The Teeth.

By J. S. Frost, D. D. S. The Sixth Year Molar. When a child is from five to seven years of age his first permanent tooth appears. This is a large jaw tooth and comes above and below on each side, back of the baby teeth. It is called the sixth year molar. Owing to the fact that the tooth appears at so early an age, few parents realize that it is a permanent tooth, and that every precaution should be taken to preserve it for future years of usefulness. Dr. Farrier who is an authority on the correction of the irregularities of the teeth, says that this tooth is the foundation for a normal occlusion of the teeth. If a child loses this tooth the ones which are to appear back of it will tip forward and the ones in front of where it was extracted will tilt backward thus forming a V shaped space, which is an ideal place for the lodgement of food and germs which will cause decay of the adjoining teeth. These teeth which lean forward and backward on each side of the space touch the opposite teeth with their corners only. A child who loses these teeth soon after they appear on account of neglect and decay, are robbed of the proper function of these great grinders with which nature provided us for the mastication of our food. Most of the permanent teeth appear between the ages of five and fifteen years. If the parents have had these teeth examined every six months during these years and carefully guarded them against decay, and have taught their children to carefully use their tooth brushes after meals, it will be little trouble in the future to save the teeth, from the fact that their habits are fixed and their teeth are now becoming hard enough to aid in resisting decay.

None but the live ones appear in our columns. There's a reason.

The live business man is looking for results. To obtain them place an ad in the Dispatch.

Look over the list of the merchants who have ads in the Dispatch, then make a bee line for his store. There's a reason.

Place an ad in the Dispatch, then watch results. Notice the busy stores of the merchants who advertise with us. There's a reason.

The people like to trade with merchants who adopt up-to-date business methods. An ad in the Dispatch shows methods. There's a reason.

Mr. Woodrow Wilson having dined with Mr. Bryan may expect to be under suspicion of having borrowed ideas, which he may hereafter promulgate.

The dead ones fight shy of newspaper ads, and dear reader you had better fight shy of them. There is where you get shop worn goods. There's a reason.

The live up-to-date merchants all visit the large markets and gets the very latest styles, and as soon as they arrive place an ad in the Dispatch. There a reason.

The New England preacher who made the astounding statement that the blush is lost to modern womankind is decidedly in the wrong. Not lost, only covered.

Better goods, newer styles, and lower prices, are the slogans of the merchants who advertise in the Dispatch. Are you among this number? If not, there's a reason.

If Governor Dix were to act upon all the advice he is receiving with reference to the Senatorial situation in New York his movements would resemble those of a pin wheel.

If Governor Kitchin keeps up the present capacity of the par-mill, he will make as noted a reputation as a Governor of Tennessee did during his tenure office, once upon a time.

When you see a merchant's ad in the Dispatch you may know he is a live one and will do to trade with. He has got bargains to offer, that's the reason he is bidding for your business.

What's the matter with the commission form of government? We thought that it would take the North Carolina cities by storm, but it turns out that if left to the people it does not go so fast. Only two cities have so far adopted it; Greensboro and Wilmington, while two cities last week rejected it; Raleigh and Asheville. What's the matter with it?

The Farmers Have Rights.

There are some people who are continually complaining about the farmers organizing, and abusing the Farmers Union. Just why they do this no one knows, unless it is just the habit of complaining. The farmers have a right to organize if they want to, just so long as they do not do it with unlawful intent, and no one will say that they are doing this. The farmers are the back bone of this country, and it is the duty of every business man or those not engaged in business, to encourage him. Every body is saying that the farmer is unreasonable and that he is receiving more for his products than he is entitled to.

Now the Dispatch is not of that class. We want the farmer to organize if he can better his condition. We believe that there is nothing too good for the man who feeds the world, that he is not now and never has received too much for his farm products, and we wish that he could receive more. We grant him the right to organize if he wants to.

The business men have their organizations, the lawyers have theirs, the doctors have theirs, the bankers have theirs, the loafers and the hobo's have theirs, is there any good reason why the farmer should not have his. We say no, and the Dispatch stands ready to help him organize and maintain his organization, or to advance his interest in any other way that is lawful and reasonable. The farmer has long toiled and sweated for the benefit of others, if he is now coming into his own we shall rejoice when it is accomplished.

It seems of late that few papers or persons not engaged in the agricultural pursuits have a kind word for the farmer and the farmers family except to beguile them into spending the hard earned fruits of their labor. Now this is all right and perfectly legitimate, but this should not be all, they should be willing to lend them a helping hand and to aid him to elevate himself and that of his family. They owe him this much and should be willing to give him his due. No other course is consistent and no other course is right.

Two New Immigrant Agents.

Washington, D. C., Mar. 18. — Increased activity on the part of the Southern Railway Company in the work of attracting settlers to the South is indicated by the announcement that two additional traveling immigration agents have been appointed in the Land and Industrial Department. T. H. Jones, with headquarters at St. Louis, will travel the Central West and J. B. Finster will have headquarters at Washington, D. C. These new appointees are well equipped with experience and training in immigration work and their duties will be to solicit desirable classes to locate in the South.

With these additional agents in the field, the work of the Southern Railway for the upbuilding and development of the South should be even more effective than in the past. For years the Southern Railway Company has devoted its energies and employed its means for development of the territory it serves as well as for the betterment and expansion of its lines and equipment. Through its Land and Industrial Department a carefully prepared plan for the promotion of immigration and industrial enterprises was devised when the Company was organized in 1894 and this has been steadily followed. It has drawn the attention of capital and enterprise from all parts of United States and from Europe to the South, its opportunities and resources and has thus identified itself with the progress of the South.

That the Company is convinced of the efficacy of its past efforts and the wisdom of the expenditures thus entailed is manifest in the announcement that this work is to be continued on a larger scale.

A Timely Suggestion.

Mr. Editor: With the city \$200,000 in debt and the School Board \$8,000 behind the dead line, its macadam on our "asphalt" pavements flying all over the country before the four winds of Heaven; one year taken from the course at the Graded School, besides other annoyances and disadvantages too numerous to mention, isn't it about time to instigate an insurrection in our city affairs and start some reforms that will inure to the benefit of us all? The city tax rate is 1.40, the highest in the history of our town and if present conditions continue, will necessarily be still higher.

Let the good citizenship of our city, regardless of politics, get together and formulate some plan by which an improvement in our municipal government may be quickly brought about.

The above is the idea of one who cares more for the welfare of our city than for the success of any political party or faction. What say you people?

GENERAL NAAMAN'S LEPROSY CURED

11 Kings 5:1-14-April 2 'Look unto me, and be ye saved, all the ends of the earth: for I am God, and there is none else.'—Isaiah 45:22.

GENERAL NAAMAN, of the army of Syria on the northern border of the land of Israel, was a sick man. He had the loathsome infection and incurable disease called leprosy. Wealth, influence at Court, life's abundance and honors could not offset this terrible plague upon his life.

The study of today tells of his miraculous healing by the Prophet Elisha. In Naaman's household was a young girl who had been captured from the Israelites and was a slave, although doubtless well treated. The maid remembered the Prophet Elisha and how wonderfully Divine power, through him, had healed diseases. Instead of rejoicing that her captor and master was suffering, she sympathetically inquired why he did not go to the Prophet, who, she felt sure, would be glad to pray for him and heal him.

Naaman dipping seven times.

Although it seemed like catching at a straw, Naaman followed up the suggestion; he got a letter from his King to the King of Israel and presented himself to the latter, requesting healing by Israel's great Prophet, of whom he had heard. The King was astonished. He knew leprosy to be incurable. Apparently he knew little about Elisha's powers. Naaman dipping seven times.

Leprosy a Figure of Sin. In many respects leprosy corresponds to sin; firstly, it is incurable; secondly, it is loathsome; thirdly, it is contagious; fourthly, it is destructive; fifthly, it is painless. As only Divine power could heal the leper, only the same can heal the sinner.

It is by faith that we may now wash ourselves completely in the blood of Christ; by faith we may realize that the sacrifice of Christ was for the sins of the whole world, and may appropriate our share thereof.

Gehazi, the Gaffer, a Leper. Gratitude is one of the most worthy sentiments of the human mind. General Naaman's nobility was manifested in the fact that, after being healed, he retraced his journey nearly forty miles, in order to thank the Prophet for his recovery and to bestow upon him gifts which he had brought.

Many have erroneously assumed, in connection with this lesson, that Naaman was saved to heaven and Gehazi lost. Naaman was saved to health and Gehazi lost his health. But the eternal interests of neither were settled. Not until Cornelius' day, three and a half years after the Cross, did any Gentile come into any kind of relationship with God.

WASHINGTON LETTER.

Washington, D. C., Mar. 24.—The Jockey Club of New York and the sporting gentry all over the country are very bitter against the 'hypocrites,' who have been so successfully legislating against horse racing. The breeding of race horses in America has been doubtless given a staggering blow—but what of it? The race horse is the least useful of the equine race.

The Presieent of Vassar declares that women students are more clever than men. Springfield Mass. March 16.—Workman installing a new heating system at the home of Alva S. Attacks School Principal. A severe attack on school principal Chas. B. Allen, of Sylvania Ga., is thus told by him. 'For more than three years,' he writes, 'I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely.'
