The commencement exercises at Gilliams Academy will begin at 10 o'clock this afternoon and continue through Thursday evening April 10th at 7 o'clock. The literary exercises will be delivered at 10:30 a. m. Friday morning by Mayor Murphy, of Greensboro. The graduation exercise medal contest will take place in the afternoon at 2:30. These exercises promise to be of good and the public is cordially invited.

Roosevelt To Speak

Washington, April 4.—Franklin D. Roosevelt, assistant secretary of the Navy League of the United States, will make his speech as a federal official on Thursday next. The occasion will be the opening of the Navy League of the United States. Mr. Roosevelt will deliver the address of welcome to the navy experts and enthusiasts of the nation who will be assembled.

Washington is much interested in this first speech of the man who bears the name of a former assistant secretary of the navy, who attracted much attention in that post, and passed from it to even larger activities. This will be Assistant Secretary Roosevelt's formal presentation on the stage of national affairs. The general public knows little of him but the Navy League knows him well. It knows of his activity in the organization of the Naval History Society and the important service performed by that society. It knows that he has one of the greatest private libraries in the nation that there is in the nation. It ranks him as one of the few civilian authorities upon naval affairs. It appreciates the fact that he was appointed to his present post because of his interest in naval affairs.

Nationally he has never made a speech. The public does not know if he is an effective speaker. The address of welcome will be the first utterance of the administration on naval affairs.

The hour of this address is three in the afternoon. At the moment that Mr. Roosevelt is addressing the Navy League convention the base ball season will be in the very act of being opened at the grounds a mile away and the President of the United States will be throwing the first ball. The program of the Navy League convention includes sessions for three days which must end Saturday, April 12th, so the start on Thursday was imperative.

The Telephone and Good Roads

The telephone goes hand in hand with good roads.

The telephone overcomes many of the obstacles of bad roads and makes it possible for the farmer and other rural residents to transact business in the city and with neighbors when the roads are impassable.

Progressive farmers are insisting upon good roads and telephones. These two agencies of modern civilization are doing more than all others toward eliminating the isolation of country life. You can have a telephone in your home at very small cost. Send a postal for our free booklet giving complete information.

Swat!—For the Night is Coming.

Appropo of the present fly-killing campaign, about which much has been written, we submit the following bits of ragged rhyme, which if committed to memory, will aid materially in the destruction of the festive fly.

I love to see a little fly
And pat him on the head—
How prettily he wags his tail
Whenever he is fed.

Then I'll not swat the little fly
Nor give him needless pain—
I'll let him chew my ear, my eye
With all his might and main.

That was the old idea. But
today it is this way:

When'er I see a little fly,
I'll swat him on the head—
I'll swat him with a swater's
hand

Until the fly is dead,
And then this is good to paste
in your pocket-book.

Remember if you want to live
And do not want to die—
The only thing for you to do
Is swat—just swat the fly!

And then this:

Oh, I will swat the pesky fly,
I'll swat him through and
through.

I'll swat him and I'll watch him
die

I'll swat him black and blue!

And the last one:

Lest I forget! Lest I forget!
I'll swat the festive fly—
I'll swat him good and hard,
you bet

I'll swat him till I die!
And in this way, ladies and
gentlemen, we will all help in
keeping down disease.—Greens-
boro Patriot.

HORNE MONUMENT.

Raleigh, April 9.—The splen-
did monument to the North Car-
olina Women of the Confederacy
to be presented to the State by
Col. Ashley Horne must be in
position in southwest section of
Capitol Square, opposite the
main entrance to the new State
building, within 12 months from
this date. The commission in
charge accepted definitely today
the one submitted by Artist
Augustus Lakerman of New
York. The members of the com-
mission were Hon. J. A. Long,
Rexford, Chairman; G. J. Bryan,
Grimes, R. D. W. Connor,
Raleigh; Walter H. A. London,
Pittsburg. The absent member
was Mrs. Williams of Newton,
who represents the daughters of
the Confederacy.

The monument will show on
a central pedestal an elderly
woman typifying the women of
the Confederacy. She is seated
and holds an open book, the
history of the Confederacy, in
her lap. Kneeling by her and
holding his father's sword in his
hand is a youth, her grandson,
to whom she is telling of the
heroism and sacrifice of the sol-
diers of the Confederacy. The
figures will be cast in bronze. On
either side of the pedestal will
be relief representations of hus-
bands, sons and sweethearts tak-
ing leave of loved ones to go to
the front at the beginning of the
war and the tears and broken
veterans returning at the close
of the terrible struggle.

WRONGED HUSBAND ON TRIAL FOR HIS LIFE

St. Paul, Minn., Apr. 3.—Prof.
Oscar Olson, formerly of the Uni-
versity of Minnesota, who admit-
ted he shot and killed Clyde N.
Darling, a laundryman, for wreck-
ing his home, took the witness
stand this evening and sobbed
audibly as the relatives between
Mrs. Olson and Darling were
wrong from him.

The courtroom was crowded
and many wept with the de-
fendant, who presented the pic-
ture of a broken-spirited man.
Mrs. Olson buried her face in her
hands and wept softly through-
out her husband's testimony.

"My wife confessed to me that
there had been illicit relatives
between herself and Darling, and
I warned him to keep away from
my home," Olson testified.

He continued to come despite
the warning and finally succeed-
ed in tearing down the happiness
of the home.

"The night of the shooting I
was alone," said the witness.
"I heard a noise and went to the
kitchen to investigate. I saw a
man standing inside the door,
and I recognized Darling.

"Oh! it's you, you, he said,
and took a step towards me. I
had my revolver and fired twice
in rapid succession. A second
later I saw the wrecker of my
home throw his arms into the air
and fall limply to the floor."

Professor Olson testified that
he first learned of Mrs. Olson's
relatives with Darling June 16
last.

"When I returned from my
office, my wife told me Darling
had hugged and kissed her,"
Olson continued. "I saw Dar-
ling one day later in the presence
of the man for whom he was
working. When I accused him
of insulting my wife he turned
pale. Then he recovered himself
and said: 'I admit it; it's all my
fault.'

"While in Clearbrook, Minn.,
November 12 last, I received a
message from my wife urging
me to return home immediately.
She met me at the door and said:
'Oscar, I look demoted? That
devilish laundryman is haunting
me again. He has been here
several times and I can't resist
his overtures. Please help me
to keep him from me.'"

Olson repeated the details
leading to the crime. Several
times during his testimony his
sobbing forced an interruption.
Mrs. Olson is expected to tell her
story on the stand tomorrow.

The special road poll tax for
the year 1913 is now due and pay-

And heretofore I have given that
commission to those who looked
after it in the different Town-

for any one to be paid anything

as has been my custom. Accord-
ing to instruction from the Coun-

desiring to pay will pay to me, un-
less they find some one else with
the books.

MORE TORNADOES NOW THAN AT TIME SINCE 1884

Not since 1884 has there been such an outburst of tornadic storms as that which occurred in the west and south this month.

A full-fledged tornado is the most awe-inspiring meteor that ever sweeps through the atmosphere. An ordinary tempest creeps upon its victims by more gradual steps, gains strength by degrees, covers the whole country for hundreds of miles around with its indefinite shadow, and seems only a common storm that has developed unusual power.

But a tornado is a kind of atmospheric demon, whose black distorted form can be seen swiftly approaching from afar, whirling and dancing like a gigantic dervish and tearing up the very soil in its fury.

It lets down from the menacing cloud above a huge trombe trunk of inky blackness, with lightning playing about it, and whizzing with the speed of a huge buzz saw, it plows a path through a forest; tears away the front of a gravel bank with the force of a hydraulic jet; scoops up, the contents of a pond to the very muck; sucks away creeks.

It demolishes barns, haystacks, houses, churches, scattering their remnants over a square mile of territory, snatches up cattle, horses, sheep and even men and women—sometimes dashing them to death, and sometimes giving a wild ride through the air only to set them down at last unharmed.

The path of a tornado is from 100 to 600 yards wide, and the length of its course may vary from one or two up to 50 miles. Almost invariably it moves toward the northeast, with a speed of from 20 to 50 miles an hour. The center, where the destructive power is greatest occupies from one to five minutes in passing over a given point. On account of the uniformity in the direction of the movement of tornadoes, it is not difficult to get out of their track if they can be seen, or heard coming a quarter or a half hour in advance.

But when, as happened last week, a horde of these "twisters" breaks upon the face of the land there is hardly any meteorological disaster so serious as that which they produce.

A serious of charts prepared by the government in its studies of the great outbreak of tornadoes on Feb. 19, 1884, to which the present one may be compared resemble military maps of an invaded country: across which a dozen armies are marching on parallel lines.

From the Mississippi Valley across Kentucky, Tennessee, Mississippi, Georgia, South Carolina and North Carolina the tornadoes rushed side by side, new ones breaking out as the earlier ones were dissipated, until their raid had almost reached the Atlantic Ocean.

Tornadoes always occur in the southeastern quarter of a cyclonic disturbance. Such a disturbance may be from a thousand to two thousand miles broad, producing nothing but rains and moderate winds over most of its area, but in the southeastern quadrant, where warm southerly winds are brought into contact with cold winds from the northwest whirled are set up, as eddies appear at the edge of conflicting currents of water, and these, if the contrasts of temperature are extreme, quickly develop in tornado funnels.

In every case the direction of the whirl of a tornado is from right to left, the same as that of all cyclonic wind in the northern hemisphere. In the case of the general winds this is readily explained as a result of the rotation of the earth on its axis. In the southern hemisphere the winds turn from left to right.

Elon's Commencement.

Elon's Commencement this year bids fair to draw a large concourse of people from every quarter. The senior class is large and widely scattered, which will mean a representation of considerable size from many places for class day exercises on Saturday, May 31st, and on Wednesday June 4, Graduation Day. Only six representatives of the senior class will speak on Commencement Day for which the competitive contest for places will be held sometime during the week of April 15th.

The literary society representatives will speak on Monday evening June 2nd, while the Expression, Music and Art Department will leave their annual recitals or exhibits on Tuesday afternoon and evening, and Wednesday afternoon and evening respectively.

The Baccalaureate Address of the President of the College will be given on Sunday evening of the Commencement season.

Dr. Warren H. Dennison, Norfolk, Va., one of the most progressive pastors of that City, will preach the Baccalaureate Sermon on Sunday morning at 11:30. Dr. Dennison is secretary of the Mission Board of the American Christian Convention and a man of national reputation. He is always heard with gladness.

The Literary Address will be given by Dr. Charles W. Kent, Professor of English in the University of Virginia, and one of the great scholars of the South. Dr. Kent has made a special study of Southern Literature and has done more than any living man to perpetuate the charming literature of the always charming South. He is one of the most popular public speakers and never fails to delight and uplift an audience. His theme will be The Sovereignty of life and the address will occur on Tuesday morning, June 3rd.

Held On Murder Charge.

Asheville, April 3.—Following the finding of her three-year-old granddaughter's body in a mountain cave, Nancy Hannah, an aged resident of Haywood County, was arrested today, charged with the murder of the child. It is charged that the prisoner left her daughter's home a month ago with the child on the pretense of taking it to the county home. Developments are said to have shown, however that the child had not been taken to that place and searching parties were organized.

The child is said to have disappeared a month ago. It was the daughter of Lizzie Hannah Putman, a daughter of the prisoner, and the former's husband, Will Putman, is being held as a witness.

R. M. Phillips.

Our head is bowed low in grief as we learn the sad news of our genial friend and companion, Bob Phillips. May the spirit of our departed friend and brother find eternal companionship with the supreme architect of the universe.

Walter H. Page.

Our hearts swelled with pride when we learn that Walter H. Page a native born tar heel had been selected by Pres. Wilson as our ambassador to the court of St. James, the highest diplomatic honor that our government can offer. We believe that Mr. Page is equal to the occasion and will handle the great difficulties that are now pending between our government and the English Government in regard to the tolls of the Panama Canal.

To Let.

Arrangements have been made whereby the water mains of the city of Burlington can be leased without cost from 8 to 11 A. M., from 1 to 5 P. M., and from 8 P. M. and to 5:30 A. M. The only requirement is that you fill them with water during these hours secured from four deep wells to be dug very close to the one that is now being drilled and that the pressure always be maintained at 80 lbs. The reason for leasing is that they have not been used during these hours for over a year and it is very dangerous to have anything and not use it. For further information call on the present Water, Light & Power Commission.

Congress In Session.

Last Monday the long talked of and much looked for and greatly dreaded democrat congress convened in extraordinary session to perform the wonderful works of democracy. What they will do the Lord only knows. Underwood would tell if he knew, Simmons could if he would, Wilson won't because he is afraid. This present Congress has promised us great reductions on all the necessities of life, large cuts in the tariff of cotton and woolen fabrics, on shoes and all the products of steel a complete reform in the currency system is assured. We must have at this session of Congress free raw wool, free lint cotton, free hides, free lumber, free sugar, in other words we are demanding of the democrat party what they promised that is no tariff on all the things that the farmer raises and a tariff for revenue only on everything that they buy. Be careful to see that they perform their duty.

Raleigh Vs Durham.

Last week Raleigh redeemed itself to coming generations by the united effort of the energetic, honest, stalwart, enthusiastic men of the city, in securing com-

mission government for their town, blessed not only the labors of their own hands but bestowed upon incoming generations the laurel leaves of victory that will give them power and understanding and the guarantee of honest government as long as Raleigh remains.

On the same day the Bull City held an election for the adoption or rejection of commission government. A large majority of the people had long since gone to that bourne which no traveler ever returns. The remainder slept, that sleep from which there is no awakening. The result was that the enemies of honest government won the day and the same little gang that has controlled Durham will continue to operate it for their own personal gain.

The same spirit that prompted Durham is dominating Burlington, the men in Burlington that are opposed to commission government are afraid of an honest and intelligent administration of the town's affairs. The Burlington ring that so bitterly opposed the reform movement offered by the Chamber of Commerce and a few of those anti leaders that were against commission government are now telling their constituents that they have fought desperately for certain reforms (but not naming them) and the Board of Aldermen agree to on caucus, but when board meets in open session, it refused to put into effect any of the proposed plans. This is prima facie evidence, in itself, that we should have a commission government.

Greensboro, High Point, Raleigh and Wilmington made no municipal progress until they put into operation commission government. The result is that Greensboro, High Point and Wilmington are regaining the losses sustained under the former antiquated municipal plan. If the people of Burlington like the sleepers of Durham are satisfied without good streets, without an adequate water supply, without a sanitary town and without adequate school accommodations without the enforcement of the dog law, without a city hall and a fire alarm system, and if the people of Burlington are satisfied with the increased tax valuations of our property and are satisfied with an annual increase in floating, indebtedness, and if the people of Burlington are satisfied with the present incompetent management of the town's affairs, support the same plan of government and elect the same Board of Aldermen from Mayor down, that you now have and if you do not like present conditions turn out the whole gang and put in a new crowd; for we are of the opinion that it will be impossible to select a Board of Aldermen from the business men of Burlington who could make a more complete failure than the present board. Much more could be added before time to sing the doxology, but we will dismiss you for the time being.

University Student Arrested At Durham.

Durham, April 4.—V. E. Everett, a young University student, who lives in Plymouth, was arrested here today at the instigation of one of his school mates on a charge of forgery. According to the statement of the young man who swore out the warrant, young Everett endorsed a forged check for \$25.00 some time during the inauguration week. It seems that he tried to get the young man to make the forged check good, but was unable to get any satisfactory settlement, and hence he asked the Durham police for a warrant for his arrest, since Everett was in the city today. He has communicated with his people in Plymouth and says he will have no trouble in giving bond and in proving his innocence of the charge.

Ohio's Loss In The Recent Flood Great.

Washington, D. C., April 4.—Ohio's loss in the recent flood was estimated tonight in a telegram from the American Red Cross agent in charge at Columbus as follows: 460 lives lost, 4,200 homes destroyed, 40,500 persons homeless, 9,000 families outside of Dayton, Columbus and Cincinnati in need of rehabilitation. It has been extremely difficult to get information, according to the agent, because wires are still down and transportation facilities uncertain. "Emergency relief situation in each flooded district in Ohio being well covered," the telegram said. "Dayton, Columbus, Troy, Piqua, Ottawa, Sidney, Hamilton, Miamisburg, Middletown and Zanesville covered by Red Cross representatives. In these places information is being rapidly accumulated on which to base rehabilitation. We are pushing men into other flooded towns as fast as water subsides and we can get men. Colonel Miller, chief quartermaster, reports need of underwear of all sorts, bed ding and blankets." Major Normoyle, at the head of the army relief forces in the flood district, reported today that he was confident that he had the situation well in hand. Answering a query concerning the possibility of starvation in Marietta, Ohio, the officer responded. "I will feed them with a spoon if necessary." Surgeon Evans to Surgeon-General Stokes, from Cincinnati, that all stricken towns now have competent medical men and sufficient supplies except serums. Conditions to be met relate solely to food, clothing and shelter and the prevention of epidemics, and Surgeon Evans believes the local health authorities are able to handle the situation.

Democrats and Free Whisky.

Lincoln Times.) There is one schedule in tariff making on which the Democrats have reversed themselves. That is the tariff on liquor. Before the Republican party was born there was no tax on liquor. It was free of internal duty. The Republicans put a revenue tax on it. The Democrats waged several campaigns on "free raw material and free liquor." But of late years, since it has grown popular through efforts of real prohibitionist, the Democratic party, especially in dry states, dotes on prohibition. And they would almost deny that their party ever stood for free liquor free from all revenue or Federal restraint. Yet such is history.

Does Not Want It.

Washington, April 1.—Senatorial toga does not appeal to Oscar W. Underwood at this time. He denied today that he had been considering entering the fight in Alabama against Senator Johnston. Although the election is two years off the campaign has been opened by Senator Johnston. "I think my present position as chairman of the ways and means committee and as democratic leader in senatorship," said Mr. Underwood today, smilingly. "I have no thought of seeking a senatorship at this time. Later it may be that I would like to go to the senate but not now."

Noted Scholar To Speak.

Trinity college on May 9, is to have a brilliant lecturer in the person of Kirby Smith, professor of Latin at John Hopkins university. Dr. Smith was the teacher of Prof. W. F. Gill, who now holds the chair of Latin at Trinity and it was through the efforts of Professor Gill that the college has secured the brilliant head of the Latin department at John Hopkins to lecture here. The idea commonly prevails that a teacher of an ancient language must be dry but it is learned here that Dr. Smith endows every subject he touches with a live human interest and is able to interperit the feeling of the ancient in terms of today. The lecture will be one of the literary events of the year in the city of Durham.

Newton Girl Attempts Suicide

Newton April 2.—Again a
disappointing love affair was al-
most at the point of ending in a
sad death but by the heroic ef-
forts of the physicians the life
of Lillie Anthony was saved.
Early Monday morning she
drank a full size bottle of Wine
of Cardu. This did not have the
desired effect she went to a
store and purchased an ounce
bottle of Laudanum which she
drank and then went to her
room. About 10 o'clock some girl
friends called her to go with
them to see the freight wreck
and found her in a stupor. Phy-
sicians were summoned and
worked with her nearly all
day until about 4 o'clock when
she began to revive.

Milk and Ministers.

Milk became a very important
part of the food of families in
the colonial days of the eigh-
teenth century. In 1728 a discus-
sion took place in the Boston
newspapers as to the expense of
keeping a family of "midding
figure." These writers all named
only bread and milk for break-
fast and supper. As the cows in-
creased in number, milk of
course, became more frequently
used. Rev. Mr. Higginson in 1630
wrote that milk cost in Salem
but a penny a quart, while an-
other minister John Cotton said
that milk and ministers were the
only things cheap in New Eng-
land.—American Cultivator.

"Cardui Cured Me"

For nearly ten years, at different times, Mrs. Mary Jinks of Treadway, Tenn., suffered with womanly troubles. She says: "At last, I took down and thought I would die. I could not sleep. I couldn't eat. I had pains all over. The doctors gave me up. I read that Cardui had helped so many, and I began to take it, and it cured me. Cardui saved my life! Now, I can do anything."

TAKE CARDUI The Woman's Tonic

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, dragging-down feelings, pains in arm, side, hip or limbs, and other symptoms of womanly trouble, you should try Cardui, the woman's tonic. Prepared from perfectly harmless, vegetable ingredients, Cardui is the best remedy for you to use, as it can do you nothing but good. It contains no dangerous drugs. It has no bad after-effects. Ask your druggist. He sells and recommends Cardui.

Oakdale Items.

The Annual Sunday School Convention of Patterson Township will meet at the Mt. Zion church the 2nd Sunday in April a good program is being arranged "we are told" and something unusual will be on hand. If you want to hear some good speaking and good singing you had better come every body is invited. They always have good singing, they will have plenty of book they have just got 50 or 60 new books.

Our neighbor, Mr. Lon Smith has just installed him a phone so he can visit his neighbors without leaving home.

Mr. June Hornaday is fixing to build him an up-to-date barn. We suppose he is going in the dairy business as he is also building an up-to-date milk house.

Quite a severe rain and wind storms passed through our neighborhood on March 27 but we are glad to say did not do much damage.

The Oakdale school will close April 5th at night with a concert.

Mr. William Kime, son of the late W. M. Kime is building himself a nice up-to-date house near his father's old home and will live there this summer. Willie has been gone from among us for some time. We are glad to welcome him "and his good wife" in our midst. Says he has been in several states but has never found one like Old North Carolina and Old Alamance County. Willie is a prodigal returned.

The building is being done by Messrs. Lee Spoon and Bob Coble.

Everybody is gone to work and visitors is as scarce as hens teeth.

We would be very glad in deed if the clerk of the Board of County Commissioners would give us their proceedings so we can keep posted as to what the new board is doing if they are doing anything we would be glad to know it and if they are not we would be glad to know what they are doing and what they are doing with our money putting it in the bank, we guess.

Turkey Accepts

Constantinople, April 1.—The Turkish government today declared that it unreservedly accepted the terms of peace proposed by the European powers. The foreign office today handed the Ottoman acceptance to the dean of the diplomatic corps here and expressed the thanks of the nation to the powers for their mediation.

Bulgaria on Friday last notified the powers that she would accept the proposed terms of peace but persisted in her demand for a war indemnity. The powers, it is said cannot favorably entertain the demand for indemnity, although the fall of Adrianople is considered likely to have some influence on future negotiations.

Pierpoint Morgan & Co. Open For Business.

New York, April 3.—J. Pierpoint Morgan & Co., opened for business today for the first time since the former head of the banking house died last Monday in Rome. The notice of Mr. Morgan's death was taken from the front door and the offices gave no indication of the event that had caused a suspension of the firm's far-reaching activities for the past three days.

The New York Chamber of Commerce, of which Mr. Morgan was for 50 years member and for four terms its vice president held a memorial meeting today in his honor. The chamber adopted a resolution placing on its records "sentiments of deep reverence for the memory of John Pierpoint Morgan, man of character," and "its enduring appreciation of his eminent force which he wielded through a long life of masterful endeavor and far-reaching accomplishment."

Eulogistic addresses were delivered by John Clavin, president of the chamber; Senator Elihu Root, Joseph H. Choat, Robert W. DeForest, Seth Low and Frank A. Vanderlip.

Every seat in the great meeting room of the chamber was taken and many were compelled to stand.

Leadership means superiority of product—a superiority which produces leadership and is proved by leadership. It means more than this. It means everything associated with the word **FIRST**.

The Remington Typewriter is first in history, first in prestige, first in quality, first in recent improvements, first in size and completeness of organization, first in distribution, and first in service to the customer. The word **FIRST** in every department of leadership applies only to the

School News.

The Hawfields High School closed last week with beautiful exercises appropriate to the occasion. On Thursday night the primary and intermediate grades gave their part of the program. On Friday Dr. Hill, president of the A. and M. College made a most excellent address, at eleven o'clock. In the evening the Senior class planted its class tree with appropriate exercises. Last fall this class numbered twelve members and it elected into membership Miss Ella Anderson, the primary teacher of the school, started the present senior class ten years ago.

This was a unique procedure because it made thirteen members in the class in the thirteenth year, and because it marked an unusual record for Miss Anderson, who has taught ten successive years at this place, and witnessed the graduation of the class she started in the first grade while she was in the school faculty.

Miss Anderson took part in the planting of the tree and all class features of the commencement.

Belmont school closed last Saturday with an appropriate exhibition by the students. Songs, dialogues, drills, recitations and declamations made up the program of the day. Every part was well done and a success. The Belmont String Band added much to the occasion by furnishing some good old time music.

Oakdale has had a splendid year and those present at the closing exercise report a splendid entertainment.

A Boy's Spring.

Say when the spring's a-coming in,
Oh, ain't it awful sweet?
There's singin's most on every breeze
An' sunshine in the street—
And when the lazy clouds are hung
Across the sky, why, all among
Then goes the wind a-laughin' out
To think of all the joy that's round about.

Say, when the dam's a-roarin' loud,
Oh ain't it fine to hear?
I know a man who went away,
But comes back every year
Just in the spring to stand and see
The waters tumble—Hully gee!
I guess he feels just like us boys;
There's something makes us kind of still in that big noise.

And, say, when something at dusk, when all
The sky is colored red,
An' when the air's just full of spring,
An' I just can't go home to bed—
Say: I've just stood and listened while
The river roared; an' most a mile
I'd see the foam go steakin' down
A-swingin' past beyond the town.

An' something in me'd kind o' stir
An' I'd be there all standin' still—
An' then—an' then—I'd almost choke,
For somewhere near, a whip-poor-will
Would start and call like anything
An' then—an' then—some way
The spring
An' river, an' soft air, an' sky
Would be too sweet, like tenderness—
I'd like that man comin' back, I guess—
I'd stand an' love, 'most every thing:
Say, ain't it funny in the spring?

Saws Way Out of Prison.

Hartford, Conn., April 1.—William Gardner, twenty-one, was serving from one to five years in state's prison at Wethersfield for stealing diamonds in 1910 while he was bellboy at the Allen House, escaped last night or early this morning.

For a year Gardner had been an attendant in the prison hospital. When a guard glanced into Gardner's room about 1:30 this morning it was empty, the window was raised and one bar had been sawed off at the top, leaving a space of eight by fourteen inches.

The prisoner had taken his bed sheet, tied one end to a bar and let himself fifteen feet down to the ground. A beck saw had been used to cut the bar.

The warden thinks that the saw was smuggled in to Gardner.

\$10,000 For Three Fingers.

Asheville, N. C., April 5.—William K. Sharp, by his next friend, Julius E. Sharp, has brought suit against the Biltmore Box Factory for the sum of \$10,000 for alleged personal injuries claimed to have been sustained while the plaintiff was employed by the defendant. It is contended that the former was instructed to operate a saw by a foreman who knew that the machine was not working well and that the employe was not familiar with the machine. It is alleged that through no fault of his own, the plaintiff suffered the loss of three fingers.

Julius E. Sharp, the father of William Sharp, is seeking to recover damages in the sum of \$10,000 from the Biltmore Box Company, claiming that while his was incapacitated he suffered the loss of his wages and was put to great expense in paying physicians bills.

Morgan's Body in Paris.

Paris, April 3.—The special train early the body of J. P. Morgan arrived at the Gare de Lyon in Paris at 11:30 o'clock tonight. It was met by the American ambassador, Myron T. Herrick, the secretary of the embassy, R. W. Bliss, Mrs. J. H. Harjes, Gabriel Jary, secretary of the Franco-American committee, Junius George Morgan, a nephew, and Jacques Seligman. The funeral car was opened and wreaths were placed on the coffin by the ambassador, Mrs. Harjes, M. Jary for the Franco-American committee, and others. The train left at midnight for Batignolles, where it was switched to the Havre line.

6 MORE DAYS!

Cupid Splices Knot For Ocean Romance.

Philadelphia, April 3.—Charles T. Terry, a student of the American consular service, was married here today to Mrs. Mary B. DePitingo, after a courtship beginning three days after the steamship Haverford left Liverpool on her last voyage on March 20th, and ended here yesterday when the romance culminated in their marriage.

Neither the bride nor the bridegroom had ever seen each other before this and when Mr. Terry met the widow of a wealthy Portuguese planter in the cabinet at a musical, it was a case of love at first sight. Two days after he had formed Mrs. DePitingo's acquaintance and was accepted, and they planned to marry her yesterday.

The license was necessary before the marriage could be performed in this State, so Mr. Terry and his fiancée remained aboard the Haverford last night until this morning, when they were married by Magistrate McGiery, and then went to New York on their honeymoon and are at the Hotel Manhattan. The romantic courtship of Terry was conducted at rapid pace. He is an attache of the consular service, thirty-six years of age, and resides at 36 Erskine street, Detroit Mich. He has been preparing himself for work abroad at the British embassy, and recently decided to return to Washington, where he anticipated an appointment under the Wilson administration.

His bride is the widow of a Portuguese planter who died in the south of France eight years ago and who is said to have left his wife considerable wealth. She has relatives in this country and Canada, and on this voyage was bound for Vancouver B. C. and then intended to return to Montreal, where she expected to remain for the summer.

Man Crazy By Drink.

A special from Kinston, N. C. Saturday says: Alonzo Price, a Green County man, crazed by drink and grief, attempted to publicly whip his wife while waiting at the depot in Snow Hill for the remains of his mother, who had died in this city. Bystanders prevented his mistreatment of the woman. When Sheriff Williams went to arrest Price the enraged man attacked him with a knife, inflicting slight injuries on the hand. He was taken before the magistrate and fined. Price cursed the court and was imprisoned for contempt but released after an hour. He had to be remanded because of violence. —Caucasian.

May Not Get Men y.

New York, April 1.—The three million dollar campaign committee of the Baptist home mission society was not certain tonight whether it would receive the \$100,000 gift from John D. Rockefeller.

The stipulation Mr. Rockefeller made was that by April 1 it should have raised \$250,000 more from contributions than the society received the year ending April 1, 1912.

It was said at the society's home the money is rapidly coming in from distant parts of the country but so many checks are dated March 31, to be added to the fund that all contributions would not be in the office until Saturday or next Monday.

Dr. Hartman Writes:

Columbus, Ohio, July 15.—In reply to many letters about my recent article on catarrh and constipation I wish to make the following statement: Constipation is becoming more prevalent every day. Nearly one-half of the human family are troubled with it more or less. This fact presents a serious complication in the treatment of chronic disease.

Thirty years ago when I was prescribing Peruna every day only a small fraction of the people needed a laxative. But I have found by experience that more and more a laxative must be used.

Peruna originally contained no laxative element. I used to prescribe the laxative Manalin to be used in case a laxative was needed. This necessitated the patient buying two bottles of medicine instead of one.

As constipation became more general I finally concluded to add a laxative element to Peruna. The new Peruna is made with a laxative ingredient. The old Peruna (Ka-tar-no) is without a laxative. On that account some prefer the old Peruna. Some prefer the new Peruna.

The new Peruna is for people who have some catarrhal ailment and yet need a laxative. Sold at all drug stores.

The old Peruna (Ka-tar-no) is for those people who have some catarrhal ailment but need no laxative.

Those wishing to procure the old Peruna should address The Ka-tar-no Co., Columbus, Ohio, for further particulars.
