NO. 35

CONFESSION OF REV. RICHESON

"Gentlemen: Deeply penitent for my sin, and earnestly desiring, as far as in my power lies, to make atonement, I hereby confess that I am guilty of the offense of which I stand indicted. "I am moved to this course by no inducement of self benefit or leniency. Heinous as is my crime, God has not wholly abandoned me, and my conscience and manhood, however depraved and blighted, will not admit of my still further wronging by a public trial, her whose pure young life I have destroyed. Under the lashings of remorse I have suffered and am suffering the tortures of the damned. In this I find a measure of comfort. In my mental anguish I recognize that there is still, by the mercy of the Master, some remnant of the Divine spark of goodness still lingering within me. I could wish to live only because within some prison walls I might in some small measure redeem my sinful past, help some other despairing soul, and, at last, find favor with my God. "You are instructed to deliver this to the district attorney or to the judge of the court. "Sincerely yours "Clarence V. T. Richeson." Richeson's confession, as made public Saturday, was bare of details. It is understood, however, that he enlarged on it in conversation and possibly in writing to his counsel and that the district attorney is now in possession of most of the information which has come to the defense. While no person can be quoted as responsible for it, the statement is made on high authority that Richeson's amplified confession to his counsel was on the following lines:

After purchasing a quantity of cyanide of potassium from William Hahn, a Newton Center druggist, October 10, the minister took the poison to his room in Cambridge. A few days later he borrowed from Mrs. Frank H. Carter, in whose home he was a lodger, an earthenware mixing bowl "to make some book paste." Returning the bowl to Mrs. Carter an hour or two later, he warned her to be sure and wash it out thoroughly, saying: "I have been mixing poison in it."

It was in this bowl and at this time, it is said, that the minister by mixing cyanide of potassium with flour and water, made the capsule which ultimately caused Miss Linnell's death. This was hours, October 12.

Saturday, October 14, Richeson met by appointment, his one-time fiancée, who still believed herself his intended wife. Following their custom, the couple had a short walk and then went into a Roylston street cafe. Here they had luncheon, after which they took another walk, this time to the Fenway. It was while seated in a secluded bench in the park, after the girl had again told him of her worry over her physical condition, saying she feared it was becoming apparent to her friends, and had once more entreated him to procure some remedy for her, that the minister is said to have handed the girl the capsule, declaring it was a medicine which would certainly act in the manner desired. He directed her as to the manner of taking it and then the pair walked to the car line. Miss

MUST GET WIFE OR LOSE INCOME

Meriden, Conn.—Marriageable young women of this section regard Charles F. Corbin, son of the late Philip Corbin, head of the American Hardware Company, as a bachelor of the most provoking type. Next Saturday is the date set for final settlement of the \$5,000,000 estate of Philip Corbin, and unless his son marries before that date or can show a bona-fide engagement to marry he will lose the income on \$75,000. Mr. Corbin is not really in

need of the \$3750 a year, which his father held out as a lure to the matrimonial noose. He was left \$150,000 outright and the income of \$75,000, which was to be doubled in case he married.

If he has had his eye on that additional income, he has not taken his friends into his confidence, and they have been reticent about asking him, as he tried married life once before and wound up in the divorce court. His intimates quote the old adage about the burned child dreading fire, but that doesn't lessen the nervousness of the marriageable female population as the date for the final distribution of the estate draws near.

Mr. Corbin has been spoken well of by the women since his father's estate was filed for probate in November, 1910, but his popularity with the sex may be shortlived if he proves equal to the test of sacrificing \$3750 a year for the delights of single blessedness. Linnell went to her room in the Young Women's Christian Association house, while Richeson boarded a trolley car for Brookline, going to the home of Miss Violet Edmonds, the wealthy heiress, whom he was to have married a few weeks later. Meeting her chum, Miss Lucile Ziegler, Avis said she had been walking with her friend (by which Miss Ziegler understood she meant Richeson) and complained of a headache as her excuse for hurrying to her room. A few hours later she was found unconscious in the bathroom and died without regaining consciousness.

Newlyweds Stranded.

Chattanooga, Tenn., Jan. 6.—Special Application for a ticket to Statesville, N. C., was made at the associated charities today by a man giving his name as T. F. Halcomb, Jr., who was accompanied by his wife, they have recently married in Indiana and on their way to visit the groom's father, T. F. Halcomb, Sr., at Elkin, N. C. The man claimed that his pocketbook containing about \$400 had been stolen. His wife had a ticket to Statesville. A telegram has been sent to the address of Halcomb's father, telling him of his son's predicament. Action will depend on the answer.

BRYAN AT RALEIGH

Raleigh, Jan. 8.—The greatest outburst of applause that greeted Hon. William Jennings Bryan Saturday night during his address before an audience that taxed the great new auditorium here was when he declared that he realizes now that there are men in the party who can poll more votes for democracy than he and that he will apply himself to more earnest work for them than he ever did when burdened with personal candidacy. That he has abandoned the expectation of office but is by no means out of politics.

Mr. Bryan's theme was "Progress of the World in Intelligence, Morals and in Application of the Science of Representative Government." His was an eloquent review of educational progress the world over and of a wakening of public conscience in the elevation of the morals of the people along all lines, particularly in reform of public affairs.

He regretted lack of progress in his declared reform for election of United States senators by the people and declared that both parties must stop sham battles on this subject and go in particularly for driving great corporations and special interests from control of United States senate, and pass the bill for people to elect senators and let its adoption be optional with the people. He predicted that party primaries for nomination of candidates will ere long be generally in force. Among reforms declared to have recently been accomplished in this country were publicity of contributions to funds for campaigns.

An eloquent feature of Mr. Bryan's address was his review of the progress of reforms in government in all the countries of the earth the past few years, Russia, China, Japan, England and in the United States. And the prosecution of representatives of "special interests" and trusts and investigations into commercial conspiracies against the interests of the people came in for special review, with the hope and prediction that the democrats in congress will use their present majority control for pushing these investigations into many needed avenues.

Special Items From Elon College.

The College opened on the third of this month with fifty two more students present than on any previous opening day after the holidays so far in our history. There were a goodly company of new faces, but the most were of course students here in the fall. This quick return after the holidays is evidence of real, abiding interest in their work on the part of the students and forebodes a successful spring term's work.

The College is happy this week despite the inclement weather in the annual series of lectures by non-resident Professor Martyn Summerbell, of Lakemont, N. Y. Dr. Summerbell chose as his field this time the Society of Jesus or as it is familiarly called The Jesuits. He treated this difficult and learned theme with a masters grasp and absolutely captivated all who heard him. For Sunday services he gave two invaluable lectures on the Miracles of the New Testament and The Origin and Principles of the Christians. He returns again next year for a series of lectures on the Reformation in England.

Mr. Harrison Thompson, Burlington, N. C. the new superintendent of the College plant is taking on to his work in a most satisfactory manner.

The series of evangelistic services for this year will begin on January 23 and will be under the direction of Rev. and Mrs. Chas. Underwood Butler, the noted gospel singers and evangelists. On the sixteenth instant Dr. Atkinson will deliver a free public lecture on The Character of Adam Bede. This lecture is well known and is anticipated with much pleasure. The prospects for a baseball team seems bright to Coach Doak. A fine schedule is being arranged. The team is expecting to put some genuine good article this time.

Touch of Real Winter.

The people of this section have been realizing as they seldom do the touch of real winter.

Beginning Saturday night about eleven o'clock the white fleecy snow began to cover the earth and when the Sunday morning sun shone its rays of gold more than three inches of snow covered the earth. This was covered Monday by sleet which caused the pedestrians to trample as if walking on eggs. Many of the water pipes have frozen in the residence and almost all the knitting mills have been stopped because of frozen pipes. The street cars have been unable to make schedule time, in many instances the wheels go buzzing without the car moving. The coal men seem to have gone on a strike or at any rate the fellows who do the delivering. While the fellow who used a little common sense and ordered a good supply during the balmy days needs make no kick.

Taking it all in all the past few days having brought weather such as the people of Burlington have rarely been use to, and the brilliant rays of the sun heartily greeted.

Foxes Climb Trees.

Some time ago the Charlotte Chronicle and The Statesville Landmark engaged in a heated controversy with regard to foxes climbing trees. The Chronicle claiming that such stunt cannot be performed by this fleet-footed animal, while The Landmark held out the argument that foxes can climb trees. At the time the question was being so badly handled this writer was ignorant as to which way to vote, but now we cast our ballot with the Landmark. Several reputable citizens of Marshville had an experience with a gray fox one night during the holidays and are willing to make affidavit to the fact that the said fox climbed a number of straight trees and that he climbed anywhere from six to forty feet from the ground.

Kills Father And Son.

Raleigh, Jan. 8.—Special Governor Kitchin announces a reward of \$200 for Jesse Tpton, who is wanted in Swain county for a double murder on Christmas Day, when he shot George Brendle, and fled to Georgia. There had been an old grudge between Upton and the elder Brendle and Christmas Day Brendle met Upton and suggested that they bury old scores and be friends again. Whereupon, Upton fired upon Brendle, killing him instantly and then fired two shots into Manly Brendle, resulting in the latter's death within three hours. The reward is at the request of the sheriff of the county and Solicitor Felix Alley of the sixteenth district.

Helpful Address.

Rev. John B. Swartz made a very enthusiastic speech to a small but representative audience at the Reformed church Thursday night. Had the weather been mild the house would doubtless have been filled. Rev. Swartz is making a complete tour of North Carolina, holding Sunday School Institutes. After his remarks he urged the necessity of organizing a teachers training class. It was decided to meet Thursday night of this week for the purpose of this organization. Everybody is invited to be present at this time whether a teacher or not. Rev. Kendall of the Christian church was present and made a few helpful remarks. Prof. Singletary took part in the conference after the address of the evening.

ANOTHER PORK BARREL

Belmont can't do anything with Alamance Mills as to hog raising. While 37 homes at Belmont raised 17724 pounds of pork this year, Alamance with only 27 homes, raised 13063 pounds, an average per home of 669 lbs. against Belmont's 476 lbs. Therefore, you may see by these figures that Belmont is not in the same class at all with Alamance, but how could they be and stay down on No. 7? The following is what each man killed:

Just as Scores of Burlington People Have.

Waiting doesn't pay. If you neglect the aching back, urinary troubles, dropsy, surely follow. Doan's Kidney Pills relieve backache, strengthen the kidneys.

Many people in this locality recommend Doan's Kidney Pills. Here's one case:

S. M. Embry, 415 Arlington St., Greensboro, N. C., says: "If anyone should ask me about Doan's Kidney Pills, I would say without a moment's hesitation that they are the best kidney medicine I have ever used. I had seen this preparation advertised and highly recommended by people in Greensboro, but unfortunately did not use it until a few months ago. I made the mistake of thinking it was like the many other remedies that I had used, having little or no merit. As soon as I got a supply of Doan's Kidney Pills and began their use, I could see they were just what I needed and after I had finished the contents of the second box, the pain and lameness had left my back and my kidneys had become normal. I am certainly glad to get rid of kidney complaint, as it has annoyed me for a number of years."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Crowded out last week.
Now that Christmas has come and gone with all its joys and sorrows, we again try to give a few items of interest.
The road situation seems to grow worse as the days go by. One of our correspondents gives us a faint idea as to what could be done on the road from Mr. W. D. Adams to Mr. N. A. Kimes, but did not say what a deplorable condition it was in now. If there has been any work done in 2 years on this road we do not know of it. Unless something is done soon it will be impossible to travel on it. We would like to see the County Superintendent of Roads, Mr. Thompson over this way. We would like to know what has become of him. He has been in office 3 years or more and if he has ever spent one solid day in Patterson Township looking over the roads seeing their needs and providing suitable men to supervise said roads, we have never heard of it. The above named road has no supervisor as we can learn of. We had hoped when Mr. Stroud was elected County Commissioner we would get a little more attention, but I reckon they have got him hypnotized. Owing to so much rain during the holidays there was not much visiting.
Mr. W. E. Spoon and family of Burlington visited Mr. Spoon's father and spent a day or so hunting.
Misses Fannie Spoon and Maggie Robertson of Graham spent a few days as their usual custom is with the former's sister, Mrs. F. L. Spoon.
Mr. Tom Spoon spent the holidays with his father, S. L. Spoon. He is in school in Baltimore taking a dentistry course.
Mr. Wm. Fogleman who has been the miller at the Ward mill for many years has taken charge of Snow Camp Woolen Mill, and Mr. Frank Briston, one of our best neighbors, has taken his place at the mill.
We had the pleasure of reading a good piece in the Dispatch a few weeks ago about the County Fairs, what benefit it could be if rightly managed. We think from what we can learn if Alamance County Fair is not managed better it will soon be a failure. From what we can learn the premiums for 1910 have only partly been paid and for 1911 none have been paid. Now the point at issue is, is its poor encouragement to the farmers and their wives and children to work hard to try to make the fair something and then be paid off in promises. When they went to the gate to go in the manager did not take promises, but the money must come, or you stay out.

Handsome Gift to Educational Institution.
A bequest of property said to be worth \$30,000 became known in Greensboro Tuesday when a deed to probate was offered in the office of the clerk of the Superior court. The gift is the transferring of a track of land containing 640 acres in Kansas to the endowment fund of Sylvan Academy, in Alamance county, and is made by Isaac Hammer. It is given in honor of Mrs. Hammond, who started a school at Snow Camp, where the academy is now located.
Mr. Hammer is very much interested in educational work and it is understood that recently he made a gift valued at \$36,000 to the Kansas university. The gift of this valuable land will be of much value and use to the school to which it is presented and will enable the making of improvements in the institution which have been very much desired by the school authorities in charge.
As trustees of the gift Mr. Hammer has named the following well known gentleman of Guilford county: J. S. Cox, of Greensboro; Nathan Stuart, Mrs. Lydia Allen Stuart, W. P. Stout, June Hornaday and Henry Hornaday, of Alamance. During the life of Mr. Hammer he will receive the proceeds from the property and pay the taxes. The condition attending the gifts is that a new building be erected by the academy in the time of 13 months from the date of the gift.
Mr. Hammer's wife was Miss Jane Allen, and Mrs. Stuart, who is named as one of the trustees, is her only surviving sister.

EARTH'S SURFACE IS NOW TILTING
Cleveland, O. Jan. 5.—The earth's surface has been tilting to the north since 10 A. M. Christmas Day.
Father Odenbach, a learned seismologist and astronomer, reports that the tilting is being recorded and measured by the delicate instruments in St. Ignatius' observatory. The tilting so far has been 1-16 of an inch in 1,000 feet.
The tilting affects a floe, or giant triangle, with a line from Newburyport, Mass., through Elmira, N. Y., and Cincinnati for its base and its apex in Canada.
Father Odenbach can assign no cause for this disturbance. He considers that the recent earthquake in the Middle West was only an incident of it.

TAFT WOULD SAVE MILLIONS A YEAR
Washington, Jan. 3.—President Taft, in the economy message he will send to Congress, probably this week, will recommend reforms that will save from \$25,000,000 to \$50,000,000 a year. The report of the Economy and Efficiency Commission will be transmitted with the message.
More than a week ago Mr. Taft received the preliminary report of the commission. Since that time he has been in consultation with individual members of the board, and has drafted his recommendations to Congress based upon the findings of the body.
By following the report of the Economy Commission the administration hopes to outeconomize the Democratic majority in the House. The majority of this body is pledged to economy, in spite of the \$75,000,000 pension bill just passed, and expects to make a record for money-saving before the session ends. The administration is just as anxious to impress the country with its disposition to stop unless expenditure, and will depend upon the Economy Commission's report for its policy.

Terrible Picture of Suffering
Clinton, Ky.—Mrs. M. C. McElroy, in a letter from Clinton, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. I had lost hope. After using Cardui a week, I began to improve. Now I feel better than in six years." Fifty years of success in actual practice, is positive proof, furnished by those who have used it, that Cardui can always be relied on for relieving female weakness and disease. Wednesday, Jan. 10, 1912.

One difference between Cook and Bryan is, Bryan never got there.

Wonder how the fellow who took the New Year pledge not to drink is holding out these cold days.

One thing should console the farmers these cold days, they destroy thousands of bugs and insects that play havoc with the crops.

The convenience of the street car is to be more appreciated this weather than during the balmy spring days.

We wonder who Bryan was referring to when he said there was another, who could poll more votes than he.

In his speech at Raleigh Saturday night Mr. Bryan said he was not a candidate, but gave the party the gentle reminder that he was not out of politics.

Four Democrats deadbound for the Presidency, and four for the senate in our state, is what we call a double quartette.

We suppose there is great rejoicing among the others of the fold when they hear the glad tidings of great joy that William Jennings is no longer a candidate.

To take a side glance at the Democratic situation at present one would think Wilson is against the field. And Wilson lost his home state in a recent election.

The greatest applause given Bryan in his speech at Raleigh Saturday night was when he said "That there were other men in the Democratic party, who could poll more votes than he." Did the people mean by that, that they did not want Bryan?

Perfectly Harmonious.

The great democratic jollification which met at the Raleigh hotel Washington Monday night for their Jackson day dinner, is reported in glaring headlines as being perfectly harmonious. We should say harmonious with Governor Wilson holding a similar meeting at another place, and allowing only those to attend who wore Wilson badges. Harmonious, again we say harmonious, with Governor Harmon, considered by many the strongest democratic possible nominee, sending his regrets that he could not be present. With Governor Marshall of Indiana who had another engagement, with Representative Underwood, leader of the house democracy, and also a presidential possibility, sending word that his doctor would not let him attend because of threatened appendicitis. With what was remaining the entire meeting was harmonious.

Look After the Poor.

Is it not the duty and demand of our churches, Sunday schools and Christian organizations at this season of the year to look after the poor? Do we Christian people in Burlington and Alamance County who send money to other nations not know of some one near us who is suffering and who need our support? Do we not know of some home that we can make pleasant and cozy these cold winter nights where suffering and hardships perhaps exist. Stop a moment and think.

The Sylvan Valley News, which is in position to get republican information straight, says that the fight for the Republican nomination for Governor of North Carolina will be between John M. Morehead and Thomas Settle. This leads the Charlotte Chronicle to say: We have heard as much. They are both strong men, in the division of party influence pretty well matched. Whichever gets the nomination, however, will get the full republican vote, for the Republican quarrels end when the ticket is made. There is some sentiment in Morehead's candidacy, and he would be, perhaps, the stronger. There are many Democrats, personal friends, who would vote to send him to the seat once occupied by his grandfather, one of the greatest of North Carolina's long line of Governors. The campaign for the nomination is going to be a pretty one, and the campaign for votes is going to be one that will command the attention of the Democrats.

The Canal Problem.

It seems but yesterday that the President of the United States, after a conference with Panama, decided to dig the Panama canal and the first shovelfull of dirt was moved in what is destined to be one of the greatest works of all time.

However recent it may seem, seven long years have rolled by and today it stands near completion. Hundreds of millions have been sunk in the century old dream of inter-ocean highway. For five years the trade of the world has been in the throes of adjustment to an entirely new condition. West and east are clasping fingers. Financial problems are figured from new basis. In a practical sense the entire distance around the world has been divided by two. That the completion is nearing is being evidenced by the fact that the Interstate committee of the House are discussing the question of tolls. After a week or ten days it will probably be discussing whether American shipping is to have preferential treatment. After weeks of consideration it will doubtless report. After oratory and oratory the question will doubtless be settled, and the world may know on what terms it may use the canal.

For in the meantime the canal is being pushed to its completion.

"He Ain't Kitched It Yet."

Bryan's running for the Presidency reminds us of the story of the little negro boy who was a regular attendant at a boys reading club, and always called for the same book and always turned to the same place at which he looked eagerly and then laughed heartily. Those who attended the club wondered at the performance so many times repeated. So on a certain night one of the attendants followed the little fellow and looked over his shoulder, saw that he opened the book to a picture of a bull chasing a terrified negro across a field. The looker on was just about to ask what the fun was, for the laugh had again come rippling up to him, when the boy looked around, grinning. "Golly!" he cried, "he ain't kitched him yet!"

A Guilty Conscience.

Again we are brought face to face with the fact that a guilty conscience is by far the worst punishment that can be placed on a person, and that the remorse and lashing of a guilty conscience is more than many a frail human being can bear. In the recent confession of the Rev. Richeson of Massachusetts, the tongue of murder cries out under the yoke of remorse. A guilty conscience is pleading for repentance and forgiveness. The pathetic confession of a man gone wrong, of the snuffing out of an innocent life and the probable wrecking of another, caused by one who, until a few months ago, was a leader for good and uplifting humanity. Lead by the folly of his passion he has followed on and on until he now pleads for repentance as he stands with the lashing and remorse of a guilty conscience. In this confession his plea is that God will save his soul.

CITY OF BALTIMORE IS GIVEN A SETBACK

Washington, D. C., Jan. 4.—Baltimore's claim for the Democratic national convention has suffered a serious setback at the hands of William A. Stone, surveyor of customs at Baltimore and three times sergeant-at-arms at Republican national conventions, who has refused to urge Baltimore's availability before the Democratic national committee. Because of Mr. Stone's experience in conventions he was asked to tell the Democrats that Baltimore facilities are adequate, he refused on the grounds that he could not conscientiously make such a statement. He told a Baltimore committee today that the Baltimore hotel accommodations are not adequate to comfortably house even the delegates and alternates, not counting the thousands of others who will flock to the great meeting. However, Baltimore is to be an active contestant. Robert Crain, manager of the Baltimore campaign, has arranged to open headquarters at the Shoreham tomorrow. Mr. Crain said tonight Baltimore will appear before the committee with a certified check for \$100,000, and will give absolute guarantee of the necessary hotel and telegraph facilities. He claims a majority of the national committee, including Norman Mack, is pledged to Baltimore. The contest for the convention will wax warm tomorrow when the St. Louis and Chicago delegations will arrive.

Have You Consumption?

It is usually easy to tell a case of late or advanced consumption, but at this stage the disease is rarely curable. What we want, is to be able to detect, if possible, the early or the very early stages of the disease as it is then that consumption is most curable. A case of VERY early consumption may generally be cured after two or three months of rest, fresh air and suitable feeding, while an ordinary early case will require perhaps six months. About 80 per cent of the early and very early cases are readily curable with proper treatment. As a case develops however, the chances of a cure decrease, until in the more advanced cases only 25 per cent or less of the cases can be cured.

It is difficult to discover early consumption. The cases that have fever, night sweats, persistent coughing and spitting are late cases and are easily detected. During the first stages of consumption the patient may not notice that he has any very serious physical disorder.

The best indications of consumption are: 1. The actual finding of the germs in the spit or matter coughed up. This may be done means of the microscope. But since it is seldom possible to find these germs in the early stages even if the disease does exist, a failure to find the germs is not a positive proof that consumption does not exist.

2. This positive reaction of tuberculin. This test however should be used only as a last resort and then only upon the advice of a competent physician.

3. Physical changes in the Lungs as indicated by a painstaking examination of the chest. While these methods can only be applied by a physician, the average man should become suspicious after one or more of the following symptoms or conditions are noticed.

1. Loss of weight without apparent cause. 2. Lack of loss or general physical vigor, especially a depressed feeling before eight in the morning and after three in the evening.

3. A temperature of less than 98 in the forenoon or more than 99 in the evening should be regarded with suspicion.

4. Catching one cold on top of, or immediately after another.

5. Coughing for two weeks or longer without apparent cause.

Close association with a cougher, or careless consumptive within six months or a year. Anyone having one of these symptoms or conditions should regard himself with suspicion. He should also consult a reputable physician for examination at once. A few weeks later may be too late.

After all, a foot ball game does not appear to be as dangerous as a hunting excursion in Maine.

They were attended by a small party of friends who escorted them from the City Hall to a taxi for the trip up town to Miss Schwartz's home.

Bridges Time and Space

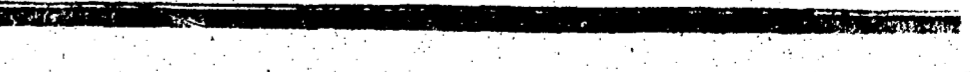

IT WAS A QUESTION of life or death and the victim's life hung by a slender thread. A difficult operation was necessary. To be successful the operation must be performed at once. The services of a specialist were required, but he was in a distant city.

The specialist was reached over the Long Distance Bell Telephone, the case described and the operation arranged for.

The sufferer's life was saved through the ability of the Universal Bell Telephone Service to bridge time and space.

WILL BOTTLE HIMSELF UP AT SAGAMORE HILL

Oyster Bay, N. Y., Jan. 5.—After a talk in New York with James R. Garfield, ex-secretary of the interior and a leader of the Republican progressives of Ohio, ex-President Roosevelt returned to Oyster Bay tonight.

Colonel Roosevelt has just one thing to say. It was that he had no intention of letting the public know what he thinks about the selection of a Republican candidate for President. He declared his intention of bottling himself up at Sagamore Hill and refusing to answer any questions.

"Does that mean that your attitude will remain a riddle from now on until the Republican convention is held?" He was asked.

Colonel Roosevelt refused to commit himself on that point, merely saying that as far ahead as he could see he would make no public expression of his position.

Mr. Garfield's journey to New York at this time was regarded as significant because it followed so closely the convention of Ohio Republican progressives, where he was credited with having taken a leading part in dissuading the convention from endorsing Senator LaFollette for the presidency. Neither Colonel Roosevelt nor Mr. Garfield would say a word in regard to their conference.

'BABY' BLISS FOUND FROZEN

Bloomington, Ill., Jan. 4.—Leonard (Baby) Bliss, reputed to be the largest man in the world, was found frozen to death in his home here today. He had not been seen about the place for several days and neighbors made an investigation. They found his body seated in a chair, in his night clothes, with gas escaping from a gas stove.

It is thought he arose several nights ago to get warm and accidentally opened the jet.

He was born here May 4, 1865. His dimensions were: Height, 6 feet, 4 inches; waist, 72 inches; hips, 86 inches; chest, 66 inches; thigh, 42 inches; calf, 27 inches; collar 21 inches; hat, 75-8; socks, 12 1-2; shoes, 13; weight, 540 pounds.

Bliss was known in America and Europe, having toured both as a salesman for a bicycle factory 16 years ago. He also was at various times with circuses. Last summer he spent several weeks on the road with a "fat man's" ball club.

Are Men Uninterested in their Wives?

In the January Woman's Home Companion, Mary Heaton Vorse writes an article entitled "Is the American Man a Failure?" Following is an extract:

"There are thousands of American men who are merely indifferent to their women. They are proud of them, but supremely uninterested, and ask of their wives only to be let alone. Their business is their life; it is their life after they are married just as it was before. They are playing a tremendous game, and in this country a man has got to win or go to the wall. It makes no difference whether a man is married or a bachelor; it is not the women of the country who determine if a man must work at the great rate of speed at which they labor—it is the pace of the country itself which demands it. Our men give generously and indugently to their women-folks; they like to see that they have 'everything in the world,' as the saying is. It pleases their vanity to see their houses well-appointed and their women well-dressed; they like the luxury of it for themselves. What is to be expected of young girls whose fathers have had no influence in their bringing-up, but have merely paid the bills,—young girls who have never been taught the uses of money nor any details of any business whatever, and whose whole duty in life is to dress with the extreme perfection of which our women are past masters, and to keep in good physical condition and talk amusingly? These are the prices of success, success being measured in this country, as elsewhere, in terms of marriage and attention."

WOMEN SACRIFICING JEWELS

Nashville, Tenn., Jan. 4.—Women of the Southern Presbyterian church are sending their jewels and other valuable personal belongings to the foreign mission board in this city for the purpose of wiping out an indebtedness of \$100,000 incurred by the board. Grave danger of the recall of foreign missionaries faced the board and an appeal was made to the loyal women of the church to meet the deficit.

From all over the south women have sent jewelry, silver ornaments and money to the board. A committee is disposing of the gifts as rapidly as possible and forwarding the proceeds to missionaries whose salaries are overdue.

As yet the gifts have not been sufficient to meet the deficit and a second appeal has been made to southern women, which has brought many contributions accompanied by letters of self-sacrifice and retermination to sustain the church's efforts in the foreign fields.

Stopped Those Pains.

Timberville, Miss.—Miss Gertrude Gutlin of Timberville writes: "I did not know anything could stop those womanly pains, from which I suffered for two years, until I tried Cardui. I had been troubled with various female ailments, but they were cured in a little while, thanks to Cardui." Cardui is especially adapted for use by ailing women. It relieves headache, backache, dragging feeling, irregularity, nervousness, misery and womanly weakness. It is safe. It is reliable. It does the work. Will you try it? Please do.

ECZEMA CURED

Pimples Disappear and Complexion Cleared Over-night.

New York:—Thousands are taking advantage of the generous offer made by the Woodworth Co. 1161 Broadway, New York City requesting an experimental package of Lemola, the new skin discovery, which is mailed free of charge to all who write for it. It alone is sufficient to clear the complexion over-night and rid the face of pimples in a few hours. On the first application of Lemola the itching will stop. It has cured thousands afflicted with Eczema, Teeters, Rash, Itching and Crusting of skin scalps of infants, children and adults. It is good for the preservation and purification of the skin, scalp, hair and hands for the prevention of the clogging of the pores the usual cause of pimples, blackheads, redness and roughness and also the treatment of burns, scalds, wounds, sores, chapping as well as the toilette and nursery.

Progress in Wireless Telegraphy.

Marconi rejoiced when, in 1897 he succeeded in sending a wireless message a distance of three miles. By 1907 he had established a regular wireless communication across the Atlantic. Since then vessels have been "picked up" at sea from shore stations at distances of from 2000 to 4000 miles. In November last Marconi sent a message from the Goltano Station, in Italy, to the Glace Bay Station in Nova Scotia, 4000 miles. The San Francisco operator, a month earlier, conversed for a period of fifteen minutes with the Japanese station on the Island of Hokushu, a distance of 6000 miles. Wireless communication, it is expected, will be opened up between Italy and Argentina with the completion of the new station at Buenos Ayres. The air line distance between these stations will be 7000 miles. The installation of wireless apparatus on ships is being gradually extended. Until recently few vessels outside of war ships and steamers of the liner class have been so equipped. Now various countries are by legislation compelling many smaller passenger-carrying craft to install such apparatus. Great Britain is reported to be planning the establishment of a chain of wireless stations to encircle the globe. This is to be a subsidized system under the control of the Post Office Department. Such a chain of stations would give England wireless connection with her colonial possessions in various parts of the world, making her independent of cables, which are liable to be cut in time of war.—From "The Progress of the World," in the American Review of Reviews for January.

SUFFERED 23 YEARS

Constant Sufferer From Chronic Catarrh Relieved by Peruna.

Mrs. J. H. Bourland, San Saba, Texas, writes: "For twenty-three years I was a constant sufferer from chronic catarrh. I had severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent expectoration. My entire system gradually became involved, and my condition grew worse. I had an incessant cough, frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages. I tried many remedies, which gave only temporary relief or no relief at all. I at last tried Peruna, and in three days I was relieved of the bowel discharges. After using five bottles I was entirely cured. I most cheerfully recommend the use of Peruna to any one similarly afflicted." Ask Your Druggist for a Free Peruna Almanac for 1912.

RURAL CARRIER ITEMS

Oakdale Items.

We noticed with pleasure the report of the "Pork Barrel" at Belmont Cotton Mill. It goes to show what every cotton mill hand can do if he will. I will give a few of the best ones in Oakdale school district. Mr. Sam Soots, who started out to be the champion in the district killed one 18 months old, 450 lbs. Mr. Lee Spoon, one 11 months, 360. Ed. Garner (col.) one 488, almost made enough meat to do them. Some made some meat hunting rabbits. Mr. Frank Bristow and son-in-law, Davis, hunted 2 1/2 days on three farms and killed 72 rabbits before hog killing and it was not a good time for rabbits, either. Neither did they get them all. There are plenty left for the holiday hunting.

Mr. Andy Clapp died Dec. 31, was buried at Mt. Zion, Jan. 2. Mr. Clapp had been in feeble health for some years. He leaves a widow, 8 living children, 48 grand-children and 14 great-grand-children. He was about 80 years old. Only one more older than we can call to mind and that is Mr. Sylvester Spoon. He is about 85, in good health, runs his farm. In the winter he runs a small corn mill.

January has begun very rough. A very nice little snow 7th. Look out, rabbits, we will make our meat.

There was a very impressive service at the Baptist Church Sunday morning despite the snow and cold there was a good congregation Pastor Hocutt preached a most excellent sermon on A Soul Saving Church. Hurley of Mebane address in behalf of the churches Rev. G. L. Curry of Graham was to address in behalf of the community but was not present and Dr. Wicker gave it. BRADLEY'S NEW DRUG STORE IS LOCATED

The Paragon is an ideal location for a modern drug store, being near the Post Office and closest to the most populous part of the town. The congested condition of my large stock of drugs and sundries necessitated the securing of this larger building, more than double my present floor space. The building is now being remodeled and the interior beautified by Mr. Benson, the best artist in North Carolina. This will be a drug store the town and county will be proud of. When Bradley says he is going to do a thing you can depend on it. "SATIS DICTUM."
