Comforting Words

Many a Burlington Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Burlington readers.

George Ledford, 200 W. Market St., Greensboro, N. C., says: "I think just as highly of Doan's Kidney Pills now as I did some years ago, when I gave a public statement, recommending them. I have had little or no kidney trouble since that time. For quite awhile I suffered from pains in the small of my back and I was annoyed by irregular passages of the kidney secretions. Sometimes I was confined to my bed and I knew that I was gradually growing weaker. Hearing of the benefit other people had obtained from Doan's Kidney Pills, I got a box of this remedy and began its use. I was restored to health and strength in a short time and the symptoms of kidney complaint were disposed of."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

Why Burlington Should Have Meat And Milk Inspection.

Because meat and milk comprise a large percentage of the diet of man and, although the meat intended for interstate shipment is inspected by trained men appointed by the United States Government, our real danger lies in the non-inspection of the fresh meat consumed by our people.

"Now that meats derived from diseased animals cannot be shipped interstate, the live-stock dealer will ship his diseased animals to our state on the hoof." Therein lies the danger. The local butcher perhaps does not know the animal is diseased; it is slaughtered under unsanitary conditions, and perhaps left uncovered to dust and flies. We buy, eat of it in its almost raw state, as in rare steak which is the most nourishing of diets provided the meat is free from disease, never stopping to think that we may be taking the germs of tuberculosis or other diseases into our systems.

To prevent this, some form of inspection or supervision should be adopted and a trained man placed in charge of the work.

As with meat so it is with milk. Milk is the commonest raw food consumed and is more often the means of transmission of diseases than all other raw foods combined. In many instances epidemics of Typhoid fever, Scarlet fever, Diphtheria and of many other diseases have been directly traced to the milk supply.

Often Tuberculosis is contracted in this way.

It is stated by authorities that five per cent of the cows examined in various parts of North Carolina are tuberculous.

"The death rate of children under two years of age in the United States is 80,000 a year, due mainly to impure milk.

A lady once went to the noted Dr. Osler, bemoaning her fate and telling him that God had taken her child from her, to which the Dr. promptly replied—"madam, do not blame God with your misfortune, it was bad milk that killed your baby." Since milk is the one universal food and the adult is often times dependent upon it for nourishment as well as the infant, it is essential that only pure milk be consumed. When as much is at stake, it is only just to our people that we have a graduate veterinarian or a graduate of medicine to look after the milk supply.

FOR YOUR HAIR.

Here Are Facts We Want You to Prove at Our Risk.

When the roots of the hair are entirely dead and the pores of the scalp are glazed over, we do not believe that anything can restore hair growth.

But, when the hair roots retain any life, we believe there is nothing that will so surely promote hair growth as will Rexall "93" Hair Tonic. To prove that statement, we promise to promptly return all the money you pay us for Rexall "93" Hair Tonic, should it not please you.

Rexall "93" Hair Tonic destroys the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and, by promoting circulation, nourishing them.

Rexall "93" Hair Tonic helps to relieve scalp irritation, to remove dandruff, to prevent the hair from falling out, and to promote an increased growth of hair. It comes in two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at our store - The Rexall Store.

Spit, Quit, Fit.

Hines, Ala.—In a letter from this place, Mrs. Eula Mae Bradley says: "I used to spit up all I ate. I was tired and sleepy all the time. My head ached, and I could hardly drag around. Since taking Cardui, this has entirely quit, and now I feel quite fit." Mrs. Bradley suffered from nervous indigestion. Cardui builds up the nervous system, and strengthens the womanly constitution. Wall Collapses.

Newsom, Dec. 3—During the night the high wall being constructed on Ball Mountain to protect the crushing plant collapsed, thus making the first mishap of the work on the mountain and means a loss of hundreds of dollars, besides a delay in installing machinery.

It is fortunate that this wreck occurred in the night, as there was a large force of men working on the wall the evening before. This wall will be replaced as quickly as possible and work of installing machinery will go forward at a high rate.

The Atlantic Coast Line Railroad carpenters are now located here, doing the necessary timber work for the crushing plant. Soon the sound of the crusher will be heard and crushed stone will be moving in the direction of the southbound.

Mr. J. W. Newsom is erecting a nice cottage on Broad street and we understand that Mr. R. V. Newsom will soon erect a dwelling. The two houses mentioned will be to let.

Oakdale Dots.

Crowded out last week.

The longer they come the worse they get. We did not aim to say much more about the roads, but we cannot help it. One of our neighbors, 54 years old, reports he was notified in writing to meet one of the overseers 10 miles away to work a piece of road in Cobles township when we think there is great need of it here. We thought 45 years old was the limit they are still working at 54, so I guess the old folks better get up their

tools if they want their roads worked.

Mr. June Hornaday has bought him an auto buggy to go to Friendship to teach school which opened the 27th. better mind "fesser" or your fire might go out and leave you sitting in the road.

Mr. Eugene Spoon and Miss Jose Coble have entered Sylvan High School. Mr. Rayyel Hornaday Friendship High School.

Mr. Sam Linnens and Mrs. Francis Kimrey was married in Graham the 17th. inst by Esq. McCrackin. I suppose they did not have any trouble in securing their license as Mr. Linnens is about 65 and Mrs. Kimrey about 55.

The Farmers are very much behind with their work not much wheat and rye sowed yet owing to so much rain, a few are done while some have none sown.

Mrs. Annie Coble who has been to St. Leo Hospital in Greensboro has returned home much improved.

Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic. Many thousand pounds of this root are used each year in the famous cathartic remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.

Very Serious. It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine— THE FORD'S BLACK-DRAUGHT Liver Medicine. The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined. SOLD IN TOWN

Organize the civic league.

What is the matter with the Graham Fire boys. They are all right alright.

We take off our hat to you brave fire laddies of our sister town of Graham.

Don't sit around and tell how bad the town looks and unsanitary it is but be present at the organization of the civic league.

If you want sanitary conditions in Burlington go to the mass meeting at the Baptist Church Friday night and assist in organizing a civic league.

A mass meeting on municipal sanitation will be held at the Baptist Church Friday night. Dr. Delia Dixon Carroll will be present. If you believe in civic improvements don't fail to go. If you don't believe go anyway.

The citizens of Burlington should feel proud of their water system, with eight streams of water playing upon the fire at one time, and the pressure showing no signs of weakening is something to be proud of.

The fire boys may not be above criticism for the many blunders apparently made in their methods of fire fighting at the recent fire, but all will admit that they saved thousands upon thousands of dollars worth of property. We must be charitable enough to overlook their blunders, and say all praise to our fire boys.

When it comes to making time there is no flies upon the Greensboro fire laddies, 32 minutes with an eight minute stop at Glen Raven siding owing to a freight in the way is no bad record for time from Greensboro to Burlington. We are deeply grateful to all these brave fire laddies, and feel sure that our own boys are willing to reciprocate at the first opportunity.

Tobacco Market Sound and Solid
Although one of our warehouses was burned first of the week our tobacco market will continue to have record breaking sales unhurt. Mr. Morgan has secured the old railroad shop buildings and will give his customers the best of service. While the loss of the fire was heavy it will inconvenience the market but little.

Exit Crowson, Enter Andrews.
Our neighbor and esteemed contemporary, The News has a new owner and Editor in the person of Rev'd Mr. Robert M. Andrews, Mr. Crowson the former owner and Editor having sold his interest to the new owner. We welcome Mr. Andrews into the fraternal, and bid adieu to Brother Crowson. We wish for both of you, health, wealth, and success in your new home.

Welcome, Thrice Welcome.

We welcome The Reverend Mr. Andrews into the Newspaper fold. And assure him of our hearty support to every measure that tends to the moral, social, and spiritual uplift of man. The writer has known Mr. Andrews from boyhood, and know him to be an honest upright christian gentleman, worthy of the respect and confidence of the reading public, as well as the support and encouragement of the law abiding and peace loving citizenship of the old North state, we do not know whether the News under the new management will be democratic or no, but we know that the Editor has the courage and ability to maintain his convictions what ever they may be and that he will do it at all hazard. We may not be able to follow you politically Mr. Andrews, but aside from politics we hope to be able to back you up in trying to correct the many evils that exist in the future within our beloved community. The Dispatch stands for everything noble and inspiring, in the News we hope for an able ally. We again welcome you Mr. Andrews and extend you the right hand of fellowship in the newspaper fraternity. May you continue to live among us and prosper even if you have to do it to the financial detriment of our own sheet. The Dispatch.

Annual Meeting

The regular annual meeting of the stockholders of The State Dispatch Pub. Co., was held in the office of the company Tuesday evening. The annual report of the manager was submitted and approved. A committee was appointed to change the charter so that seven instead of seventeen members would constitute the Board of Directors. The election of officers and Directors was deferred until after the Charter be amended.

The annual report shows the company to be in a healthy financial condition and shows that the merchants and business men of the town have been very liberal during the past year in their advertising support for which the stockholders feel very grateful. The stockholders meeting was adjourned and a meeting of the Board of Directors called to order. Means by which to collect and due subscriptions was discussed and a contest decided on, full particulars of which will appear later.

COUNTY FAIRS ARE OF USE TO FARMERS

By W. T. Bland, Chattanooga.

In a way we are all of us "from Missouri." At any rate, we like to be shown. There is no more convincing or satisfactory method of teaching than by means of object lessons. The school teacher who has to do with children has long ago learned the value of this method. And when it comes to learning new lessons we are all just a little older grown.

Books have their value and a few well selected ones at least should be found in every home. The farm journal has become a positive necessity, and no farm home can afford to be without one or more good agricultural papers. Their weekly visits are looked forward to with as much interest and pleasure as that of any friend that comes. The regular contributors become old acquaintances and their names familiar household words. In fact, there is probably no greater real educational work going on today, one that is reaching more people and doing more good, than that which is being done by the great agricultural journals of the country. It is impossible to over-estimate the real value or their power. Week after week and month after month they are driving home those great lessons of better farming and better living and their influence is being felt and appreciated in all parts of the country.

But while these books and papers are wonderfully instructive, and while they have reached that place in the world where they could not be done without, still there is another phase of educational work that must not be overlooked. I refer now to the county and state fairs. Here we have the great object lessons. Here we see the results of the very best efforts of the most successful producers of the entire country. And here we not only see, but have the privilege of studying the thing itself and of making our own comparisons and decisions. We have not only heard of that which others have done and read about, how they have done it, but we have actually seen it with our own eyes and we are convinced. We return to our own farms with the firm conviction that if others can do these things so can we, and with renewed zeal we go about our work.

Every county should have its own agricultural association and one week should be set aside each fall for its annual meeting, its great gathering of farmers and their families from every nook and corner of the county. Here should be brought together for purposes of comparison and exhibition the best products of the soil, along with the finest of the heard and flock. A permanent place should be provided and suitable buildings erected for the various exhibits. Every man, woman and child in the county should feel a personal interest in the success of the enterprise. It will require time and effort and money, but so does every other thing that is of any value. If the people of any county will take hold with a determination to win they will be many times repaid for all it costs.

While the great object is and should be educational, yet its social advantages should not be overlooked. Here the farmers with their families from all parts of the county come in contact, become acquainted and mingle together in social enjoyment. It is a splendid opportunity for relatives and friends. We talk over old times, we compare notes, we gather around the table and good things to eat that we and our wives and daughters have prepared, and we go away feeling happy and happier for it all. The officers and managers of these affairs are the best of their kind. They are especially anxious to make the undertaking a great success and are doing with the educational and social features comes that of entertainment, which must receive consideration. Probably in this greater room for improvement than in any other. I refer especially now to the cheap side-shows with their low comedians and fortune tellers that trail along with the fairs, both little and big, and eke out an existence or grow rich from the purses of the farmers. This class of people have absolutely nothing good to offer; they come for no good purpose, and as a class they are coarse and vulgar, such as you would not invite into your own homes to associate with the

members of your families. It seems a pity that they should occupy so prominent a place in every county and state fair. These is a form of amusement, or entertainment, however, that should be provided. First, there should be plenty of good music. Somehow this appeals to all of us, and the bandstand with the boys from town in their uniforms, with fife and drum and horn should occupy a prominent place. Then there should be a lecture hall where speakers of ability may instruct and entertain the crowds.

In a general way the good county fair stimulates the desire and makes strong determination for better farming. We see the different types and best specimens of cattle and sheep and hogs; we study the qualities of the different horses on exhibit; we examine carefully and make note of the various breeds of poultry, and we go back to our homes and determine to bring our own standards up to a higher plain.

Taking it all in all, there is no more profitable week that the family can spend than the one at a successful county fair, and, besides, it is within reach of all. It should be encouraged, not only by farmers themselves, but by the business men in town as well. It has its positive value for good to all and its degree of success or failure counts greatly for or against the entire community.

Progress in the Hookworm Campaign Accelerated.

Reports from the physicians of the State and from the physicians conducting the state and county free dispensaries for hookworm disease, show that since the work began twenty-one months ago upwards of forty-five thousand people have been treated. Nearly half of this number has been treated in the free dispensaries of thirteen counties since July First. In the State there are 1500 of them active practitioners, 1200 of them have sent in written accounts of their experience with the disease, and 800 of them, representing all sections of the State, have been actively engaged in treating the disease. Twenty-five counties have already made provisions for the dispensaries, besides those appropriating for the dispensaries the first Monday in December. 36,000 people have been microscopically examined for hookworm disease. A large number of those treated had such heavy infection that the microscopic examination was not necessary. There is found now little difficulty in securing co-operation on the part of the people and county commissioners, where good results of the work can be seen or heard of.

One Day Only
Consultation and Examination Confidential, Invited and FREE.

ONE DAY ONLY.

To see all of his regular Patients and such new Cases, as may wish to consult him. Dr. Packard enjoys state-wide reputation, among the profession and the Public of North Carolina, where for more than 25 years he has devoted his entire time to the Study, Treatment and Cure of Chronic Diseases. The Doctor has had wonderful success in his chosen work, that of curing chronic sufferers, Men, Women and Children. The Patients he has restored to Health after they had given up all hope of being Cured are numbered by the Thousands. He is a kind, generous, democratic gentleman to meet of high scholarly attainments, and dignified personality. Coupled with a Brotherly interest, in all who seek his advice, he does not take a Patient for Treatment unless he can foresee a Cure of the Case. The most commendable feature of his work, and one that appeals to the ordinary sick person, is the fact of his charges being so reasonable and moderate as to make it within the reach of even the very poor. At no time do the charges amount to more than \$7.00 a month or about \$1.50 a week. He gives his own medicines, and there are no extra Charges. It takes him never more than from four to six Months to Cure a Case under Treatment. All Cases, even those who have been given up as incurable or hopeless, have been Cured and restored to perfect health by this Brilliant Physician and the wonderful methods he employs.

If you want to meet him and have him examine you, go to see him, and talk the matter over with him. It will cost you nothing if he does not put you under treatment. If he takes your case, it will cost you a very small sum to get well.

Remember the Date and come early.
