

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

GARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Has Helped Thousands.

SOAP MAKERS

Do You Waste Time Dissolving Hard Lye? DON'T!

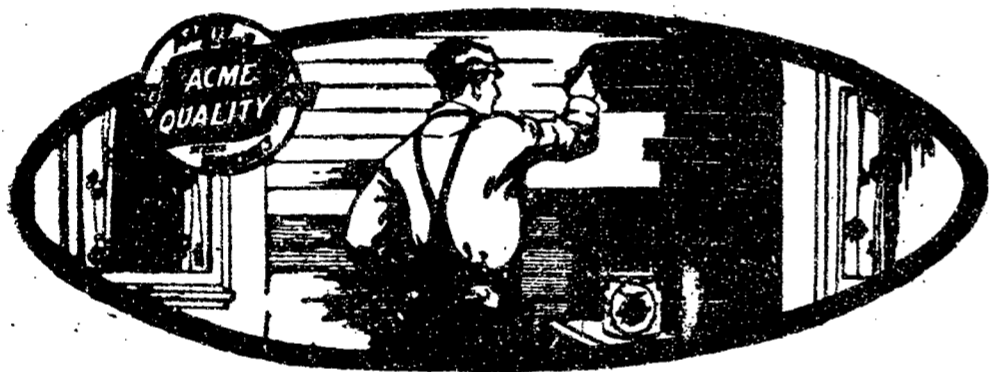

Save that time by using **Red Devil Pulverized Lye**. It dissolves at once in cold water. Add six pounds of grease and in fifteen minutes you have twelve pounds of the best hard soap you ever saw. Make your soap and be done in less time than it takes to dissolve old-style hard lye. You save just as much time making boiled soap, if you prefer it, because **RED DEVIL Lye** dissolves instantly.

RED DEVIL Pulverized Lye

dissolves in just a few moments in hot or cold water. For use in washing it is best, as every particle dissolves before you put in the clothes. No lumps to eat up the cloth. The biggest can—the best lye—the safest lye—the quickest lye. Try one can and you will never return to the old, slow, dangerous, wasteful, hard lye or ball lye. Get **RED DEVIL PULVERIZED LYE** from your dealer. Big 4 1/2-inch cans for **10c.**

Fall Painting Economy

1. The wood is thoroughly dry.
Summer's sun has removed all moisture.
 2. Paint penetrates deeper into dry wood.
The deeper it goes the better it holds.
 3. Fall weather is warm, dry and dependable.
Little danger of cold, damp, rainy days, which endanger the durability of the paint.
 4. Wet weather decays and destroys unprotected surfaces.
Lack of paint means unsightly and less valuable property.
 5. Fall painting keeps out winter moisture.
The greatest enemy to the life and beauty of all structures.
- If it's a surface to be painted, enameled, stained, varnished or finished in any way, there's an Acme Quality Kind to fit the purpose.

DEC'D.

No. Six-Sixty-Six

This is a prescription prepared especially for **MALARIA or CHILLS & FEVER**. Five or six doses will break any case, and if taken then as a tonic the fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

MR. LEWIS A. RIFFLE tells his experience with coughs and colds that lead to nervousness and debility.

Colds are often aggravated during the Summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well.

Pe-ru-na has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.

Mr. Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

Pe-ru-na should be kept in the home at all times, that a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is more important, a great deal of vitality.

Mr. Riffle, of 758 Gutenberg Ave., Portland, Ore., writes: "I have found Pe-ru-na a most remarkable medicine for building up the system and for curing coughs and colds.

"I took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health.

"It always keep it on hand, as a few doses will cure a cold if taken in time."

People who object to liquid medicines can now obtain Pe-ru-na Tablets.

Attainments of Safety in The Air.

Jueisy, France, Sept. 1—The daring French aviator Pegond, who on August 20, made a parachute drop from an aeroplane from a height of 900 feet, accomplished a much more remarkable feat today which at first sight appeared to be an extraordinary piece of aerial acrobatics, but which experts declare was an epoch making experiment towards the attainment of safety in the air.

Briefly, Pegond caused his monoplane to describe a gigantic letter S in the sky during which he was flying upside down for about a quarter of a mile.

The strictest secrecy was maintained prior to the test and only a few persons were out when Pegond took the air. He mounted rapidly to a height of more than 3,000 feet, describing a curve; then the forward part of the machine was observed to incline toward the earth.

Through glasses the spectators saw the propeller and the monoplane further incline until it was perpendicular with the earth. It seemed as if nothing could stop the headlong plunge. As the machine dropped swiftly the tail dipped again toward the earth and the pilot appeared head downward. Seconds which seemed hours, passed. With an almost imperceptible curve the machine shifted its course to a straight line, the pilot in the same position. How long he remained upside down the anxious watchers could not determine, but it was long enough to cause them to believe that he would never right himself. Presently the monoplane dipped again, and with a graceful curve assumed an erect position. Pegond flew for a few minutes to and fro and descended by a series of beautiful spirals. On landing the aviator said:

Everything went splendidly. The levers answered the slightest touch.

I remained for a long time head downward, because I wanted to, not because I couldn't put it up. Sensation is strange but not unpleasant, and the machine did not pinch at all.

"I went very slowly so as to avoid subjecting the machine to too violent strain, but had I wanted to I could have righted myself much more quickly."

Pegond's experiment was prompted by the theory recently expressed by Louis Bleriot that in the paramount problem of attaining safety in the air, automatic self righting devices and parachutes are beside the question; that they are just as much at the mercy of a sudden violent gust as the ordinary air craft. Bleriot pointed out that even birds are known to have been capsized by squalls; yet they were able by folding their wings to withdraw most of their surface from the action of the air.

It was urged that an endeavor should be made to so construct aeroplanes that they could not be capsized.

Pegond undertook to demonstrate that the ordinary aeroplane, not fitted with any special device, was possessed of much greater stability than was of the opinion that he succeeded brilliantly.

Conceited.

The Detroit Free Press tells of this conversation of two girls.

"So you broke your engagement with him?"

"Yes."

"What for?"

"He's a conceited thing. I simply couldn't stand him."

"I never heard him brag. What makes you think him conceited?"

"All the time we were engaged he never once told me that he was unworthy of my life."

New \$25,000 Gymnasium

"Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets.

After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says: "Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures.

Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money.

A Remington Typewriter == Plus

Visible Writing and Adding

Here is the machine which will do everything that any typewriter has ever done; which will write straightaway or tabulate, in one, or many columns; which will do any tabular work, however intricate, with the speed of ordinary writing;
 Which will write and add, and add when it writes, in one column or as many columns as the paper will hold;
 Which will subtract as easily as it adds, in all or any columns where adding is done;
 Which is a complete billing, tabulating, adding and subtracting machine—all in one;
 Which is also a complete auditing machine—accurate itself and exacting accuracy from those who use it, which will detect errors and prevent errors as well;
 Which establishes a new standard of time and labor saving in every variety of combined writing and adding work.

In Back Seat Of Auto Harry Thaw Is Hustled Away.

Coaticook, Quebec, Sept. 3.—Harry K. Thaw pried out of the Shebrooke jail on a writ of habeas corpus obtained by a coupe of William Travesi Jerome, enjoyed three minutes of liberty this afternoon and then was seized by the Dominion immigration authorities and hustled by automobile to this little town where tonight he paced the floor in the immigration detention room.

Tomorrow morning a special board of inquiry will set in his case and by night he may be thrust across the Vermont border as an undesirable alien. It was generally predicted tonight that before many hours Thaw would be back in the Matteawan asylum from which he escaped Sunday August 17.

The beginning of the end of Thaw's refuge in Canada came with dramatic swiftness. A writ of habeas corpus sued out last Saturday at the direction of Jerome, with John Boudreau, chief of police of this village as petitioner was sustained by Matthew Hutchinson, Superior judge of this district at St. Francis, sitting in chambers at Sherbrooke.

Stolid, p. lid, numb, Thaw sat not five feet from the judge as he read the decision. When in the very last paragraph the court declared him a free man, Thaw seemed to crumple up on the lounge where he sat.

A cigar stump fell from his left hand and from his right fluttered two gay bits of ribbon a child had given him.

But he did not rise. W. K. McKeown, of his counsel, leaned over and patting him on the shoulder, wised him. Thaw raised his big, staring eyes and stood up.

Immigration officers moved near him and then Thaw began slowly to move to the door. At the threshold Assistant Superintendent Roberson, of the immigration Bureau, said simply: "Come with us, Mr. Thaw."

And without a word, except a horse goodbye to the reporters, Thaw obeyed. A few minutes later a gray roadster streaked away from the courthouse. In the back seat was Thaw. He had not even been given time to pack his scanty belongings and voluminous correspondence in his cell. In an hour he was here in Coaticook guarded in the detention room by two stalwart Dominion police. None but counsel was allowed to see him.

The 23 mile trip over was without special incident. Thaw expressed no surprise, evinced no grief. Behind him trailed his defeted lawyers.

Fighting Opium.

Thirty-five nations have joined in approving the general convention designed to prevent traffic in habit forming drugs, according to the report of Dr. Hamilton Wright, who, with Loyd Bryce, American minister at the Hague, represented the United States at the recent international opium conference held at the Hague. It is for congress to say, says the Flint Journal, whether or not the action of our representatives making this country one of the thirty-five signatories to the agreement shall be ratified.

How great has been the spread of the opium habit was only surmised up to the time of the recent conference. It developed there that while the vice had almost enslaved the whole people of China, its tentacles have been fastened upon a very large portion of the movement, such as has been proposed, would practically abate the evil, and undoubtedly congress will consent to this country participating in such a movement. Not to do so would be retrogressive. The action taken by the thirty-five nations is a new evidence of the uplifting tendency of modern civilization and a recognition of modern civilization and a recognition of the fact that nations as men realize their duties to humanity.—Battle Creek Enquirer.

The First Soap.

Who invented soap? According to Pliny, soap was an invention of the Gauls, who used it for giving a bright hue to the hair. He also states that it was employed by the Germans both as a medicinal and as a cleansing agent, two kinds being used—hard and soft. There is reason to believe that it was introduced into Germany by the Romans, though on this point there is some difference of opinion.

Homer tells us in the "Odyssey" that Nausicaa, daughter of Alcinoos, king of the Peaeicians, and her attendants washed clothes by treading upon them with their feet in pits of water, so that apparently she and her servants were unacquainted with the use of soap.

The fact that soap was obtainable by boiling together oily or fatty substances and alkalis was known at an early period of history, but it must be borne in mind that the substance referred to in the Old Testament and translated "soap" (Jeremiah ii, 22, "For though thou wash thee with hyssop properly, natron-soda and take thee much soap," and Malachi iv, 2, "For he is like a refiner's fire and like fuller's soap") refer to the alkali itself and not to the substances prepared from oily bodies and these alkaline matters.

The French word for soap (savon) is supposed to have been derived from the fact of its having been manufactured at Savona, near Genoa.

The manufacture of soap began in London in 1524, before which time it was supplied by Bristol at a penny per pound. A duty was imposed on soap in 1721, but after several reductions was totally repealed in 1853.—London Journal.

Corn Crop Severely Damaged.

Durham, Sept. 3.—Durham has been all day in the grip of the worst rain and windstorm that it has experienced in years and a great deal of damage has been done to crops. The wind has also damaged some of the buildings in the city. A large number of trees have been blown down and some of the telephone wires have been displaced.

Following a night that was clear, the rain began to fall this morning before 5 o'clock and, accompanied by heavy wind, has fallen steadily for the past eight hours. All of the creeks and streams of the community are over their banks, and the crop of lowland corn is flooded and badly damaged by the water.

The tobacco farmers of Durham County have saved the greater part of their crop, for most of them had completed their cutting Monday and Tuesday and this crop was in barns. However these farmers have suffered almost a complete loss of their crop, for they have taken all their help during the past two weeks to get the tobacco cut, and very little of the corn and fodder had been taken care of.

While the lowland corn has been washed by the water in streams, the corn planted on the hills has been blown and terribly cut up by the wind. Hardly a stalk in the county was standing this afternoon.

That part of the fodder which had been pulled had not been taken in, and this was damaged by the rain. The fodder still on the stalk has been split into shreds. Some of it, will be harvested, but the damage is great, and the indications are that Durham County farmers, or at least some of them, will have to buy roughage for the coming winter.

Seventeen-inning Game was Played at Liberty.

Liberty, Aug. 13.—In one of the fastest games ever witnessed on the local diamond the fast West End team, Greensboro defeated Liberty by the score of 5 to 1 after 17 innings of hard and fast play Saturday. Bilbro, West End's classy southpaw, had the Liberty men at his mercy throughout the entire game, being credited with 16 strikeouts.

In the 15th inning, after two were out, C. Bowman drew four balls, stole second and scored the first run of the game on Hamell's long single to left. Liberty tied the score in their half of the 15th. In the 17th three hits, two errors and a wild throw enabled West End to score four runs. This is the second game that Liberty has lost this season. Batteries: West End, Bilbro and Lamb; Liberty, Hobson and Langley.

Hazing Days.

The various colleges of this and other states are opening their doors for the various student bodies to enter their halls for scholastic instruction. With these opportunities to the young men and women of our state some hand in hand serious dangers. The same dangers that have confronted every young man and woman that has ever entered college. The crucial moment has arrived and time alone can prove whether or not hazing in its various forms is a thing of the past. We believe in college authority of our state and that they are exercising their best efforts to suppress the various forms of brutality that have not been suppressed in many of the institutions of our state. We have already been reminded that we are by this statement attempting to cross the stream before we reach the bridge, but a word of wise counsel timely spoken is like apples of gold in pictures of silver, and that ere the golden cycle shall have passed the benefactor will receive just reward for having suggested these serious dangers before they are engaged, thus saving time and money also preserving health and life unto the hope of our state and nation by encouraging, if necessary, our young men and women at all times to carefully preserve their best qualities.

Our Hospital.

From time to time we have called attention to the importance of a hospital for our county not only as a blessing to humanity but as a financial investment, worthy of the most careful and prayerful consideration of every one of our citizens. An object of charity in one phase that is so worthy of study and support that the humblest and most wealthy citizens of our county can lend their efforts. If you can conceive of any act that would be more worthy of honor and praise than the erection of a magnificent building modernly equipped for the care of the sick people of Alamance and other counties; Where a man with his large fortunes might take his own physician in an hour of sickness receive special treatment; Where the unfortunate might go at their own will and be properly cared for.

This institution will be built because the day is almost at hand when we no longer delay this important matter, because we have expended in the last ten years for hospital treatment by the citizens of Alamance County over \$55,000.00 and the ratio of increase from year to year is remarkably large. Of this \$55,000.00 a large per cent has been given to the railroad companies. For transportation of the patient, the physician in charge, relatives and friends of the unfortunate. Why, build ye, this day such magnificent temples of stone and clay for personal praise and gain that by death

will be from memory swept away, in-stead of laying up treasures in the life and love of humanity that will be transplanted in the souls of men to that city beyond the sea to adorn the crowns of the blessed for the honor glory and adoration of the judge supreme.

A gift of \$1 each from every citizen of Alamance County will build and equip this building. We appeal to the christian men and women; the morally good of our county to begin now a canvass of every citizen for this institution so that within a short time we may have this blessing within our midst so that humanity may be properly administered unto at all times and under all conditions.

Commission Government.

A few weeks ago a prominent New Yorker came to our town on business. He had been here before. He is a careful observer and has traveled much in America. He remarked among many things that our town needed, above all other things commission government. It seems that our Mayor is sincere and enthusiastic in his work, but his hands are tied by conflicting committees, unbusiness like forms of town government so that he is almost helpless in the successful discharge of his duties. As far as the board is concerned as a board, they have done worse than nothing, we mean by this that they have whiled their time away on frivolous matters and have not grated with the great problems of town government as they are now confronting us, in a business like manner. For example, our water supply has been short for a number of years and no relief is in sight. The board has one view the commission another.

The town is without proper school facilities. The Board of Education is trying to devise plans for the necessary improvements but they are helpless because the board is supreme.

The statue law of our town being daily violated with very little evidence of any effort to enforce it. This is a reflection on some one; but present conditions are such that the burden can not be properly placed. No one feels in the least embarrassed over these flagrant violations unless it is the officers who have gained authority to execute the law. The Mayor has wisely devised a plan for the building of a City Hall, but so far he has received very little encouragement and less support. These are a few items of the business of our town that should have attention not only by the board of Aldermen but by every citizen.

Car tickets for the School Children.

With the opening of the public school in Graham, Burlington and Haw River. The Piedmont Railway and Electric Co.,

Will sell books of sixty tickets each for ONE DOLLAR and Fifty CENTS this makes the prices of 2 1/2 cents for each ticket which can be used between any of the three towns of Burlington, Graham and Haw River by the person whose name is on the ticket between the hours of 7 A. M. and 4 P. M. Pupils in regular attendance in any of the public or private schools of the three towns can obtain these tickets at the Railway Company's office, Main street, Burlington upon presentation of certificate from their teacher or school Supt. that they are Bonafide pupils of such school. The offering of this check for was entirely voluntary on the part of the Street Car Company and has proved very popular with and much appreciated by parents as it permit their children to go to and from school comfortably in the most inclement weather.

These tickets will not be accepted on Saturdays Sundays or on any legal holiday.

FREEMAN DRUG CO.

LOCAL AND PERSONAL

Mr. T. E. Davis of the M. P. Church is assisting in a revival meeting at Friendship this week.

Miss Reba Tuttle of Winston-Salem is spending a few days as the guest of her friend Miss Margie Loy.

Mr. Paul Davis left Monday for Chapel Hill where he will spend the coming year in school at that place.

Miss Anna Lawrence Reitzell of Elon College spent Sunday the guest of her cousin Miss Hallie Mebane.

Mr. T. T. Stafford is spending vacation this week in Randolph County the guest of friends and relatives.

Miss Opal Nicholson who is in school at Elon spent Saturday and Sunday the guest of her parents Mr. and Mrs. T. G. Nicholson on F. D. No. 9.

Mrs. Geo. F. Hunt who has been the guest of her parents, Mr. and Mrs. Lafayette Holt, returned the last of the past week to her home at Wilmington, N. C.

"Mutt and Jeff" will make their first appearance at the Piedmont Opera House, Wednesday night Sept. 24th. Don't miss this one. Seats on sale 10 o'clock Monday morning at Freemans.

Mr. and Mrs. Cecil Neese spent the past week in Guilford county visiting his parents Mr. and Mrs. J. B. Neese and other relatives. They were accompanied home by the father of Mr. Neese who spent Saturday and Sunday with relatives here.

Messrs. Pete Wilson an Eulis of Mooresville, Ind., are spending this week in the county with relatives and old friends. They are both prosperous farmers of the Hoster state. Mr. Wilson is seventy-seven years old and left this county forty-seven years ago. He finds only a few of his relatives and friends living. Mr. Eulis moved to Indiana about thirty years ago. Neither of them had made a visit to their home county until recently.

Miss Helen Buck left Tuesday for Murfrees, N. C. where she will attend the Chowan school.

Miss Agnes Faucett will leave this week for Guilford College where she will attend school.

Rev. P. H. Fleming will preach Sunday night at eight o'clock at the Reformed Church.

Mr. Marshal Buck left last week for Horner's Military school where he enrolled for the coming year.

Mr. Harvey Horne returned a few days ago from a weeks visit with Mr. and Mrs. Jas. Rosemond of Spencer.

Mr. C. C. Seawell of Elizabeth City has recently accepted a position as registered druggist with the Burlington Drug Co.

Miss Joliette Isley left Tuesday for Trinity College. She was accompanied by her sister Miss Ada Bell.

Mr. Jas. W. Horner who has been doing some carpenter work at Elon College is spending a few days at home.

Miss Swannie Patterson spent Sunday at home and attended the meeting at Friendship.

The Friendship school will open Monday September 22nd with Prof. M. C. Terrell of Charlotte as principal.

Be sure and visit the Piedmont Opera Wednesday Sept. 24th, and see the big Musical Comedy "Mutt and Jeff". Plenty of pretty girls, catch songs and noval dances. One night only Wednesday Sept. 24th. Seats on sale at Freemans.

The Philathea Class of the Glencoe Baptist church will give an ice cream supper Saturday night the 13th, for the benefit of the class. Everyone most cordially invited.

Pres. Miss Bessie Hall.
Sec. Miss Nona Phillips.

Piles Cured in 6 to 14 Days
Your druggist will refund money if PIAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

The pains of a cold seldom fail to yield to Dr. Miles' Anti-Pain Pills. Ask for them yourself.

Death of Mr. L. H. McCauley

Mr. L. H. McCauley died this morning at 10 o'clock at his home near Union Ridge Church. Burial services will be conducted Thursday at Union Ridge by Revs. Holt and Straud. Mr. McCauley was 67 years old and leaves five children, Lawrence Ralph and Oscar, and Della and Selma. He leaves four brothers and two sisters Messrs. William and Marshall of that neighborhood and Albert of Mebane, Wellon McCauley of Greensboro Mesdames, Will Barnett and William Kimball. He was a consistent member of Union Ridge Church and a progressive farmer.

New Cotton at Mt. Olive.

Mt. Olive, N. C., Sept. 2.—Three bales of cotton were sold here Saturday, the first of this year's crop to be offered for sale on the local market and brought 11 5-8 cents per pound.

After having been closed down for about three weeks, during which time quite a number of the large force of employees were engaged in general repair work and the laying of new track to other timber buildings, the Enterprise Lumber company's large lumber mill here began operation of the main plant Thursday of last week and is now running on full time.

Within the past two weeks two different people have been bitten by mad dogs near here.

A Young Man's Prayer.

O God, I thank Thee for my youth, for the unspent strength of the unconquered and unconquerable hope of a young man's heart. Help me to keep unspilled my hands, my heart, my mind. Give me the vision that I may grasp a life purpose and that my life may be dedicated to worthy achievement. Save me from being spent in trifling time, of strength, or reckless of opportunity. Let me take now into my life a true estimate of spiritual and eternal values. Make me an inspiration, a wholesome influence, a power for good and not for evil. May I live that I should not be ashamed to have a mother's or sweet-heart's eye look into my soul.

O Lord, for the days as they pass I thank Thee and for the promise of the days that are to come I also give Thee thanks. For a chance in work at the world's tasks for the sheer joy of living for following in labor and in pleasure for opportunity gratitude fills my heart. "Create in me a clean heart, O God and renew a right spirit within me."
—Rev. Albert Boynton Storms.

A Magazine for Blind At The Public Library.

A magazine for the blind, printed in Braille, is one of the most interesting things in the Carnegie Library just now. Miss Caldwell, the librarian secured it for the week on account

of the meeting of the blind people in the city. This style of printing was invented by a Frenchman, Louis Braille, who spent his life teaching the blind. Instead of the ordinary characters it uses tiny points, made by punching the paper almost through; a certain number of points, arranged in a certain way, stand for "a," another arrangement means "b," and so on. Of course, the writing is absolutely unintelligible to the ordinary person, but a blind reader, by simply running the tips of his fingers over the line, can read with amazing rapidity.

Engine Knocks Baby Off Railroad Track.

Franklinton, Sept. 1.—The shoofly this morning ran over the two-year-old child of a Mr. Griffins 1 1-4 miles north of this place. It is said the child was on the side of the road in the bushes and just as the train was nearly opposite the child ran, or started to run, across the track and the engineer could not stop before the child was hit.

The doctor says it is in a very precarious condition. The father of the child is off on a vacation, he being one of the workmen on the \$40,000 commodious negro Christian College just north of town. It is said that the day Mr. Pirie's child was knocked off the track that the engineer stopped his train at the same place Mr. Griffins' child was hurt at and took the child off the track and called its mother to get it.

Most Children Have Worms.

Many mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fidgety children, who toss and grind their teeth, with bad breath and colicky pains have all the symptoms of having worms and should be given Kickapoo Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

President's Daughter Is Thrown From Horse—Found by Roadside.

Plainfield, N. H., Aug. —Miss Jessie Wilson, daughter of President Wilson, while riding near here, was thrown from her horse and lay unconscious for more than half an hour on the roadside.

She was found there by Dr. Charles W. Worthen of White River Junction, who applied remedies and restored her to consciousness. Later Miss Wilson was taken to a house nearby and Cornish home of President Wilson was notified by telephone. Her injuries are not believed to be serious.

Miss Wilson's fiance, Francis B. Sayre, with whom she had started for a ride, had gone ahead of her and knew nothing of the accident until the rideless horse dashed past him. The scene of the accident was on the New Hampshire side of the Connecticut river just opposite the Vermont town of North Hartland.

"He Feedeth Among the Lilies."

(From the Christian Science Sentinel).
Why feed upon the bread of sorrow,
The bitter griefs, the memories of the past;
When here and now, today and tomorrow,
Christ giveth thee fresh food to bread thy fast.
Why shouldst thou, looking back forever,
Long ceaselessly for that which might have been,
When hope and faith and every true endeavor,
Will furnish forth a table yet unseen.

Why wilt thou drink a poisoned fountain,
Or, stagnant waters of some salt dead sea;
Seek thou the springs upon the mountains;
Turn thou, and quaff Truth's purity!
Why in dim, ancient forest daily
Amid the phantom fears that haunt the gloom?
See how Louise's sunshine fills the valley,
And pure and perfect thoughts like lilies bloom!

18 Twins In One Family.

Parkersburg, W. Va., Sept. 1.—En route to the city looking for a job are John White and wife, with dumfrous offspring. The Whites hail from Calhoun county, and they were first encountered by a fishing party of this city returning from Kanawba county.

The father and mother appear to be of middle age, and they have with them six pairs of twins and one of set of triplets all hale and hearty youngsters. They declared they had left three other sets of twins, their elder children at their home in Calhoun county until their father could secure employment here. Another set of triplets died in infancy.

Charlotte May Get Parcel Post Depot.

Charlotte, N. C., Sept. 6.—Leake Carraway, of the Greater Charlotte club, announces that he is in receipt of a letter today from Senator F. M. Simmons, in which Senator Simmons states that he will call immediately on the postmaster general and recommend that the proposed regional parcel post depot be located at Charlotte. Mr. Carraway seems confident that Charlotte will be given the depot. Mr. Carraway states that both Senator Overman and Congressman Webb have written him that they have already recommended Charlotte to the postmaster general as the place for the parcel post depot.

Senator Overman, in a letter to Mr. Carraway today, stated that the chances were fine that the name of "Charlotte" would be given to the cruiser North Carolina in case the new battleship 39 is given the name "North Carolina" by Secretary Daniels.

Teaching the Girls Home-Making.

A girl who cannot cook the food she eats who cannot make even her simplest garments, who cannot wash and iron them and who does not know what to do in a sick room should not consider herself as a candidate for matrimony. She is cheating the man she marries and laying up headaches for herself.

Subscribe for The Dispatch.

Hot Springs Issues An Appeal For Help.

Hot Springs, Ark., Sept. 6.—Hot Springs fire-swept, \$6,000,000 of its property destroyed and 2,500 of its people homeless, today issued the following.

"While we do not wish to be placed in the attitude of asking for outside assistance the cry of suffering humanity suggests the propriety of accepting any assistance that may be offered by a generous public. Thousands of people have been rendered penniless and homeless. The destitution is acute and the need of assistance is imperative and immediate. Ordinarily we could like care of our local citizens in a disaster of this kind, but there are hundreds of citizens from other states thrown on our county. This makes our burden great indeed."

The appeal was authorized by a committee composed of city officials and citizens. M. A. Eisle a prominent citizen, was chosen treasurer.

The city, exhausted in fighting the conflagration which originated Friday afternoon in a negro cabin and burned over an area of 200 acres, nevertheless devoted the day of relief measures for the homeless. Three thousands dollars subscribed at a mass meeting in the forenoon was devoted to their pressing needs. In the afternoon citizens and the city council canvassed the situation and decided to issue an appeal for aid. Tonight two companies of state troops one from Conway and the other from Bebe Beebe, are en route to Hot Springs on order of Governor Hays to aid in polishing the place.

Hog and Dog are Chums.

Guilford, Mo., Aug. 31.—As Sunnyside farm near here, is the biggest hog in Missouri. It is of the Poland China breed and weighs 700 pounds seven feet five inches long and three feet four inches high. The smallest part of its leg is 11 inches in circumference.

The hog which answers to the name of "A Wonder Equal" is gentle. His friend is a tiny dog which visits the lot every day where he leaps upon the back of the hog and rides around the lot.

Will Delay Trial Of Wife Murderer.

Rockingham, Aug. 30.—It now appears that Geo. S. Nance, the wife-murderer, will hardly be brought to trial before the January term of Richmond county Criminal court. It will be recalled that on Friday, Aug. 15th, Nance beat his wife to death in a room of a Hamlet hotel and having done so set fire to the dead body. Your correspondent has recently made every effort to secure an interview with the prisoner but to no avail. His attorneys, with one of whom your correspondent has talked at length today have decided that he shall not be further interviewed on the ground that he is irresponsible and in order that his dazed mental aspect may not have the opportunity to create false impressions as to the circumstances and facts in connection with the crime.

Though reared together, being playmates in childhood and sweethearts long before they were grown, it is easy to gather that Nance and his wife (wife were married in 1904 had spent a good part of their time in quarreling and then making up again. In 1906, two years after their marriage, the young couple moved to California on account of the husband's failing health.

Here the husband held several responsible positions and for a short while their home life was all that could be desired. By the spring of 1910, however, Nance and his wife had agreed to a separation, the wife going to Portland, Oregon to live with relatives, the husband returning to their childhood home in Knoxville. 1911 Nance left Knoxville, having secured employment in Philadelphia.

It was here that Nance's weakened mind in all probability having impressions made upon him that in one way or another were connected with the recent crime. He felt that he was being spied upon. He thought it appeared that his wife had hired people to follow him up and if opportunity presented do him bodily harm. The couple became reconciled in 1912, the husband, however immediately disappearing on a fanatical European tour.

Ex-Gov. R. B. Glenn May Ask President for Federal Job

Any one searching for the next United States Senator from North Carolina would find him in Washington today. By a strange coincidence all three men whose names have been most prominently mentioned in connection with this contest were here though, so far as is known, they did not meet.

Senator Overman was looking after his duties in the Senate and in the Lobby Investigating Committee; E. J. Justice was here on business affecting freight rates; Ex-Gov. R. B. Glenn was just "passing through."

Mr. Glenn says he has not decided on his future course and that he has not been offered any position by President Wilson. It was reported that he was being considered for a position on the Interstate Commerce Commission, which friends of Governor Glenn believe would be acceptable.

"I may, later on, ask President Wilson for a Federal office; I may enter the race for the Senate; or I may continue to lecture. At present I am undecided," said Mr. Glenn.

Mr. Justice showed no disposition to discuss the political situation. He had been in conferences with railroad officials with a view to adjusting State freight rates, but did not indicate what he had accomplished. He returned to Greensboro tonight.

The Way Horses in West Keep Off Flies.

Dr. J. T. J. Battle, who returned recently from a trip to the western states observed carefully the conditions of the country and the beings which have their existence in that section. He was particularly observant as to flies and mosquitoes, matters in which he is personally interested here at home.

The flies out there, said he yesterday, are unusually thick, the people not yet having put means into effect for getting rid of the pests. They are especially numerous in the pastures and fields where the horses and cows spend their idle time and to these animals have proved greatly disagreeable.

The horses, being more intelligent of the animals loose in the pastures, have shown the most ingenuity in protecting themselves. Dr. Battle vouched for the assertion that horses in the pasture gather in groups and stand by the side of one another in reversed order. In this position they have an unusual advantage and make use of it, for they set their bushy tails to work and brush the flies off the faces of one another.

That the western horse is possessed of an acute horse sense and has combined with that the means of protection from a highly disagreeable pest was an outstanding observation that lingers yet in Dr. Battle's mind as one of the most interesting memories of his trip in the west.

THINK OF IT.

30,000 Persons Publicly Recommend Our Remedy. Some are Burlington People.

Over one hundred thousand have recommended Doan's Kidney Pills.

For backache, kidney, urinary

is.

Thirty thousand signed testimonials

Are appearing now in public print.

Some of them are Burlington people.

Some are published in Burlington.

No other remedy shows such proof.

Follow this Burlington woman's example.

Mrs. J. A. Loy, near Fairgrounds, Burlington, N. C., says:

"My kidneys were irregular in action and I had backache at times. Doan's Kidney Pills made me feel stronger and better."

The above statement must carry conviction to the mind of every.

Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Loy had the remedy backed by home testimony.

"When Your Back is Lame—Remember the Name."

GOOD PRINTING

The character of your printed matter makes an indelible impression—good or had—upon those who see it. More people gauge your standing—the character and quality of product—your up-to-dateness by that than by any other one thing. Therefore, the need for the right kind of printing.

Our hobby is good printing, not fancy, fussy printing, but good printing, with character, quality and finish, the right type, right stock, right illustrations, all blended into a strong, dignified whole, the kind that will make a good impression for you.

MORGAN'S NEW BRICK WARE HOUSE, BURLINGTON, N. C.

I Wish to express to the farmers of Alamance and adjoining counties my great appreciation of their liberal support for the past four years. Having my Ware House burned in 1911, placed me at a decided disadvantage. It was not possible to render you the service that I wished, and that you so justly deserved, as I was forced to occupy one of the old rail road shops, until better quarters could be provided.

I wish to express my great appreciation for the loyal support you gave even after the fire forced me to occupy such a poor house.

A Blessing In Disguise

Possibly the fire was a "blessing in disguise" as it inspired me to attempt greater things. I saw that the Burlington Tobacco Market was here to stay; with no market in North Carolina or Virginia able to surpass it in High Prices, and I saw further that no Tobacco Market in the world had a more loyal patronage. Realizing these facts, I determined to give my patronage the very best equipment for handling their tobacco that it was possible to have.

New Ware House Completed

I have just completed one of the most up-to-date Tobacco Ware Houses that is in the state of North Carolina. The lights are perfect, the stalls cannot be improved upon, the arrangements to make the farmers comfortable is one of the special features of my new house. My camp rooms will be equipped with spring beds. Just bring a couple of quilts with you and you can spend as comfortable a night at Morgan's New Brick Ware House as if you were at an up-to-date hotel. I have also installed electric lights, and toilet. There is nothing left undone that would add to your comfort.

Prices on Tobacco

Another thing I am sure you are interested in, is Prices on Tobacco. I look for good prices to rule on desirable tobacco the entire year. It is hardly necessary for me to say what I will do when you bring me your tobacco. I have been in your midst long enough for you to know my record as a hustler. I know tobacco and the buyers know that I know it, hence good prices are assured when you are at Morgan's.

Wednesday, September, 17th

I will open my Ware House on Wednesday, September, 17th. If you have a load ready bring it along and I will do my very best for you.

Large Corps of Buyers

We will have the largest corps of buyers we have ever had and the best bunch of fellows that ever bought a pile of tobacco. They are willing to pay you the very top prices for your tobacco.

Again thanking you for past favors, and hoping to merit a continuation of the same, I beg to remain,

Your Friend,

MORGAN.

I Will Begin Selling September, 17th.
