BURLINGTON, ALAMANCE COUNTY, NORTH CAROLINA, TUESDAY, JUNE 16, 1914.

PLANS FOR CHAUTAUQUA.

In Connection With the Great Chautauqua Week a Junior Chautauqua Will Be Held.

Programs Varied.

While plans for the Grown-Ups Chautauqua Week are so excitedly buzzing, it is not amiss to call attention to the arrangements which are being made for the Junior Chautauqua which will be conducted at the same time as the other, June 27 to July 3. It will be exclusively for the youngsters who will have the time of their lives.

Junior Chautauqua will again be in charge of Miss Anna Oppenlander, who was director last summer, and made it such a marked success. The plans she has outlined are so attractive that they make the writer almost wish that he were to be one of the Junior Chautauqua Youngsters.

The programs are too varied and unusual. There will be story hours when every story will be the kind that make you hold your breath for fear that you will miss a single word. The story hours will be varied with Information Hours, when such subjects as "Birds" and "Good Citizenship" will be gravely discussed for the benefit of all concerned.

Time will be found during the busy week to teach every youngster at least one folk dance, and some of the Junior Chautauques will learn every folk dance of the nations. A Victrola with special records has been provided to furnish the music for these dances.

Of course there will be games every day, new ones and old ones. They will be graded for the small children and the larger ones, ball, relay games, folk-singing games will be played under the careful supervision of the two college-girl leaders. Each day there will be found for a few calisthenic exercises arranged to the music of the Victrola.

One day during the week it is planned to have a picnic hike for the older girls and boys. The occasion is sure to be a joyous one. Another day will be set aside for a small Field Meet, when all sorts of events will

be arranged. There will be races for girls and races for boys, potato races and sack races and all the other varieties of races which have caused the joy of life to run high. There will be base-ball throws, and basket ball throws, and a long list of new games which it would be necessary to see in order to know them, as some have been invented just for Junior Chautauqua.

On the last day, a simple play will be given by the Junior Chautauqua for the benefit of the Senior Chautauqua. It is called "Mother Nature's Garden Party" and such characters as Mother Nature, Rain, Jack Frost, and Sunshine will appear at their best. During this play all the folk dances learned during the week and most of the other joyous games will be repeated, not only for the fun of doing it, but for the joy of the older Chautauquans.

Each day during the Series Lecture in the afternoon, a special session for all Junior Chautauquans will be conducted elsewhere in the town, when many of the best stories will be told and the best games played, while the grown-ups will not be disturbed by the noise of the youngsters.

OFFICEHOLDERS' WORK.

The State Convention balked at declaring for county primaries, which showed that there must have been quite a few county officeholders in attendance. A great many of the already "ins" really don't want to take chance at a fair primary where the common ordinary voter would have a say-so. North Carolina is not less than 25 years behind her sister states in the matter of choosing her office holders.—Southport News.

"SO CONSERVATIVE IT IS CHILLING."

There can be no gainsaying the suggestion that the anti-progressive element of the Democratic party is in the saddle in North Carolina. If anything was needed to confirm this truth, the evidence was plentifully forthcoming at the recent State Convention. The adopted platform is so conservative that it is chilling. The mystery is how that platform committee even squirmed itself into a position to endorse the policies of that great progressive leader—Woodrow Wilson.—Yanceyville Sentinel.

BOLD ATTEMPT OF ROBBERY.

Former Employee of Lenoir Chair Co. Attempts to Rob Office of the Payroll Money.

Appears Under Mask.

Lenoir, June 13.—A bold attempt to rob the office of the Lenoir Chair Manufacturing Company of the payroll money occurred this afternoon about 1 o'clock while Mr. Jennings, secretary and treasurer, was out at dinner. At the time there were only two people in the office. C. R. Stafford, a lumber inspector, and Miss Lillie Tuttle, stenographer, when a masked man came in and at the point of a pistol demanded "money or your life." When told he must be joking the man behind the mask began to swear and repeated his demand.

As he attempted to enter the inner office where the money is kept the door slammed shut and the spring lock held it fast. He then broke the glass in the door severely cutting his hand and began to shoot. Mr. Stafford was hit in the arm. Miss Tuttle escaped injury but in the meantime with rare presence of mind she went to the telephone and gave the alarm and summoned officers to the scene, telling the men in the office of the Bernhardt Manufacturing Co., just below them what had happened and to look out for the bandit, and called Mr. Jennings, told him what had taken place and to hurry down there as quickly as possible.

The man made his escape but on account of the severe cut on his arm from which blood freely flowed the officers were enabled to track him easily. An hour later he was found at his home about two miles distant. When the officers approached the house the boy's mother met them in the doorway with a Colt's automatic pistol and warned them "Don't you come any further or I will kill the last one of you." No trouble was experienced in getting the boy in an automobile and they brought him to town.

The fellow was identified as Lon Hoack and is said to be a former employe of the Lenoir Chair Manu-

facturing Co., and aware that it was their custom to have the payroll money in the office on Saturday afternoon. While only about 20 years old, he has a very bad reputation but this is the first time he has attempted such a bold trick. He was lodged in jail.

THE PRESS ON THE PLATFORM.

What the North Carolina Editors Are Saying About the Democratic Platform.

THE JOKE.

To us the funny part of it was that the Democratic State Convention did not want to do anything that would bind the Republicans.—Durham Herald.

JUST PLAIN DEMOCRACY.

It was just plain old-fashioned Democracy, without any frills or flourishes that dominated the State Convention over at Raleigh last week, and this is the only sort of Democracy that the State has any need of at this time.—Henderson Gold Leaf.

SHOULD HAVE ENDORSED THE AMENDMENTS.

The convention did its work well, except that it should have given specific and strong indorsement to the amendments to the Constitution that will be voted on this fall. The submitting of these amendments by the last legislature was the most forward movement made in the State during the last forty years.—Newton Enterprise.

Anglo American Peace Exposition.

Washington, June 14.—At the Anglo-American Hundred Years Peace Exposition, now open in London, the Southern Railway System has the only exhibit made by an American railway and much attention has been attracted by the handsome display of Southern agricultural, horticultural and mineral products. The exposition will be open until November and will be visited by millions of people who will thus have the advantages of the South put before them.

The exhibit is enclosed by polished brass and pedestals of Tennessee, Alabama and North Carolina marble, set on oak posts connected by brass railing. Beneath the railing are boxes of granite from North Carolina and South Carolina quarries. Show cases at the front corners contain specimens of cotton, stalks, seeds, lowly filled will balls. Other cases and tanks contain tobacco, fruit, corn and other grain. The useful mineral output of the South such as iron ore, coal, talc, mica, rutile, zinc, silica, kaolin and other clays, granite, limestone and such other minerals and stones as have an active demand in commerce and art are shown.

There are displayed on the walls, on easels and attached to the railings dozens of agricultural, industrial, scenic and city views of the South, including panoramic views of cities, harbors, industrial and mountain scenery. All the views are large, all are colored and all especially selected to give a good idea of the attractions, resources, and development of the Southern States.

Following in YOUR Footsteps papa

That Little Chap's Future Depends Upon You, Mister Father.

The influence of your personality and disposition will be reflected in him a few years hence.

Your ways will in all probably be his ways—In your steps doth he trod.

Most essential is it then, to teach him the WAY TO THIS BANK. Bring him with you occasionally, as often as you can, when you make your deposits, BETTER STILL, start him with a little bank account of his own, and note the pride and interest he will take in making it grow.
