The Column Selector of the Model 10 Remington  
selects the exact point in each line where the writing  
is to begin—not by a step to step movement of  
the carriage—not by tedious hand adjustments—but  
by the automatic response of the carriage to the  
pressure of a single key.

In ordinary letter writing, the position for writing  
the date, the address, the first line of each paragraph,  
"Yours truly," and addressing the envelopes is  
reached instantly, the hands of the operator never  
leaving the keyboard.

operator's wages, it amounts to enough in a short  
time to pay for the machine.

## The Same Thing is True Nearly All Over the South.

Farmers and others living in  
the rural districts are neglecting  
the greatest money-making op-  
portunity that has ever come to  
this section in failing to raise  
enough country produce to supply  
even the home markets. Eggs,  
chickens, meats and vegetables  
are selling at fabulous prices  
compared to their market value  
of only a few years ago. But  
the price is not the saddest part  
of the situation since it is almost  
impossible for housekeepers of  
the town to secure enough coun-  
try produce to supply their  
families. Fresh eggs are scarce  
at 20 cents per dozen and good  
butter is hard to obtain at 30  
cents per pound. Hens sell  
readily for 50 cents each and  
spring chickens, when found at  
all are 50 cents each. Country  
hams are seldom seen on the  
market and cucumbers, beans,  
cabbage, garden peas and other  
vegetables are shipped in from  
Florida and other Southern and  
Western States to supply the  
home markets. Of course these  
sell at very high prices, as they  
must be handled by several mid-  
dlemen and express charges  
paid. We are not complaining  
about the prices, but would like  
to see farmers and others of  
Anson County reap their share  
of these high prices for products  
grown at home. Unless the home  
folks take care of these fancy  
markets truckers from other sec-  
tions are sure to come in and  
take away the money that should  
remain at home.—Wadesboro,

### Thomas Wright Quits Work To Kill Himself.

Statesville, July 17.—Leaving  
the garden where he was at  
work Thomas Wright, a farmer  
of Union Grove township in the  
northern section of this county,  
walked into the house, told his  
daughter that he was going to  
kill himself and before any one  
had time to prevent the rash act  
proceeded to confirm his  
statement. A bullet from  
his pistol ended his earthly  
career. It is understood that  
Mr. Wright had worried much  
recently on account of domestic  
troubles, and this is supposed to  
be the cause of his self-destruct-

## Many Cities Sweltered In Temper- tures of 100.

Chicago, July 28.—The heat  
wave over the central west was  
relieved in many sections today  
and tonight. While some cities  
sweltered with temperatures ex-  
ceeding 100 degrees, others  
were refreshed by moderate  
temperatures. Joplin, Mo.,  
with 106, was the hottest city;  
Louisville, Ky, and Arkansas  
City, Kan., suffered at 104,  
while St. Louis and Evansville,  
Ind., registered at 102.

There was little let up tonight  
for Evansville apparently, the  
thermometer at 8 P. M. stand-  
ing at 96. St. Louis had some  
relief at evening, but faced a  
hot night at 88. Medicine Hat,  
Canada, reputed source of cold  
waves, was 96 today and at  
night 88. Suffering was in-  
tense at Louisville, which re-  
ported extreme humidity, with 12  
deaths and a number of prostra-  
tions. In Kansas and Missouri  
showers brought cooler weather.  
There were three deaths in  
St. Louis and as many prostra-  
tions.

While these cities were suff-  
fering, Chicago and Cleveland  
were comfortable at 76 and 78,  
and Buffalo was cool at 70.  
Other cities in the middle west  
were favored by temperatures  
not extreme for the season.

Atlanta, Ga, July.—The heat  
wave under which the south  
Atlantic states have sweltered  
the last few days pushed the  
mercury to 97 degrees in Atlan-  
ta today, making a record for  
the year. The minimum through  
the day was 76, higher than it  
has been this year.

Reports tonight from points  
throughout the south Atlantic  
states indicated intense heat  
from Virginia to Florida.

At Macon, Ga., the mercury  
topped 104, the highest ever re-  
corded there. Street thermom-  
eters at Augusta, where there  
was one death and seven pro-  
strations, registered 99.

Charlotte reported 101 degrees,  
the hottest in 25 years.

### ABOUT CUTTING TOBACCO

Mr. Editor:

Dear Sir:— Forty eight  
years ago I began the work of  
growing tobacco. After a few  
years I decided, or rather dis-  
covered, that there were certain  
days better than others for cut-  
ting tobacco in order for it to  
cure up nicely and have a "heavy  
body" and be oily and "waxy."

To explain, I'll say that tobac-  
co has a sap just as a tree, and  
tobacco also has at intervals an  
oily substance, which is its nat-  
ural possession. When the sap  
or water, raises in tobacco it  
pushes out the oil through the  
pores of the leaves on the principle  
that oil and water won't mix,  
and tobacco cut in this state will  
be light and "chaffy," when  
cured. From the fact that sap  
pushes the oil out of tobacco is  
why it is so "gummy" at certain  
times and will barely stain your  
hands at other times.

But cut tobacco when full of  
oil and it will cure up nicely and  
have a "heavy body" and be  
oily and "waxy." When tobac-  
co is full of oil and it can not  
evaporate as sap does in curing,  
therefore the tobacco is compelled  
to be rich and heavy. Farmers  
have experienced cutting tobacco  
one week and do well with it,  
and then again the next week  
and off of the same piece of  
ground and have altogether dif-  
ferent luck. If any of the farm-  
ers will write and send a stamp  
for reply, I'll be pleased to write  
to them upon this matter.

Yours truly,  
Daniel V. Davis,  
Advance, N. C. R. F. D. No. 2.

### Rid Your Children of Worms.

You can change fretful, ill-tempered children into healthy, happy youngsters by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisbin, of Elgin, Ill. says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. ## On \$1.50 a Day Income He is Buying A Home.

Kansas City, July 19.—Frank Stitzle always has been ambitious. Even in boyhood, when the early death of his father and mother had put the lad and his brothers prematurely at work, young Frank had aims and ideals of his own. His hope that some day he would be independent was the incentive that caused him to save a small portion of his meagre salary.

When he was twenty-two he had saved up the munificent sum of \$84. This was untold wealth, he was making only a little more than \$1.50 a day, young Stitzle got married. This was fourteen years ago.

As the years progressed the Stitzle family grew in numbers, but not so the father's salary. Yet his ambition was unquenched. In some manner Mr. Stitzle managed to save \$100.

Today Mr. Stitzle, the father of five children, has used his savings in making the first payment on a small home in St. Clair, and not only intends to keep up the monthly payments of \$10, so that he may some day own his home, but also is starting another savings fund, so that his eldest boy, Frank Jr. may enjoy an education such as his father never dreamed of having.

The high cost of living has no terrors for Mr. Stitzle. Aided by his faithful wife, he so systematizes his daily expenses that there absolutely is no waste.

Some months Mr. Stitzle says, by a careful overhauling of the clothing of his five children, he can save almost \$4.

Mr. Stitzle is employed in the railroad shops a mile from his home. He saves \$1.20 a month by walking instead of riding.

## No Hot Wave Looked For During This Week.

Washington, July 20.—No hot wave is looked for this week by the weather bureau. "The present pressure distribution over the northern hemisphere," said the weekly bulletin today, "appears favorable for the prevalence of moderate, or at least not unusually high, temperatures over the greater portion of the country during the coming week. Over the south and southwest temperatures will probably be high at times, but not so high as during the week just ended."

"As to precipitation, prospects are not very favorable, and generally fair weather may be expected over all sections except the south Atlantic and east gulf states, where occasional thunder showers are likely to occur."

"There are no indications of a West Indian disturbance."

### These Hens Swim and Dive.

Sarac Lake Dispatch to the New York Sun.

Expert research has disclosed the reason that patients at the Foresters Sanitarium, at Rainbow Lake have had to complain of a fish flavor in their eggs.

The institution has its own poultry yard extending to the edge of the lake, whither the ducks repair for swimming and the hens for drink. Yesterday the keeper of the hens got up extra early in the morning and was confounded when he saw a dozen hens floating on the lake in the midst of the flock of ducks.

The henner man, who is also a biologist, say it is a characteristic acquired through long association with the ducks. He will segregate the hens and ducks hereafter, for although he has no objection to swimming hens he feels that the flavor of the eggs directly concerns his own reputation.

So he says.

### One Billion Eggs On Ice.

New York, July 13.—More than 1,000,000,000 eggs are on ice according to the report of 45 public refrigerators in the United States just issued. The figures account for 2,992,800 cases in storage, with 30 dozen eggs to the case, as compared with 3,330,500 cases last year at this time. With storage eggs priced at \$7.20 a case these early July holdings this year are worth \$21,144,160 at wholesale. The average consumption of eggs in greater New York is 3,000,000 dozen a week.

### Aged Lady Killed By Train At Lumberton.

Lumberton, July 18.—While crossing the track at the National Cotton mills, two miles above here, at 10 o'clock this morning Mrs. Dolia Blackburn, 65 years old, was struck by the first section of train No. 14 on the Seaboard injuring her so badly that she died an hour later.

The train was composed of Pullman carrying people from Birmingham and Atlanta to Wrightsville and although running at high speed was stopped by the time it had run half its length.

The lady wore a sunbunnet and went to cross over without looking up.

The engineer sounded his whistle of warning but witness say she seemed to forget herself and stopped when another step or two would have saved her.

Where the accident occurred trains can be seen two or three miles either way.

Bristol Va., Tenn., July 18.—Bristol today experienced the highest temperature in years. The mercury registered 99 in the shade at three o'clock this afternoon.

**Bryan Starts Off Again.**

Washington D. C., July 18.—Secretary Bryan talked freely at the newspaper men today about his much discussed and criticised plan to spend his vacation on the lecture platform. He said he probably would make a little over \$250 on each lecture, and added, "When I return I'll tell you just how much I have made."

If before I am ready to house the crop, and while waiting for it so thoroughly to dry out, any shocks get into bad shape, as they may do from an excessive rain, they are righted up, or hauled to the barn. It used to be a big job and expensive to haul up this crop, shuck out the corn, and cut, or shred, the stover. Now since I have learned something it is comparatively easy:

On a low truck wagon have a long frame bed only. Take along a plow line for each shock to be loaded. Stretch the line on the ground by the side of the shock. Push the shock over on the line, then tie it tightly around the butts. Two men then can easily load a large shock. Put five or six, or more of these on the wagon, carry to their barnyard, set each shock again on the butts, take off rope, spread the butts a little and the shock will stand as in the field, and as securely against the weather, where it will stay until the entire crop is ready for the barn. It used to take lots of men to haul and shuck and cut. Now, I hire a man to come with a gasoline engine and pull my machine which both shucks the corn and cuts the stover and it is soon over.—Progressive Farmer.

### FIVE HUNDRED SIT AT WEDDING FEAST IN CAMDEN COUNTY

Camden, N. C., July 17.—Five hundred people sat down to a wedding supper last Sunday following the marriage of Mrs. Bettie Burgess to Mr. Lemuel Turner, the feast being held at the home of the groom. The ceremony attracted attention from all over the country and goes down in history as one of the most notable weddings in this section.

Another interesting feature lay in the fact that the ceremony was performed by G. C. Barco, a justice of the peace who thirty years ago, married the bride to her first husband, George Burgess. The ceremony was performed at Mr. Barco's home.

The couple will reside at Mr. Turner's home near Midam until January when they will move to the bride's home near Old Trap. Mrs. Turner is a member of Wesley Chapel Methodist Episcopal church and is an active worker in church circles. Mr. Turner is a prominent citizen of Camden county and is a member of Sawyer's Creek Baptist church.

### Fall Down Stairway Caused Priest's Death.

Richmond, July 17.—Funeral services for Rev. Father J. P. O'Reilly, pastor of Sacred Heart Cathedral, who died suddenly at Wytheville, Wednesday will be held this morning from that city.

It develops that Father O'Reilly was found dead at the foot of a stairway in the rectory occupied by Rev. Father O'Connell at Wytheville. He was lone at the time and was not discovered until several hours after death ensued.

### Under serious Charged.

Greensboro, July 18.—W. C. Tise, a Winston-Salem business man, and his stenographer, Miss Lillie Tess, are under bonds of \$400 to appear in police court here Monday and answer to charges of immorality.

Some time ago the woman came to Greensboro and took apartments and to her a child was born. After the birth, man, woman and child left in an automobile. The child was left with a woman in the suburbs of Winston-Salem, where it died Thursday. Investigation when a burial certificate was requested furnished the clue to the case for the police here.

Tise is in the bottling business and has a family. The woman is about 18.

### Male Dies At Age Of 35.

Kinston, July 18.—Born in August 1877, a mule belonging to L. J. H. Mewborn, a Green county man, died several days ago. During his entire life of 35 years the hybrid was the property of Mr. Mewborn, and when two years ago he became too feeble for work the venerable beast was retired to finish his existence in a pasture, petted and pampered and free from care. The mule was known throughout the countryside, and years ago the neighbors of Mr. Mewborn ceased to speculate upon the animal's demise, for it seemed that there was little change in the faithful fellow's condition until recently and his extreme age ceased to be a subject of curiosity.

### Pleasant Picnic Outing.

Quite a number of young people met last Thursday night at Graham country club near Belmont for a picnic outing and pleasant night. The balmy breezes of nature were very pleasant and can only tell the story of enjoyment of the jolly crowd. The threatening cloud which lurked in the not far away space hastened the picnickers on their return and gave them a refreshing bath. Those present were: Misses Mabel Lea, Julia and Lizzie Fogelman, Addie Ray, Swannie, Willie and Allie Patterson, Olivia Smith, Flossie Stone and Ola Evans, Messrs. Dr. J. P. Spoon, J. R. Hoffman, L. L. Patterson, Joe Thompson, John Wood, John Lloyd, Frank Anderson, Horace Patterson and Kenney Evans.

### Most Children Have Worms.

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fidgety children, who toss and grind their teeth, with bad breath and colicky pains have all the symptoms of having worms and should be given Kickapoo Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists, or by mail, Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

**Whitsett.**

Elisha W. Joyner a brother of Prof. J. A. Joyner is here for a few days visiting his brother. Chas. B. Barnhardt a prominent young attorney at law from High Point spent Saturday and Sunday here on a visit.

The Sunshine Sewing Circle gave a most delightful entertainment Saturday from 5 to 10 P. M. They secured the large show room adjoining the post-office and had on the walls various specimens of the work of the sewing circle. Scores of articles were on display, handkerchiefs, dresses, aprons, fancy work of every kind, the whole making and exhibit that would have done credit to a county or state fair. All the work has been done during the past few months by the little girls who are members of this club, the club members being the little girls from four to twelve years of age. Miss Aurelia Barnhardt is the club's president, and the success attained is largely due to her tact and ability. It is a work of such merit, and the crowds present were loud in the praises. Refreshments were served, the Whitsett Band gave some good music, and altogether it was an occasion of unusual merit and real enjoyment. The idea is a fine one, and might be adopted in many places to the great improvement and additional pleasure of small girls and even those of larger size.

R. C. Walker of Goldsboro was among our visitors the first of the week.

Mr. and Mrs. R. T. Ingle are entertaining a number of visiting relatives this week.

Mrs. Lizzie Greeson had the misfortune to hurt herself right badly by a fall from the porch at Mr. Henry Johnson's where she was visiting last week. She has suffered much, and it will be some time before she can walk again. She has the sympathy of many friends in this accident.

We are very glad to be able to report that Master John Thompson who has been unwell this summer is greatly improved, and is now able to beginto get around again to the great pleasure of his many little playmates. John is the youngest son of Postmaster W. J. Thompson and is a general favorite.

V. C. Moore of the News and Observer, Raleigh, N. C. was a pleasant visitor Monday.

A jolly crowd of young people from Elon came over one evening last week and spent several happy hours on the school campus. They had a picnic dinner and seemed to enjoy every moment of the time. The bright moonlight, the gay young people, the happy songs, will long linger in memory.

Rev. Robert E. Redding preached at Springwood Church Sunday morning on Lessons from the Life of Jacob to a large and attentive congregation. His excellent sermon was much enjoyed.

A congregational meeting was held at Springwood Presbyterian Church the first of the week to consider the building of the manse. Rev. R. E. Redding was chairman, and Ed. B. Wheeler secretary of the meeting. Jno. W. Summers moved that the manse be built at Whitsett on the lot that has been selected, and that the cost be about \$1500.00. This motion was unanimously carried and a building committee appointed as follows: J. W. Summers, E. B. Wheeler and Andrew Beal. Much interest is being taken in the matter, and it is thought that it can be carried through easily at this time. Rev. Robert E. Redding was selected as canvassing agent to press the matter of subscriptions.

Mr. and Mrs. R. K. Davenport came up from Durham last Friday to spend a few days with relatives. Mr. Davenport is now with the Holiday Studio. Friday morning last he was quite severely burned on the hand in trying to extinguish a fire that was accidentally discovered in the rear of the studio. But for the timely discovery there might have been very serious loss.

Friday afternoon a party of people in a Ford car passed through our place at high speed. About one mile south of the place going down the steep hill near Alamance creek the driver lost control of the car and took to a ditch, in trying to turn to meet the curves of the road. The car was overturned, and badly damaged. Fortunately the occupants escaped with but slight injuries, one boy having his ankle right badly sprained.

After some work and repairs the

car managed to get off for the shop, making the trip almost entirely on three wheels. The names of the parties were not learned, but it is supposed that they were from Raleigh. It seemed to be a clear case of reckless driving over unknown roads. The real wonder is that the accidents are not more frequent.

Mr. Elmor Gattis, of Endfield spent Sunday here the guest of friends.

Mr. Ernest C. McLean of New York City spent part of the past week in town the guest of Miss Florine Robertson.

Miss Mary Parks from near Rainsur has returned to her home after spending a week the guest of Misses Cynthia and Verna Garrett.

Miss Lore-a Garrett spent last week in Graham visiting friends.

Mrs. Seymore Holt and children and Miss Annie Williams spent Wednesday with Mrs. E. Garrett.

Prof. T. C. Amick from Elon College called on No. 7 last week. We were glad to see Prof. Amick.

Mr. and Mrs. C. C. Thompson and children from Graham drove out to Mrs. E. J. Garretts Sunday afternoon.

Miss Conners tried to comfort her, but without success. After a time she rose.

"I am going over to get a drink," she said; "I will be back in a minute."

When she returned she was crying bitterly.

"I have taken poison," she cried; "I took a tablet over there in the glass."

Miss Conners started to take her to the hospital, a short dis-

tance away whereupon she became very sick and began to cry harder.

Family troubles coupled with her nonemployment are also believed to have contributed to Miss Wortman's act. Her parents are separated and she has been living with her grandmother, Mrs. Mary Wortman.
