"Up and Down Broadway" Music.

William Jerome and Jean Schwartz have written a clever song for the new musical comedy "Up and Down Broadway," which is making such a hit at Shubert's Casino. The title of this rollicking frolicking song is "My Operator Samson." Every reader of the New York Sunday World will find this song free next Sunday. Words and music complete.

Copies of Sunday World can be secured by applying at the DISPATCH OFFICE.

The Rural Carriers Picnic.

A rural carriers picnic composed of the carriers and patrons of routes No. 1, Union Ridge, Watson and Corbett, was held at Baynes store Saturday August 27th. There was a large gathering present notwithstanding the threatening condition of the weather and the busy time with the tobacco farmers in that immediate section. There were speeches by Postmaster Waller and Hon. John R. Hoffman of Burlington, the speakers were introduced by that popular warehouseman, W. L. Thornburg, and every thing passed off pleasantly. Dinner was served about 1 p. m. the table being filled to overflowing with the choicest of eatables. The reputation of Mr. J. Zeb. Waller as a lover of corn on the cob had preceded him, and several ladies had a large quantity prepared which soon diminished as Zeb tried to maintain his reputation. There was a bevy of young ladies present which added gaiety to the occasion and made the young men linger longer than usual, in fact Mr. W. J. Brooks and Mr. D. S. Hall remained over night in the neighborhood, Mr. Brooks, of course stayed to talk to the young ladies and Dan said he just did not have the heart to leave all those good rotations and was going to stay as long as they lasted. If he carries out this declaration he will become a citizen of Caswell county, for the whole county is full of something good to eat, as well as the prettiest girls to be found any where. Messrs. Dameron and Cook was to have been present to make addresses, but owing to professional engagements could not attend. The crowd was somewhat disappointed in not being able to hear these cultured gentlemen. A string band rendered delightful music, and altogether the occasion was one long to be remembered. Here is hoping that those present may live a thousand years and pull off a picnic every year.

Suicide at Altamahaw.

Sam May, a good honest, hard working farmer, who lived about three miles west of Altamahaw, shot himself about seven o'clock, Monday morning, dying almost instantly. His son Len was at the barn feeding when the report of the gun was heard and hastening to the house, found his father with a hole shot in the top of his head. No cause is known for the rash act. He is survived by three sons, making his home with Len, since the death of his wife last fall. He was about 65 years old and was a confederate soldier, the remains was buried at Bethlehem Tuesday afternoon.

Sherman Exonerated.

The attempt to besmirch Vice-President Sherman and Senator Curtis of Kansas in the matter of the Oklahoma Indian contracts died a bornin'. This is the Congressional committee's report: "The committee has heard and carefully considered all of the testimony submitted and is unanimous in the opinion that there is and was no warrant for any person to use the names of Vice President Sherman and Senator Charles Curtis in connection with any improper relation with any Indian contract whatever."

At the last minute Senator Gore, whose testimony at the opening of the investigation sought to connect the two statesmen with the fraudulent contracts, addressed a letter to the Congressional committee requesting "that the committee make an authoritative statement that no evidence has been presented tending to establish any improper conduct on the part of either Vice President Sherman or Senator Curtis respecting the subject of this investigation."

And thus what looks like an attempted assassination of character for partisan purposes utterly fails.

To the Patrons of No. 8.

The patrons of R. F. D. No. 8 are cordially invited to attend the carriers and patrons picnic at Harden's Park, Monday September 5th. Will do all we can to give you a pleasant time.
J. M. Hayes, Carrier.

OUR CAMPAIGN LETTER

Special to the Dispatch.

New York, Aug. 27.—The Democratic United States Senators have filed their minority report on wages and the prices of commodities. While the Democratic senators did not so intend it, the report is an interesting and valuable contribution to the fund of Republican argument in this campaign. Admitting that "we are without sufficient data," their conclusion is that the tariff is one of three chief malefactors, and then they proceed, of course "without sufficient data," to make the time worn argument, which long ago was consigned by the American people to the political scrap heap, in favor of free trade. It will make our American laboring men shout in derision when they read that in the opinion of these Democratic Senators the condition of those who work for wages is better in Great Britain than in the United States.

Great Britain is a free trade nation, and it is the most prosperous nation in the world, except our own," says the Democratic committee. Those last words were a necessary qualification of the claim concerning Great Britain's prosperity. It is, moreover, an acknowledgement of the fact which, up to this time, Republicans have been alone in asserting, that the United States is the most prosperous nation in the world.

Of course it is. Farmers here are the most prosperous farmers in the world. Workingmen here, in every line of industry, are the most prosperous workingmen in the world. Our people are better clothed and better fed, they enjoy more of the comforts and luxuries of life than do the people of any other country.

Notwithstanding this condition of prosperity and plenty, of joy and happiness, in the American home, these Democratic Senators, speaking for the Democratic party, albeit "without sufficient data," are convinced that something ought to be done to change it. Just why these distinguished Democratic advocates should want the American people to throw overboard the American policy of protection they don't make clear.

Just why they should argue in favor of putting into practice here an economic policy which they claim has made Great Britain less prosperous than is America, is unexplained; but that is just what they do. Proceeding with their argument they say: "It is about sixty years since Great Britain adopted free trade, and during that time wages have increased 81 per cent."

Think of it! Increased until now wages in Great Britain are on the average about half what they are in America. This is Democratic argument! "If, therefore," say these great Democratic statesmen, "we remove the obstruction (that is the iniquitous protective tariff), allowing prices to sink to their natural level, the question of wages may be trusted to take care of itself." Champ Clark, the Democratic leader in Congress, has declared that he is a free trader and glories in it; that if he could have his way he would tear down every custom house in the United States, from turret to foundation stone.

Lately he hasn't dared confess his real sentiments in so strong language as that, but here comes this committee of Democratic United States Senators with the courage of their convictions, although they are "without sufficient data," and openly announce the good old Democratic doctrine of free trade and advocate its substitution in this country for the Republican doctrine of protection. They want to let wages take care of themselves. Such unconcern for the welfare of the workingman may be Democratic but it certainly is not and never has been Republican policy. And it never will be.

The Republican party wants the laboring man here in America to enjoy more of the blessings of life than does the laboring man any where else on earth and to that end the Republican party by steadfast adherence to the principles of protection, will seek to keep the wheels of industry turn-

Death of D. Frank Lamb

Our town was greatly shocked to learn of the terrible accident which resulted in the death of Mr. D. Frank Lamb, a contractor, who was Superintending the erection of the new Episcopal church who fell last Thursday morning just before noon from the tower, a distance of sixty feet and died in about three-quarters of an hour, from concussion of the brain, never becoming conscious. Mr. Lamb with Mr. Tom Shatterly were on the tower when Mr. Lamb made an attempt to catch the hook on hoisting line and became over balanced and fell amid the pieces of timber which composed the scaffold to the earth. Several physicians were summoned but to no avail as the gashes on the head showed that death could not be avoided. The dauntless character of Mr. Lamb and high esteem in which he was held by his fellow townsmen makes this one of the saddest deaths which has occurred in our city for some time, to say nothing of his home connection, his wife having died two years ago, and his death leaves four orphan children, the oldest of which is about fifteen, the youngest three. Although parentless but still not unprovided for as Mr. Lamb besides being in reasonable circumstances, carried insurance for the protection of his family. Funeral services were conducted at the home Friday evening at 4:30 by Rev. J. D. Williams, burial at Pine Hill Cemetery under the auspices of the J. O. U. A. M.

ELON COLLEGE NOTES.

Special to The Dispatch.

Elon College, Aug., 27.—President Moffitt, after an absence of nearly five months because of serious illness returned to his home, refreshed and strengthened, and will enter upon the active duties of his office with the opening of the fall term, September the 7th. Dr. Moffitt is heavier than he has been for many years and seems to be in perfect health. His physician caution him against steady application for the first few weeks, but assure him that he is permanently well. This intelligence will be welcomed by his many friends educational and personal.

The deep well, completed about a week ago, is the talk of the town. It is almost incredible that such a flow of water, more than 100 gallons per minute according to the company that bored it, should be found at such a comparatively shallow depth. The quality of the water is equally as remarkable as its quantity. The College is most fortunate in securing such a supply of water for its sewer, light, and water and heat plant. Hot water pipes are now being installed directly from the Central Power Station to the various College buildings, which will obviate the necessity of having each building heat its own water for the baths.

The prospect now is for the best opening in the institution's history. This statement if given upon estimates sent in from the various sections and states served by this College. Applications are already in from eight of the Southern States. Students will begin to arrive the last of next week. The opening day is September the seventh.

The Alamance County Sunday School Association will hold its annual Convention in the extreme Southern part of the county on Saturday and Sunday of this week. Profs. Wicker and Harper will appear on the program.

The vacation number of the *Elon College Weekly* will appear from the press the first of next week. Editor Lawrence is now busy getting it ready.

Not Coughing Today?

Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says. He knows. Odd Facts About Clothing.

I have verily rarely mentioned, the subject of clothes, and this is the first time I have ever expressed myself publicly on that subject I may wear strange clothes myself, but I always ignore it because I find that, above all other things, this stamps a man a crank in the eyes of modern people.

Do you know that the character of the man who wears a high collar is different from the character of the man who wears a low collar; that they feel differently; that they have different conceptions of themselves; they think they belong to a little different sphere of life? The man with the high collar thinks he has something that the man with the low collar hasn't, and the man with the low collar thinks he has something that the man with the high collar hasn't, and they both look down with contempt upon the man with only a collar button and no collar at all.

We talk about the natives of Alaska with their totems and their idols, the strange figures that they worship, and we look down upon them because they worship the totem. But how much more a fantastic and strange object is that which many men worship—the shape of their hats? And it is even true that a man that wears one form of hat feels ashamed of himself if he has to go out on the street with another form of hat on.

If we had a man with a straw hat a man with a silk hat and a train, those two objects and the train was going and those two men attempted to catch the train do you know which man would catch that train? You do don't you! Because you know the religion of that silk hat wouldn't allow that man to run. It would be ridiculous to run in a silk hat. But a straw hat allows little trivialities, and one of those trivialities is running providing that man wishes to run to catch a train because no running other than for a train is allowed by any hat whatever. — Raymond Neunson, in September Physical Culture.

Don't Experiment.

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to do no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in this vicinity.

Can Burlington residents demand further proof than that contained in the following testimonial?

Mrs. Bryan Phillips, N. Maple Street, Graham, N. C., says: "I suffered for several years from a dull ache across the small of my back, accompanied by headaches and dizzy spells. My kidneys did not act properly and I became worried. After trying various remedies without finding relief, I procured a box of Doan's Kidney Pills and began their use. I felt relief from the first and before long I was free from kidney trouble. I now feel better in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

After La Grippe

"I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nerve, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS, Seabrook, N. H. The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Dr. Miles' Restorative Nerve should be taken for some time to thoroughly restore nerve strength.

Dr. Miles' Nerve is sold by all druggists. If the first bottle does not benefit, your druggist will return your money.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CUREY & Co., Toledo, O. Sold by Druggists, 75. Take Hall's Family Pills for constipation.

ELON COLLEGE NOTES.

Special to The Dispatch.
Crowded out last week.

Elon College, N. C., Aug. 18.—The Committee appointed by the Board of Trustees to have a deep well bored at the Central Power Station met here today and tested the well being bored for them by the Artesian Well Co. of Wilson, N. C.

The Committee made a contract for a 500 foot well, expecting that it would take that deep a well to furnish the needed 25 gallons per minute, but they reserved the right to stop whenever they thought they had all the water they wanted.

The work began July 20 with C. R. Heater as foreman on the job. The first eighty feet was made in a short time through soil and ceased with eight inch well casing. From then on was rock, and more rock. At eighty-seven feet Mr. Heater figured that he had struck a seven gallon per minute flow. At 141 feet he added to it immensely, so much so that the head of water all about surpassed the working capacity of his 1,500 pound steel drill. He worked for two days on the ad- vanced formation without making more than two feet and asked the Committee to test the well. This request was granted.

Messrs. J. Beal Johnson, chairman, Raleigh, N. C. R. M. Morgan, Burlington, N. C. and J. W. Wellens, Elon College, N. C. the committee of the college on the Deep Well, accordingly met here to-day and after a fair test found that we have a capacity of from fifty to one-hundred-twelve gallons per minute in the present well. This seems to be all the water we need at present to supply the college plant and the people of the village, and so the Artesian Well Co. was released from the further prosecution of its contract at this time.

The completion of this Well marks an era in the value of the College heat, light, and water supply. The water will be analyzed at once and if found suitable as no doubt will, will be used for sewerage, but also for drinking. It has a pleasant taste and seems absolutely pure.

Arrangements are also being made to put hot water from the Central Power Station into all the College Buildings, instead of having each building heat its own water separately.

Saved From Awful Peril.

"I never felt so near my grave," writes Lewis Chamblin, of Manchester, Ohio, R. R. No. 3, "as when a frightful cough and lung trouble pulled me down to 115 lbs in spite of many remedies and the best doctors. And that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 160 lbs and can work hard. It also cured my four children of cough." Infalible for Coughs and Colds, its most certain remedy for LaGrippe Asthma, desperate lung trouble and all bronchial affections, 50c and \$1.00. A trial bottle free. Guaranteed by Freeman Drug Co.

What the Railroads Want.

The situation briefly summed up seems to be this: The railroads require a vast amount of new capital to make the great improvements and enlargements of their facilities that are necessary to enable them properly to handle the traffic of the country; to get this capital they must pay higher rates of interest and dividends; in order to meet their increasing expenses people must maintain their property, and pay the higher rates of interest and dividends that capitalists demand they must earn both more gross more net; and, unless they are allowed to advance their rates, it is probable that their net earnings not only will not increase, but will decrease.

Prices in general have risen 9 or 21 per cent. in ten years and 50 per cent in thirteen years. The roads are asking for increase in rates that will certainly not average over 10 per cent., and probably will average considerably less. Therefore, if the very highest average advance that has been proposed were made, rates would still be substantially lower as compared with prices, than they were ten years ago, and they would be lower, as compared with prices, than they were twenty years ago. ---From "The Railroads to Advance Their Rates?" by Samuel O. Dunn, in the American Review of Economics for September.

S. Oakley and wife will be married tomorrow, (Thursday) for the first time.

Last Steps Back Into the Union.

Republican State Chairman Morehead does well to import a speaker of high position for several dates during the campaign. A political personality more attractive than Vice President Sherman might have been secured, but the appeal to them in this manner is bound to please the people of the State. Other nationally prominent Republican speakers should be brought in, and Democrats should follow the example.

For many years the sheer necessity of self-preservation kept the white voters of North Carolina predominantly Democratic. We know no reason why, if the national Democratic party will show itself progressive and in touch with the times, this State should not retain the same political affiliations, but an increasing number of votes can be induced to vote for no party as a mere matter of course. These men feel their new freedom which they owe the Democratic party—and wish to enjoy it. They wish to be an organic part of American political life as their fathers were to hear national issues in national campaigns presented by nationally representative men. It is felt that, counted as certain by one party and as hopeless by the other, they have been neglected and treated without consideration at all points long enough. There are several other Southern States where similar conditions obtained. North Carolina has already had some attention from campaign speakers of the class described, including several speeches by Mr. Taft on his campaign and by Secretary of the Treasury Shaw, Vice President Sherman's coming will be another step in this direction.

President Helps Orphans.

Hundreds of orphans have been helped by the President of the Industrial and Orphan's Home at Macon Ga., who writes: "We have used Electric Bitters in this Institution, for nine years. It has proved a most excellent medicine for stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates all vital organs, purifies the blood, aids digestion creates appetite. To strengthen and build up pale, thin, weak children or rundown people it has no equal. Best for female complaints. Only 50c. at Freeman Drug Co.

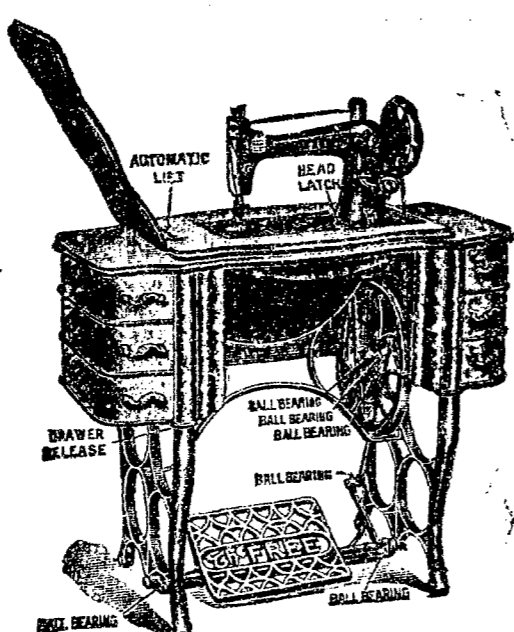

At the end of its first year the new tariff is found to hold the record as a revenue producer, in spite of its reductions of duty on articles other than luxuries. Democratic orators will fight shy of tariff details.

Democrats who expect to put Republicans on the defensive on the tariff schedules will find out their mistake when the campaign opens up. It will be the same old kind of a fight, with the same old result.

 Members Corporation Com-
 mission,

 For Congress,
 Fifth District—David H. Blair,
 of Forsyth.

The Democratic cry of "The
 wolf! the wolf!" Will go unheeded
 this year of Grace.

The Democratic slogan has
 been announced. Now all they
 need is a paramount issue to be
 entirely ready for the customary
 defeat.

It must be that brother Crow-
 son is going to give up the fight
 in the county. He practically
 admits defeat in admonishing us
 to put up our best men.

Perhaps the editor of the News
 has been driving through the
 country over some of the roads
 of the county that are said to be
 kept up by a Democratic admin-
 istration.

So the committee decided that
 there was nobody nominated in
 the Sixth district. Well, suppose
 the people down there decide
 that a Democrat shall not be
 elected this year. That's about
 the way it looks from this dis-
 tance.

The Editor of the Burlington
 News has nominated a Republi-
 can ticket for Alamance county.
 Now according to custom he is
 honor bound to support, but Dem-
 ocrat like, he will bolt. Better
 try to keep your own crowd to-
 gether, you will find it more
 profitable.

The Republicans have nominat-
 ed one of the very best men in
 person of Hon. D. H. Blair, of
 Winston-Salem, for Congress,
 and it now behooves every Repub-
 lican in the district to go to
 work and see that he not only
 gets the full Republican vote, but
 that he gets the large independ-
 ent vote of the district. There
 are many persons who would cast
 their vote for the Republican
 candidate for Congress if they only
 knew his superior qualities and
 fitness for a Congressman. Dave
 Blair is one of the best men in
 the Fifth district, those who
 want a clean upright and consci-
 entious man to represent them
 should vote for him.

Saturday September 17th, is
 the day set for the Republican
 county convention. Will the party
 nominate a ticket that will not
 only poll the full Republican vote,
 but the independent vote as well.
 We should remember that it
 takes the full vote, and then some
 to elect in this county. This does
 not mean that the county is
 Democratic, but it means that
 the thinking independent vote,

men who care more for the wel-
 fare of the county than they do
 of any party, hold the balance of
 power, and unless we can con-
 vince this independent vote that
 the Republicans are best qualified
 to administer the affairs of the
 county we cannot win.

Democratic Convention.

The Democratic county conven-
 tion will be held at Graham Sat-
 urday the 3rd, from present indi-
 cations all the old officials will be
 renominated, unless some of the
 county commissioners refuse to
 accept a renomination. The po-
 sition of commissioner is a thank-
 less one, and the kind of men
 that should have charge of the
 county affairs will not run. Just
 how each party is to induce its
 best men to accept these posi-
 tions of trust is a vexing prob-
 lem that remains to be solved.

The Father of Rural Delivery.

That much hated man, accord-
 ing to Democratic testimony,
 Hon. Marion Butler, is the father
 of rural delivery. The people of
 North Carolina who enjoy the
 benefits of the rural service,
 should think about these things
 before they make up their minds
 to believe what the Democratic
 press and politicians are saying
 about him. Has Marion Butler
 been a benefactor to the people
 of North Carolina? This ques-
 tion should be satisfactorily an-
 swered before the voters heed
 the crying appeals of the Demo-
 crats to help repudiate Butler,
 and everybody toot Butler favors.
 There is always two sides to ev-
 ery question. A voter before
 making up his mind should look
 at both of them. This done, he
 can cast an intelligent vote, but
 in no other way can he do so.

The Railroads.

The announcement that the In-
 ter-state Commerce Commission
 has voted to suspend the general
 advance in freight rates by the
 railroads, which was to have gone
 into effect on the first of August,
 until the Commission could inves-
 tigate the matter and determine
 whether or not conditions justifi-
 ed such an advance, brings to
 mind the fact that the transpor-
 tation lines of the country are, to
 use an irreverent phrase, between
 the devil and the deep blue sea.

Should the investigation show
 that the present rate does not
 yield a dividend after paying the
 expenses of operating, the securi-
 ties of the roads cannot be float-
 ed on the stock market and the
 road is forced into bankruptcy
 for the want of funds to pay op-
 erating expenses. On the other
 hand, should the investigation
 show that the road is paying a
 profitable revenue, the traffic rate
 is reduced, the employees of the
 road clamor for a higher wage
 scale and threaten to go on a
 strike.

The management of the trans-
 portation lines occupy no bed of
 roses, they are hedged about by
 many difficulties trying to mete
 out equal justice between all the
 parties at interest—the shipper,
 the consumer and the investor in
 railroad securities. All of these
 have their rights and all are en-
 titled to a hearing at the bar of
 justice. Neither should be allow-
 ed to act the hog and get away
 with the lions share.

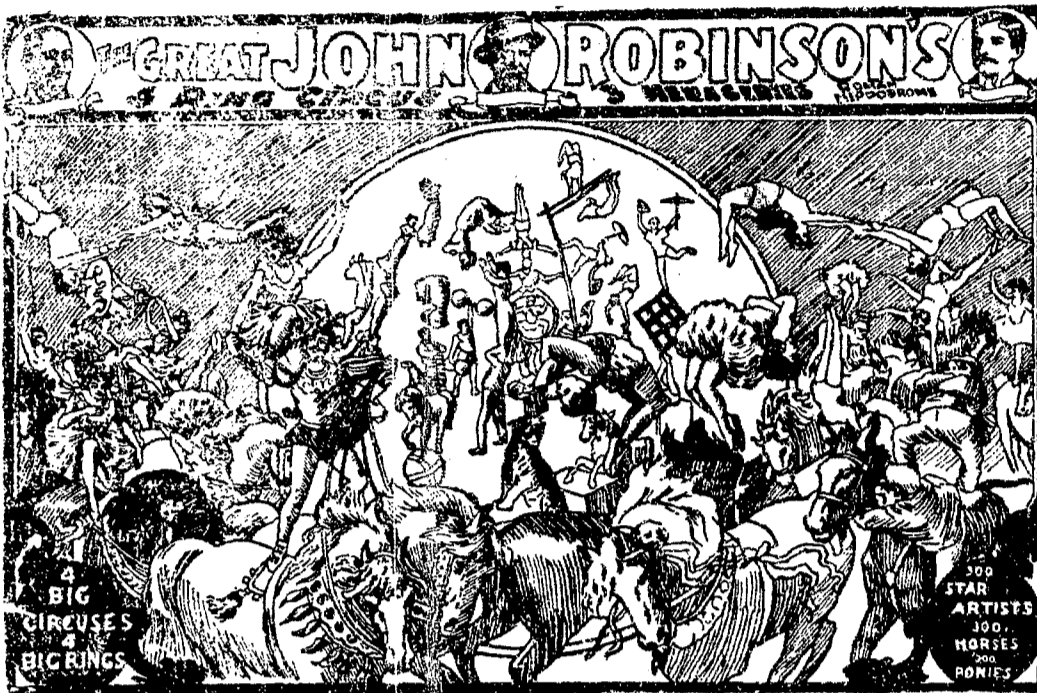

The railroads should be allowed
 to charge a freight rate sufficient-
 ly high to provide for mainten-
 ance and operating expenses with
 a reasonable profit on the capital
 invested, this and nothing more.
 Watered stock should not be al-
 lowed to enter into the calcula-
 tions in computing the profit on
 the capital invested. Under this
 policy the producer, or shipper,
 the consumer and the railroads
 would all share alike in good or
 bad times, with the difference
 perhaps that the consumer would
 have the larger share of the bur-
 den to bear during a stringency
 or threatened panic.

FIRST.
 County organization. The election precinct shall be the unit of county organization. Each precinct shall have an executive committee consisting of three active Republicans. They shall be biennially chosen by the Republican voters of the precinct who shall also designate one of their number chairman. They shall convene at such time and place as the majority of them may elect.

There shall be elected biennially by the county convention called by the county executive committee to nominate candidates for the general assembly and county officers, a county executive committee to consist of five members unless the convention shall designate a greater number; and said county convention shall also elect at the same time a chairman of the county executive committee. Vacancies in precinct committees shall be filled by the voters of the precinct, and in the county committees by a county convention; provided, that in case a vacancy occurs within 30 days prior to an election, such vacancy may be filled by the votes of the remaining members. And in the event of the removal of the chairman by death, resignation or other cause, the chairman shall be elected by the committee.

SECOND.
 Congressional, judicial and senatorial district committees shall be composed of no less than one member from each county, nor less than seven members, biennially elected by the several district conventions, which shall also designate the chairman; provided, that a senatorial committee shall only be elected in districts embracing more than one county. Vacancies occurring within 30 days of an election may be filled by the vote of the committee.

THIRD.
 There shall be a state executive committee composed of one member from each congressional district in the state to be designated by the district delegation at a state convention assembled, ten members at large, to be selected by the state chairman and shall also include the chairman of the convention at which election is held, and said committee is required to call a state convention of the Republican party at least 60 days prior to every election for members of the general assembly, and often if necessary in the interest of the party. Members of the state executive committee shall be biennially elected at the state convention, and shall elect a secretary, who is not a member, and the chairman of said committee shall be elected by the state convention.

FOURTH.
 The chairman of the respective county, district and state executive committees shall call their convention to order and act as their temporary chairman until a permanent organization is affected, with power only to appoint and receive the report of the committee on credentials.

FIFTH.
 No executive committee shall have the power to elect or appoint delegates to any convention, whether county, district, state or national.

SIXTH.
 No member of any executive committee or delegate or alternate duly chosen shall have power to delegate his trust or authority to another.

SEVENTH.
 Representation in county conventions shall consist of one delegate for every 25 Republican votes, or fraction part thereof, cast in said precinct at the previous election for the Republican candidate for governor. Provided, that each township shall be entitled to one vote, at least, in the county convention.

EIGHTH.
 The basis of representation in congressional, judicial senatorial conventions shall be appointed so as to consist of one delegate and one alternate for every 100 votes, or fractional part thereof, cast for the candidate of the Republican party for governor at the last general election in the counties in the state. Provided, that each county shall be entitled to at least two delegates to the Republican state, congressional, judicial and senatorial conven-

tions.

NINTH.
 Delegates and alternates to the county convention shall be elected only by a vote of the Republicans of each precinct meeting assembled, and delegates and alternates to the district, state and national conventions shall be elected by a convention of delegates duly elected and sent by the people for that purpose, after notice and publication of not less than 15 days of the time, place and purpose of such convention, and not otherwise, and the delegates so elected shall be citizens of the county from which they are elected. That in all primaries electing delegates, a poll of the voters present shall be taken in order to ascertain the strength of all officers to be voted for and said vote shall be prepared and cast in the county, district and state conventions on the first ballot in accordance to the strength of each candidate voted for in said primaries, and the delegates representing the minority shall be named by the minority.

TENTH.
 The certificate of the chairman and secretary of the meeting, setting forth the regularity of the primary meeting or convention and the election of the delegates and alternates, shall be accepted, when uncontested, as a good and sufficient credential for such delegates and alternates.

ELEVENTH.
 The chairman of the state executive committee shall, for sufficient cause have power to remove any county chairman at his pleasure, and to appoint some suitable successor; provided, however, that the chairman thus removed shall have the right of appeal from the action of the state chairman to the state committee, whose duty it shall be to pass upon the question as to whether or not there was sufficient cause for such removal.

TWELFTH.
 It shall be the duty of the state committee to prepare a temporary roll of the delegates elected to the state convention, and such temporary roll shall be used for the purpose of effecting a temporary organization.

THIRTEENTH.
 There shall be a campaign committee appointed by the state chairman to consist of five members and said committee shall assume management and control of the campaign in such sections of the state as may be designated by the chairman; said committee shall at all times be subject to the direction of the state executive committee.

FOURTEENTH.
 This plan of organization and procedure shall continue in force until changed or abrogated by a subsequent Republican state convention.

Many persons buy insurance and accept the policy without looking to see if it is correct. We represent 52 strong Fire Insurance Companies, among this number being the largest insurance companies in the world and with years of experience, backed by the fact that we have paid out thousands of dollars and never had a claim contested. BROOKLYN TABERNACLE BIBLE STUDIES

MISIMPROVED OPPORTUNITIES TAKEN AWAY.

Matthew 21:23-46.—September 4.

"Therefore say I unto you, The Kingdom of God shall be taken from you."

In this Study the Great Teacher in two parables portrays the mistake made by the religionists of his day. The understanding of these parables gives a clearer insight into the cause which led to the rejection of Israel for a time from Divine favor. Incidentally, too, we are reminded that nominal fleshly Israel was a prototype of nominal Christendom. Hence we may look for somewhat similar conditions and dealings now in the "harvest" time of this Christian Age.

To get the force of the Lord's teachings here and everywhere it is necessary to remember that the Jewish people had been promised the Kingdom of God, of which David's Kingdom was a type on a small scale. For centuries they had been expecting a great King, Messiah, whose coming would exalt them and bring them into prominence as God's Kingdom. John the Baptist when he came to introduce Messiah, told the Jews that unless they would repent and come back, to the extent of their ability, into harmony with God and the Law they need not expect to share in the Messianic Kingdom. Jesus told the people that unless their righteousness should exceed the righteousness of the scribes and Pharisees, they should in no wise enter into or become members of the long-awaited-for Kingdom. (Matthew 5:20) The two parables of this Study illustrate what stood in the way of the majority.

The Jewish people professed to be God's people, willing to do him service. They were treated, not as mere slaves, but, rather, like sons. All were told to go and work in God's vineyard; but they divided into two classes, represented by the two sons, in our first parable. One of these sons represented the outwardly religious, pious, who said, Yes, we will serve God. However, they did not really seek the Divine service, but rather the service of their sects and parties and their own personal aims, honor, influence and preferment. The other class of Israelites, represented by the other son of the parable, made no pretense of serving God, and were branded as publicans, sinners, harlots. Nevertheless, when Jesus appeared, when John's message went forth, and afterwards the teachings of Jesus and the Apostles, these same publicans, sinners, harlots, were the ones ready to receive him, while the religious, finding that his message was in conflict with their teachings, repudiated him. Thus one of the charges against Jesus was, "He receiveth publicans and sinners and eateth with them."

The second parable represents God as the owner of a great Vineyard, in all respects well appointed and furnished for his purpose. This Vineyard represents the Jewish nation and the Divine promises made to that people—the Law and all the arrangements of the Law Covenant, for their development. This Vineyard the owner let out to husbandmen, whose duty it was to care for the vines and the fruitage and to render to the owner the results, except a portion which they might keep for themselves. These husbandmen were the prominent religionists, of whom Jesus said, "The scribes and Pharisees sit in Moses' seat. All, therefore, whatsoever they bid you observe, that observe and do." (Matt. 23:2, 3.) The owner properly required returns on his property and sent servants to receive his share of the fruitage. But the husbandmen, instead of giving them what was due their Master, abused them by beating, killing and stoning them.

These servants were the prophets of old, sent to Israel. They should have received the kindest treatment and an abundance of fruits of meekness, gentleness, patience, etc., but, instead, they were treated as intruders by the leaders of Israel. Some of them were stoned, some beaten, some murdered some sawn asunder. Some wandered about in sheepskins and goatskins, a dwelt in dens and caves of the earth, because not appreciated. They were treated as representatives of the owner of the vineyard. Finally the owner sent his Son, saying, "They will reverence my Son." But these same husbandmen, the religionists of our Lord's day, took counsel to kill him and seize his inheritance. They somehow got the impression that they could do it over God's heritage and that anybody reproving them or showing up their hypocrisies or liberating the people from subservience to them, whoever might be—even the heir—they were at liberty to kill. They crucified him.

What may we presume the owner of that vineyard would do to the wicked husbandmen who, forgetting the ownership of the vineyard, we used it as their own, mistreating his servants and crucifying his Son? The Great Teacher put the question to his hearers, and the answer promptly came that the owner would destroy those wicked men and let out his Vineyard to others who would render him its fruitage.

This is just what happened. The scribes and Pharisees and Doctors of the Law who were using God's promises and blessings and their opportunities selfishly and in disregard of the Almighty—these were dispossessed. Their government was destroyed and Divine favor and privileges as God's mouthpiece which they once enjoyed, were taken from them and given to others—to Apostles and their associates, during this Gospel Age.

However, as fleshly Israel was a type or picture of nominal Spirit Israel, we may not have to look far to find a very similar condition of this today. Today also we see some high in official position as representatives of God and his Word using their positions to entrench themselves, to be power over the people, to carry out their own schemes. These are inclined to speak harshly, yea, to "murder" any who come amongst them meekly and humbly, in the name of the Lord. They do not literally kill them nor "shut them full of arrows," but they do behold them in the sense of ostracism and they do shoot out at them the arrows of bitter words, slanders, etc.

What will the Husbandman do with such servants? The answer is again that the opportunities which they have enjoyed will be taken away from the Thank God that the next step in the programme will be that the King's Son and all of the misused servants associated with him will constitute the "Kingdom of God's dear Son" "under the whole heavens." Matters will no longer entrusted to any but the tried, proven, faithful.

Jesus, the rejected, "is become the chief corner-stone" of the great Temple of God, which is the Church. As the privilege of being God's embryonic Kingdom was taken from the Jews and given to Christ and the Church, so presently his embryonic Kingdom will be taken from earth entirely—his faith will be received to the heavenly plane and power and great glory.

Whoever stumbled over Jesus suffered loss in the sense of being broken but not beyond possibility of repair. "But upon whomsoever this stone (Messiah) shall fall, it will grind him to powder" in the Second Death.—Matt. 21:

"Never Again." Foss of Massachusetts and Havens of New York, the two Free Trade Democrats, who broke into Congress last session because of Republican quarrels in their respective districts, say "never again," to Democratic appeals to run for re-election. They well know that they couldn't come within forty rows of apple trees of being elected to Congress this fall.

Roosevelt and Taft are not political Siamese twins. Each has a mind of his own. Each has his own methods. One was President. The other is President now. The man who is President now is responsible for the administration of the duties of the office, and alone will be held accountable for the manner in which those duties are performed.

Again I beg to remind those who have not paid their taxes for 1909, that this matter is too important to be treated with such indifference. You must admit that I have been lenient. I have tried to manage so that you might have the privilege of settling at your convenience. But I cannot wait always. My settlement is right at hand. These taxes must be paid. It is right, and I want a full settlement now.
