

The Tip.

(From The Greensboro Record)
The anti-tipping bill was defeated in the Legislature yesterday. One reason for laying it on the shelf was that it was unconstitutional.

It is noticeable that when anything is to be killed and there is no other way to do it, it is charged with being unconstitutional. Perhaps it is; we know nothing about it.

But while the traveling men where hot for it, if one will stop and think a moment he will realize that after all, these gentlemen, in great part, are responsible for the evil. Years ago when it started in this country the drummer—not all of course—was the big like. He helped to start the practice at least. At that period most of them drank liquor and naturally they felt good—rich, so to say—and they shelled out. However like all the rest of us, these gentlemen have discovered that drinking is a poor habit and practically all of them have cut it out. Having done this they are trying to cut out a good many other things, tipping being one of them.

It has been pointed out for a long time and women could stop it whenever they made up their minds to do it, but it is not easily done. The habit is a fixed one. The man who visits a hotel and does not shell out to the waiters, is soon spotted and he gets mighty poor service and is soon known as a tight wad. In self-defense and in order to be waited upon punctually and get something to eat, he tips and tips and soon becomes one of the army.

Mehta, Feb. 8.—The last weekly meeting of the orchestra was especially pleasant as new classical selections were rendered. The work of Captain Spiker, who is conductor and leading violinist, and of Major Meyer and Captain Jerkerson, violinists, was much appreciated. The work of Major Nalle, trombonist; Mr. Gose, clarinetist; Preston Gray, leading cornettist; Mrs. Gray, piano accompanist, is also of a high order of merit. From the progress so far made by the orchestra there is bright promise of a high grade of music for the commencement exercises at the close of the season.

The baseball games so far scheduled are as follows:
March 5—Oak Ridge at Burlington.
March 21—Atlanta Christian College at Burlington.
March 23—Burlington High School at Burlington.
April 30—Greensboro High School at Greensboro.

The date heretofore for the Young Men's Christian has been Tuesday night. However, it has been found that Sunday night is a more convenient time because every one interested can take part. The date has accordingly been changed.

NOTICE!

Road Tax For 1913, Due.

The special road poll tax for the year 1913 is now due and payable until the first day of April.

Under the old the Treasurer was paid a small commission for collecting and handling this fund. And heretofore I have given that commission to those who looked after it in the different Townships. But now under the Salary law there is no provision made for any one to be paid anything out of this fund. Therefore, unless some one will volunteer to collect without charge in the townships, I cannot put the books out, as has been my custom. According to instruction from the County Commissioners, the books will be at my office in the court house in Graham, and all persons desiring to pay will pay to me, unless they find some one else with the books.

Respectfully,
Albert J. Thompson,
Treasurer Alamance County
This Jan. 7, 1913.

Misses Bessie Howard and Grace Isley will spend Sunday at Glenco where they will attend the services to be conducted by Rev. Mr. Buck.

Rockefeller Examined Today at Noon.

Rockefeller, Ga., Feb. 7.—Governor H. H. Rockefeller, the 100-millionaire capitalist, was examined today by the committee on the Rockefeller estate. The examination was held at the State Capitol building. The committee was headed by the chief examiner and the examination was observed by the members of the committee. The report of the hearing at Palm Beach.

40,000,000 PARCEL POST PACKAGES ARE HANDLED

Washington, Feb. 6.—Approximately 40,000,000 parcel post packages were handled during January. At the 50 largest post-offices, 19,385,433 parcels were handled in the first month of the operation of the new system and the business of the last two weeks exceeded that of the first two weeks by more than five million packages.

Chicago exceeded all other cities in the number of parcels handled, its total being 4,163,153. New York handled 3,519,788; Atlanta 183,000; St. Paul 181,056; New Orleans 166,391; Dallas 130,000; Louisville 114,076; Richmond 100,000; Nashville 69,270; Jacksonville 42,963.

The present season is the dull one in postoffice business, but even if there should be no increase in the parcel post work, about 500,000,000 parcels would be handled during the first year. Some postmasters estimate the first year's total will be one billion packages.

From the more remote sections of the country, postmasters report merchants are preparing to extend their fields to the rural districts, through the new system and farmers are preparing to send products to cities and towns upon the opening of the Spring season.

The preliminary appropriation

for the establishment of the parcel post has been exhausted and Postmaster General Hitchcock today asked for an additional appropriation of \$750,000.

Dance Quite a Success

New York, Feb. 7.—Miss Anna Morgan, daughter of J. Pierpont Morgan, it is announced that she will secure a larger audience for the next meeting of the Spang, as the members of the Society for the Prevention of Useless Giving is known. This organization is one of Miss Morgan's pet projects. It is composed exclusively of young women. At the last meeting it was decided to allow the members to extend invitations to their men friends to attend the dance that followed the meeting. The result was that more than 3,000 people tried to jam their way into a hall that accommodated half that number when filled to capacity.

Counties Fighting Hookworm Disease.

Raleigh, N. C., Feb. 6.—It is a notable fact that in North Carolina to date seventy-two counties have appropriated \$20,300 for free dispensaries in the counties for the treatment of hookworm disease under the direction of the State Board of Health, with Dr. John A. Ferral in charge. Each county is given six weeks' work by competent assistants. A number of the counties are seeking return engagements for this work. The latest to make the initial appropriations for the treatment for the treatment are Currituck, Pasquotank, Perquimans and Mecklenburg.

Fatal Accident in Pender.

New Bern, Feb. 6.—News reached here this afternoon of a horrible accident in Pender county yesterday afternoon at a logging camp operated by Munger and Bennet of this place and which caused the death of Earl Ketchum a citizen of that section. Ketchum was employed at the camp as engineer of a skidder and was engaged in its operation when the heavy steel cable holding this snapped and wound around his body in such a manner that the victim was literally crushed to death ensued just after the heavy coils had been taken from his body.

Simply An Accidental President (Lincoln Times)

President-elect Wilson says he interprets his election as a triumph of progressivism. The true interpretation is that the majority of that American people did not want Wilson, but because of their division he slipped in a minority vote. If there ever was an accidental President, Wilson is the man and that's all the significance there is to his election.

Falls at Wife's Feet.

Petersburg, Va., Feb. 7.—Immediately upon recovering consciousness after a convulsion due to uremia poisoning, from which he had been suffering for several weeks. City treasurer William Ramey today shot himself through the head. He regained consciousness while his wife was out of the room for a few minutes conferring with a person and went to his trunk from which he took a .38-caliber revolver. Hearing him moving about Mrs. Ramey re-entered the room and saw him with the gun. She grabbed his arm but he broke away from her and firing a bullet into his right temple, fell dead at her feet.

State Warehouse.

Greensboro, Feb. 8.—At a well-attended meeting of the Farmers Union State Warehouse here today it was determined to establish the Carolina Warehouse at Greensboro, with the object of advancing the interest of the farmer in both buying and selling. It is proposed that the warehouse shall have much to do with eliminating the middleman and that it shall be a step toward solving the high cost of living.

Last Stand Of The Turk.

Turkey having had her European territory cut down about 90 per cent, the loss of about one per cent more could hardly be expected to appal her from further contest. About 55,000 sq. miles, or an area greater than North Carolina, will never own hers way again. She could lose, in addition, only Adrianople and a small region in that vicinity. The Powers will not permit the Allies to enter Constantinople in any contingency, and it is generally agreed that for the present at least, no question of laying violent hands upon any of Turkey's Asiatic empire can arise.

So the Allies are virtually demanding the last drop of blood when they insist upon Adrianople and when Turkey resolves to fight again she risks nothing further which she cannot afford. Adrianople the first capital of European Turkey, acquired long before Constantinople, possesses many claims of sentimental and patriotic interest for the Turk. The present Young Turk Cabinet will have a much better chance of continued power after the war if it fights to the last ditch for a city held in such esteem.

But they should Vote as they Pray (Clinton News-Dispatch)

The Wilmington Star don't want them to remove the tariff from cotton and sugar. Old Woburn don't want it removed from cotton, Irish potatoes, and other things. The world of the farmer and laborer is all opposed to removing the tariff from the product of our own farms, and factories.

Wireless Stations.

Washington, Feb. 6.—Navy officers fear embarrassment to the Government in the announcement that the Marconi Company has contracted for a great wireless station at Honolulu as part of a globe-girdling plan of that company. A wireless plant there they say, would seriously interfere with a similar plant of the Government, should the Government later decide to erect one.

After further tests of the Arlington station here, it is probable that a station will be installed in the Panama Canal Zone and officials said today that the next logical place for a station would be at Honolulu.

The Station the Marconi Company is said to contemplate erecting is understood to be one of four. The others at Salinas, Cal., Belmar, N. J., and one on the Massachusetts Coast.

Entered as second-class matter May
20, 1908, at the post office at Burling-
ton, North Carolina, under the Act of
Congress of March 3, 1879.

Wednesday, Feb. 12, 1913.

We are informed that your representative in the lower house of the General Assembly is supporting a measure restoring the legal rate on interest to 8%. If we are mistaken we should be very glad to be corrected.

There was great rejoicing in the camp of the City Fathers last Monday night when they came into possession of Mr. Busch's check for \$10,000 and with the hope that the city's floating indebtedness will soon be liquidated.

The landlord's act that passed the lower house of the general assembly a few days ago had the support of your representative in the lower house. The News and Observer in commenting upon this bill says that it will place the tenants of our state in a worse condition than that of the slavery time. If we are mistaken in giving this information we shall be glad to make the necessary correction. It is very important that you examine the proceedings of the lower house of the General Assembly and find out the correct conditions.

Two Benefactors.

It affords us peculiar pleasure to call the attention of our readers to the fine piece of sand work that Jas. N. Williamson Jr. of this city, and R. L. Holt of our county have given to Burlington in building a sand clay road connecting Front Street with Union Church Avenue. We do know the cost of this undertaking but we do not know if every citizen in Burlington had the same interest in the improvement of the streets that these two gentlemen have and were willing to contribute in proportion to their means we would have a town with nice well-graded sand clay streets. Not every one of our citizens is able to do this much work for himself or the town, but there is not one that could not contribute as much as a day and many even more of their time in rendering these services that would not only be a great value to yourselves but to every one that passes our way. We hope that many more will catch the inspiration of the hour and make a move in the same direction.

People Vote "Sell"

At the special tentative election held Saturday in north and south Burlington there were 361 ballots cast in favor of selling the Light and Power Plant, there were 82 cast that were opposed to the sale.

We are of the opinion that the sale was a wise move under existing conditions. If however, the management of the plant had been proper from its establishment there would have been no cause for discontent but the same conditions existed there as existed in the rest of the town government and the result is

that we have a floated indebtedness of over \$30,000. This must be liquidated in some manner, and we feel that this is a step in that direction. However, under the new organizations that will take hold October 15th. of this year, meters will still be read and light bills will be due every thirty days.

This act of the town will eliminate many pets and kill many parasites that have been living upon the body politic for the past ten years, and with the bright municipal days as a result of this sale there will follow a large number of as dark or even darker ones than we have already had.

The selling of this plant and the securing of \$25,000 more than the first offer is a striking lesson to the sane and conservatives of our town that a municipality can not and must not be governed by that radical spirit that were willing to close the sale regardless of price or even give it away if necessary rather than retain it under present conditions. When that spirit is removed from the government of our town we will press forward in regular and conservative progressive steps and not by spasmodic bounds followed by dismal failures.

Following this act there should be a well-equipped Fire Department with a city hall electric fire alarm, that would put our town in the second place under the fire insurance ratings of the Southeastern tariff association which would save to the citizens of Burlington \$14,000 annually in fire insurance premiums. We think this is worthy of careful consideration, of course it will cost something to advance to a second class town but the position is worth more than the outlay.

A Dog Law

There are approximately 6,000 homes in Alamance County and we estimate that there is at least an average of one dog to every home. If this is true the proposed Dog Law would yield an annual revenue to the school funds of Alamance County of \$6,000 or more. Granting however, that the revenue will be \$1000 in taxes you can not deny the fact that the final cost of every community if not to the owner is more than that of one man. Of course, this statement is not granted by the average owner of a dog. Consider for a moment if you will of the young birds bird eggs, young rabbits, chickens, and young turkeys, in addition to sheep in the average farm will destroy in a year if an opportunity presents will be far in excess of the necessary board bill of the average man; add to this the days, weeks and even months that some owners of dogs spend in following a worthless hound or in devastating his neighbors farm of its just game.

If this time consumed by these dog owners were spent in labor for himself or some one else it would be an annual creation of \$18,000 of wealth to the citizenship of Alamance County annually. This is taken for granted that the average owner hunts only three days in the year. The question of every industrious man is how I may make more money? The secret of success is not the making of this world's goods but a preservation of what justly comes into your possession.

We note that Moore County has a Dog Law on the same basis as this and the revenue last year was \$1800. Enact this Law and we can have a six months school term with better clothed and happier children in attendance, in addition to that our best friend the Quail will be protected from the ravages of an ever pursuing enemy. The uncontrolled dog,

"Has Agnes achieved popularity in her suburban home?" "Yes, she keeps her doors wide open and her mouth tight shut."—Life.

TWENTY-FIVE MEN KILLED YESTERDAY

Hinton, W. Va., Feb. 10.—Guerilla warfare broke out at Paint and Cabin creeks today and as a result of twelve hours of fighting between the miners and armed guards more than 25 persons are known to have been killed while scores were injured many so seriously that death will result.

Tonight the miners are fortified in the mountain passes outside of Mucklow, Paint creek and other small mining towns armed with rifles and determined to fight to the death.

"We will never surrender—we will die fighting," is the word the strikers sent down into the valley as dusk was settling over the field of battle.

Five companies of state militia are tonight being rushed to the strike scene. That their appearance will only increase the anger of the miners and bring more bloodshed is expected tonight.

COLDER WEATHER COMING.

Washington, Feb. 9.—Normal winter temperatures in practically all parts of the country east of the Rocky mountains and temperatures slightly above normal on the pacific slope are indicated for the coming week, according to the weekly weather bureau bulletin issued today.

"The precipitation during the week," says the bulletin, "will be generally below normal, except in the Pacific states where rains will appear in the far west, about Wednesday, cross the middle west Thursday or Friday and the eastern states at the end of the end of the week, this disturbance will be preceded by rising temperature and be attended by general snows in northern and rains in southern states. It will be followed by decidedly colder weather which will make its appearance in the northwest about Thursday..."

PASTOR AND GIRL WRONG, THEY SAY

HUNTINGTON, L. I. Feb. 10.—The dust on the covers of dictionary that has for some time escaped watching eyes of the maids and matrons of Huntington was flying last night, and the volume was industriously thumbed, as the result of some ones declaration that the Rev. Charles E. Cragg had made a serious mistake, not only in writing the letter that brought tears to the eyes of Miss Gladys Dean and her friends, but that his own pronunciation of the word Jerusalem, for which he took her to task, was more incorrect than that of the young woman in her singing of "The Holy City" at the Historical Society performance last Thursday night.

Miss Dean pronounced it "Jerusalem." Those who had Standard dictionaries in their homes discovered that the only pronunciation offered for the name was "Yeruzalem" while others found it to be Jerusalem and not as the Rev. Mr. Cragg would have it. It was bad enough for him to have written, the letter to the poor girl, said one of the members of the Historical Society, but the fact the dictionaries proves his own pronunciation made it all the more uncal led for.

"Miss Dean's feelings were very badly hurt, but how about some of the remarks she made about our young women of Huntington?" said a member of Mr. Cragg's congregation this morning. "A number of the most stinging girls were picked out for one of the choruses, girl are well known as belles of the village. When Miss Dean set eyes on them she said: Oh these girls will never do we must have young and pretty girls for this number."

New Dollar notes.

Washington, Feb. 8.—Secretary MacVeagh today ordered the engraving of the plates for the one-dollar treasure notes. It will require 18 months to put into circulation. This new paper money, which will be only two-thirds the size of existing currency.

The Secretary gave his unqualified approval to the design for the face of the note, produced by treasury officials and the design for the back, created by Kenyon Cox, the New York artist. Mr. Cox's designs also was approved by the Fine Arts Commission. Simplicity is the character of

both designs. The back of all denomination will be the same. A vignette of Washington will adorn the face of the one dollar bill and the Treasury Department is now drawing the designs for the other denomination.

Opportunity for boy scouts.

Washington, Feb. 8.—The boy scouts will be given an opportunity to demonstrate the value of their training on inauguration day. Between 500 and 600 scouts will aid in taking care of those who require medical assistance, either marchers or spectators. Their special duty will be to wigwag for the ambulances. In addition eight large boy scouts will act as little carriers with each ambulance.

Colored Teachers Meeting

The members of the Alamance County Colored Teacher's Association will hold their last regular meeting of the session in the Court House at Graham, N. C., Saturday, Feb. 15, 1913.

Topics of vital importance are to be discussed, and for this reason it is very necessary that all the teachers be present. The time set for meeting is 11 o'clock A. M.

Emory and Henry Won.

Chapel Hill, Feb. 8.—The basketball team from Emory and Henry college of Virginia for the third consecutive time in as many nights triumphed over a North Carolina quintet on its trip through the state by defeating the University by 20 to 17. The game resembled a rough-and-tumble football scrimmage.

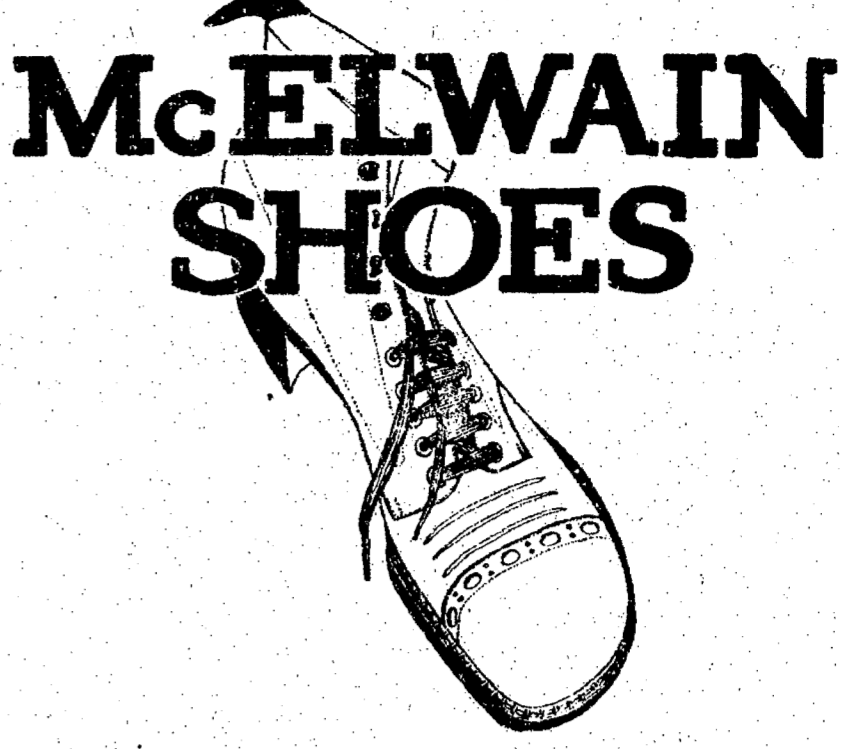

115-Year-old Woman Dead

Frederick, Md. Jan. 10.—Sarah Ann Lyles, believed to be the oldest insane in mate of any institute in the United States, died this evening, at Montevue Hospital, age 115 years. Brought to Montevue in 1909 from Charles Co. Md., her age was given as 111 years, which the hospital authorities say, was proven by Biblical records.

Pleasure and Protection

"One of the best reasons why I would not be without telephone service," writes a Georgia farmer, "is the pleasure it gives my wife and the knowledge that while I am away, she has the protection that the telephone gives."

On the farm the telephone dispels loneliness and is the means of bringing help in any emergency that may arise.

If you haven't a telephone on your farm see the nearest Bell Telephone Manager or write for our free booklet and learn how little this service costs.

School News

The next and last meeting for the year of the county Teachers Association will be held in Graham on Saturday Feb. 22.

This will be a very important meeting as it is the last and hence several questions pertaining to the years work will be considered. The program will be largely in the nature of conferences and will be announced next week.

Nearly every school in the county is doing improvement work. The Shallow Ford school recently had a pie party that gave to the school \$26.00. The school invested in new stove, black boards and others needed improvements.

The Elmira school has made several improvements this year fitted up a small room for library, painted the interior of house and put up black board.

Next Friday evening Feb. 14 at 7:30 the Elmira school will give a pie party, voting contest and valentine games. Mr. W. E. Sharp will be the speaker of the evening and the proceeds will be used in buying a new stove and painting the building on the side.

The Highland school will have a Pie party next Sat. night, Feb. 15th.

The public is invited.

Oysters, stewed or fried, chicken salad, cream and cake, and condiments served all of this tomorrow at the Civic League dinner and supper.

Senator Scott a Poet.

Raleigh, Feb. 11.—There was a bill before the senate whose provisions sought to make the bees (honey bees) in Pender County move their domiciles and places of business 100 yards back from the public highways in that county. The bill now sleeps on the legislative cooling board—the table—and the author of the bill gave his consent to its being placed there. When it looked as if the bill might become a law, Senator Evans, of Bladen thought 50 yards was far enough to make them move back, and Judge Council wanted to make it 20 feet.

When the bill came up today on its readings Senator Hawes, the author of the bill, told the senate "how come" he introduced it. There is a rural mail carrier in Pender whose horse objects to being stung by the little honey makers, and his complaint and request the accommodating senator said he had introduced the bill.

Senator Jack Scott, of Alamance, who is one of the quietest and most amiable men in the senate, who says very little, but alws has a smile and a good word for everything, came to the support of the bee bill, and surprised the senate by dropping into (for rising into) poetry. He declared that in his dreams last night, his mind dwelt upon Hawes' bee bill, and as he pondered the muse worked, with this result.

The lark is up to meet the sun.

The bee is on the wing;

If Hawes' bill don't get it

It will be an awful sting.

The senator will then go home,

A wiser, sadder man;

To think he cannot make the law

For all the Pender land.

Amid applause that extended to the galleries, Senator Scott took his seat and the success of the bill seemed assured. But Senator Mason said so far as his inquiry had led him he had heard of only one man in the United States who wanted the bill passed; even the senator from Pender had not asked the men in his country who own bees what they think about it, and he thought it was taking just a little too much liberty with the rights of the people to say just how far from the public roads they must keep their bee gums. Senator Hawes said he did not care anything about it, that he was not an authority on bees anyhow. On Senator Mason's motion the bee bill was then laid out on the cooling board.

Another Negro Lynched
Houston, Miss., Feb. 8.—Dibrell Tucker, 30 years old, a negro, in whose possession diamond ring was found, said to have been the property of Mrs. J. S. Williams, murdered in her home here Thursday, was lynched late today by a mob in the court house square. The negro, who was captured in the day, was taken to the square about 2:30 o'clock and chained to an iron post.

A kettle of tar was poured over him and faggots piled around the trembling man. He was allowed to talk for a short time and then a brother of the dead woman touched a match to the dry wood.

Tucker had hardly begun to feel the effect of the heat when the father of Mrs. Williams, it is said, was up and shot him five times. The second shot, it is said it is believed caused his death.

The negro, accordingly to responsible citizens, admitted the crime and said that Andrew Williams, the negro lynched on Friday, took the body of the dead woman out of the house and threw it into the pit where it was found.

Rules for a Telephone Girl.

(From the New York Evening World)

Chicago—Miss Minnie Warner the highest paid switchboard operator in Chicago, is off for Europe with a case of telephonia, after nine years of service. She is paid \$150 a month because of her velvet voice and personality. Of her work she said:

"The bigger a man is the more polite he is likely to be to girls in my position. I have found the most influential men in the business to be the most patient and considerate of my feelings. A gentleman if he should so far forget himself as to say things in a hot temper will apologize later."

Here are a few switchboard aphorisms out of Miss Warner's experience:

Don't argue. The angry man will argue himself out of it if you let him alone.

Don't snap. Remember that a "soft answer turneth away wrath."

Don't be mechanical. Make every man on the wire believe that your softest tones are for him alone. Don't be indifferent. Make every kicker believe you are heart-broken because the line is busy.

Don't flirt. Let the other flirt all he likes, but you just laugh and attend to business.

Don't be a prude. Don't hear what you are supposed not to hear.

Don't get tired. No matter how tired you are, pretend you are as fresh as the dawn and try to look it.

"I have learned that men are far more amenable to reason than women are. Some women are exceedingly unreasonable at all times, and no matter what their experience of the world they never seem to find out the simplest rules of the game. I don't take a man long to realize that he can go further with kind words than with harsh ones, especially with the telephone operators."

Favors Two-Cent Rate.

Columbia, S. C., Feb. 11—A special message was received from the Governor in which he says that Whispers have come to his attention of more to the effect that while he advocated the passage of the two-cent passenger rate, yet secretly he is opposed to it. This he denied and requested all his "political friends" to vote for it. He said that as soon as he received such a bill he would sign it and send it to the Secretary of State, as he favored it.

MESSAGE OF WILSON ON PLATFORM PLEDGES

Princeton, N. J., Feb. 6.—President-elect Wilson has not decided what legislation he will recommend to the extra session of Congress, besides the tariff. This statement was made by Mr. Wilson, when he was asked tonight concerning reports from Washington, to the effect that he would urge the next Congress to take up currency reform.

It is known Mr. Wilson considers the tariff, anti-trust legislation and currency reform as the three principal subjects upon which the platform pledges should be carried out as quickly as possible. He expects to learn from party leaders in Congress just what it would be practicable to take up at the extra session. Mr. Wilson said he would make no decisions until after he was inaugurated and had an opportunity to get closer to the legislators.

The Governor spent the day here working on his inaugural address. He took a long walk in the chilly air and was invigorated by it. His brother, Joseph R. Wilson, of The Nashville Banner, called on him tonight leaving at a late hour for Washington.

Distressing Accident.

Wilmington, Feb. 7.—Miss Eva Foy, daughter of Mr. and Mrs. J. E. Foy, of Dixon, Onslow county, this afternoon accidentally shot a Mr. Harrill, of Elizabeth City, the ball of a 22 calibre rifle taking effect in the abdomen and causing a wound that may turn out seriously. It is thought, however, that he will recover. Mr. Harrill was taken to Jacksonville, a short distance away, for treatment. Miss Foy, who is a very popular young lady of Dixon, is very much grieved by the affair, of which she was the innocent cause. She and a traveling salesman, Mr. Mullingford, had been at target practice, using the small rifle, and Miss Foy had just picked up the loaded gun when it was discharged and hit Mr. Harrill, who happened to be passing. Mr. Harrill lives at Elizabeth City, but has been engaged at Dixon for some time.

A Word From "The Oldest Engineer."

Uncle W. M. Vandever, of Chester district in South Carolina, calls our versatile staff correspondent, Dr. R. Wood Brown, down for accusing the old King's Mountain R. R. of being born a narrow-gauge. It was first a broad gauge and then "swunk" like Vance's catfish, into a narrow-gauge. We can't imagine why Capt. Nichols, Mr. Reid, Mr. Fletcher, Captain Moore and the rest of that C. & N. W. outfit didn't refer Dr. Brown to Uncle Vandever for his data, anyhow. He knows more than them, all put together about their own roads beginnings. "The oldest engineer," well up in the 80's, he is, and his memory is packed with the lore of other days in railroading. We hope his quaint communication in this issue will be read by all. But Dr. Brown got his data from railroad people in Chester, he says.—Hickory Democrat.

Smelting Cranberry Ore.

Bristol, Tenn., Feb. 7.—The Carnegie iron furnace at Johnson City, Tenn., affords an example of the peculiar value of the Mitchell County magnetic iron ore of the North Carolina mountains. The ore is of a rare quality, suited to the manufacture of steel for cutlery and other purposes calling for metal of a high grade. As a result, while many furnaces in the South producing ordinary foundry pig have been closed down ever since the panic of 1907, the Carnegie furnace, which smelts the Cranberry magnetic ore exclusively, has not been idle for a moment, except when it was banked for repairs. The company has had prompt sale for all of its output.

The Cranberry ore is practically inexhaustible in quantity. It has been mined to a depth of from 100 to 300 feet without getting through the seam. Gen. John T. Wilder, a pioneer iron man of this region, is quoted as once having replied to a question concerning the depth of the iron deposit there, that "no doubt Satan is making pitchforks off the bottom side of it."

Second Attempt to Break Jail

Fayetteville, Feb. 7.—The second attempt within two days to effect a jail delivery by prisoners of the Cumberland County jail was frustrated this afternoon. Sheriff McGeachy and Deputy Sheriff Monegher on a regular inspection discovered that the bars of the cell of two white men had been bent and to an almost enough to allow escape of the prisoners. A white boy occupying the adjoining cell was concerned in the work.

Mormons Oppose.

Washington, Feb. 6.—Officials of the Anti-Saloon League of America, who are advocating passage of bills pending in Congress to prohibit the shipment of liquor into "dry" territory, announced today that the following telegram had been received from Joseph L. Smith, head of the Mormon Church.

"The Church of Latter Day Saints is positively and unalterably opposed to shipment of liquor into dry territory and to all unlawful traffic in intoxicants and favors the entire suppression of all liquor traffic."

It has been reported that the Mormon Church was using its influence against the pending legislation.

Washington's Grand-Niece.

Greenville, S. C., Feb. 6.—Mrs. Margaret Mahaffey Washington Sloan, a grand-niece of George Washington, died today in her eighty-third year at the home of her son, George W. Sloan, near Pelham, this country.

Aycock County Wins in First Show-Down.

Raleigh, Feb. 6.—The House Committee on Counties, Cities and Towns tonight voted 14 to 7 for favorable report on the bill to create Aycock County out of portions of Guilford, Davidson and Randolph, with High Point as the county seat. This was after a lengthy hearing in which big delegations for and against the measure were heard.

NO CASH FOR TROOPS TO WILSON INAUGURATION.

Albany, N. Y., Feb. 5.—New York State will not spend a dollar to send troops to the inauguration of President-elect Woodrow Wilson. Governor Sulzer has so decreed. Notwithstanding this, several organizations, the Governor says, have signified their intention of going at their own expense and he expects the State to be adequately represented. President Taft's inauguration four years ago cost New York State \$10,000 for the transportation of its troops to Washington.

The State expects to appropriate \$150,000 for representation at the Perry Victory Centennial celebration at Put-in-Bay, Ohio and as much more to transport Grand Army veterans to Gettysburg to attend the fiftieth anniversary celebration of the Battle of Gettysburg.

These celebration, the Governor believes, necessarily entail expense to the State and that presidential inaugurations should cost the State nothing. Governor Sulzer will ride a horse at the head of the New York troops in the parade.

Peltier Slain.

Paris, Feb. 5.—E. Peltier, a high official of the French Department of Justice was murdered in his residence here today. A woman nurse who was attending him was also killed.

The double murder is believed to have been committed by an unaptured accomplice of the gang of automobile bandits, whose trial is in progress here. It is supposed that the crime was intended as an act of vengeance.

Peltier was formerly chief of the Bureau of Pardons at the Ministry of Justice but had been in ill health for some time. He was a man of considerable wealth. He was found strangled in a chair in his library. The nurse's body lay in a room. She had been slashed to death. An investigation of the woman's past has given rise to the theory that she and the murderer were associated with the "Demon Chaffeur" G. J. Bonnett and his gang. About \$1,000 in cash was stolen.

Salisbury Wants Recall.

Salisbury, Feb. 7.—The proposed new charter for Salisbury as finally decided upon at a mass meeting of citizens last night carries a commission form of government with a recall clause. The increased boundary lines for the city were eliminated and the extension of the city will be voted upon separately. The proposed charter's acceptance will be decided upon at an election to be held in March. The mass meeting last night passed a resolution calling for a law giving the Australian ballot in all city or school elections in Salisbury, no matter which form of government prevails.

In compliance with a request from Governor Craig, Mayor Pro Tem Rabe has appointed twelve citizens to represent Rowan at the southern highway convention at Asheville Feb. 12. A cold storage plant is in prospect for Salisbury. J. W. Hines manager of the Catawba Ice and Fuel company, and J. H. Warburn, secretary of the Industrial club, are in Charlotte today inspecting a plant to see if it is advisable to establish one here.

The Democratic Way

(Union Republican)

Some of our Democratic friends are beginning to suspect that they are carrying too heavy a load of campaign promises. That is one of the habits of that party. When it is out of power it undertakes to give the people everything they ask for, and when it gets into power it gives them pretty much everything they don't ask for.

"What are you thinking about, darling?"
"Nothing."

LITTLE FEAR OF THE PROPOSED NEW COUNTY

Members of the Greensboro delegation returning Friday from Raleigh, where they appeared before the committee of the house in opposition to the formation of a new county from portions of Guilford, Randolph and Davidson, felt no fear over the ultimate result of the Gold bill, and stated that they were confident it would be overwhelmingly defeated in the senate. It is granted that the vote in the house may be close. The favorable attitude of the house committee, by 14 to 10, is not regarded as meaning that the new county will be created.

Those going to Raleigh from Greensboro were impressed by the quiet and dignified manner in which the contest was waged. There was no boisterousness, or petty wrangling, or any of the sharp retorts indicating any great feeling. The two sides simply stated their arguments in the best form possible for making the best impression, and sat down. There was no feeling whatever expressed by Greensboro delegates over the results of the hearing before the house committee. Some, indeed, were not greatly surprised.

It is regarded as almost next to impossible for the bill to receive the favorable action of the senate, members of which, who spoke on the matter, indicating the opinion that the present arrangement of the counties is the most advantageous arrangement that can be made, and that more harm than good would come from the proposed dismemberment.

Guilford and Greensboro speakers spoke of the present system of schools, of health, and of material improvement, all of which have been steadily progressing in recent years, and in all of which High Point has enjoyed advantages innumerable. The dismemberment would greatly hinder the work of progress that is gaining strength in this section, especially through the excellent plans now in vogue and in successful operation.

LAWHAMMER TOE GETS THE DIVORCE.

Denver, Colo., Feb. 7.—If you have a "clawhammer" toe, and pinch your wife with it, she is entitled to a divorce; that is, if you pinch her when she is trying to sleep.

Dwight S. Thompson, a rancher, living near Brighton, has a clawhammer toe, according to Mrs. Elizabeth Thompson who obtained a divorce from him in the district court at Brighton, on the ground of cruelty. Mr. Thompson is 76 years old, while his wife is 55. They had been married 25 years.

"He was the best love maker ever encountered," said the gray-haired woman "but he was the most cruel husband I ever had, and I have had another eighty attacks and punchings with the clawhammer toe drove me almost distracted."

Only of the hundred counties in North Carolina are unrepresented in the State University; namely, Avery, Currituck, Dare, Gates, Graham, Mitchell, Polk, and Rutherford. The ninety-two represented counties very few numbers from one student to thirty-eight. In previous years the counties represented from by at least four or five students have grouped themselves in organizations of County clubs. These clubs heretofore have outlined no policy of action with regard to their relationship with the State or college, but have confined their activities to the selection of officers and probably gathered around the festive board once a year. This year the clubs have come into their own bearings; that of creating an interest "bank home" in the head of the State's educational system and become acquainted with the advantages, conditions and problems of the respective counties, viewing this as the proper function of a county club, a central organization of the county clubs of the University was banded together in an association this week bearing the name of "The North Carolina Civic Association of the University of North Carolina." The full purpose of this association is adequately expressed in the constitution's

preamble as adopted the Association. "The members of the county clubs in the University being keenly aware of their obligation to the State that is training, to the community in which they have reared, and to themselves as individuals in a democratic society, and knowing the difficult problems that stand in the way of progress of the different counties in the State, and being eager to serve intelligently through a more accurate knowledge of conditions, do organize this club to be known as 'The North Carolina Civic Association of the University of North Carolina.' Officers of the Association were elected and the work as outlined will be speedily put under way. A typical illustration of the work of each club is observed in the plans of Nash and Edgecombe counties in their efforts to stimulate interest in solution of local problems, the club offers a gold medal as a prize to the student in either of these counties that submits the best paper on the subject. "The effort of Good Roads on Rural Life in Nash and Edgecombe Counties.

A telegram from New York City this week announcing that the law class of the University of North Carolina had won first state prize in the nation-wide mock trial contest of "The case of Jennie Brice" as instituted by Everybody's Magazine, scored a distinct triumph for the eight able attorneys that ferreted out the mystifying murder trial on which the serial story, as appearing in the magazine, was based. Adding to the high honor of winning the first State prize in the union-wide contest, the class of the University was awarded the sum of \$100 for the ability displayed in conducting the trial. The attorneys in the case were: J. W. Hester, of Hester; J. W. Morris, of Tampa, Fla.; W. F. Taylor, of Faison, G. W. Ward, of Waynesville; W. L. Warlick, of Newton; L. A. Swicegood, of Salisbury; J. J. Henderson, of Mebane; and H. E. Stacy, of Shelby. The presiding judge was Prof. P. H. Winston, of the University law faculty; court reporter, S. R. Winters.

Trials of Rural Carrier.

Barnwell, S. C., Feb. 7.—Mr. Edgar F. Phillips, the mail carrier on Ulmer Route No. 2, was in town this week and stated that the patrons of his route are sending some queer packages by parcel post. Last Saturday, among the other packages consigned to his safe-keeping for quick delivery were two babies, one and one-half pounds of pudding and sausage and a wooden leg. The last named came in very handy, for before Mr. Phillips had completed his trip he was attacked by a wildcat and the artificial leg was used as a weapon to drive the animal away.

He said that the babies gave no trouble at all, being well supplied with nourishment by their fond parents, but it would not be safe to say that he really enjoys acting the role of nurse and would much prefer people sending their babies in some other way. The postage on one baby was 17 cents, on the other 16 cents.

Governor Craig This Negro's Best Friend.

Raleigh, N. C., Feb. 6.—Arthur Johnson, the Pender county negro under sentence to die in the electric chair, Friday escapes death sentence through commutation by Governor Craig, a commutation which comes to the negro unsolicited. He killed his wife in a quarrel involving infidelity. He was unable to employ lawyers and the attorneys whom Judge Carter assigned to defend the negro made no move to have the sentence commuted, although Judge Carter intimated to them that he would indorse such an application. The negro was in the death cell without friends, and the Governor took it upon himself to grant the commutation after a long distance telephone conversation with Judge Carter last evening.

Residence Burned at Randleman.

Randleman, Feb. 7.—The residence of W. T. Bryant, on Naomi street, burned yesterday afternoon about 3 o'clock. The fire probably originated by spark from the kitchen roof. The larger portion of the furniture was saved, but in a badly damaged condition. No one was hurt. The loss is estimated at \$2,500, which is partially covered by insurance.

Write Ideas For Moving Picture Plays!

YOU Can Write Photo Plays and Earn \$25.00 or More Weekly

WE WILL SHOW YOU HOW!

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photo plays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios, or written ideas.

Nearly all the big film companies, the buyers of photo-plays, are located in or near New York City. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our Sales Department has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as Vitagraph, Edison, Essanay, Lubin Solax, Imp. Rex, Reliance, Champion, Comet, Melies, etc., urging us to send photoplays to them. We want more writers and we will gladly teach you the secrets of success.

We Are Selling Photo Plays Written by People Who "Never Before Wrote a Line for Publication"

Perhaps we can do the same for you. If you can think only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure.

You Will Earn \$100 Per Month For Spare Time Work

Free Send your name and address at once for free copy of our illustrated book, "Moving Picture Playwriting." **Free**

A Good Movement.

The movement to have the general assembly pass a law taxing dogs of Alamance County for the benefit of the schools of the county is a most excellent movement. Petitions are now being circulated asking for a law fixing the dog tax at one dollar per head. This would mean a large increase in the school fund and perhaps would decrease the member of dogs in the county. Four or five good hens we cured for instead of that worthless dog would add a great deal to the finances of this county. Any man who is interested in this movement and would like to sign a petition for the law can have his name enrolled by writing to D. M. Elder, Burlington, N. C. R. F. D. No. 1.

Yours for the betterment of Alamance County,
J. D. Andrew.

To the Water Consumers of Burlington

This is to notify you that our water is getting low, and unless you economize, we will have to cut off the water and only furnish it at certain hours. During the month of January we sold 500,000 gallons more than during the previous month, and besides Bellevue Cotton Mills is running night and, therefore, we do not get much water from this well. We are of the opinion that if the water consumers of the city will cooperate with us, we will be able to furnish water at all hours.

Respectfully,
Water Light and Power Commission,
W. W. Brown, Chairman.

Unfortunate Colonel At.

(From The Greensboro Record.)
Col. Al. Fairbrother missed it, just like these old fellows who go to Florida for the winter. He went to California to escape the cold and butted right into it. It was so cold he could not fish; at least, so cold he could not catch anything. Disgusted he made for home only to find that the first real, steady cold had reached this climate and now he is about to freeze. It's bad to get old so one cannot stand Winter weather.

Scandalized the Doc.

(From The Watauga Democrat.)
A pretty pair of patent leather, red-topped baby shoes greeted the eyes of Dr. J. W. Jones when he opened a parcel post package yesterday! Sender unknown but the Dr. is looking for him with a six-shooter. No baby shoes in "hisen."

Mr. K. K. Lively is rejoicing over the arrival of a baby boy at his home.
