TO PUSH MOUNTAIN TO SEACOAST HIGHWAY

Raleigh, April 20.—Organized by the election of H. B. Varner, of Lexington, as president, E. E. Britton, of Raleigh, as secretary and G. C. Royal, of Goldsboro, as treasurer, the central highway trustees are ready to proceed with pushing the building of a great highway from Morehead City through Raleigh, Durham, Greensboro, Salisbury, and Asheville to the Tennessee line. The organization meeting was held this morning in the commissioner of agriculture's offices with 13 of the 19 trustees present in person and two others by proxy. E. C. Chambers, of Asheville, and W. T. Morgan, of McDowell county, were absent, and Iredell and Catawba counties provided proxies. The meeting was a very enthusiastic one and a resolution was passed asking the state geological survey to locate this highway as soon as possible so the various counties would know what roads to begin to improve.

A central executive committee was appointed as follows: H. B. Varner, chairman; William Dunn, of New Bern; Dr. J. M. Templeton, of Cary; R. B. Clark, of Statesville; W. T. Morgan, of McDowell, and J. A. Wellons, of Smithfield.

A resolution was passed after some discussion empowering the executive committee to proceed with the detail work and to divide the trustees into sections; also to receive any contributions and forward same to the treasurer. To provide funds for the preliminary work, a resolution was passed asking the county commissioners of the counties through which the road is to run to make an appropriation of at least \$25 at once.

During the meeting it developed there would be several contests for a route through the counties. One of these is through Orange and Alamance counties. From Durham, some people want the route to follow the Southern railway to Hillsboro and thence on, while there is a strong sentiment favoring the route through Chapel Hill and thence to Burlington. Whether it shall go by Statesville or Mooresville to New to is another proposition that, of course, will have to be settled. The most benefit, of course, would come by both routes being constructed and let the public travel either it wished. The contest will insure the construction of the road through those counties.

Mr. Wellons announced that Johnson county could build its part of the highway in 60 days. Mr. Varner advocated sand clay roads in the east at a cost of about \$200 per mile.

DEPUTY KILLS MAN FOR LITTLE CAUSE

Asheville, April 19.—Believing that a reward of \$35, once offered by the Governor of Georgia for the capture of Thomas Marshburn, an alleged escaped horse thief, was outstanding, W. H. Hyde, a deputy sheriff of Graham county, today arrested and later shot and killed the former near Bryson City, although it is said Marshburn was offering no resistance to the deputy.

It is stated that Marshburn was pardoned by the Governor of Georgia after his escape, owing to the fact that he (Marshburn) was suffering from tuberculosis.

When Marshburn was arrested today by Hyde he was working at a farmer's house. He asked permission to change his clothing and this was granted. Marshburn took longer to effect the change than the deputy thought necessary, and the latter went after him, dragging his prisoner out. Marshburn hung back, declaring that he would rather die than go back to the Georgia roads whereupon it is alleged, Hyde drew his pistol and shot Marshburn through the heart.

CITIZENS MASS MEETINGS.

The citizens of Burlington will meet in mass convention Friday Night at 8 o'clock in the Mayors office for the purpose of nominating a candidate for Mayor for the coming municipal election. Let everybody who is opposed to dragging politics into our municipal affairs, and who believe from viewing the past administration of our affairs, that you can find better men when you have all parties to select from, than when you have to take what is contained in one party. Attend this convention. Those who believe that all the intelligence and all the financial judgment is vested in one party not withstanding our deplorable condition have already spoken. If however you have good reason to change your opinion you too are invited. Come and bring your neighbors and lets reason together. Remember the date and the place. What we want now is the man.

WARD MASS MEETINGS.

The citizens of the first and fourth wards will hold mass conventions for the purpose of nominating aldermen for the ensuing two years at the following times and places.

FIRST WARD. MAYORS Office Friday Night 8 p. m.

FOURTH WARD. LAYTONS Store Thursday Night 8 p. m.

Let everybody who feels an interest in the future welfare of the city be present at these meetings. No up town or down town clique, no cut and dried program. You wont have to ask what is going to be done, or take orders from some party boss, but you will have an equal chance in helping to decide what is best for the town and the tax payers. Do not get the dates mixed or listen to those who may try to deceive you in regard to the real purpose of these meetings but come and help shape your own city affairs.

MALCOLM ARNOLD ATTEMPTS SUICIDE IN DURHAM HOTEL

Durham, April 22.—In the presence of the girl he loved, Malcolm B. Arnold of Norfolk this afternoon placed a revolver to his breast and fired when the mother of the young woman ordered her daughter to leave his company.

Young Arnold, now in the employ of the National Real Estate Exchange of Norfolk, when he formerly resided here was employed with the Coca Cola Company, met the young woman and fell in love with her. In town on business, this afternoon he called upon her at the Church Street Hotel. He was in the parlor with her when her mother saw the pair and ordered the daughter to quit the room.

As she turned to obey, Arnold fired once and fell through the door into the hallway, face down. The ball missed his heart one inch and penetrated his lungs. He was removed to Watts Hospital, where physicians say he has a slight chance of recovery.

In the hospital he piteously begged friends to kill him, saying that he had no desire to live. "God knows I loved the girl," he said, "better than life; better than anything else in this world. I tried to treat her right, but she had a heart of stone. That's the reason I did it."

CHARGED ADMISSION TO A LYNCHING IN KENTUCKY

Louisville, Ky., April 21.—Kentucky established a new record in lynchings today, when a mob in Livermore took M. Porter, a negro, who had killed a white man, from jail, hanged him on the stage of the local opera house and charged admission for persons to enter and shoot at the body hanging above the footlights.

It is reported that the money taken in at the door went to the family of the white man the negro had killed. Those who bought orchestra seats had the privilege of emptying their six-shooters at the swaying form above them, but gallery occupants were limited to one shot. The whole town is reported still in possession of the mob.

TEST ON DEAD BODY MAY FREE PATRICK

Albany, N. Y., April 19.—By means of a demonstration made today on a body that had been embalmed for a year, members of the New York State Embalmers Association claim they have proved that evidence offered in defense of Albert T. Patrick, now serving a life sentence in Sing Sing for the murder of William Marsh Rice, was correct. It was the contention of the prosecution that the congested appearance of Rice's lungs was due to chloroform, and not to the injection of embalming fluid, as claimed by Patrick's experts.

Dr. C. F. Meadinger, Jr., of Brooklyn, made the demonstration today on a body that had been embalmed last year at Syracuse and at its conclusion declared that the fluid injected in the right branchial, reached and diffused in the tissue of the lungs a thing which he said experts for the Patrick prosecution insisted was impossible. It is understood that the results of the tests will be laid before Governor Dix.

DISCOVER THE SECRET OF ESCAPE AFTER 48 YEARS

Columbus, Ohio, April 19.—That General John H. Morgan, a Confederate leader, who escaped from the Ohio penitentiary December 17, 1863, together with five of his staff, walked out of the penitentiary through the front gate instead of crawling through a tunnel dug with spoons, was the belief reached by prison officers today.

After 48 years of searching, the supposed Morgan tunnel was uncovered today by prisoners excavating for new cells blocks. Contrary to history, it was found not to have been a tunnel dug by the six men with spoons, but an air chamber excavated when the buildings were erected. It extended from the main building to the old chapel. It did not lead outside the walls.

Mrs. Jno. Fonville of R. No. 2 is seriously ill and hardly expected to recover.

OFFICIAL MUST GO TO THE PENITENTIARY

Washington, April 20.—After a legal battle lasting nearly four years, Franklin P. Mays, former district attorney at Portland Oregon, convicted with former Senator Mitchell and Binger Hermann of gigantic land frauds, lost his fight today when his application for pardon was refused by President Taft. Mays was sentenced to serve four months in jail and to pay a \$10,000 fine. Since his conviction, which was in 1907, he has been out on bond, but it was announced at the department of justice today that he will now be incarcerated immediately.

REVENUE OFFICERS KEPT BUSY NOW IN CAROLINA

Raleigh, April 21.—Deputy Collector Adams, of the internal revenue service, says he has averaged seizing three blockade stills per week for several weeks now and that the indications are that he will maintain some such a record for some time to come from the way information is coming in as to material to work on. He says blockading has for a long while been confined to some remote and more inaccessible sections, but that it is spreading into all parts of the State now with remarkable rapidity. He believes blockading has multiplied several times of late and that it is getting at the same time to be more and more difficult to get up with the blockaders actually at work. They dodge about and have friends on the alert so that by the time officers get in their vicinity the still disappears and evidence as to the identity of the blockaders is hard to obtain. He says the officers, however, keep hammering at the situation and he believes they will be able before a great while to cope more fully with the situation.

Miss Queen Ingle left Tuesday morning for Durham where she will spend a few days attending the State Council meeting of the Daughters of Liberty.

EXPRESS CAR IS ROBBED OF CASH AND VALUABLES

New York, April 20.—The New Jersey police are searching today for clues to the identity of the principals in an express car robbery which resulted last night in the loss of over \$1,000 in cash and the disappearance of about \$5,000 in valuables. Car inspectors at the Weehawken terminal of the West Shore railroad discovered, shortly before midnight, that an Adams Express car which had just come in over the Ontario and Western railroad, had been rifled by thieves.

The car was filled with trunks, suit cases and small express bundles. The door stood open. Every trunk had been emptied. The thieves did their work thoroughly, for not a cent of cash in any of the trunks or packages was left. Every valuable article was taken. A steel express box which belonged to the express company, containing over \$1,000 was taken.

The car passed through Sullivan and Orange counties, New York, on its way to New York. Messages have been sent out over the wires to all points through which the car passed, asking the police to be on the lookout for robbers. The officials of the railroad company think the robbery occurred somewhere near Middletown, N. Y.

DENTIST CANNOT WRITE PRESCRIPTIONS FOR BOOZE

Greensboro, April 19.—In ruling that J. O. Roach, a prominent dentist of Madison, N. C., was guilty of a violation of the State prohibition laws, recorder Hastings of the City Court of Winston-Salem, today held that a dentist was neither a practicing physician nor a surgeon and therefore not eligible to write prescriptions for whiskey. A fine of \$25 and costs was imposed. Under the prohibition laws of North Carolina the sale of whiskey is placed entirely in the hands of physicians and today's ruling stops dentists from enjoying a privilege that has until now been practiced without question.

TRIPLE CRIME BY A NEGRO FIEND AT BRISTOL

Bristol, Va., April 22.—That the purpose of the negro who butchered the whole family of John Marshall in Bristol late last night was assault upon their young daughter developed today.

It also clearly developed that the negro intended to murder the other three members of the family before attacking the young woman and that he thought he had accomplished this when he turned upon Mrs. Pritchard, the daughter, and slashed her viciously. The negro is still at large.

Marshall's throat was cut while he slept. He sprang onto the floor after his windpipe had been completely severed and grappled with the negro. His wife thought he was having a nightmare and sprang onto the floor and caught her husband. The negro then grabbed Mrs. Marshall, who is past 60, and almost cut her head from her body. He then turned upon the old man and slashed him into complete insensibility. Leaving them for dead, he went to an adjoining room and slashed the throat of a seven-year-old adopted boy. Finishing this, he went for Mrs. Pritchard, who had barricaded herself behind a door. She fought like a tiger, but was fearfully slashed about the arms and hands.

The screams from the boy and Mrs. Marshall caused the negro to leave the young woman and run to each, cutting each of them severely. The noise had aroused the neighborhood, so the negro left. Three or four minutes later and before any neighbors entered, the negro returned and cut each of the three worst wounded several times and had another battle with the young woman, still barricaded behind the door. The noise of persons approaching caused the negro to flee at this juncture.

Mr. and Mrs. Marshall may both die, though the jugular artery of neither was cut.

Posses have scoured the surrounding country in every direction today and there is the greatest excitement.

The negro population has closed like an oyster. A report that the guilty negro, whose description the police have, was caught at Johnson City, led a mob of a thousand to meet the next incoming train from that direction, but there was no prisoner aboard.

FIVE CHILDREN BURNED TO DEATH IN BLADEN COUNTY

Wilmington, April 21.—Information has just been received here of the burning to death of five negroes, the children of Reuben Brown, a tenant on the farm of H. C. Bridger, of Bladenboro, Bladen county, Tuesday night. Four of the children were between the ages of two and five years, and one girl of twenty. A negro man who occupied the same house barely escaped by jumping through a window. When the fire was discovered the house was in a mass of flames. It is supposed that the fire originated from the explosion of a lamp. The parents of the children were away from home.

CHOWAN COUNTY CITIZEN DIES SUDDENLY IN STREET

Edenton, N. C., April 20.—W. W. Savage, about 70 years old, from Savage, a siding of the Norfolk Southern Railroad, Suffolk division, dropped dead here at about four o'clock today, at the passenger station.

Mr. Savage was a man of some prominence in this section, a Mason and an Odd Fellow. He had bought ten thousand herrings from Mr. E. C. White but a few minutes before his death. He died between the fish house and the train he was making for to return home. His remains were taken in charge by the fraternal ties and carried to Ziegler's undertaking establishment.

In Memory of Olive Holt.

Departed this life on April 2, 1911, Olive F. Holt, daughter of Mr. and Mrs. Jas. H. Holt, aged seven years. Little Olive was sick but a short time, during which time she suffered greatly, yet how patient, she was during her sickness was she known to murmur. She was a favorite of all who knew her.

The child, the babe that lay so near the mother heart is lain away in the cold and darkness; yet there is consolation, for she is now where pain and suffering cannot come, where the river from under the throne never freezes. And now, O Father, lead us up until we reach the shining gate and go in and join the dear little one who has preceded us into that blessed country where there are no tears, no parting and where there can be no death.

We miss you every day, Olive! From your accustomed place; The hours seem long and lonely, Without your dear sweet face.

Our hearts are often sad and weary,

In thinking of the past, The vanished dream of few short years,

That were too bright to last.

But we are not repining,

God leads we know, the way, Sorrows are soul-refining For realms of endless day.

We give you up to Jesus, Our precious darling dear, We know He makes you happier Than you could ever be here.

And when earth's sorrows press us,

And we are sad and faint, Come near in spirit whisper, Hope's shining picture paint.

We'll pray and love and labor—

'Till life and hope shall cease, Then life eternal, Olive, We'll spend with you in peace.

Watch by the "gate" that's "golden"

You and other loved ones there, And meet us when we are called to come

Your blessed home to share.

GOOD WORK.

Done Daily in Burlington. Many Citizens Tell of It.

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Burlington still continues, and our citizens are constantly adding endorsements by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

J. A. Harder, Davis St., Burlington, N. C., says: "I was troubled a great deal by backache and pains through my loins and sides. I often noticed that the kidney secretions were unnatural and passed entirely too frequently. Upon a friend's advice, I decided to try Doan's Kidney Pills and procured a box at the Freeman Drug Co. I had used them but a short time before my kidneys were restored to their normal condition. I heartily recommend Doan's Kidney Pills to other sufferers."

She Changed Her Stockings and Her Mind.

An Oregon swain and his lady fair, after having been engaged for four years, were on their way to the minister's Saturday to get married, when the bride-to-be discovered a hole in her right stocking just above the shoe top. By the time that the two had reached the parsonage she decided that the hole would show when she kneeled before the minister.

In spite of the protests of the groom-about-to-be she bade him and the minister wait until she could go home and change her stockings. She hadn't been home more than five minutes before she telephoned that he need not wait any longer. She said that while changing her stockings she also changed her mind and had determined not to marry.

As we mortals fatuously say of mortal affairs, what a fortunate thing this youth was the discovery of a hole in the bridal stocking. He need not expect to find a lady who does not now and then exercise woman's prerogative, to be sure; but this one is one of those violent exercises.—Asheville Gazette-News.

Information for Farmers.

Now is the time the farmers of the state are preparing for the harvest time, which means the money they shall realize and upon which their living depends. But what shall it be? To no inconsiderable measure it depends upon what kind of seeds are sown. Often absolute failures are caused by planting poor seed that will not grow or, still worse, seed that is badly adulterated with serious weeds, which entirely ruin the land for certain agricultural purposes, often upon which the farmer most depends. That there is a great difference in the farm seeds sold in the state is forcibly shown by the difference in the results of the analyses made at the Seed Testing Laboratory of the Department of Agriculture, cooperating with the United States Department. For example, the results of the 125 tests of Red Clover seed made this spring by the Seed Laboratory ranged all the way from 50 per cent to 99.6 per cent Pure Seed and from 20 per cent to 97 per cent Germination. Some contained no weed seeds at all, while others more than 90, 000 to the pound. Some samples contained more than 50 per cent of Dodder or Love vine, which is the worst of all pests that occur in Clovers and Alfalfa. This great difference in the quality of seed is not only true in case of Red Clover but of all the farm seeds.

Not only the loss of money paid for the seeds, which is really a small item, but the failure to obtain crops can be prevented by knowing the value of the seed which is planted. The Department will make tests of all agricultural and vegetable seeds for any farmer in the state free of charge and reports will be sent to him promptly. In case the seed does not come up to the standard of good seed the lot may be returned to the dealer from whom it was purchased and the money refunded or a good quality of seed given in exchange, which ever the purchaser desires. In submitting samples to be tested, for the smaller seeds, such as Red Clover and the grasses, one half of a teacup will be sufficient; for the larger seeds, such as the cereals, more should be sent.

Address all samples to the Seed Testing Laboratory, Department of Agriculture, Raleigh, N. C. with the following information: Retail price of seed and name and address of dealer from whom it was purchased.

Selling Votes.

Presbyterian Standard.
The moral baseness of selling votes at elections cannot well be exaggerated. Whoever sells his vote proclaims himself to be unworthy of citizenship, the foe of his country and a traitor to a most sacred trust. To perpetuate our republic we must keep the franchise free and incorruptible. All men who tamper with its purity are public enemies, however secret their bargain may be, however specious their excuses and their defense. To make a traffic in votes anywhere is to degrade manhood and speedily destroy the State. Under all disguises the venom is deadly, swift to spread, slow to yield, exceeding hard to eliminate. If there is one thing more frightful than the sweep of the plague, it is this secret swoop of greed upon the soul and spirit of the voter in the open poll or the sly casting of corrupt votes for measures and men that may merit nobler support. When a man shows degeneracy of principle his acts are dangerous. He may seem to do a high service to men while he steals and lies. The venom of mentality simply eats out the heart of virtue. It is a virus that kills the soul of honor. When this poison is once injected a man's whole spiritual being is in peril. Every finer sentiment is touched with a blast from the bit, graces fade and a slow gangrene of self creeps horribly along the natural course of honorable living. So the whole body politic becomes corrupt. And every Christian man is called to act in the premises as a Christian and what he can under law, to bring offenders to account. To this he is obligated in the most solemn way.

No matter how lazy you get, don't blame it on the hookworm. Will Arizona demand that Congress pass an act admitting Buffalo Bill to the Union. Riches do not always bring true happiness. A Pullman car conductor committed suicide the other day.

WASHINGTON LETTER.

Other cities like San Francisco and New Orleans may contend for the prize of an international exposition lasting from May to November, but the capital of the United States is in a perpetual state of exposition and growing more interesting year after year. As transportation facilities improve as population grows, as wealth increases, Washington becomes more and more attractive and more and more the Mecca of hundreds of thousands of pilgrims. During the past week the Daughters of the American Revolution were in session at their beautiful temple facing the plaza south of the White House. The President addressed them in which flattery and irony vied with each other, but so deftly veiled that it is doubtful if the dear ladies knew all he was thinking. It is as good as comic opera to see this convention in full session, the stage banked with flowers and flowers bedecking the monstrous hats of two thousand ladies in the audience, beautiful gowns moving about the stage and through the halls, everything suggestive of elegance, wealth and vanity. The roll call resurrects the names of Mrs. Marth Washington, Mrs. Lucy Jefferson, Abigail Warren, Lucretia Hamilton and many other names that carry our back to that golden period of our history, when, since, the historical school books do not say otherwise, everybody was patriotic, honest and good. Well, long live illusion and down with hobble skirts!

Another convention, the American Academy of Sciences, is in session in the new National Museum. A lecture on the ocean was delivered by Sir John Gossow, Scotland, last night in which he told some of the results of the Challenger expedition in 1889 of which he was commander. The afternoon session was enlivened by seven papers on astronomical subjects. The subject of infantile paralysis was treated by Dr. Flexner who has become famous for his connection with the Rockefeller Medical Institution.

This is the third week of Congress and the Democrats are congratulating themselves on what they have accomplished and what they are expecting to do if it takes them all summer. Speaker Clark is making an effort to reform matters of the House of Representatives and he has smashed two hard wood gavels in the cause. There are other gavels, however, in his locker, and the country no doubt wishes him success and will give him credit for his effort whether he succeeds or not. Visitors to Washington who are so fortunate as to go into the House gallery are always surprised at the confusion and noise on the floor. Members of Congress are talking, writing, smoking, joking and moving about over the floor and it is almost impossible to hear the member who is trying to make a speech. In the midst of such confusion, no wonder that a member some years ago made himself famous by saying "Mr. Speaker, where was I?" The present speaker of the House was no doubt a member of a debating society when he was a little boy, and recollects what beautiful order was maintained there and how much better they knew and practised parliamentary etiquette than they do in the debating society over which he now presides. He is now insisting that parliamentary forms must be respected by Congressman who desire to interrupt the orator who has the floor. He insists that there shall be no loafing in the aisles, that smoking must be stopped and that courtesy must be shown the member who has the floor and is trying to make himself heard. I believe our Congress is the only legislative body in the world that has separate desks before each seat like children in the public schools. Sooner or later doubtless we will adopt the English plan of having the members sit on seats without desks and that will probably do much to abate such confusion as at present exists. Then the enlarged House membership will not seem so unwieldy.

Henry George, Jr., the son of his distinguished father, made his first speech in the House on Tuesday when he announced himself a free trader and explained that he had taken up his lot with the Democratic party because he believed it was the only great party that was moving toward the light. His speech was respectfully listened to by Democrats and Republicans alike, but did not arouse enthusiasm in either party. His words were twisted

ed by Mr. Picket of Iowa in a following speech to show that the Democratic party was urging the reciprocity agreement with the ulterior hope that it would lead to free trade.

Stopped Those Pains.

Timberville, Miss.—Miss Gertrude Gutlin of Timberville writes: "I did not know anything could stop those womanly pains, from which I suffered for two years, until I tried Cardui. I had been troubled with various female ailments, but they were cured in a little while, thanks to Cardui." Cardui is especially adapted for use by ailing women. It relieves headache, backache, dragging feeling, irregularity, nervousness, misery and womanly weakness. It is safe. It is reliable. It does the work. Will you try it? Please do.

Courtship in Church.

A young gentleman happening to sit in a church in a pew adjoining one in which sat a young lady for whom he conceived a sudden and violent passion, was desirous of entering into a courtship on the spot, but the place not suiting a formal declaration, the existence of the case suggested his fair neighbor a Bible (opened with a pin stuck in the following text: Second Epistle of John, verse fifth—"And I beseech thee, lady, not as though I wrote a new commandment unto thee; but that which we had from the beginning, that we love one another." She returned it pointing to the second chapter of Ruth, verse tenth—"Then she fell on her face and bowed herself to the ground, and said unto him, Why have I found grace in thine eyes, that thou shouldst take knowledge of me seeing that I am a stranger?" He returned the book, pointing to the Third Epistle of John—"Having many things to write upon to you, I would not write with paper and ink, but I trust to come unto you, and speak face to face, that our joy may be full." From the above interview a marriage took place the ensuing week.

Terrible Picture of Suffering

Clinton, Ky.—Mrs. M. C. McElrby, in a letter from Clinton, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. I had lost hope. After using Cardui a week, I began to improve. Now I feel better than in six years." Fifty years of success in actual practice, is positive proof, furnished by those who have used it, that Cardui can always be relied on for relieving female weakness and disease. Try Cardui, today, now!

Mr. Lorimer thinks this investigating business can easily be over done. It must be great for the convicts in the California penitentiary to have a model of piety like the one for a Sunday School teacher.

Helpless as a Baby.

Valley Heights, Va.—Mrs. Jennie B. Kirby, in a letter from this place says: "I was sick in bed for nine months, with womanly troubles. I was so weak and helpless, at times I couldn't raise my head off the pillow. I commenced to take Cardui, and I saw it was helping me, at once Now, I can work all day." As a tonic, for weak woman, nothing has been found, for fifty years, that would take the place of Cardui. Try a bottle today. It will surely do you good.

Wednesday, April 26, 1911.

Smart men change their minds often, fools never. So that accounts for it.

Well yes, we have heard it, but we are not surprised. We have known it for a long time.

We presume that he will not get caught napping in the Democratic back yard any more.

And his name is Kirk. That sounds familiar, seems as if we have heard that name before.

This Burg is no longer the city of Love and flowers. The flowers are here but where is Love.

See notice upon the front page of this paper for the ward, and the whole town mass meetings, and make a sacrifice to be present.

When you have a man whose record is good, but want to get rid of him, trot out a so-called business man and beat the socks off of him. That's politics.

While Governor Aycock is running for the Senate he will have an opportunity of practicing up on his little mocking bird and pistol song that he used to sing throughout the state.

Well, he certainly did not mean it when he said it, or he would not have gone back upon his word. Oh, not for the world. What a politician breaking his word! Perish the thought.

If you want to know how it was done ask Prof. Garwood. He knows, because he helped to do it. We have told you all the while that the Prof was a slick article. Some of you will believe us hereafter.

By chance he got in. But it was not by chance that he got out, they took him by the nape of the neck and the seat of his pants and bodily threw him out. Yes, that's what they did. But then that's politics.

Shall two or three men get together and say who shall win, or who shall be slaughtered. Answer this with your presence at the citizens mass meetings, for time and places see front page of this paper.

The announcement that Ex-Governor Aycock will enter the race for the United States Senate to succeed Senator Simmons is no surprise. Of course a Democrat will run, whether he stands any show of winning or not.

Well now that it is done, what are you going to do about it anyway. Well, what can I do? Why join the citizens movement of course. Well that's easy, I had not thought of that, I am with you and you will see me at the next convention and I will bring my neighbor too.

The announcement that President Taft has under consideration the appointment of a Demo-

crat to the Federal bench in South Carolina will create a regular exodus of that tribe to Washington until the matter is settled, that is, if they are in any manner like the North Carolina unterrified.

Mr. J. O. Foy, who some two years ago, with the aid of the progressive citizens of Mebane, established the Leader in that thriving town, announced in the last week's issue that he had purchased the outfit, paper etc. We congratulate brother Foy upon his success, in what appeared to us at the time as a risky venture. Mr. Foy is a clever gentleman and is giving the people of that town a good paper and they should stand by it in the future as in the past, for therein lies the secret of success.

We carried a news item last week from Mebane that the White Furniture Company had just completed a contract of 94 car loads of Mahogany furniture for the War Department of the United States Government. This item should be read carefully by our people and we should profit thereby. No town will grow or thrive when all of its industries run a long in the same channel. We need more diversification of our manufacturing enterprises to insure a strong healthy growth. Let us have a furniture factory.

Says Mr. Democrat who believes in a straight ticket, to Mr. citizen who abhors politics in the city election: So you are going to support these citizens nominees, and turn your back upon the only party that is capable of giving you good government are you. Well yes, that is what I have about decided to do, because this so called good government party has not panned out that way to my thinking. Well said Mr. Straight Party man, that is true viewing the past, but then aren't we offering you a new duck? Yes but I am afraid that he is the same specie of fowl, and I don't care to take chances again, so good day, will see you at the polls.

He Changed His Mind.

Once upon a time, a certain man said that he positively would not have anything to do with the town election if it was to be run upon political or straight party lines. But he changed his mind, yes he changed his mind.

Are You Asleep.

Are you asleep Mr. tax payer? If not why don't you take some steps to protect your interests. Are you so thoroughly disgusted that you are ashamed to try to do anything to better the city's financial condition. Wake up, there is time enough yet. Get behind the citizens ticket that has already been nominated, and attend the meetings of those yet to be nominated. See that only safe and conservative men are named, register and vote your convictions. This done, no matter what the result, you have discharged your duty manfully and to the best of your ability, and no matter what the result, no blame can attach to you. Again we say wake up, get busy and the result will be all that is needed.

The Citizens Ticket.

The citizens of Burlington held mass meetings in wards two, three and four as advertised, in ward one, owing to the size of the crowd, no meeting was held, those present thought best to defer the meeting to some future date. In the Fourth ward no ticket was nominated, although there was a large and enthusiastic crowd present. An organization was affected and the chairman and executive committee was empowered to call a meeting nearer the approaching municipal election, which we understand will be done. The ticket nominated in the second ward is the best that could have been named from the stand point of character and ability, and we see no reason why they should not be elected unanimously, in the third ward

an equally as good ticket nominated, but not with quite so much business experience, but the men in both wards are clean and among our best citizens and the business of the city will be safe entrusted in their charge. We understand that an effort is being made to have them refuse to run, by those who want to drag the town deeper into the political mire in order to bolster up an excuse for a straight party ticket. We trust however that they will not be successful and that the men nominated will make the race, whether they get elected or not, because if they run and are not elected, and the city administration remains in its present bad straits, or even gets worse, if that be possible, then the taxpayers will have no one to blame but themselves, for if they have good men to vote for, and refuse to exercise that right, then the blame is upon them and they alone are to blame.

The men nominated in the second ward are: Lynn Banks Williamson and John G. King, and in the third ward, J. G. Rogers and Prof. H. C. Stout. The Dispatch will take pleasure in lending its columns and influence to aid in their election, and we trust and feel that when the first and fourth wards hold their meetings that equally as good men will be nominated. The men called upon by the citizens of this town to serve them, should make a personal sacrifice to do so. If there ever was a time when it will take wise and conservative action to save us from bankruptcy and failure it is now. Where is the loyal true hearted business man, who will desert the old ship of state at this critical juncture, for the fear of criticism and party regularity. We hope and trust that

these who want to see their party in the ascendancy so far as the offices and victory is concerned, to lay aside this desire and lend their aid at this critical time to avert an impending disaster. We are not overdrawing the picture ask any well informed man privately for his opinion, and he will corroborate our statement, but should the hot headed and partisan blinded have their way, may the good Lord provide for us or else we sink.

The Party of Repudiation.

The democrats of the city of Burlington are not unlike their brethren of the state and nation, in that they are repudiators, at their convention held last night for the purpose of nominating a candidate for mayor for the municipal election, the present incumbent and appointed to fill out an unexpired term caused by the resignation of former mayor Barrett. They refused to endorse his administration by failing to renominate him and show to what depths they carried the repudiation. Mayor Love only received twenty seven votes out of a total of 146 cast. What has the present incumbent done to merit such a severe rebuke what has he done, will those who sought his political destruction and are responsible for his down fall answer, again we say will they answer.

This city is in the throes of a water famine, this is a most serious matter, not that there is danger of any one perishing for the want of drinking water, but upon account of the sanitary condition, and the danger of a disastrous fire. This condition should be considered along with the candidates for Alderman.

ANNOUNCEMENT

I hereby announce myself a Candidate for Mayor of the City of Burlington, N. C., Subject to endorsement of the people.

Respectfully

J. H. FREELAND

Abolishing the Cook.

Pittsburg Dispatch.

Let the cook tremble. The end of her reign may be at hand. The help problem may be solved. It all depends upon the accuracy of Dr. Robert Bell's diagnosis, announced at the Simple Life Conference in London. He says we should eat only uncooked food, that not only meats but the "natural" fruits and vegetables should be served raw. Listen to him:

"Man is the only animal who cooks his food. Among wild animals we don't find disease, we don't find decayed teeth, we don't find cancer. It is only in the animals that comes in contact with man that we find disease."

Nor is freedom from disease the only benefit from eating uncooked food, according to the doctor. As a consequence we will live to greater ages. The natural food countries, Scandinavia, Hungary and Bulgaria, he says are overrun by centenarians Bulgaria having nearly 4,000 compared with only 78 in pork-eating Germany. His reasons for not cooking food are that in its natural state it contains three times the nutritive value of cooked food. Therefore we have to eat three times as much and give our digestive organs three times as much work.

Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gaines, of Avoca, La., "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health, strength and vigor. They're guaranteed to satisfy or money refunded. Only 50c at Freeman Drug Co.

Girl and Pone-Cake.

Chicago Journal.

Some time ago, Georgia reported with justifiable pride that it had a boy 15 years old who has succeeded in raising 125 bushels of corn to the acre. But now the same enterprising state comes to the front with the record of a girl 16 who has placed on exhibition at the state normal school 52 varieties of corn food dishes! Every one of those dishes is described by the experts as not only palatable but absolutely delicious. Of course the boy's success depended in no small degree on weather and soil conditions. But that girl! Fifty-two varieties of corn-food dishes! And all delicious!

In days "before de war," Virginia dorkies had a "pone cake" song the refrain of which was:

Ole Virginny nebbber tire—
 Put de cake upon de foot and hole it to de fire.

It is a familia saying that great changes have come upon the South since the days of that song. Few however, in the line of gastronomy have equaled the advancement in the art of pone-cake making. What a joy would have been added to the gastronomic experiences of Brillat-Javarin could he have lived to know that Georgia girl!

The Prayer of a Horse.

To Thee, My Master, I offer my prayer:
 Feed me, water me and care for me, and when the day's work is done provide me with shelter, a clean, dry bed and a stall wide enough for me to lie down in comfort. Talk to me. Your voice means as much to me as the reins. Pet me some time, that I may serve you the more gladly and learn to love you. Do not jerk the reins and do not whip me when going up hill. Never strike, beat or kick me when I do not understand what you want, but give me a chance to understand you. Watch me if I fail to do your bidding; see if something is not wrong with my harness or feet. Examine my teeth when I do not eat. I may have an ulcerated tooth, and that, you know, is very painful. Do not tie my head in an unnatural position or take away my best defence against flies and mosquitoes by cutting off my tail.

And, O my master, when my useful strength is gone do not turn me out to starve or freeze, or sell me to some cruel owner, to be slowly tortured and starved to death, but take my life in the kindest way and your GOD will reward you here and hereafter. You will not consider me irrelevant if I ask this in the name of him who was born in a stable. Amen.

The President and Mexico.

Philadelphia Ledger.

It is to the credit of the American press that there has been very little disposition anywhere to magnify the disturbances on the Mexican border or question the competence of the Washington administration to safeguard all American interests there or in Mexico in a dignified and conciliatory spirit. The country is not in the least excited over anything that has occurred or is likely to occur, and any attempt to manufacture sentiment against Mexico, especially upon imperfect knowledge of facts, or to embarrass the President in dealing with a difficult situation, must be frowned upon by every patriotic person.

Exceptions may properly be taken, on this account, to the threatening tone of Mr. Stone's remarks in the Senate yesterday, though his purpose, as a member of the Foreign Committee is apparently no more than to give assurance that any positive action which the President may find necessary will be fully authorized by Congress. This is the attitude which has been generally maintained in Congress, where there has been an admirable abstention from disturbing talk. Public discussion of matters which are at the moment the subject of diplomatic communications is especially to be deplored.

And now the question is, What has Colonel Bryan against Woodrow Wilson that he should support so vigorously.

The desire to sit at the butt end of a fishing pole has kept many a lazy man out of serious mischief.

"I believe it saved my life," he writes "for it made a new man of me, so that I can now do good work again." Hookworm Treated in N. C.

The rapidity with which a knowledge of the cause, harm, cure and prevention of hookworm disease has spread among our people stands without a parallel in the history of preventable diseases. Only a year or two ago there was found quite commonly skepticism concerning the existence of such a disease; but practically all the doubters have now had opportunities for seeing the worms, the sufferers, their recoveries after treatment, and are now actively lending their support to the eradication of the disease.

The quarterly report of Dr. Jno. A. Ferrell, the State Director of the Hookworm Campaign for the three months ending March 31, shows that up to date the physicians of the State have reported treating 18,000 cases of hookworm disease, and that more than 500 of the active physicians of the State are treating the disease. Moreover, it shows that the Laboratory of Hygiene has examined since the work began 17,000 specimens of feces for the eggs of the hookworm which indicate the infection.

To prevent the further spread of hookworm disease, typhoid fever, and other diseases similarly spread a waiver for better sanitary conditions is rapidly spreading. "Clean-up Week," and the compulsory use of sanitary toilets are measures being inaugurated in many towns and villages. Quite a number of county and city boards of education have ordered the installation of sanitary toilets at the schools.

During the past twelve months there have been distributed approximately 200,000 pieces of stock literature on the subject which include a leaflet on hookworm disease, an illustrated pamphlet of hookworm disease, and an illustrated pamphlet on plans and specifications for sanitary toilets. These are sent on request to the Hookworm Commission, North Carolina Board of Health, Raleigh, N. C.

The campaign in a broad sense, is one for better sanitary conditions in the South, an aggressive warfare not against one, but against many diseases. "The success of the campaign," says Wm. H. Glason, in the April South Atlantic Quarterly, "must lessen the heavy burden of sickness, bring new vigor to great numbers of people, and accomplish the saving of thousands of lives."

Paint Lick, Ky.—Mrs. Mary Freeman, of this place, says: "Before I commenced to take Cardui, I suffered so much from womanly trouble, I was so weak that I was down on my back nearly all the time. Whitsett Items.

Messrs. E. W. Joyner and C. W. Brown who are students at the State University were visitors here this week.

The University of North Carolina has at each Commencement four young men to represent her in debating. Two of these young men this year are Whitsett boys.

Messrs C. R. Wharton and C. K. Burgess both of whom are juniors this year. Last year Whitsett had one man in the debate. — Mr. Gordon Thompson who graduates this year either first or second man in his class with a very high record in every line.

On Sunday the Y. M. C. A. spent an hour in discussing the question—How should a student spend his Sabbath? It was a very profitable discussion.

Regular services were held Sunday at the M. E. Church, by Rev. S. T. Barber.

The two Junior debates scheduled for this week are expected to draw large crowds.—one occurs on Friday night the 23rd and the other on Saturday night the 29th. The Dialectics come Friday night, and the Athenians Saturday night.

Misses Etta and Verna Smith are back in school after some days spent at home near Julian.

Prof. Thos. C. Pender will open a vocal music class here Monday, May 1st.

Easter week of 1911 will long be remembered in baseball circles here. On Monday Jamestown was defeated on the home grounds after a warm battle of balls, and on Saturday, last, the 22nd the team went over to Mebane accompanied by fifty or more students to meet Bingham School in the second game with them. Bingham having lost the first game with Whitsett 5 to 3 and tried to strengthen her team by adding on second and third bases Pearson and Brockwell from the Elon College team, but the additions could not save the day for her. Bingham scored one run in the first inning. Whitsett scored one also in the first and continued to score in the fifth, sixth, seventh and eighth until seven runs stood to Whitsett's score. In the ninth inning when Bingham seemed to have died with only one run to her credit the umpire made a close decision in favor of Bingham which allowed them two more runs, closing the battle Whitsett seven; Bingham three. The victory was enjoyed by all the more because of the fact that the Binghamites even with their two helpers for occasion added to their team could never turn the tide their way.

The second base ball team "The Tar Heels" expect to have a game with Burlington High School this week.

Several from here speak of attending the State Sunday School Convention at High Point this week.

The commencement marshals for the 20th, 21st and 22nd of May were elected last week by the societies.

Some much needed work was done on our roads during the past

week and it is hoped we may have more done soon.

Judge James E. Boyd has presented his picture to one of the societies. It is a good likeness of him, and much appreciated.

A very popular school hat recently adopted is seen now not on every side, but on almost every head. They are in the school colors and are very attractive.

CASNOW

EIGHTEEN YEARS

18 Years in buggy & harness business with ample capital to discount all bills buying in car lots should enable dealer to get lowest prices.

While my competitors were talking dull times and no money Saturday my sales were more than \$500.00 (names and addresses of customers if wanted). If I had \$65 and \$75 more cents to pay out I would have to sell buggies and harness high like they are doing.

My plan is to do the largest business on least expense. Unloaded another car Columbia "A" grade wheel buggies Saturday. Saving my customers \$7.50 to \$10.00 on buggy. \$15 on carriages. Big stock Mowers-Rakes-Harrows-Flows Cultivators.

More harness, collars saddles bridles than in all the stores in town. Best \$1 Bridle in town. Clover and Lawn grass, Hickory King and Batts seed Corn. Hurry up boys and get the buggies out before Easter.

Oakdale Dots.
The mad dogs made their appearance again a few days ago. Went to S. L. Spoon's, bit three of his dogs. When his son Tom came upon the scene it made for

him and having no other weapon than a mattock he proceeded to use it, by so doing killed the dog. It came from in the direction of Pleasant Hill church. It was a nice treat to visit the closing exercises of Cross Roads and Liberty schools at Cross Roads. The children showed they had been well trained. After their say we had a splendid talk from Rev. P. H. Fleming, County Superintendent, telling how and where the tax money goes that is put in his hands, something we never heard before. At Liberty we had the pleasure of having our Gov. W. W. Kitchen on education, showing we must educate our children or they cannot compete with the world. Mr. Fide Hornaday had a horse to get a very bad kick a few days ago which is doing better since being treated by Drs. Spoon and Hornaday our young veterinarian doctors who are spending a few days with their parents. After which they will locate in Burlington for practice. There being so much rain the farmers are behind corn planting they seem to not be fretting much as they remember that the "Bible" says there shall always be a seed time and harvest. Wheat, Oats and Rye are looking fine, if nothing hinders there will be a fine crop made. Floyd, Fred, and Effey Spoon spent Tuesday night with their parents and took in the rain and exhibition at Liberty Wednesday in spite of the threatening weather and rain several attended. We suppose there will not be much honey eat around Oakdale this year as nearly all the bees are dead so far as reported some have lost all, some nearly all, one man had 6 lost all, another 14 lost 12, this has been a very bad spring on bees, there being so much rain.

K. F. D. No. 7.
We "reniged" last week is the reason our Editorial did not appear in this paper and if you were disappointed don't blame the paper. Our farmers are very busy and every body works even "father" and Monre Linnens. If the leaves get grown by the 10th. of May this year they will have to get as busy as the farmers.

Esq. John Dixon and wife returned home from a three weeks visit to Dr. P. A. Dixon the Esq's son at Roanoke Va. last week. The Esq. says they had an enjoyable visit, and that those Roanokers are curious people. They are just crowded up there and pay from 12 to 15 hundred dollars a front foot for their city lots and build from 7 to 9 story building on them while all around there is so much land it is just piled up from 2 to 3 thousand ft. high, so high that they look like thunder heads all around and you can see the Sun only for a while during the Middle of the day. The Esq. says the fact is he didn't see it at all most of the time he was there, then hastily added that it was cloudy and raining most of the time. If Mrs. Dixon had not been over there we would suspect that the Esq. prowled around after dark and kept late hours then slept during the day but of course Mrs. Dixon would soon put a stop to any thing of that sort. Mr. and Mrs. W. B. Sharpe visited at J. K. Isleys Sunday. Wonder what is the matter Miss Permelia Watkins for the past few weeks? Perhaps Sidney has too much business at Burlington to suit her. Joseph W. Rich visited his brother at Belmont Saturday night and Sunday. He looked pretty sleepy at Church Sunday so we guess Joe and his "brother" had lots to talk about Saturday night. Jacob Sharpe crossed over Rock Creek again Sunday. Must be some attraction over at the "Cedars" for him. Early and Kate Edwards spent Sunday with their uncle J. W. H. Isley. Newton Fosters moved his family from Kimesville to Belmont last Tuesday. Lonnie Watkins visited his people on No 7 Sunday. Misses Swannie and Flossie Isley visited Mrs. Will Isley at Belmont Sunday. Miss Bessie Sharpe spent Sunday at Belmont with her sister Mrs. Jesse Redden. Charlie H. Isley left last Friday for the eastern part of the state to take orders for Nursery stock. Mrs. J. W. Rich who has been sick a week or so is improving. Sidney Russell and Willie Meacham were in Burlington Sunday.

Mr. Joe Brooks desires to thank Mr. Faucett who found his suit case No 6 who brought it to Burlington, the papers who kindly published the notice of his loss, and No 7 for bringing it out to him. Joe surely was delighted to get that suit case back again and as soon as he got hold of it he started for the house on the run to tell his five or six orphans and the widow about it. Zeb Isleys "blue flowers" returned Saturday night as the girl was in town. We won't tell her name this time for fear she might blush. Guess they had a nice time at the candy pulling at P. A. Capps as the kids were all there. Charles Nicholson was a pleasant visitor at O. L. Smiths Sunday evening and also Sunday night. Boyed Shepard felt blue last week as his best girl went home on a visit but he will change this week as she returned Sunday evening. Misses Blanche Boon and Ethel Coble was out promenading Sunday. Walter and Bertie Shoe spent Sunday at Alamance. Esq. W. A. Tinnin paid six dollars for some Sicillian Butter Cup Eggs, the new breed of chickens that are said to lay 300 eggs a year and now has 24 little chicks hatched out. If he raises a dozen pullets the egg market is liable to sag considerably next spring unless the demand increases.

Hornaday Mrs. Julia Hornaday and little Irene visited Mrs. Bocc Greenson Sunday near Mount Hope. we feel kinder sorry for Mr. M. F. H. since the widow Stroude has moved to Greensboro.
