## A LOT OF BOOZE

Last Thursday about two o'clock Sheriff Cook with his deputies called upon John Dickens and John Taibert, to find them a place to store a large quantity of whisky. Mr. Dickens barn on Hancock road. The Sheriff found that these men had two barrels of whisky and a lot of case goods in their wagon which they claimed they were hauling to South Carolina. It being supposed that the railroad companies had quit selling liquor through North Carolina. The Sheriff took the booze and wagon in charge and drove into Graham and when they arrived at that point a large crowd having received information of the forward march of the blind tiger was in waiting. And it appeared from the large number cotton cloth men that stood around the wagon, if the goods had been offered for sale it would have all been consumed long before the time arrived to retire. It was a sad sight to the Grahamites to have plenty of it so near, and yet so far.

This was the fourth annual concert of the union which was under the directorship of Prof. Wade Brown of the State Normal, Greensboro. The night was an ideal one, the cooling spring breezes making pleasant the evening. The event was the greatest musical treat that will be given the people of this section during the year and appeared to be very much appreciated judging from the good attendance. In connection with the selections rendered by the Choral Union Messrs. Dring and Clapp tenor and soloist, Miss Severson and Mrs. Wade Brown of Greensboro delighted the audience with a number of beautiful and thrilling selections. After the music was finished Rev. A. E. Kendall a member of the union representing the union presented Mrs. J. L. His little lifeless form was laid to rest in Pine Hill Cemetery Saturday morning the little mound being entirely covered with fragrant flowers. The funeral services were conducted by Rev. The policeman donned his citizen's clothes and found Payne near Walker's mill. The negro resisted arrest, and almost succeeded in getting Davis' revolver from him when the officer tried, the bullet entering the negro's abdomen, death resulted within a few minutes.

## Spikes Used to Puncture Auto Tires.

Six twenty penny spikes all beheaded were brought to our town Sunday evening and one punctured automobile tire as the result of having run over one of the spikes. While returning from Greensboro Sunday evening on the road between Greensboro and Whitsett some unknown party had planted six twenty penny spikes in the sand just far enough apart so that an auto tire could not escape being punctured. The unlucky party to first drive over the spikes was Miss Addie Ray with her new Ford machine. The machine was stopped and a new tire put on, but no knowledge of the person who planted the spikes was secured. The spikes were nicely buried in the sand having been driven about half way down. The guilty party should be apprehended and caught and a reward for the arrest of such persons should be offered by the owners of automobiles.

The ticket was opposed by a straight democratic ticket which was defeated. Mr. Ward the Mayor is a progressive young business man.

Cates executive Committee, Mayor and Board of Aldermen are invited to Greensboro Friday by the Southern Bell Telephone Co., to inspect the system there with a view of installing a new system at this place. ## Boy Bandit Scared, Too.

Lancaster, Pa., May 7.—Arthur G. Lehman of the Penn Swing and Ladder Co., was held up in an alley near the plant by William Bradel a 17-year-old employe, who was masked. Lehman was returning from the bank with \$350 to pay the hands when confronted by Bradel with a revolver. Lehman in his fright dropped the money, and Bradel equally scared, dropped his mask, and when he saw he was recognized made no effort to get any of the money, but ran away. He was caught after a chase and sent to jail.

## Winston And Salem Joined.

Winston-Salem, May 12.—Wiping two towns off the map is an event of historic interest. This is done today in the formal extinguishing of Winston and Salem as governmental units. Henceforth the community embraced in these two towns will appear upon the maps of the world as the City of Winston-Salem. Today the Mayor and Board of Aldermen of the city of Winston-Salem succeeded to all the authority and duties heretofore exercised by the Board of Aldermen of Winston-Salem.

In the consolidation of the two towns which was recently determined upon by popular vote, a new city is created with a population which has grown from 15,000 in 1900 to 40,000 in 1913, including the suburban settlements immediately contiguous commercial and industrial activities.

## Profitable Fly Catching.

Shreveport, La., May 12.—There is a man in Shreveport who is making an independent living catching flies and selling them to the city board of health. His name is C. A. Bartsch, and his net revenue for the first two days of this week was \$24.20.

When the city health board began offering cash premiums for flies dead or alive Bartsch purchased about 100 traps and laced them in fly ridden sections of the city.

Then he began making inroads on the health board's exchequer, and as well did he operate that he bore the market price down from 50 cents a quart, for it is by that measure that Dr. Chandler purchases. Bartsch still is working, and he will work as long as the treasury holds out. He finds fly catching pays.

The Underwood tariff bill passed the lower house of Congress last Thursday by a vote of 281 to 139. Five democrats voting against the measure. This is the lowest tariff bill ever passed by the lowest house of Congress. It now goes to the Senate for ratification where it will meet with many protests and will be so greatly changed that Mr. Underwood, the father of the bill, will not know the child when it reaches home.

Mr. Ira W. Ward is now Mayor of our neighboring city, Graham, North Carolina. The full republican ticket including Mr. Ward was elected in Graham, N. C.

Rev. Wiley Henson of Candler, N. C. and Magistrate E. J. S. Matner threw themselves into a pugnatius attitude last week and found out which could endure the most severe blows.

## This Sleeper A Marvel.

Chicago, May 7.—"Chicago's champion sleeper" was the title given Max Stein, 30, by Municipal Judge Sabath. Stein fell asleep in front of the quarters of Engine Co. No. 30, at N. Ashland and Haddon aves., at 7 p. m. and didn't wake up until fifteen hours later. Firemen tried to arouse him on the sidewalk, but in vain. Here is what the did: Poured water on his face. Turned light fire hose on him. Put him on a table, but he rolled off and continued snoring. Rang the fire gong. Put him in a cell at 8 o'clock on Thursday. He slept until late Friday morning, arose and asked for breakfast. In court Stein explained that he had taken only two drinks of whiskey. "If you took two more drinks you would break Rip Van Winkle's record," said the court. "You can go. You are Chicago's champion sleeper."

## "Dunkards" Meet.

Roanoke, Va., May 12.—Delegates from all parts of the United States are attending the "old order" of German Baptists, better known as "Dunkards" a convention at Hanging Rock near this city. Special trains are run to the conference grounds and the oddity of the service attracts thousands of visitors.

With a continuous session of four hours, consisting of "examinations," "foot washing" and an evening meal commemorative of the Lord's supper with a general service of thanksgiving, the convention settled down to business today.

A standing committee of 12 to regular the affairs of the Church for the year was appointed. The conference is expected to adjourn Thursday.

Three commissioners of Bladen County were judged in a contempt of court by Judge Ferguson last week and fined \$10. They admitted that they refused to obey the judges order.

A meeting of North Carolina Association of cotton manufacturers held at Charlotte last Thursday a resolution was passed expressing their opposition to the Underwood tariff bill.

Mr. T. J. Shaw was re-elected Mayor of Mebane last week with the following councilmen, T. M. Cheek, A. B. Fitch, Jno. A. Holmes, Jno. Nicholson and S. W. Patton.

Last Thursday in the city of Charlotte the Just Freight Rates Association of North Carolina was permanently organized by representatives from twenty-one towns in North Carolina. The association adjourned to meet in Raleigh May 15 when an organized fight will begin against the present extremely unjust freight rates in North Carolina.

Dr. H. Q. Alexander President of the North Carolina Farmers' Union with a large delegation of farmers called on Gov. Craig last Thursday and informed the governor that they were there to express their approval and pledge their support to his fight against the unjust freight rates that are now being enforced in North Carolina.

The North Carolina Federation of Women's Club met in New Bern, North Carolina last week.

### Marshalls Honor Guests.

Lewisburg, W. Va., May 4.— Vice-President Marshall and Mrs. Marshall, with Senator Chilton, of West Virginia, were the guests of honor here today at the celebration of the 75th anniversary of the formation of the Greenbrier Presbyterian and the 100th anniversary of the founding of the Lewisburg Female college. Lewisburg, located in the bluegrass region of the Alleghenies and one of the oldest county seat towns of West Virginia, extended the Vice-President a genuine mountain welcome. Spectators came from all directions.  
"Mr. Marshall spoke on 'The Modern Puritan,' in part as follows:  
"At all times and places only those men who are not afraid to act according to their convictions can be relied upon to preserve the country. There are three classes of citizens—those who respect the law for fear of punishment; those who obey the law because it is law; and those who are true Christians and are automatically law-abiding and who would act rigidly with no strong arm of the law to direct their movements. Without Christianity America could not live. We are the melting pot of numerous types of the world. Without Christianity to mark the rule of life our hopes would come to naught."

### A Fine Compliment.

Thus the Greensboro Daily News, editorially:  
"Soon the halls of our colleges and universities will reverberate with lofty thoughts and fields of oratory, and a little later the kitchen and the wood-pile will reclaim familiar faces.

Whether spoken in seriousness or derision, that is about the fairest and finest compliment to the young men and young women rounding out the four years' college grind that we have seen any where. The girl who when her college days are done and with her diploma tucked snugly away in her trunk can return to the old home, and during the long warm days that are now at hand, has the grace and the heart to take her turn in the kitchen and relieve the tired and weary mother there, is worth her weight in diamonds, and you may count on her to wear diamonds, too, some day. And the young man who, fresh from literary pursuits, can see to it that the faithful father's turn at the wood-shed is relieved, will never have occasion to be ashamed on that account.  
There are in this world some bigger things than winning a college diploma, and one of those things is to be able to forget the diploma, and prove oneself a man, or a woman, whatever and wherever conditions afford, and occasion requires. Ch. Sun.

### ROSES.

Written for The Observer.  
Bring roses, sweet pink roses,  
With the tints of the early dawn,  
To fill the chubby arms of the child,  
With curls of the sunlight born.  
Bring roses, scarlet roses,  
Bright as her blushing face,  
To deck the robe of the debutante,  
Enhancing her youthful grace.  
Bring roses, pale tea rosebuds,  
To twine in the dusky hair  
Of the soft-eyed maid, at the  
trysting-place,  
As she waits for her lover there.  
Bring roses, great white roses,  
For the hands of the happy  
bride,  
Pure as her heart and white as  
her soul.  
At the altar of love's flood-tide,  
Bring roses, deep gold roses,  
And pin on the throbbing breast  
Of wife and mother, with golden  
love.  
And, oh, unspeakable bliss,  
Bring roses, waxen rosebuds,  
White as her marble brow,  
And place o'er the heart of the  
dear dead love,  
Slumbering peacefully now.  
Bring roses of every color,  
And plant o'er my last low bed,  
My sleep will be sweet,  
Their fragrant blooms,  
Bring roses to cover your dead.  
Bring roses, showers of roses,  
Fit for peasant and queen,  
Of all the gifts from the Hand  
above.  
They are the sweetest, I ween,  
—LISETTE CLAYTON HOOD,  
Charlotte, N. C.

### Your Money and Your Life.

When the robber waylays his victim, the demand is, "Your money or your life." That is an awful moment. Of course the victim yields up his money in order to keep his life. A recent writer emphasizes the fact that when the moment of death comes, the summons then is, "Your money and your life." And the life is judged by the way it has handled its money. One can no more board money than one can board time. When the lease expires man has to give up both and render an account of both, his money and his life. One can no more hold his money after his lease expires than one can hold on to time when eternity calls. We are all stewards, tenants indeed, and none are real owners save that One by whom all things were created.

## TAR HEELS SECURE \$45,000 FOR WAR AGAINST PELLAGRA

Washington, D. C., May 9.—A resolution by the North Carolina Medical Society, followed by a letter from Dr. W. S. Rankin to Congressman Faison, backed by that representative's efforts, was responsible for an appropriation of \$45,000 by Congress for the study of pellagra in the United States by medical experts. The appropriation was included in the sundry civil bill which passed the Senate Wednesday. The entire message had been vetoed by President Taft, for a reason of connection with the pellagra appropriation, but came through the Senate a second time unscathed. The president is expected to sign the bill next week.

The resolution of the North Carolina Medical Society and the letter of Dr. Rankin, interested Dr. Faison, who in turn interested Surgeon-General Rupert Blue of the United States Public Health Service, and General Blue added his endorsement to the appropriation. General Blue by the way, is a former North Carolinian. The resolution of the society, as well as Dr. Rankin's letter was made a part of the record in the discussion of the item.

Pellagra as a fatal disease has appeared in all but eight States in the Union, and there have been 30,000 cases of it in this country in the last ten years. Death has resulted in 33.13 per cent of the cases. Dr. Faison hopes that the study of the disease which will be made possible by the \$45,000 donation, will result in the discovery of a certain method for both its prevention and its cure.

## University Student Charged With Theft.

Chapel Hill, May 9.—Awaiting the arrival of his father from Elizabeth City to furnish a bond of \$200, D. R. Martin, a member of sophomore class of the university, is tonight in the custody of Policeman S. F. Long, of the Chapel Hill police force, charged with taking the sum of \$59 from the automobile of F. W. Booker, which sum of money had been left in a purse on the front seat of the car while Mr. Booker went to a nearby cafe. The money had been handed Mr. Booker by a merchant of Venable to deposit in the bank, and before making the deposit he had entered the cafe, leaving the money in the front seat of his car. Martin and two other boys took seats in the car when the owner went to the cafe, but when he had returned only two of the number were in the car, Martin having taken the money and carried it to the University Inn and deposited it in his suitcase. Mr. Booker ordered an immediate search for the money, and on failing to find it in the possession of the other two occupants of the machine, Martin owned up to taking the purse. On being arraigned before Squire W. J. A. Cheek this afternoon he pleaded guilty to the charge and was placed under a bond of \$200 for his appearance at the next term of Orange county court.

## "Never Was In Love."

Chicago, May 9.—An attempt to analyze the feelings held by Belle Schreiber for Jack Johnson, negro pugilist, charged with bringing her to Chicago for immoral purposes, was the principal feature of today's session of his trial for violation of the Mann act.

Miss Schreiber was questioned by counsel for Johnson. "I don't believe I ever was in love," she replied to a question. "I don't know what love is. I don't believe I had any affection for Johnson. The reasons I associated with him were mostly financial—because I could get lots of clothes and some jewelry from him."

The witness testified that on her arrival in Chicago Johnson had rented and furnished a flat for immoral purposes, and that she once gave the pugilist \$20:

## And Father Was Surprised.

"If you kiss me again," declared Miss Lovely firmly, "I shall tell father."  
"That's an old tale," replied the bold, bad young man.  
"Any way its worth it," and he kissed her.  
Miss Lovely sprang to her feet. "I shall tell father," she said and left the room.  
"Father," she said softly to her parent when she got outside, "Mr. Bolder wants to see your new gun."  
"All right I'll take it in to him," said her father, and two minutes later he appeared in the doorway with the gun in his hand.  
There was a crash of breaking glass as Mr. Bolder dived through the window and departed in all haste for the railway station.

## How To Win A Post Office

Civil Service Questions which must be answered by the faithful before Woodrow can hand them out the pie.

For the benefit of the hungry who read The Yellow Jacket on the sly and want to know how to get a post office, we have at great expense secured an advanced list of the question which will probably be asked all candidates for postoffice, and we take pleasure in printing them here:

- (1) Are you a Demmyerat, or just the plain ordinary kind of a daggasted fool?
- (2) How long have you been a Demmyerat?
- (3) If above two questions answered correctly, state when you last voted for one thing and wanted another?
- (4) Is your father living or is he in the Demmyerat party?
- (5) On which side do you lie when sleeping?
- (6) On which side do you lie when voting?
- (7) If a Demmyerat, how many times have you changed your notions on free silver, protective tariff on home industries on Bryan as a paramour, and in the moon being made out of green cheese?
- (8) If appointed postmaster, would you stand on your head in canceling a postage stamp that had been stuck upside down on a letter?
- (9) If not, why not?
- (10) If appointed postmaster, could you find anybody in your acquaintance, fool enough to go on your bond?
- (11) Can you tell whether Noah wore rubbers or wear bare footed?
- (12) If a hen and a half lays an egg and a half in a day and a half, how many egg wheels are there in the running gear of a goose nest?
- (13) Does fighting sour the milk in the Milky Way?
- (14) Is a postage stamp like a bad boy because you have to lick its back before it is any good?
- (15) If a bowl of soup was lost in the mail would you report the loss to your superior in office.—Yellow Jacket.

## Played With Matches.

Washington, N. C., May 9.—The little, five-year-old son of Mr. and Mrs. W. G. Williams of East Main street of this city was badly burned yesterday. The child, it seems had found some matches and was playing in the yard. He struck one of them and ignited his clothing. The mother hearing his screams rushed to his aid and succeeded in tearing off his clothes, but not before his face and hands were badly burned. A physician was summoned and rendered all medical aid possible but the little fellow is in a serious condition.

Freight Rates.

In our opinion we believe that Governor Craig should call the legislature in special session to take the proper steps to remove as far as possible the unjust freight rates [that are now jeopardizing and in many cases paralyzing and retarding the business interests of our state. Its true that the governor and the legislature made a serious mistake in not taking the proper steps when the legislature was in session, but we presume that the governor believed that the Railroad companies still retained sufficient honor to make an amicable and equitable adjustment, but to everyone they have proven themselves a great disappointment and have lowered themselves in the estimation of a great many of their own patrons.

If the statement of the railroad companies is true when they say to accept the proposition made by the state would work an injury to them that would eventually cause the destruction of the common carriers that operate in this state its high time that the state take some drastic action to suppress and remove, if possible the parasite, that is sapping from our industrial life's veins that blood which should be used in the expansion and permanent extensions of our home industries. How to remedy this evil we are not able at present to say, but we believe that the first and the most important thing to do is to call the legislature in special session and after careful deliberation based upon the reports of experts of these questions draft such a law that will show to the railroad companies that its not a matter of child's play and that the great State of North Carolina will not longer stand for the grave injury that has been perpetrated upon us ever since these great common carriers entered our borders. This matter cannot be hurriedly adjusted therefore, its all the more important that the State begin actively in this supreme and final effort. And when the battle is begin let no one linger in the camps save the guards and cooks but every man to his duty supporting the governor and the corporation commission in this fight at Armageddon.

The New Board.

We have not been called upon for the advice we are beginning to give to the new board of aldermen of the city of Burlington, but such work is one of the functions of the editor of every newspaper, and whether its well performed or not is a question for the reading public to determine. In the first place, it is incumbent upon the board for the next two years to so handle the city government that current expenditures will not be greater than the fixed income. If this is done the floating indebtedness of the city will not continue to

increase from year to year as it has been doing for many years. In the second place, this board must devise a more efficient and economical system for street improvement and maintenance. How this can be done is a matter for the board to determine by examining very carefully the systems adopted by other towns of about the same size as Burlington.

The scavenger work of the city should be done by the city under the supervision of the notice that supervises the sanitary conditions of our town. The office of fire inspector and policemen for sanitary work should be combined. More service should be demanded from the mayor and whenever his services justify and increase in salary it should be granted. The policy of this board should be to make all permanent improvements within their power and not to spend the peoples money in worthless contracts and experimental work. The present condition of the city's school demands a new building, modern in every respect, and if the school management justifies this improvement it must be made. Within the next two years, work will be begun on the postoffice building, and at the same time, if not earlier work should begin on a city hall for Burlington where the markets of the town, the military company, the fire department and a fire alarm system, which the city must install within a short time, could all be properly housed.

The enforcement of all law by the suppression of the wrong and supporting of all that's good and right should be the watchword of the present board. In other words these gentlemen should live with an eye single to the purpose of making Burlington a better and more desirable and prosperous place in which to live.

Moser Vs. City of Burlington.

Last week the Supreme Court of North Carolina handed down another of its wise and lawful judicial decisions. Many that read this will at once say that we are biased in our views by being a citizen of Burlington, but we desire to call attention to the unreasonableness of the verdict rendered. Conceive if you can of a jury giving a verdict for damages for as much as the property has ever been worth upon any market. Conceive if you can the right that an individual has to oppress and harass another individual because he is a citizen and stockholder in a municipal corporation. It is well for the people of Burlington and for all the citizens of Alamance County that the supreme Court of North Carolina and of the United States are human and that those gentlemen have the same warm blood piercing their souls, that pulsate on their own and that resent anything that borders upon injustice in any sense of the word. There is much difference between reasonable damages and excessive damage. This the Supreme Court was enabled to see in a very clear manner. It is to be hoped that these difference may be settled right, because nothing is never settled until it is settled right and we believe that in the end prejudice and biased views will be eliminated entirely.

Mrs. Evelyn Thaw Shows Infant Son.

New York, May 10. — Evelyn Nesbit Thaw and her infant son Russell, sailed on the Olympic recently. Mrs. Thaw tried to avoid reporters and retired to a cabin to await the ship's sailing. She was seen, however, and for the first time admitted she had a son. "Yes, little Russell is two years old," she said. "He is my only hope. He will be educated in an English school." Mrs. Thaw was accompanied by a maid. She said she had

heard nothing from Harry Thaw in months and knew nothing of his condition. She is going to Paris for two months. Among the 500 other first cabin passengers on the Olympic were Gady Deslys the actress; Lee Shubert, the theatrical manager who is going abroad in search of vaudeville stars and Cosmo Hamilton the playwright. Lieut. Sir Ernest Shackleton, the Polar explorer now in the tobacco business and Charles Hitchcock Sheriff, United States minister to Argentina also were on board.

To Walk Across the Continent.

Wilmington, May 12. — A. F. Funderburk, of Pageland, Chesterfield county, School Carolina formerly of Columbia and for several years a member of the City Council of that, who arrived in Wilmington early Saturday morning to start on his pedestrian trip from the Atlantic to the Pacific coast, will leave here tomorrow morning on his long journey. He hopes to reach San Francisco by September 16th and plans to walk every step of the way. He starts without any funds.

He found awaiting him on arrival here a letter from the governor of South Carolina, in response to his request for a letter to be used by him in introducing himself in the towns and cities that he will pass through on his trip. Governor Cole L. Blease in his letter that he is absolutely certain that any one who would undertake the trip Mr. Funderburk had indicated he had planned, is loose in his head, and goes on to express the hope that Mr. Funderburk will be able to keep out of jails and asylums on his trip, that the people will be kind to him and that if he should become an inmate of any of the asylums he hopes the governor of the state in which the institution is located will notify him as Mr. Funderburk is one of his subjects.

Danced 15,000 Miles; Now Claims Record.

St. Petersburg, May 12. — Countess Lamsdorff has published a unique book of reminiscences which is attracting much attention. In one chapter she writes that before her marriage she attended 525 balls, and after, over a much longer period, only 557. From this she draws the inference that the average husband does not consider the dance a good enough excuse to see his wife in the arms even of his best friend. Before marrying she was proposed to 18 times; afterward she had to deal with 272 violent protestations of undying devotion. Of these admirers nearly a hundred threatened to do her an injury. All told the countess danced 2,934 quadrilles, 500 polkas and 4,500 waltzes, divided among 1,700 partners. Her analysis of it is interesting. She designates 1,250 as fools, 300 dreary, 125 indifferent, 22 nice, but only 3 lovable. The countess asks if any other woman has danced so many miles as she—15,000.

Blease Refuses Second Requisition.

Columbia, S. C., May 12. — Gov. Cole Blease declined to honor the requisition papers of North Carolina for the second time and M. E. Smith wanted in this State's remains in Cheraw. Mr. Smith is wanted all right. He is a banker of Cheraw and is charged with violation of the insurance laws and failure to take out license to do business in the State. When Governor Blease refused the extradition several weeks ago, he wrote that he would honor the papers if it is said by the department here and Commissioner Young today expressed surprise that his second effort had failed.

Governor Blease frankly says he does not think the North Carolina courts can make a case against Mr. Smith, who is a banker in Cheraw and a man of standing. The North Carolina people who caused the charges to be brought against him, have yet another move, but have not indicated how they will make it. They do not especially like the course of Governor Blease and would be willing to take a chance in court. They had counted upon getting the governor's permission to try Mr. Smith here because the two are not political friends. But Mr. Smith has a good man at court in the person of George E. Rembert, a lawyer and the next governor, according to a slate.

Mebane Town Election.

Mebane, May 9. — Contrary to pre-election anticipations the town election passed off very quietly. Mayor T. J. Shaw was re-elected without opposition. Two sets of councilmen had been nominated, and all of these ran very well, according to their friends and supporters. Mr. W. E. White, who was one of the men nominated at the first mass-meeting, withdrew his name before the election. Three of those elected were nominated by both factions. The new councilmen are: Messrs. T. M. Cheek, A. B. Fitch, Jno. A. Holmes, John Nicholson and S. W. Patton.

Roosevelt Coming.

Raleigh, May 10. — Franklin D. Roosevelt, assistant secretary of the navy has accepted the invitation to make the commencement address before the North Carolina College of Agriculture and Mechanical Arts Tuesday, May 28. Mr. Roosevelt has not announced his subject. In coming to the state college here he speaks to the boys whom his chief Josephus Daniels has taught many years in the Sunday school department of the Methodist church. It is the first visit of the assistant secretary to a North Carolina college.

Hail Storm in Wamance.

A heavy hail storm Wednesday afternoon in the McCray section and north, six miles from town, did great damage to wheat, amounting to about 25 per cent. Trees were torn up, limbs twisted off, and a heavy layer of hail did considerable damage. Some of the hail was still lying unmelted twenty-four hours later.

#### Couple Plans Ocean Flight

San Francisco, May 12.—Plans for a transatlantic flight which they say they will make together in an effort to capture the \$50,000 prize offered by Lord Northcliffe for the first flight across the Atlantic, were mapped out here tonight by Capt. and Mrs. James W. Martin. Captain Martin arrived here on the Pacific liner Sierra and was met at the pier by Mrs. Martin who is known in aviation circles as Little Irvine. Lord Northcliffe's term provides that the trip must be made in 70 hours. Martin says he can make it in 20 hours and his belief is shared by Mrs. Martin. Their plan is to start from St. Johns, New Foundland, flying to the coast of Ireland a distance of 1,630 miles.

#### Blow At Pretty Teachers.

Richmond, Ind., May 7.—"Don't hire teachers who are extremely pretty or who are extremely homely," Superintendent of Public Instruction C. O. Williams urged the township trustees at a meeting here. Mr. Williams asserted since compulsory medical examination was required for school children, all teachers also should be forced to undergo medical examination to determine their fitness for their work. "Pretty girls attract too much attention," the superintendent continued, "and so do the ugly teachers. A teachers appearance should be such as to not draw attention to her; therefore beautiful women should be avoided." The trustees listened attentively but took no action.

#### Satisfied Men.

It is a source of gratification that the employees of the Southern Railway Company at Spencer are more contented perhaps than any other set of men to be found in the whole country. This is particularly true as to the machinist as indicated by the fact that only two employees have quit the Spencer shops during the first four months of this year. It shows that the men are at least fairly well satisfied with their wages, that they like their work, that they like their foreman, that the foreman in turn are pleased with the service rendered and that there is a good feeling existing between the employees and the employer. This spirit should be encouraged, and cultivated as the days go by.

#### Boy, 12, Shoots Girl He Wanted For Sweetheart.

Danbury, Conn., May 7.—"You are my sweetheart," said Thomas Collins, 12, when he met pretty Margaret Sullivan, 10, on a lonely road. "I don't like you," Margaret replied, and at this according to testimony in the police court, the boy fired a revolver. The bullet entered the girl's right arm, but did not injure her much.

Thomas had found the revolver in his home. He frankly confessed he knew it was loaded but said he only intended to frighten the girl. The boy and girl were playmates, and in court she pleaded that he be freed. "I don't think he meant to shoot me," she said. The boy was placed in the charge of a probation officer.

#### THE SAFEST WAY

Among the advantages of appointing a Trust company, instead of an individual, as executor, trustee, agent or guardian of a minor, are the following:

- Its permanency—it does not die. It does not become insane. It does not imperil the trust by failure or dishonesty.
- Its experience and judgment in trust matters and trust securities are invaluable to the estate.
- It never neglects its work, nor hands it over to untrustworthy people.
- It is invariably on hand during business hours and can be consulted at all times.
- It is absolutely confidential.
- It has no pets and no politics.
- It can be relied upon to act up to its instructions.
- It does not resign.
- Its capital and surplus are liable for the faithful performance of every trust.

### Elon's Catalogue. Two Important Changes. An Interesting Publication Containing Valuable Information And Facts

Elon College, N. C.  
May 8, 1913.  
The catalogue number of the College Bulletin, the 24th annual number, is just from the press of the Christian Publishing Association. It is larger in extent than previous issue, containing 178 pages and showing among other changes, two of singular import.

The first of these changes and the one that will be most welcome in this age clamors after the practical in education is that which provides for the Bachelor of Science degree, for which no Latin or Greek is required, either for entrance to college or during the College course. Instead of these ancient and honored tongues, German, French, or Spanish with English will make up the required language work. This change is expected to be far-reaching in its influence and to result in the preparation of a great many scientific men, who feel that the classical languages are not directly connected with their life-work. Taken in connection with the two excellent laboratories in Physics and Chemistry now nearly completed this hope would appear to be well-founded.

The second of these changes has to do with the inauguration of the custom of teaching for six days in the week, rather than five days. The recitation work will begin at 7:50 in the morning and close at 1:00 in the afternoon. This arrangement will give a much larger time to the gymnasium and laboratory work than has previously been possible.

The catalogue shows that three hundred and fifty eight students have matriculated during the College year, from thirteen states and more than a hundred counties. There had been talk current on the hill of raising the entrance requirements of fifteen units, or one more than the standard College requires, but the catalogue does not show the change, the requirement of fourteen units as practised for many years being adhered to, in company with the other colleges. The usual sixty-nine hours of college work, with the graduating thesis exhibiting original research, are required of all candidates for the bachelor's degree.

#### For the Weak and Nervous.

Tired-out, weak, nervous men and women would feel ambitious, energetic, full of life and always have a good appetite, if they would do the sensible thing for health—take Electric Bitters. Nothing better for the stomach, liver, or kidneys. Thousands say they owe the lives to this wonderful home remedy. Mrs. Rhinevault of Vestal Center, N. Y., says: "I regard Electric Bitters as one of the greatest of gifts. I can never forget what it has done for me." Get a bottle yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by Freeman Drug Co.

#### Turtle Serum Patient Dies.

Stamford, Conn., May 4.—Adolphus A. Ford, and oysterman, died at his home on Great Hill yesterday of tuberculosis and heart failure.

Dr. H. P. Geib said Ford had been receiving the Friedmann treatment and had responded well. There was a general improvement in his condition, the death being due primarily to heart failure.

Dr. Geib obtained the serum through a friend in New York who associated with Dr. Friedmann, he said. He gave several injections beginning on April 18.

#### Best Medicine For Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New-Discovery: "I know Dr. King's New-Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies had failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price, 50c and \$1.00. Guaranteed by FREEMAN DRUG CO.

### DECIDE YOURSELF

The Opportunity Is Here, Backed By Burlington Testimony.

Don't take our word for it. Don't depend on a stranger's statement.

Read Burlington endorsement. Read the statements of Burlington citizens. And decide for yourself.

Here is one case of it: Mrs. T. A. Amick, of Means St., Burlington, N. C., says: "I like Doan's Kidney Pills, and I am glad to tell about the good they did me. My back ached and my sides pained me. I was nervous and my kidneys were weak. When someone told me about Doan's Kidney Pills, I used them. They relieved me in every way."

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy—ask **DISTINCTLY** for **DOAN'S KIDNEY PILLS**; the same that Mrs. Amick had—the remedy backed by home testimony. 50c at all stores. **FOSTER MILBURN CO., Props., Buffalo, N. Y.**

### MERIT SYSTEM IN POSTMASTERSHIPS OF FOURTH CLASS

Washington, May 7.—All fourth-class postmasterships, except those paying less than \$180 a year, were thrown open to competitive examinations by an order issued today by President Wilson.

These positions are retained in the classified service but about 50,000 incumbents who were covered by executive orders of previous administrations will have to meet all comers in competitive examination to hold their positions with civil service protection.

In a statement making this order public, Postmaster-General Burleson announced that it was the purpose of President Wilson and himself to extend the classified service to include presidential postmasters of the second and third class, probably within a year. This may require legislation by Congress, he said. His plan, which will be laid before the President, would provide for a qualification test for incumbents and applicants, in keeping with the importance of the offices.

Under President Taft's order of October 15, 1912, fourth-class postmasters were divided into two classes "A," those drawing more than \$500, and class "B," those drawing less than \$500. Competitive examinations were prescribed for future appointments for class "A" appointments, while the class "B" petitions were to be filed upon recommendations of postoffice inspectors.

Today's order leaves only the office paying \$180 or less to be filled upon inspectors' recommendation.

Rules and regulations to govern administration of the new order will be worked out and announced by the Civil Service Commission as soon as possible.

The post master general issued a statement explaining the purpose of the new executive order, declaring that President Taft's action in putting fourth class postmasters in the classified service was not sufficient, and that the mere placing of "great hordes of persons" in the classified service was not in conformity with the spirit of the civil service, there were no tests to determine the merits of applicants.

The new order specifically requires a competitive examination and selection by postoffice inspectors from among the first three eligible applicants. The order places the age limit for appointees at 65 years.

Mr. Burleson in his discussion of the situation indicates that the Wilson administration wishes to take the fourth class postmasters out of politics, but points out that Democrats as well as Republicans will have an opportunity under competitive examinations to show their fitness.

#### Now How Did He Know.

The talk had drifted to the weight of persons when young Mr. Sappeigh observed: "Appearances are often deceptive. Now Miss May here is heavier than you would think." "In the moment of silence which followed this remark the young lady's brother asked, "How do you know, Mr. Sappeigh?"

## Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

## Detectives Have Run Down Many Rumors in Pharan Death.

Atlanta, Ga., May 4.—Detectives investigating the death of Mary Phagan showed renewed confidence today. Many baseless rumors concerning the 15-year-old girl found murdered last Sunday morning in the basement of the National Pencil Company factory and have been run down and disproved and the case is now regarded as much less complicated. As the result the officers say their main case has been strengthened.

More than 100 witnesses have been summoned for the next session of the coroner's inquest Monday, including many women employes of the pencil factory. It is possible that New Lee, negro night watchman and Leo M. Frank, superintendent both of whom are under arrest, will again be called before the jury.

After an extended conference today between Solicitor Dorsey, Coroner Donegan and Chief of Detectives Lanford, the three officials went together to the pencil company's factory and made a minute examination of the spot where the murdered girl's body was found. All declined to state whether new evidence had been found.

### 26 Years With a Broken Neck.

Shawnee, Oklahoma, May 7.—Eldred, known as the "broken necked wonder," died at Shawnee as the result of a fall on the street. Baldwin's neck was broken in a railroad wreck at Birmingham in 1887, and he had lived since with a steel mask holding his head up. He was widely known here and lived at El Reno.

### Purpose of Trade.

Washington, D. C., May 9.—The Underwood tariff bill reached the Senate today and that body, as usual with determine the final form of the revenue measure. The Senate is always counted upon to raise rates that are too low and invariably the House Ways and Means Committee reports some schedules that are indefensibly low. In order to have something to trade on in conference.

It is not expected by anybody that free wool and sugar will be changed by the Senate but a number of items in various schedules will be changed. There was a general exodus today. Congressmen, following the passage of the tariff bill through the House. Congressman Webb hurriedly last night for Shelby, N. C. where his father is very ill. Congressman Small left for Washington, N. C., to return Monday, and Congressman Goodwin went home to stay a week. S. H. Wiley, Salisbury, N. C., J. W. Cannon, Concord, N. C., Col. R. R. Cotton, Bruce, Pitt County; Mr. Woodley, Tarboro, N. C., W. C. Newland, Lenoir, N. C., are visiting here.

### Joy Rides Expensive.

Asheville, May 13.—G. T. Haws a young white man who has been a resident of this city for the past several months, was found guilty of embezzlement in the Superior court yesterday and was sentenced to serve a term of two years on the county roads. It was in evidence that Haws had been given money by Mrs. Christine Rembert, who conducts a boarding house, to deposit in the bank. Instead of doing so, it was testified, he used it for the hire of automobiles, treating his friends to joy rides.

### Just And Sensible.

Senators Martin and Swanson, it is reported, will be consulted in the appointments to office in the Ninth Virginia district. This policy is just and sensible. The district is represented in congress by a Republican. Each of the nine Democratic representatives has his own district and its affairs and appointments to engage his attention. The two senators, chosen for the entire State, are the natural representatives of the Ninth. They know men and conditions there and how best to use the patronage to build there a strong and victorious party organization. The party lacks but a few hundred votes of controlling the district. We do not know what kind of a general battle we will have in 1914. It is possible that the last Democrat vote can be raked and scraped at the polls and an in congress will be needed to support the Wilson administration and make its policies effective. With vote buying eliminated and wise use of the federal patronage a Democrat member of the house may be gained in the Ninth district; and the gain may be needed. The opportunity to make this gain should be put in the hands of men who know how to use it and who can be trusted to use it for the advantage of the administration, the party and the public.

### Loss Of 4,000.

Nogales, Ariz., May 10.—After an estimated loss of 4,000 men on both sides in fighting which lasted from three o'clock yesterday morning until nightfall, 2,500 Federals were driven back into Guaymas, the California gulf port, by 3,000 insurgent Sonora State troops. Heavy cannonading reported today from Ortax, indicated that the attack on Guaymas proper had begun.

The official insurgent reports that 150 Federal soldiers and 35 officers were captured and 10 machine guns abandoned to the State troops. Among the killed was Colonel Martinez, chief of the Federal artillery. To assist in the actual attack on Guaymas, 250 cavalry are on the way from Agua Prieta, opposite Douglas, Ariz. All Sonora border towns today celebrated the victory.

The series of meeting closed at the Baptist church last week Pastor Rose did the preaching it was the plain simple truth of the gospel it was real food for the Christians and good warning to the unsaved it was a meeting that will long be remembered may the pastor live long to lead many to the Lord.

On Sunday when all people were slumbering in the shade of midnight darkness the great archer who garners for the skies touched the spirit of Mrs. E. N. Bailey and bade it leave the church militant and enter the church triumphant at ten minutes past twelve o'clock at midnight. She swept through the pearly gates and entered the joys on high. She was young but surely a good woman has gone from us. She left a husband and one child to mourn their loss the child is very young and some doubts about it living. She was tenderly laid away by loving hands at Haw River to await the morning of the resurrection where they are in the grave. Shall come forth to meet the judge of the quick and dead the funeral was conducted by Rev. G. L. Curry as we turned away from the grave we thought how sad for a mother to be taken from a tiny little infant who is left to the mercy of the world when we knew that no love is like the mother.

### Valedictory.

(James Brunton Stephens)  
Lay me low, my work is done  
I am weary. Lay me low,  
Where the wild flowers woo the sun,  
Where the balmy breezes blow,  
Where the butterfly takes the wing,  
Where the aspens, drooping grow,  
Where the young birds chirp and sing—  
I am weary, let me go.

I have striven hard and long  
In the world's unequal fight,  
Always to resist the wrong,  
Always to maintain the right.  
Always with a stubborn heart,  
Taking, giving blow for blow,  
Brother, I have played my part,  
And am weary, let me go.  
Other chance, when I am gone  
May restore the battle-call,  
Bravely lead the good cause on  
Fighting in the which I fall.  
God may quicken some true soul  
Here to take my place below  
In the heroes' muster roll—  
I am weary, let me go.

### Luke McCluke Says.

Grandma used to blush all over when a man got a glimpse of a half inch of her nose. But Granddaughter hoists knee-high and says: "I should worry." A man wants his own pleasure, but a woman is happy if her children are happy. It is what you keep out of the newspapers that fixes you standing in any community.

The story of a man's passion for a woman is written on water. The woman's story is carved in granite.

Unselfishness is the quality we all cultivate but never find in the other fellow's garden.

We all wonder every now and then why Rockefeller or Carnegie doesn't slip us a couple of thousand. We figure that they wouldn't miss it and it would look mighty big to us.

The reason so many married couples are unhappy is that the contracting parties tell too many lies before the ceremony and too much truth after it is over.

One of the finest ways to get sick is to keep on drinking to the health of other people.

Hot water will relieve almost any ill. That is the reason married men live longer than single men.

Lots of men who can speak three or four different languages have to keep still while their wives are using the only one they know.

A wise man can listen to the phonograph records used by the man next door and tell what kind of a guy he is without meeting him.

Most women outlive their husbands because they know that if they died first the onery men would get married again. Some girls are so modest that they blush when they see a hammock hanging in a store window.

When a mans wife is a good looker and a good cook he usually survives the shock even if his political party is defeated.
