CANDIDATE FOR UNITED STATES SENATE

The following, taken from Judge Clark's letter to Hon. A. Hall Johnson, 17 May, 1911, accepting the invitation of friends to become a candidate for the United States Senate, expressed objects for

1. Adequate and unequivocal legislation that will destroy the Tariff for Revenue only. Protection levies tribute, in favor of a class, upon all other classes. It is unjust and undemocratic.

Election of U. S. Senators and U. S. Judges by the people. Election of Postmasters by the people of each locality.

The adoption of the Initiative, the Referendum, and the Re-

call—the latter for such officers, State, county or town, as may be State-wide primaries for U. S. Senators and all State officers.

7. A Parcels Post, especially for the county districts. 8. Public regulation of Railroads and other common carriers,

but operation of the Telephones by the Post-office, as in all other countries. This will give lower rates to the public, with shorter hours and better pay to employees. Extension of Public Schools and Good Roads.

Enforcement of laws regulating hours of labor, prohibiting nated, it will be the duty of somebody elses gain. Enter now child labor and requiring safely appliances.

11. He advocates the destruction of corrupt methods by Strict restriction of the purposes and amounts for which candidates, or ticket with him. This is no time doing. A little time. A little and Full Publicity of all such expenses, before and after each pri-

Church Comity in Burlingtou

We, the Burlington Ministeral Association, after an enjoyable and profitable conference on the subject of the comity of pastors and churches, see fit to issue the following statement for the consideration of the church people of Burlington:

In all our churches and Sunday schools there is evidence of an aggressive spirit that is most commendable and promises much for the kingdom of God in our community. At the time there is evidence that in some instances zeal has been exercised for building up our church or Sunday school without due regard to the The University of the South at vestigate and see what would be right of another church or Sunday school or to the interests of the kingdom of God as a whole. This has been conspiciously true in the aggressive S. S. campaign

If interested a postal card addressed to us will bring you catalogue containing full information.

---Lower Than Ever in Price

There have been no mistakes to correct---no experiments to try out---but conveniences have been added and a marked reduction in price made possible through larger production and added factory facilities.

Some of the original and exclusive features which have made FORD Model T the most popular and serviceable car in the world:

Marvelous Simplicity in Design—Few parts, but every part in harmony with scientific principle. There is nothing superfluous in Ford design, every part has its specific place, making a chassis compact, clean cut, neat, with great strength.

tensile stress and against vibration and shock. Ford Magneto built into the motor. No wearing surfaces, no moving wires, no igni-

A Car of Vanadium Steel (scientifically heat-treated), the strongest of all steels under

Ford Planetary Transmission. Motor always connected with car. Transmission always in gear; when the car is running on high speed the gears are quiet. No crunching or stripping of gears.

No Weight on Moving parts. This assures durability, economy and long service.

Ford Spring Suspension. The axles are attached to the car at the extreme point of the springs, thus giving the utmost flexibility, smoothness in riding, and least wear

Ford Rear Axle. No truss rods. Look at it, no weight but its own to carry; think of the saving in wear this means to the rear tires.

Simplicity in Operation. The movement of the car may be controlled by the feet, the hands need never be taken from the steering wheel.

Light Weight. Ford Model T is the lightest in weight of any four cylinder car in the world, size, power and capacity considered. It has 60 pounds to the horsepower. It costs money to move weight. If weight is an advantage in a motor car, why don't the makers of heavy weight cars advertise the fact?

Accessibility. Every part of the mechanism of Ford Model T is easily accessible. There is nothing intricate—nothing confusing. It is as simple as A B C.

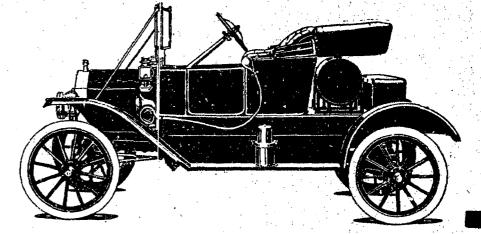

Cheapest to Malazain. Ford Model T is an exceedingly economical car to keep. It goes from 20 to 28 miles on one gallon of gasoline. It is equally economical with oil, and gives from 5,000 to 8,000 miles on one set of tires.

Ford Service for Ford Owners is a feature which must not be forgotten. No matter where you are, with your Ford car, if accident or trouble occurs, you are sure to find immediate service right at hand. Over four thousand individual dealers, each one carrying a supply of Ford parts in stock all the time, each one anxious and prompt to assist Ford owners. Ford service for Ford owners is an exclusive advantage. It is a worldwide advantage. No matter where you go, the Ford dealer is there wait-
