TWO BROTHERS FIGHT TO DEATH IN LONELY WOODS

Arkansas City, Ark., Sept. 22.—In a lonely spot in the Arkansas woods, near Lead Hill, two brothers fought to the death this afternoon. Reuben Cantrell, 35 years of age, was slain and Thomas Cantrell 55 years of age, is being. The former was shot to death and the latter will not survive a dozen knife wounds which he received in the battle.

Leaving the body of his brother where it had fallen the wounded man walked four miles to his home, where he declared Reuben had attacked him with a knife while he was at work in the woods. After a terrific struggle Thomas secured possession of his shot gun and killed his antagonist. Meanwhile Reuben had plunged his knife many times into his brother's body.

Physicians tonight say there is no chance for his recovery. The battle was the out growth of a family feud.

Rev. J. D. Williams will be at The Ridge near Hillsboro Sunday assisting in a protracted meeting. Rev. C. J. Edwards of the Mebane Circuit will fill his pulpit at the M. P. Church.

Miss Delah Austin of Tarboro arrived Sunday night to take her place in the Graded School. On account of ill health she had been unable to come sooner.

Miss Mable Ellis left today for Mebane to spend the day the guest of friends.

Mrs. Lucy Fonville who has been here visiting will return tomorrow Wednesday to her home at Glossonville N. C.

Interesting to Farmers.

Farmers having about wound-up curing their tobacco, the next thing that is of the most vital importance to you is, How will this Crop sell. I wish to say for your information, that every indication points to good prices, and farmers will in some degree be remunerated for their labors, which they are justly due. I would advise farmers to sell their commonest curings first as there is a great deal of common tobacco in this crop. My impression is, that prices are about as good as they will be on that class of tobacco. I have had pretty fair sales for the past few days. I do not think I have seen tobacco sell so well in ten years in Sept. as it is selling now. We have all of the big tobacco companies represented on our market, also two or three independent buyers, which makes Burlington one of the leading markets in the state and MORGAN the HUSTLER the leading warehouse man as to prices.

When you are ready to sell come right on to MORGAN'S warehouse where you will get the very best attention and the very best prices for your tobacco. I will assure you I greatly appreciate your patronage since I have been in Burlington and I hope to merit a good share of your patronage this season. Promising you my very best efforts at all times,
Your friend,
E. L. MORGAN.

Auto trip

Mr. Jas. N. Williamson Jr., of Burlington is not classed among the automobile or aviator speeders but made a trip which is a record breaker.

Mr. and Mrs. Williamson in his Stevens Dunyca Car left the home office of the Stevens Dunyca Co., at Chocoma Falls Mass. at 11:30 a. m. Friday September 22, reaching New York City that night a distance of 153 miles amid rain and mud. Left New York Saturday at eleven going by way of Trenton and Philadelphia arriving at Wilmington Del. that night, on to Frederick Md. the next night, arriving at Lexington Va., Monday night on to Martinsville Va., Tuesday night arriving home at Burlington, N. C. at 12:30 Wednesday. A total of 831 miles made in 50 hours. The entire trip was made without even a puncture which is a very remarkable record considering the rough roads which upon an average were not up to our County Alamance by far, which speaks very favorably for the Stevens Dunyca Co. Mr. W. E. White of Graham joined Mr. and Mrs. Williamson at Baltimore accompanying them on their return.

Millinery Opening at Graham.

Misses A. & L. Freeland's Store at Graham will be a scene of beauty next Friday and Saturday when they will throw out to view to the public one of the most beautiful lines of pattern hats and millinery novelties to be seen in the county. The ladies should not fail to see this display.

Movement on Foot For County Fair at Durham.

Durham, Sept. 22.—The merchants' association has taken up the county fair agitation after a long rest, with the result that work will begin earnestly next year to interest the county in it and a site for it purchased by some syndicator. The county came near having such a thing last year, but failed at the last minute because ground wasn't available. Durham as one of the small counties which makes its real estate for such a purpose hard to secure. A good fair ground is almost as large as the outside country.

Don't Forget To See.

Dr. N. Rosenstein, the Optometrist of Durham, at the Burlington Drug Co. next Wednesday and Thursday, Oct. 4th and 5th, to examine your eyes and fit glasses. If your eyes "ACHE" he can relieve it, and his charges are very moderate to all, and his work the best.

Gentlemen: Your secretary takes this opportunity and begs leave to be permitted to say that the Baptist Baraca Class of which he is teacher or rather director led all other classes in town last Sunday in attendance and offering for which our boys are very grateful. Pardon me, this time and I will not indulge any more soon.

The attendance and offering in the Burlington Schools last Sunday was a record breaker.

The Men's Bible Class Association of Burlington has been organized and making its weekly reports through its secretary of attendance and offering for every week since August 26, 1910.

Below is a comparison of attendance and offering Aug. 26, 1910 and September 24, 1911, a period of thirteen months:
Total August 26, 1910—Attendance 117; Offering \$7.91.
Total September 24, 1911—Attendance 381; Offering \$19.30.

Another idea: The efficient work of Mr. W. E. Sharpe, Supt. of the M. E. S. S. should be an example to the other Superintendents of our town and the industry of Mr. O. F. Crowson, the M. E. Baraca teacher must also be reckoned with by all of us. Brother Wright to, is doing a good work with the Webb Avenue people. In fact there is not a school in town that is not doing creditable work.
Our motto: "We Do Things."
Our platform: "Young Men at Work for Young Men, all standing by the Bible and the Bible School."

R. F. D. No. 5.

The farmers are getting along fine cutting their tobacco. What they can't do the worms are doing for them. They are very, very, accommodating, they don't only cut it, but stem it.

Some of the Democratic "good government" supporters now want a law and order league in order to have the law enforced. Isn't that an admission on their part that Democratic "good government" is a failure?—Caucasian.

Look out, the tax sale is coming.

Happiness Depends On the Way We Look at Things.

Are your eyes so that you can see things in the right light? If not, it shows the presence of eye strain. Let Dr. Rosenstein fit your eyes with glasses that will relieve the strain and see right. Dr. Rosenstein's experience and ability, together with exceptional facilities enables him to do the best work at the lowest prices. Dr. Rosenstein will be at Burlington next week, Wednesday and Thursday, Oct. 4th and 5th, stopping at the Burlington Drug Co. Call to see him.

Two Years Old; Weighs 100 Pounds
 The following interesting clip from the subject of which is a review of Mr. and Mrs. Frank City of Durham:
 Although he can lay claim to two years and three months of life James Adolph Cody, son of Mr. and Mrs. James Aleck Cody, of Mount Airy, Ga., already has tipped the scales at 100 pounds, is 39 inches tall and continues to grow rapidly. Physicians have watched the youngster almost constantly since he first developed signs of abnormal size but they have failed utterly to find anything wrong with him, and James Adolph is as healthy and as happy as any lad of his age could hope to be. When it comes to eating, James Adolph has an appetite which is far more like that of a grown person than the youngster that he is. For breakfast accordidg to his mother, he will eat three or four large biscuits, with bacon gravy, butter and a great deal of syrup; two glasses of buttermilk, and if allowed will drink two cups of coffee. Between breakfast and dinner he will eat two more biscuits with butter and syrup. For dinner he wants a large plate of soup plenty of meat and any vegetables that happen to be served, and more biscuits, with butter and syrup. Between dinner and supper he has to have another biscuit, and his supper is thorough in keeping with the other meals. And all the while James Adolph has never been sick a day in his life, and is the same as any normal boy of his age in his play and his thoughts. Perhaps his exercise is a bit more strenuous than that of other lads of two years.

Some Coincidence.

A remarkable coincidence of birth and life were brought to light one night last week, when John S. Blake of St. Louis met John S. Blake of Charlotte, at the international exposition of inventions in the coliseum in St. Louis, Mo.
 The St. Louis John S. Blake is a well-known realty man, president of the John S. Blake & Bro. Real Estate Company, and the North Carolinian of the same name is the inventor of a folding extension car step and proprietor of a drug store.
 John S. Blake of St. Louis saw the name of the other John S. Blake in the newspapers in connection with the exposition of inventions and went to see him.
 "Are you John S. Blake?" asked the St. Louis man.
 "I am, sir," was the reply.
 "Well, so am I," replied the Blake of St. Louis, extending his hand.
 "Well, well," exclaimed the other. "So you are the John S. Blake that has been receiving all my mail? How old are you?"
 "Forty-five, I was born January 6, 1865."
 "That accounts for you being a little taller and a little heavier than I. I was born January 18, 1866, replied the Carolinian.
 "Are you married?" asked the Missouri Blake.
 "Yes," replied the other.
 "Are you?"
 "Yes."
 "When, where and whom did you marry?" questioned the man from the South.
 "I was married in St. Louis to Miss Martha Cheney, Oct. 18, 1888," continued the St. Louis Blake.
 "What!" shouted the North Carolinian, "you don't mean it! So was I."
 "You don't mean to tell me that you married my wife?" shouted the other.
 "No, no. Not that, but I married my wife on the same day, the evening of October 18, 1888."

Catarrh and Indigestion Completely Knocked Out

CAROLINA OXYPATHOR COMPANY,
Raleigh, N. C.

GENTLEMEN:—I was first to buy an OXYPATHOR in the city of Raleigh.

In March, 1911, I used this machine for three weeks in the treatment of a case of Catarrh and Headache that I had been continuously affected with for 20 years. I can honestly state that I have not had a recurrence of any symptoms of either trouble since that treatment, and I am now enjoying perfect health.

The OXYPATHOR cured my wife of a chronic case of indigestion of long standing, and with only a few courses of treatment. I am now treating my daughter for a severe case of Eczema from which she has suffered since birth, and the OXYPATHOR has already produced wonderful results in the improvement of this condition. During the past thirteen years I have paid for doctors' bills and drugs more than three thousand dollars in the effort to cure my daughter and without securing any permanent improvement of her condition.

From the results already received from the OXYPATHOR I am confident that the Eczema will soon be corrected and my daughter enjoying normal health. The machine is worth its weight in gold.

Winter Cover Crops.

Every farmer owes it to himself, to his family and to posterity, to take the best care of his land that he possibly can; to maintain its fertility and to keep it from washing away.

Investigators, whether scientists or practical farmers, have found that winter cover crops of any kind prevent land, in a large measure, from washing, and when turned under the following spring make it more productive than if no crop had grown on it.

An experiment covering a number of years, in one of the North Western states, showed that more plant food was lost from the land during the months when no crops were grown on it than was taken off in the regular summer crops. If this was true in that state where they have long and cold winters where leaching is impossible for weeks at a time, how much more would it be true in North Carolina with her open winters when plant food can be leached from our soils almost any week during our winter months.

A ton of green rye contains, according to good authorities, about 6.6 pounds nitrogen, 3 pounds phosphoric acid, and 14.6 pounds potash. A ton of green wheat contains 10.8 pounds nitrogen, 3 pounds phosphoric acid, and 14 pounds potash. Green oats contain just a little less plant food than does green wheat. A ton of green crimson clover contains 8.6 pounds nitrogen, 2.6 phosphoric acid, and 9.8 pounds potash. Red clover, Bur clover and the vetches contain more plant food in their green state than crimson clover does. The wheat and rye mentioned above was probably grown on fertile land which explains their high percentage of nitrogen, for it is an established fact that crops grow on rich land contain more nitrogen than when grown on poor land, for that reason grain grown on rich land has a higher feeding value than that grown on poor land. It may be well for us to remember this when growing grain for our own feeding purposes.

Rye, wheat and oats take nitrogen from the soil and store it in the plant, thus saving much of this costly element of plant food that would otherwise be leached from the land by our winter rains. The stools or bunches and their roots and leaves retard the flow of water and act as brakes which will prevent to a large degree the washing of our rolling lands. The clovers save the land from washing in the same way and in addition to this are beneficial by being able to take nitrogen from the air through the agency of bacteria which adds to the fertility of the soil. But to grow these latter crops successfully the soil must contain the bacteria peculiar to the particular crop grown.

It has been the experience of many of our farmers that any crop grown after a winter-cover crop, when turned under at the proper time in the spring, and disked well before and after turning, will produce a great deal more, often as much as 50 per cent more, than if no winter-cover crop had been grown. The seed for a cover crop will cost from one to five dollars an acre according to kind and quantity of seed used. This should save to the soil and add to the next year's crop more than twice the cost of the cover crop.

Sow at the rate of 15 to 20 pounds crimson clover seed per acre and cover lightly with harrow or cultivator. These can be sowed in growing crops, on stubble land, or after peas. Sow from 20 to 30 pounds of vetch per acre if sown with small grain, and if sown alone put from 40 to 50 pounds per acre. Rye should be sown at the rate of one to one and a half bushels per acre.

An application of manure, or from 200 to 500 pounds acid phosphate, per acre and 25 to 50 pounds muriate of potash on sandy or gray land, will be helpful to the clovers and vetches. For rye or other small grain it may be better to add 2 per cent nitrogen to the above.

It is now time to commence putting these crops in. When put in cotton fields it is better to sow immediately after the pickers, as in that way no cotton will be knocked out in covering the seed.

Put in the crop that will succeed best in your locality and experiment with other crops in a small way until you are assured they will make satisfactory growth on your land and under your conditions.

T. B. Parker, Director Co-operative Experiments N. C. State Dept. of Agriculture.

On Worrying.

Worry is a disease. In fact, it is sometimes associated with a physical disorder of some kind. The tendency to worry over trifles is universal. Some people have the worry habit. It is to them like an adhesive. Their first mental effort in rising each day is to get rid of some unpleasant subject to worry about. One can only imagine the disappointment that would ensue should a person of this character find something to worry about. But, it would be unusual sensation, for one can always find something to worry about. If not a misfortune of yesterday, then one of the day before—if not of this year, then of last year. If you are a victim of the worry habit, you are uselessly wasting your valuable energies. Rest assured that life will be of little value to you or to anyone else. Physical exercise is of invaluable assistance in this respect. When you find, for instance, that you cannot possibly avoid worrying, then immediately find some means of activity using the mus-

cles of your body. Take a long walk, or play some game in the open air that will keep you continuously and pleasantly occupied. If this is difficult or impossible, take some exercise in your room. Work persistently and vigorously until the blood is bounding through your arteries, until you feel the pulsation of new life stirring your entire physical organism. Realize the tremendous possibilities in life and stop wasting your time with trifling grievances. You must remember that worries are never important, notwithstanding the value they may seem to assume in your life. Their only importance is the power they have for harm, and if their power is evil, then by all means they should be recognized as evil, and every effort should be made to stamp them out of your life. You can rest assured that the exercises taken as a worry cure will accomplish the desired purpose if they are given your entire attention, and use all the muscles of your body and vigorously arouse the activity of your lungs and heart.—Physical Culture.

Farmers Need It.

The progressive farmer is regarded as the TYPE of independence. He lives well, has practically everything he wants, and has money in the bank. Do you know what made the successful farmer? Why, it was simply the application of business principles and methods to agriculture. If you are a farmer and haven't a business education, you are simply making old Mother Earth give you a bare living, when she ought to yield you a surplus. Apply business principles—book-keeping, etc.—to your farming operations, and you will be astonished to see how much more can be done by a little FIGURING than by a lot of SWATING. For catalogue, address Draughon's Practical Business College, Charlotte or Raleigh, N. C., or Knoxville or Nashville, Tenn.

FOR RENT—Seven room cottage, convenient to the business section of the city, good water and electric lights. Rent reasonable. Apply to R. W. INGLE.

Spit, Quit, Fit.

Hines, Ala.—In a letter from this place, Mrs. Eula Mae Bradley says: "I used to spit up all I ate. I was tired and sleepy all the time. My head ached, and I could hardly drag around. Since taking Cardui, this has entirely quit, and now I feel quite fit." Mrs. Bradley suffered from nervous indigestion. Cardui builds up the nervous system, and strengthens the womanly constitution. That's why Cardui helped Mrs. Bradley and why it will help you. Try it.
