

## GIRLS AND BOYS ELOPE FROM TENN.; COLLEGE

Bristol, Tenn., April 27.—After an exciting flight during which they were pursued by the police and professors in an automobile, two young women students from Sullens College, the big Methodist female college in this city, were this evening married to two prep students of King College, a Bristol Presbyterian male college, at Church Hill, Hawkins county, Tenn. They were Miss Annie Harris of Florida and Miss Eula Mae Gavin of Alabama, and were married to Samuel Wood and Kent Kane, respectively.

The elopers left here yesterday in an automobile and had several hours start of the officers and college professors before it was discovered that the girls were missing. Time was lost in telegraphing along the railroad to officers to have them stopped, as it was not thought that they had gone overland. When it was found in what direction the fleeing couples had gone, officers and the college professors impressed an auto into service and started in hot pursuit, only to arrive at Church Hill five minutes after the couples had been married by Rev. W. C. Crockett.

The boys slipped the girls out of the college a few evenings ago and took an auto ride. They were promptly expelled, but were being held until their parents could be heard from. Realizing their responsibility for the girls' plight, the boys arranged the double and sensational elopement, and without being detected the four left overland in an automobile.

The girls are 17 and 19 years of age, respectively, and the boys each about a year older. The elopers have not yet returned. It is said that the boys may be prosecuted.

## SMOKING CIGARETTE IN BED WOMAN SETS SELF ON FIRE

Philadelphia, Pa., April 28.—Indulgence in a cigarette as she lay in bed early today will cost the life of Mrs. Catherine Hawk, 26 years old, a bride of less than a year. She is dying in St. Agnes hospital. The woman's husband, traveling salesman is in Baltimore, and has been summoned to her bedside.

Mrs. Elizabeth Goebel, who rented a room in her South Cameron street house to the Hawks, was aroused by the woman's screams, and rushing into the room, found her writhing on the floor in pain, her night clothes in flames. The bed had been converted into a funeral pyre from which the shrieking woman had hurled herself. Mrs. Hawk told the police she was smoking a cigarette in bed. She must have fallen asleep, she said, and the cigarette set the bed afire.

## TO RECOVER BIBLE HE LOST ON BATTLEFIELD

Raleigh, April 27.—Adjutant General Leinster, of the North Carolina National Guard, received an appeal yesterday from Charles E. LaGrand, of Salem, Mass., asking his aid in locating the owner of a pocket Bible that is in his possession that was picked up on the Civil War battlefield around Newberne at that time and bears the inscription: "Lt. C. A. Boon, Company D, 35th, North Carolina Infantry, Dec., 61; presented by Mrs. C. K. Caldwell." Now it develops that Lieutenant Boon is still living at Elon College, being a retired Christian minister. A son, Dr. W. H. Boon, is a well known physician of Durham. Lieutenant Boon was quite a young man in the army and is a native of Chatham county. There will doubtless be speedy steps taken to place the lost Bible in the hands of this veteran and the story of its loss will be awaited with interest.

The girl in white is our unfailing sign of the arrival of spring.

## PRETTY BRUNETTE FOUND MURDERED IN THE WOODS

Lakewood, N. J., April 28.—Mrs. Charles Turner, a pretty brunette of middle age, was found murdered in the woods behind a studio building on Fulton street this afternoon. The woman's face had been beaten in by a big club which lay nearby stained with blood.

The body was found by Arnold Turner, a nephew, who was out searching for his aunt, who had been missing since Wednesday, when she left her home to deliver some dresses to women inmates of a local sanitarium. Her husband, who is an employe on the estate of George Gould, had hunted in vain for her for two days.

Young Arnold came upon the body lying in a pool of blood, indicating that she had been killed where she was found. A negro was arrested at Farmdale late this afternoon on suspicion that he knew something of the murder, but established a satisfactory alibi and was released.

## ENGINEER PINIONED UNDER OVERTURN ENGINE

Greensboro, April 29.—While speeding along the Atlantic and Yadkin track, four miles South of Greensboro, this afternoon at 4 o'clock, a freight engine overturned and pinioned under it Engineer R. B. Ferrell of this city, breaking both his arms and one leg and otherwise badly injuring and bruising him. For three hours the injured man lay crushed under the engine, though he never lost consciousness and was able to direct the men in the work of digging him from under the engine and removing him to the waiting train which brought him to Greensboro. Upon reaching Greensboro after dark, the wounded man was carried to St. Leo's hospital, where he was attended by surgeons, the broken bones set and his other injuries attended. The physicians express the opinion that Mr. Ferrell will recover.

The engine of the Sanford and Mount Airy passenger train had stalled at Climax and a call was made on Greensboro for an engine to help move the train. The engine was obtained and Conductor Steve Crews and Engineer Ferrell put in charge with C. N. Conrad as fireman. The engine had nothing but a tender attached and was moving away from town at a good rate of speed. Neas Vandalia, for some unaccountable reason, the engine overturned and fell on its right side. Conductor Crews escaped uninjured and Fireman Conrad only received a slight bruise on one hand.

## BOLD NEGRO BURGLAR CAUGHT AT ASHEVILLE

Asheville, April 21.—Tip-toeing in bare feet into the residence of Mr. and Mrs. R. L. Gwenby at No. 83 Chestnut street, a negro, alleged to be Daniel Moody, was discovered by Mr. Owenby shortly after 2 o'clock this morning as the negro poked his head into the sleeping apartment of Mr. and Mrs. Owenby on the second floor of the residence. Mr. Owenby jumped out of bed and chased the negro downstairs. In the descent the negro fell in turning an angle of the stairway and skinned his face.

He made his getaway through the front door, but was arrested this morning by Police Captain Lominac and Patrolman Fred Jones. It was a bold burglary and in the event the crime is fastened on the negro under arrest he will likely meet death in the electric chair.

A ticket bought in 1882 from the Central Pacific Railway was presented to Conductor Martin O'Neil last week by aged woman who boarded a Southern Pacific train at Oakesdale, Cal. The conductor accepted the ticket and the old woman rode to Stockdale.

## SIX SPANIARDS KILLED BY MEXICAN REBELS

Mexico City, April 26.—Six Spaniards were shot and killed Monday at the Hacienda Atencigo, in the State Puebla, by a small band of rebels, following their refusal to contribute 5,000 pesos to the insurgent cause. Atencigo is the hacienda where the rebels some days ago, secured a quantity of rifles, considerable ammunition and 25,000 pesos. On account of that loss the owner of the hacienda, Angel Diaz Rubin, a Spaniard, announced his intention of demanding an indemnity.

The band of rebels on Monday entered a house where nine employes were assembled. The rebels demanded money and were refused. They then attacked the Spaniards with machetes and drove them from the house, crying out, "Run for we are going to shoot you." As they ran six of the Spaniards dropped with bullets in their bodies. The reason assigned by the rebels for the onslaught is that a Spaniard gave information of their whereabouts to the authorities which had been pressing them. The news of the shooting was received here this morning and immediately the Spanish minister called at the Foreign office.

## TRAIN WRECKED AND ELEVEN PEOPLE BURNED IN RUINS

Easton, Pa., April 29.—Three persons lost their lives, eight are missing and believed to be dead and half a hundred others were injured this afternoon at Martin's Creek, N. J., in a wreck of an excursion train carrying 160 school teachers and friends from Utica and Syracuse, N. Y., and vicinity to Washington for a week's outing.

The train was one furnished the teachers by the Delaware Lackawanna and Western Railroad and the accident occurred while it was traveling at a high rate of speed over a stretch of track controlled by the Pennsylvania Railroad. The locomotive jumped the track, the cars followed, toppled over and were set on fire by exploding oil, the wrecked cars having sidwiped an oil tank along the track when they left the rails.

The entire train was quickly enveloped in flames and completely consumed by the fire. The eight missing persons, seven of whom were women and lived in Utica, are believed to have been burned to death in the wreckage. The finding of charred bones led the railroad wrecking crews to the conclusion that they are dead.

## MYSTERIOUS WILD MAN CAPTURED IN TEXAS

Houston, Tex., April 26.—Reports have been received from Marlin, Tex., of the capture of a "wild man," who has been terrorizing that vicinity for several months. The capture was made by Sheriff Poole, who is at a loss to know what to do with his charge, from whom he could secure no information.

For several months a mysterious person had been reported to the officers. The information described him as the proverbial wild man of the circus, but thorough search was unavailing. It was thought that the story was only an illusion, the reports heretofore coming from negroes.

Recently the sheriff was notified by white persons of the certainty of the existence of the "wild man." The intruder visited a farm house and compelled two little girls to cook some food for him, but he offered no violence. He disappeared that day, but officers discovered a cave which had the appearance of human habitation. Ashes, bones, leaves and straw were found scattered about, the later for bedding.

The officers lay in wait and that night captured the man as he entered his cave. His clothing was torn into tatters, his person neglected and his hair ten inches long, hanging below his shoulders, while his beard indicated a growth of indefinite period. He offered no resistance and was taken to jail. Nothing is known of him he refuses to talk and the officers are at a loss to determine his disposal.

## LONGWORTH MAY SUCCEED AMBASSADOR HILL IN BERLIN

Washington, April 20.—Although President Taft has not decided definitely on a successor to Ambassador Hill at Berlin, one name that is expected to consider is that of Representative Longworth, of Ohio. It is understood that Mr. Longworth is willing to enter the diplomatic service, having spent all the time in politics that he desires. Both he and Mrs. Longworth, who was Miss Alice Roosevelt, are intimate friends of the president.

One objection that might be made to Mr. Longworth's appointment to so important a post is that he is inexperienced in diplomatic affairs. If he is not sent to Berlin the probabilities are that he will get some other post that is considered less important.

## UNCLE SAM DOESN'T LIKE VICE-PRESIDENT OF MEXICO

Washington, April 28.—The reported declaration of Ramon Corral, vice-president of Mexico, that Americans were fomenting trouble in his country in order to force intervention, has encountered the disfavor of the United States government. The state department has called the matter to the attention of Mexico in order to establish officially whether the interview with the vice-president in which the statements excepted to are said to have been made, was authentic, as published in Mexico City. The question will be taken up by Ambassador Wilson, at Mexico City, to whom the department telegraphed late today a copy of an official statement which it had issued unequivocally disapproving the alleged utterances. The statement expresses the confident belief of the department that the Mexican foreign office will promptly repudiate and prevent the promulgation of any such statements, calculated so seriously to disturb the mutual confidence and friendly good understanding between the two peoples.

## GIVES THE MINISTER A SOUND THRASHING

Suffolk, Va., April 28.—Claiming that undue influence was exercised over his step-mother, Mrs. John M. Gay, by Rev. Mr. Bray, of Windsor, Va., which caused her to give him money and jewels, John Letcher Gay, a wholesale lumber dealer, of Suffolk, Wednesday gave the clergyman a merciless thrashing and then ordered him to leave town within twenty-four hours.

The minister has been conducting services at Windsor, his followers being called "The Sanctified Band." Mrs. Gay, according to her son, gave the minister a watch formerly the property of her husband, and the preacher sold it in a Suffolk shop.

Mrs. Gay had a long distance message from Windsor this evening saying Bray had left there, but whether permanently or not could not be learned.

## NEGLECTED TO TAKE OUT LICENSE TO HANDLE LIQUOR

Raleigh, April 29.—A sensation was created here today when revenue officers seized four barrels of bottled whiskey in the news stand refreshment store of W. C. Poland in the Academy of Music building. Poland came here from Atlanta and purchased the place. He told the officers he had just put off negligently taking out a government license to handle liquors, but he does not explain what he contemplated doing about the State prohibition law. That there was a consignment of three car loads of whiskey brought to Raleigh Friday, is the positive declaration of parties to government officials today. Edward Denton, for many years a leading saloon-keeper here, is the bondsman for Poland.

## RUSHING YOUNG WOMAN TO NEW YORK CITY

St. Paul, Minn., April 27.—A special car to the Chicago, Milwaukee and St. Paul road with Miss Helen Daly, daughter of the late Marcus Day, "The Copper King," of Anaconda, Mont., on board passed through St. Paul today, rushing the young woman to New York City, where an operation will be performed which it is hoped will result in saving her life.

The utmost secrecy is maintained as to the nature of the young woman's ailment, but it is known that she is in a dangerous condition. Two physicians and several nurses are on the train.

If we were Miss Spring we'd be ashamed of ourselves for letting winter linger there so long.

## PULLMAN CAR BURNED AT ROCKY MOUNT N C

Wilmington, April 27.—The Pullman car "Yucca," attached to the Palmetto Limited, north-bound Atlantic Coast Line train, was burned at an early hour this morning at the depot at Rocky Mount and M. J. Probstein, a traveling salesman of New York, was suffocated, while Flagman J. C. Russ and Mail Transfer Clerk W. F. Ireland were badly burned in assisting in getting the passengers from the car.

The fire started from a leaking gas tank, being ignited from a lantern carried by a brakeman. The alarm was at once given within the car and the sleeping passengers hurried out. It was thought that every one had got out safely, but when firemen went into the car to extinguish the flames Probstein was found and several firemen were overcome in endeavoring to get him out. When removed he was breathing, but died a few minutes later, although medical attention was at hand. Probstein was 30 years old and traveled for M. Finkelstein & Son, New York.

Ten passengers were asleep in the car, among the number being three women and one girl. Only a part of their belongings were saved.

The pullman destroyed was what is known as the Florence-Richmond car. Probstein was a passenger from Charleston to Richmond and boarded the pullman at Florence. The injured men were carried to the hospital at Rocky Mount.

New York, April 27.—Mrs. Jacob Probstein, a bride of four months, was just about to start South today to meet her husband in Richmond, Va., tomorrow when she was notified by telephone that he had been killed. She left tonight with her father and brother-in-law to bring the body home.

## BARN FIVE MULES AND OTHER PROPERTY BURNED

Concord, April 27.—This morning about 3 o'clock the large new barn of C. R. Montgomery, situated on his farm in No. 2 township, about five miles from this city, was destroyed by fire. There were five mules burned to death, worth in the aggregate about \$1,000. A lot of corn and roughness, three tons of fertilizer and other property was also consumed. There was \$590 insurance on the barn and contents, and the loss is probably three times that amount. No clue as to the origin of the fire has been found.

## FATHER KILLED DRIVER WHO RAN OVER SON

New York, April 29.—Giuseppe Bougroet, an Italian cigarmaker, who saw his three-year-old boy trampled fatally beneath the hoofs of truck horses tonight, took summary vengeance upon the driver, William Krugman, by pouring four bullets from a revolver into his body. The driver fell dead from his seat almost into the arms of a policeman, and a mob of 2,000 persons bent upon punishing him at first stood aghast at the shooting, then set furiously upon the slayer. Reserves rescued him unconscious and he was taken to a hospital, then lodged in jail on a charge of murder. The child died late tonight.

## Trolinwood Mill Sold

## HEALTH AND HEREDITY

Address by Dr. W. G. Stafford before the Health and Heredity Dept. of W. C. T. U.

This subject, as I understand it, involves mainly the health, happiness and general welfare of the present generation and of those generations which shall succeed it.

The subject is so vast that in a little talk of twenty minutes I cannot hope to do more than offer a few thoughts for the consideration of you, wives and mothers whom I have the honor of addressing this afternoon.

During the growing stage which we designate as youth, in health there should be a steady accretion of all the elements that go to make up the human body. Any interference with this growth is abnormal, and injurious to the individual, and therefore pervasive of the highest development of the human economy. I shall leave for the completion of the cycle of youth, adolescence and reproduction any consideration of pre-natal influences, of which we have heard so much in these latter days; for what I shall have to say before will most logically lead up to it.

Let us begin with the baby, as the child is said to be the "father to the man." Well, baby must be fed, clothed and cherished. How shall we feed him? God Almighty, who hears the young ravens when they cry for food has provided the pabulum which he will always find best suited to his needs in the milk of the mother. This, under normal conditions is a perfect food, and the baby, for some months or weeks, at least, requires for his well-being no other food or drink. But, alas! how often have the mother's best energies been turned away, and that which should have gone into nourishment for her offspring been as literally wasted as if the milk had been poured out upon the arid sands of the desert. And so the baby must be fed artificially upon some substitute. The family physician will help you to decide upon the merits and demerits of each of the many offered for sale. It is sufficient for me to say that for some babies one brand will be best, while for others another will be more suitable.

Now let's briefly consider the clothing, for this is very important: Light, warm fabrics for early infancy, with as few constricting points as possible. Few mothers err at this time, unless by clothing too warmly. In fact, baby fares well in this respect until he begins to walk. Then, too often, he is dressed out rather for show than comfort.

While his little body may be warmly enough clad and his feet shod very daintily, his little legs are bared to the elements, whether in winter or in summer. This is his vitality wasted in early life, literally thrown to the winds, and the foundation laid for catarrhal troubles, and poor resisting power against the various infections from scarlatina to tuberculosis. If baby survive this ordeal of dress are his dangers at an end? Nay, verily: for he has to run the gauntlet of whooping cough, chicken pox, not to mention the hookworm, the latest candidate for our fearful consideration. But the worst is still to come. Because, if the baby is a girl the most harmful of the evils of dress are yet to be encountered. Ill-designed and ill-fitting corsets, drawn and laced all too tightly around the plant ribs, abdominal organs—and now, we may say the pelvic bones, provoke deformity and make a ghastly array of difficulty during the reproductive period, and end many lives long before their natural time of greatest usefulness. And yet, as though this were not enough to compass the misery of the sex, fashion dictates at one time that she must not wear enough of clothing to keep her from suffering; and at another that she must be padded with heavy tunics enough for utter discomfort. At one time she must have her hips padded far beyond nature's beauty of outline, and then, presto! the scene is changed and she must have no hips at all. At one time, the waist must be barely below the bust, and at another scarcely above the hips. At times, the natural hair, no matter how lavish nature's hand has been, is altogether insufficient; at others, it seems necessary that no head-dress should be worn.

One season the hats would suggest by reason of the scarcity of straw, a failure of the previous crop of wheat; at another the hats look as though designed in

contradiction, or at least in gratification of "Neither do men place a light (candle) under a bushel." Of course, some fads are not dangerous to life, except that they serve to make us slaves to fashion, some of whose dictates are detrimental in the extreme.

But to return to the boy and how to save him. He has not by any means arrived at maturity, when the strongest by far of all instincts has possessed his very being. If properly conserved and directed this instinct, or I might call it, this principle may prove in reality a savor of life into life, but how often through perversion proves, in truth, a savor of death into death. Untaught by father, mother, or guardian of the uses of this God-given principle, he is not left as the rest of the animal Kingdom in this respect, to follow the natural inclination of this instinct, but is actually tutored in vice by those who have themselves proved apt scholars indeed. Then, in addition to dissipated strength he oft-times becomes infected to such an extent that his life is the price of his folly. Or, if by reason of vitality or the Providence of God, he, long after, thinking he is cured, infects his lovely bride who is to be the mother of his children, and thus sends her to the hospital and perhaps to the grave. She goes to the hospital, where perhaps her life is saved, but her off-spring will suffer to the third or fourth generation from this sad inheritance, with perhaps the stigma of degeneration borne in his or her body, in misery to reproduce a still further degeneration.

But let us turn from this sad picture to him who has been taught at the feet of his mother, with the same spirit in which she teaches him to "remember his Creator in the days of his youth," that his body is the temple of the Holy spirit, and that he must not desecrate or profane that temple. That mother has taught him purity as she has taught her own daughter; for it is essential.

He has a chivalric respect for woman that nothing can pervert, as he worships her at a holy distance, and invests her with a glory that ever should be hers. On such as he hang the hopes of the nation. He is verily the salt of the earth. He is as gentle as brave, and he will be faithful unto death.

No nation can be in danger while her manhood is intact; a God-fearing, woman respecting manhood, who holds honor dearer than life, and dishonor the worst that could befall. All that can ennoble the human race must come through and by the virtuous men and women from whom they inherit those traits of character which alone can give stamina and stability to the inhabitants of the Land we love.

Dr. Stafford closed his address by giving a selection from Byron's "The Giaour."

### Saved Her Own Life.

Tecumseh, Okla.—"I believe," says Mrs. Eliza Epperson of this place, "that if it hadn't been for Cardui, I would have been dead today. Before I began using Cardui, I suffered from pains in the head, shoulders, back, side, limbs, and the lower part of my body. Cardui helped me more than anything, and I am now in better health, since taking it, than for four years." Nobody can deny that the best tonic for a woman to take, is a tonic for women—Cardui. Please try it.

### Rock Creek, No. 1.

Crowded out last week. Mrs. Sibyle Thompson who has been suffering severely with rheumatism for the past week is improving at this writing. Mr. and Mrs. B. J. Whitehead visited the latters parents near Marlboro Saturday and Sunday. Mr. and Mrs. J. M. Thompson spent Sunday evening at Rufus Thompson's.

Mrs. Rosanna Hobson spent Sunday at Jot McPherson's.

Walter Beal and Cora visited their drother George Beal last week.

Mr. and Mrs. L. L. Thompson Miss Artilla Thompson and little Dorothy Holman all spent Sunday evening at T. E. Thompson's.

### Altamahaw No. 1. Items.

Crowded out last week.

After a long absence I will give the news of this neighborhood. Since our last writing we have had several deaths, namely: Mrs. Silas Madkins, Willie Cable and the little infant of Mr. and Mrs. John Durham.

Henry Maynard is right sick, but is reported some better. Mrs. Rosa Ellen Somers is right sick.

Hornor Adams, one of the saw mill men is right sick with the mumps.

Farmers have been very busy with the telephone business, they have it all completed except some have not put in their phones yet. Some one has made homemade one and put it in Roe Jordans porch and he is mad about it.

Our Sunday School at Shiloh is getting along fine with Mr. G. W. Matkins as superintendent. We are also have a singing school at that place with L. F. Troxler as teacher. Rev. C. O. DuRant will preach the fifth Sunday at 1 o'clock, everybody come out and hear this good man.

R. F. Joyce sawed his last timber Friday and blowed the whistle a long time bidding us farewell. He and his hands and the white tents will leave us this week. Don't know where they will move to. We hate to give them up.

Richard Williams, wife and children visited at J W Faucett's Saturday afternoon.

Rufus Ray, Hub Nicholson, Charlie Hall, Snow Smith, Tom and Charlie Smith, Walter Durham, Wade Gwyn, Nannie Chatham and Etta May Gwyn were callers at J. W. Faucette's Sunday. Uncle Buck said his house was plum full.

Fred Faucette, wife and baby visited in Durham Easter.

Uncle Alex Walker and aunt Susan are well and peart.

Wheat is looking fine, but no corn planted much yet, the soil keeps too wet and cold.

The wedding bells are going to ring before long I think, for the way some people are doing.

Mr. and Mrs. Charlie Waynick and daughters visited this neighborhood last Sunday, glad to have them with us.

Everybody seemed to enjoy Easter up this way, some went fishing.

Lee Lewis was climbing trees and swinging from limb to limb the other day. It's a fine girl. He says this one he is going to learn to be an organist or cook, he don't know which. Hurrah for Lewis.

News is scarce now, will stop.

### No slavery To Work.

Deskins, Va.—Mrs. Mary A. Vandyke, in a letter from Deskins, says: "I had serious female troubles, lasting 40 days at a time. I was so weak I could hardly walk, so I tried Cardui. Soon I was better. Cardui will lift you out the misery and weariness, caused by womanly weakness, and help you to see the bright side of life. Try it. Your druggist sells it.

Fifty Years of Achievement.

Fifty years ago the South was on the eve of a great war. Wrought up to a state of tension by the prospect of a conflict with the North, which however it ended, it was recognized, would involve the expenditure of millions of treasure and the sacrifice of thousands of lives, business was at a standstill. The pall of commercial stagnation had spread its canopy over both sides of the Potomac and men without employment roamed the streets, hungry and anxious. For four years the hands on the clock of industry stopped moving. When they resumed, half a million brave fellows had been laid away beneath the sod and ten million dollars had been consumed in powder and amament.

No fifty years in the world's history have seen greater changes anywhere than have been wrought since then in the South, which rising from the smouldering embers of industrial prostration has taken her place among the most progressive, and most enterprising sections of the nation. Unaided by the rest of the country it has solved the tremendous problems thrust upon it at the close of the war with an intelligence, initiative and courage in keeping with its best traditions. Beseet with discouragements on every side, handicapped by lack of capital, and encompassed by difficulties that called for the exercise of extraordinary firmness, tact, industry and judgment, it has optomistically kept its face to the rising sun and succeeded where pessimism suggested failure. It has stimulated agriculture and given a new impetus to manufacture. It has encouraged the extension of railroads through undeveloped communities, promoted irrigation for the arid wastes and fostered drainage for the lowlands. It has infused new life into the cotton industry, now worth \$900,000,000 a year to it and vies with the west in its ambition to wrest from England, through the help of the Oxford process to do here in two days that which requires thirty weeks to accomplish abroad that country's centuries old control of the world's linen market.

Comparatively a new comer in the textile field, its mills already challenge those of New England and 8,000,000 of the 24,000,090 spindles in the United States hum their song of industry within its borders. Its factories boast of 838,717 horse power, employ a capital of \$1,287,921,084 and annually produce goods of a value of \$1,500,000,000. Barely explored yet, with only their surface deposits touched, its coal mines, richer and more extended than those of Pennsylvania yield 83,596,302 tons a year and apace with its development in other directions its railroads provide transportation over 66,387.96 miles of its territory. With an aggregate wealth of \$7,331,929,808 and yearly accretions of many

millions, it is stonger and commercially more formidable than at any time in its whole history. Looking back through the half century of its unceasing constructive effort, the South pausing to review its accomplishments in the various fields of human service to which it has applied its energies, can feel proud of its superb record. For it the fifty years that have rolled by have been years of distinguished achievement and steady progression. They have been years worth the while.

**Leave For Classis.**

Rev. J. D. Andrew left today to attend the annual meeting of the North Carolina Classis which convenes this evening in Heidelberg Reformed Church in Thomasville. Rev. Andrew carries up a splendid report for the year's work, showing that he preached 146 times, conducted 38 funerals, married 18 couples, 1050 visits, received 51 new members into his churches and raised \$1,285.00 in the work.

John R. Hoffman goes as a delegate to the Classis from the Burlington charge.

**Warm Time.**

The Democrats of the Fourth Ward met Friday night at Laytons Store to nominate candidates for Aldermen. The house was divided part being in favor of endorsing the nominees of the Citizens and others opposing this favored nominating a straight ticket. After discussing both sides with red hot speeches in which our congenial friend Willie Hay thought it was time to bring things to a close and said, "Sakes alives boys this will never do it will be a sight to see this in the 'The State Dispatch' next week." Finally some one got a motion before the house to endorse the Citizens nominees and Dr. H. F. Moore tax collector seconded the motion, which passed. This soon brought things to a finish.

**WASHINGTON LETTER.**

Washington, D. C., Apr. 28.—An all summer congressional session with great activity in the House of Representatives and with characteristic inactivity in the Senate is foreshadowed. The Senate is not yet organized. The House promptly completed its organization, passed the Canadian reciprocity bill, and has presented and partially debated the so-called farmers' free list bill. As is well known, there are complications and side issues. The presidential question, the nomination coming off next year, has much influence in politics and in legislation at the Capitol. There appears as yet but little opposition to the nomination of President Taft by the Republicans for a second term. Straws appear to indicate on the Democratic side a turning in favor of Gov. Woodrow Wilson of New Jersey. The only apparent active opposition to President Taft is from the adherents of Senator La Follette. The friends of the Senator are active and aggressive and there is of course on telling what the next twelve months may bring forth. Gov. Harmon and Champ Clark, the Speaker of the House, and of course the quadrennial Bryan are always Democratic possibilities. But Gov. Wilson of New Jersey has appealed to the intelligence of the public in a remarkable way. Last week at a banquet in New York a toast was proposed to the governor of New Jersey and the future president of the United States. Gov. Wilson interrupted and said, "That, of course, means Gov. Dix." "No," replied Mr. Frieinghuysen, a Republican, "that means yourself." Gov. Wilson has apparently converted a flinty, Democratic, trust-strangled state to the doctrine of progressive politics, and he has apparently done it by the force of his character and his will almost unaided and alone. He had long been known as a gentleman, a scholar and a statesman, but only recently has he been brought before the public as a brilliant and practical politician. His speeches are no less remarkable for their brevity than for their inclusiveness, their felicity and their common sense. For matter, terseness and condensation they are in remarkable contrast with much contemporary American oratory.

It ought to be a matter of great satisfaction to millions of people in the United States that the postal deficit has been wiped out. Postmaster General Hitchcock deserves the highest credit and a bronze monument with more metal in it than there is in some of the equestrian monuments in Washington. To have wiped out a deficit of nearly eighteen millions of dollars in two years is a splendid achievement. With the cooperation of Congress (and the people ought to see that he has it) he can accomplish more. He has one cent postage in view and it would be easy of attainment if a parcels post were established or if certain other reforms advocated by the Postmaster General were carried out. A bill for one cent postage backed by the administration may be introduced in the present extra session and if not it will almost certainly be brought up in the regular session. The P. M. General will continue to urge the increase of rates on second class matter from one to four cents a pound. It is refreshing to know that the wiping out of this eighteen million deficit has been reached without in the least impairing postal facilities. The service has actually been extended along desirable lines. Over three thousand new post-offices have been established, delivery by letter carriers has been extended to one hundred and forty-two thousand new rural routes covering over fifty thousand miles in length have been authorized.

Anything that concerns the capital of the United States ought to be of interest to every citizen of the United States, but the citizen is so much absorbed in the politics of his hamlet or his metropolis that he gives not much attention to Washington affairs. Victor Berger, the only socialist member in Congress, has been made a member of the District Columbia Committee and it is said has taken upon himself to reform the Constitution of the United States and "Willow Tree Alley" in Washington. "Willow Tree Alley" is a capital slum section. Mrs. Victor Berger finds the Washington public schools a field for reform, and not without reason. Washington has long been the dumping ground of inefficient teachers and poor text

books such as are compiled to sell by callow educators. These books could not be foisted on a community that had the privilege of voting. But Washington is a disfranchised district governed by an ever shifting Congress, a Congress without responsibility to the citizens of Washington.

**Do Ghosts Haunt Swamps?**

No, Never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Freeman Drug Co.

**State Meeting Daughters of Liberty**

The State Council of North Carolina, Daughters of Liberty, met in Durham on Tuesday Apr. 26th at 2:30 o'clock. There were in attendance about seventy-five or a hundred representatives and State Officers from the fifty three councils located in this state. A harmonious session was held, no business of great importance coming before the meeting. The election was held on Wednesday morning and resulted as follows:

State Councilor, Chas. A. Peeler, of Faith; State Vice Councilor C. V. Pegram, of Walkertown; State Associate Councilor, Mattie Moose of Statesville; Asso. Vice Councilor Sallie Williams Raleigh State Guide, Maggie Thornburg; State Sec. W. A. Fogleman, of Salisbury; Asso. Sec. Miss Queen Ingle of Burlington; Treasurer, W. D. Phillips, Spray; Asso. Treasurer, Mrs. Sibbie Rains of Burlington; Inner Guard Fannie Richardson of Graham; Outer Guard J. T. May of Durham; Representatives to the National Council, Mrs. G. O. Klutty and C. V. Pegram. High Point was selected as the next place of meeting.

The Daughters of Liberty is an auxiliary of the Jr. O. U. A. M. and is one of the greatest ladies patriotic organizations in the country. Its motto is "Fidelity, Patriotism, and Integrity" and it stands for "America for Americans." It favors restricted immigration and the reading of the Holy Bible in the Public Schools. It has nearly 100,000 members in the U. S. and more than 3,000 in North Carolina.

The local council, Purity, No. 22, has a membership of 230 and is constantly growing. The following represented this live council at the state meeting in Durham:

Misses Queen Ingle, Nannie Crawford, Sylvina Workman, Mrs. Sibbie Rains, Mr. and Mrs. A. W. Cole and Messrs. J. T. Welch, J. G. Rogers, and T. T. Stafford.

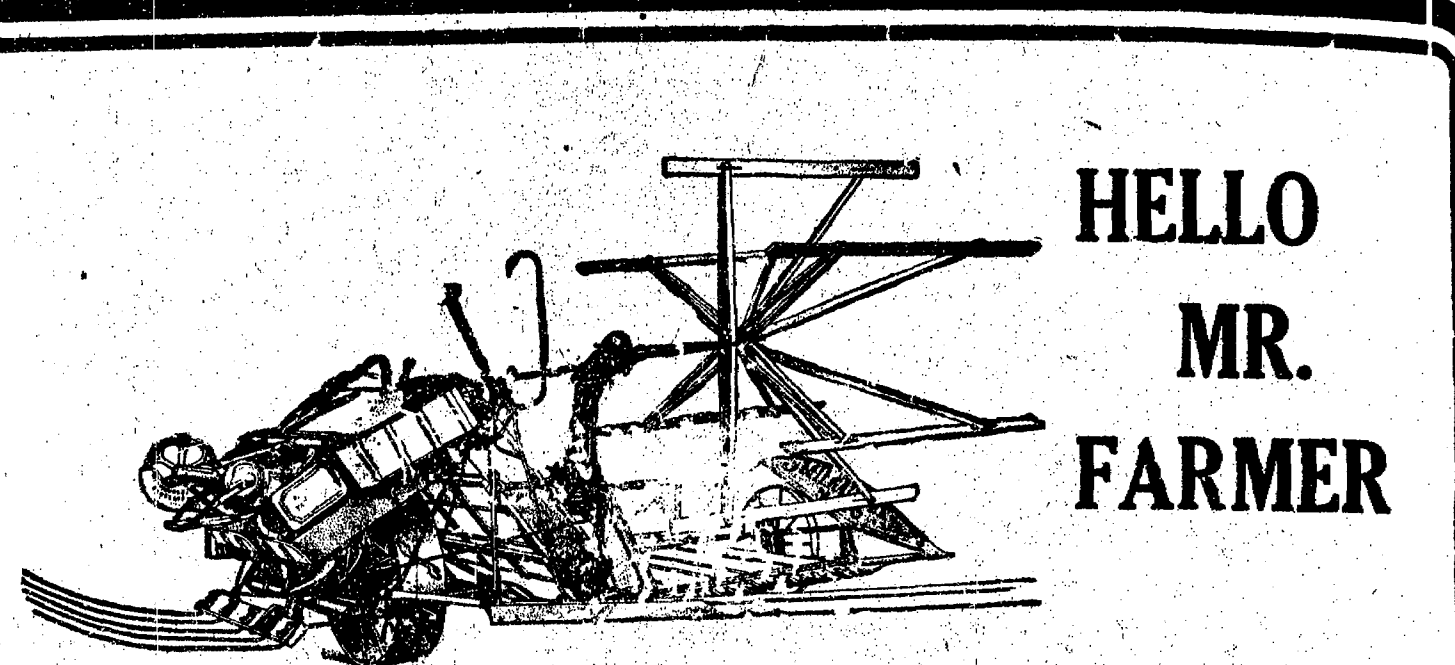

The stenographers of Burlington met Thursday night with Mrs Summers President and Miss Crowson Secretary of the North Carolina's Stenographers Association in the Masonic Hall with the view of organizing a local association was fully explained and another meeting planned the last of May at which time it is hoped to have all stenographers present.

**HELLO MR. FARMER**

We are agents for the Milwaukee Binder and we have called on you for your order for Binder, Mower, Hay Rake or such things as you may need in the coming harvest.

Well Mr. Dealer you may enter my order for the Milwaukee Binder my neighbor has one he has been using for two years and I find it is the simplest machine on the market. And by far the lightest machine I ever saw in the field.

Well what we have to say about the Milwaukee machine is what we know from experience. We do not try to mislead the people telling them we are General Agents and that our machines are like other machines. No we claim to have a machine in a class to itself. We have proved that in two years time. Sold more than the others all put together. The people in this county are intelligent and they are no longer being led by misrepresentation.

We are Local Agents for the Milwaukee Binder at Burlington, N. C. and we do not have the General Agent of N. C. with us. And we want to inform the public that no one in Burlington has the personal help of the General Agent. This is a false alarm. Neither does the other people have a machine like ours. We are proud our competitors have acknowledged our machine the best machine on the market. We are glad to know they are such nice fellows.

Only sold forty-six last year every body well pleased and we feel sure every one will sell one for us this year.

Nothing to do but call phone 72 and we will be glad to give you all the information you may need along this line. We pay the cash for the goods and we have the labor to do the work and will be a pleasure to have you drop in and see to your own satisfaction that we have the goods that will not pull your stock to death in the harvest field. You have plenty time now to get in line and get the goods of honor and high quality. Don't be deceived by hot air and gass bags they will not push the binder in the harvest field. Come along and get the goods that has proved all we claimed and a great deal more. You will be welcome at all times in the Milwaukee Headquarters in Burlington. We want to see you and talk the matter over.

Your friends.

**Items from the University**

Chapel Hill, May 1.—Carolina won from Guilford Friday 3 to 2 and by so doing put the Championship of the South Atlantic States in such a fix that despite Carolina's failure to appropriate it, no other college in North Carolina or Virginia will venture to claim it.

The student body held a big mass meeting Friday night to welcome the team back from its victorious Northern trip on which it defeated Virginia, Lafayette and Georgetown. Speeches were made by several members of the faculty, notably Professor "Billy" Noble and afterwards the students gathered around a huge bonfire on the campus singing the college hymn with more feeling than at any time in the past five years.

In the annual Fresh-Soph debate between the Philanthropic and Dialectic literary societies held in Gerrard Hall Wednesday night the Dialectic was the winner. The Phi men were S. W. Whiting and L. B. Gunter, the Di's were G. W. Ward and J. C. Busbee. The question was Resolved, That the legislative initiative and referendum should be adopted in several states of the Union. These intersociety debates besides their importance for the debating training they give the participants are valuable from an educational standpoint for the whole college. They are always on some question of present day importance and go a long way to keep the University man well informed on current events.

The Yackety Yack for 1911 which will be circulated in a few days is said to be, for taste in color work, arrangement and picture grouping, the finest annual the University has ever produced.

Manager W. F. Hendricks has completed the following schedule for the 1911 football team:

October 7, Wake Forest, at Chapel Hill.

October 14, Bingham (Asheville), at Chapel Hill.

October 21, Davidson, at Charlotte.

October 28, U. S. S. Franklin, at Durham or Chapel Hill.

November 4, V. P. I. at Richmond.

November 11, U. of S. C., at Chapel Hill.

November 18, Washington and Lee, at Norfolk.

Thanksgiving Day, University of Virginia, at Richmond.

The schedule which was supervised in large part by Mr. Branch Bocock who will coach the team is much lighter than that of last season. The prospects are that only four or five letter men will be back. Captain Winston will lead a practically new team and many people regard this as a fortunate circumstance. The squad last fall was if anything a little too experienced. They did not catch on to the new stunts of the faster game as it was played under new rules. Encouraged by the fine showing of the other athletic teams of 1911 and coached by a man who has a fine record of successes behind him at V. P. I., the Carolina football team for 1911 will make a fresh start and it is hoped a new record for Carolina.

During the past week of victories two Alamance boys have contributed a large part in bringing to Carolina her deserved laurels. In the intellectual struggle with the University of Georgia last Saturday night in Gerrard Hall, the victory of the Carolina debaters was due in large part to the logical, well-delivered speech of Mr. I. C. Moser. His argument was flawless, and his point forcefully made. In athletics Mr. E. V. Patterson of the Varsity Track Team has made a record for the two mile race never before equaled at Carolina. After winning the two mile races at the State Track meet at Raleigh and the Southern Intercollegiate meet at Charlottesville, Va., Mr. Patterson Saturday evening in the Carolina V. P. I. track meet held here, lower his State record of 10 m. 42 4-5 s. to 10 m. 15 1-5 s. Alamance should be proud of these, her sons.

**Base Ball and Social.**

An interesting base ball game was played on the home diamond at the fair ground Friday between the High School team and the Raleigh High School. This was the second game of the season for these two teams in which each has won one victory. In the first game played some weeks ago at Raleigh the score was 3 to 5 in favor of Raleigh. Friday the score was 4 to 5 in favor of Burlington. The Raleigh boys came here from Greensboro where they played on the day before overwhelmingly defeating that team. On Friday night one of the swellest socials of the season was given the visiting team by Dr. and Mrs. T. S. Faucette at their beautiful home on Front Street. Between fifty and sixty invited guests were present to assist in making the occasion one of enjoyment and happiness. After spending the night in the home of our boys, the Raleigh boys returned Saturday to their homes in the Capitol City.

**Are You a Woman?**

Baltimore, Md.—Mrs. W. H. Ison, at 1419 East Madison street writes, "For several years, I suffered, off and on, from womanly troubles, until finally I was taken down and could do nothing. Are you, like Mrs. Ison, weak and discouraged, because of some painful ailment? Cardui will help you. Try it today. Any druggist will be glad to sell you a bottle.

Coming to Burlington, N. C. On Monday May 15th, 1911.

To Stay at Hotel Ward.

**Dr. Francis S. Packard** of Greensboro, N. C.

**Consultation and Examination Confidential, Invited and FREE.**

From a Late Snapshot

To see all of his regular Patients and such new Cases, as may wish to consult him. Dr. Packard enjoys a statewide reputation, among the profession and the Public of North Carolina, where for more than 25 years he has devoted his entire time to the Study, Treatment and Cure of Chronic Diseases. The Doctor has had wonderful success in his chosen work, that of curing chronic sufferers, Men, Women and Children. The Patients he has restored to Health after they had given up all hope of being Cured are numbered by the Thousands. He is a kind, generous, democratic gentleman to meet, of high scholarly attainments, and dignified personality. Coupled with a Brotherly interest, in all who seek his advice. He does not take a Patient for Treatment unless he can foresee a Cure of the Case. The most commendable feature of his work, and one that appeals to the ordinary sick person, is the fact of his charges being so reasonable and moderate as to make it within the reach of even the very poor. At no time do the charges amount to more than \$7.00 a month or about \$1.50 a week. He gives his own medicines, and there are no extra Charges. It takes him never more than from four to six Months to Cure a Case under Treatment. All Cases, even those who have been given up as Incurable or Hopeless, have been Cured and restored to perfect health by this Brilliant Physician and the wonderful methods he employs. If you want to meet him and have him examine you, go to see him, and talk the matter over with him. It will cost you nothing if he does not put you under treatment. If he takes your case, it will cost you a very small sum to get well.

Remember the Date and come early.

Monday May 15th.
