaired of up to the time of the Knox proposal, and even then other diplomats appeared to give no great credence to the hope of averting hostilities.

Lawlessness of Railroads.

New York World.

Did the railroads think they were the legislative power of the U. S. government and could repeal the Sherman Anti-trust Law by "a gentleman's agreement?" Evidently they did, but Mr. Taft has taught them their mistake.

Whether these proposed increases in rates were reasonable or unreasonable. Mr. Taft could not ignore the insolent challenge of this combination of carriers. It was not a question of whether rates should be raised, but of whether the roads should be allowed to conspire in defiance of the law. Mr. Taft promptly took steps to enforce the Sherman Act, and had he failed to do so he would have been false to his oath of office. He has no more right to suspend the Sherman Law than the railroads have to violate it.

When railroad managers predict disaster as a result of the administration's course, they should remember that they have only their own arrogant folly to blame for these injunctive proceedings.

Their impudence was the more audacious because the President has been endeavoring to obtain legislation that would permit rate agreements subject to the approval of the Interstate Commerce Commission. That is one of the objects that Mr. Taft hopes to see accomplished by the Railroad Rate Bill now before Congress. But the railroads refused to wait for legislation. They took the matter into their own hands, regardless of the national government; made their own agreement as to rates, wiped out the Sherman Law and set themselves up as a higher power than the United States.

As to Race Suicide.

Minneapolis Journal.

Henry James does not agree with Colonel Roosevelt on the question of large families. Small families, such as prevail in France indicate, to Mr. James' mind, intelligence and progress, while large families indicate the reverse.

"Large families are so embarrassing, too," said Mr. James, on his last American visit. "I once knew a man named Thompson who had 14 children. Thompson agreed, one spring holiday, to take his children to the seashore for the week-end.

"They set off, reached the station, got their tickets and were about to board the train when Thompson was roughly collared by a policeman.

"'Here, wot 'a' you bin a-doin' of' the policeman growled fiercely.

"'Me? Nothing. Why,' stammered Thompson.

"'The policeman waved his tunccheon toward the Thompson family.

"'Then wot the bloody blazes,' he hissed, 'is this here crowd a-follerin' ye fur?'"

Good Roads Without Money.

Roanoke, Va. June 18.—Farmers all over the country are learning now that great expenditures are not necessary in order to have good roads. That everyone may have the benefit of this knowledge President L. E. Johnson, of the Norfolk & Western Railway, is distributing 10,000 books, "Good Roads Without Money," by Ward King. These books will be given to anyone applying to F. H. LaBaume, Agricultural and Industrial Agent, of the Norfolk & Western Railway, or to any station agent along the line. In addition to this the King Split Log Road Drag will be loaned to any six farmers applying for the use of them.

The drag will be shipped free of expense to any station and can be used as a pattern or put on the road. The method of using is for each man to drive the drag over the road to his neighbor's house, he in turn to work with it to the next house and etc.

These books of instruction on good roads are valuable to every farmer and are absolutely free of cost.

The Use of a Silo.

The use of a "silo" on a farm is a great labor-saver and keeps the food in fine condition all winter. You can, by making up your forage into insilage, save all your growing crop, such as green corn, (large and small) hap, pea vines, rag weeds, clover, etc. This crop if gathered while in a green state, cut up fine with a machine and packed into a silo. This forage is gathered while all the substance is in it, which makes it much more nutritious and can be fed all winter without the aid of grain or other food. It is especially adapted for cattle, and is a fine milk and butter producer. Try it. You will save money by the use of a "silo."

What He Was.

There is a man living in Waterbury, Conn. who is the head of a large family nearly every member of which are performers on some kind of musical instrument.

A Bostonian, who was visiting the house of the Waterbury man, referred to this fact remarking that it must be a source of great pleasure to the family, but to this observation the father made no reply.

"Really," continued the Bostonian, it is remarkable. Your younger son is a cornetist, both your daughters are pianists, your wife is a violinist, and I understand, the others are all musicians now what are you, the father of such a musical combination?"

"I," replied the old man, sarcastically, "I am a pessimist."

A Guilty Conscience.

Washington Star.

"What view is rather unscientific," said at a dinner party in New York Dr. Simon Flexner, the head of the Rockefeller institute.

"That reminds me," continued Dr. Flexner, "of Hopkinson, who was wont to observe Lent very vigorously.

"But on a certain fast day, after three hours of golf, Hopkinson couldn't resist a luncheon of chops. And as he munched his chops a violent storm came up suddenly, a blue light filled the room and then a terrific clap of thunder shook the building.

"Hopkinson, pale and shaky, laid down his knife and fork.

"'What a fuss,'" he muttered, over a mutton chop."

Business Conditions.

"The only unfavorable element in the situation is the unfavorable attitude of federal lawmakers and state officials towards the railways and the spirit which would prevent the companies from moderately advancing their charges to offset the increased cost of operation. When the manufacturer is obliged to pay higher prices for raw material and increased wages he does the only possible thing in the circumstances and correspondingly raises the charge for his product. The railways are obliged to pay increased prices for supplies and higher wages, and it is only reasonable that they should get more for what they sell, namely, transportation.

"That they are impelled to raise their charges is plain from current traffic returns showing increased gross takings, while costs of operation have increased in still greater ratio, with resulting decrease in net earnings. Unless the greatest of all industries is permitted to prosper the country cannot be prosperous."

This extract from a New York paper is meeting with general approval in business circles everywhere.

It is well understood among naval men that the speed of a vessel is affected by the depth of the water, not merely in shoal places, but even in the deeper water-ways.

Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

WM. J. LOUGHRAN,
1214 Catherine St.,
Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

Restorative Nervine soothes the irritated nerves, and assists the nerve cells to generate nerve force.

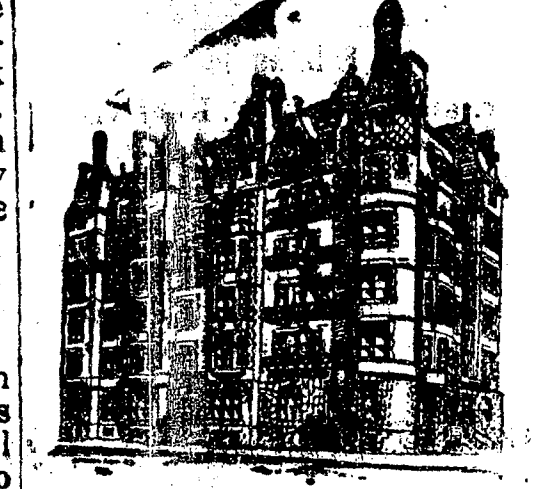

Dr. Miles' Nervine is sold by all drug stores. If the first bottle fails to benefit, your druggist will return your money.
