GERMANS OCCUPY BRUSSELS

RESISTANCE TO THE JAPANESE

Fierce Fighting Occurs in Alsace, Where French Win and in Lorraine, Where Germans Have Success—Russia Concentrates Troops While Skirmish Takes Place—Austria, Trying to Stop Russia, Neglects Campaign Against Servians—No Naval News Possible at Present.

London, Aug. 21.—1:20 a. m.—The Germans have at last occupied Brussels, but in Alsace they seem to be making no advance. The latest report is that the French have recaptured Muelhausen and it still seems true that after eighteen days of fighting there are no German troops on French soil.

On Germany's eastern frontier there has been considerable outpost fighting which would indicate that the Russians are completing their work of concentration. There have been no serious collisions in this region as yet however. Austria is too much engaged with Russia and with the need of helping Germany to make much progress in her campaign against Servia. No news whatever has been received of any naval movements, either in the North Sea or the Mediterranean.

The death of Pope Pius will be made the occasion for another effort to bring about peace. It is stated that when the conclave meets in Rome to elect a new Pope it will send an appeal to the warring nations for peace, and will ask the United States to aid in bringing about tranquility.

According to the few bits of news allowed to come in from Berlin, something like normal conditions prevail in the German Capital. The price of food is declining and now that troop movements have been completed, a resumption of general work on railways is beginning.

Confirmation has been received on the report that Emperor William has ordered resistance to any effort that Japan may make to seize Kiaochow.

GERMAN WARSHIPS APPROACHING.

Vancouver, B. C., Aug. 20.—The following dispatch was received from Prince Rupert, B. C., late today: All ports have been notified by Hon. J. D. Hazen, Canadian minister of marine, of the near approach of a German warship, stated to be coming to obtain coal. Authorities have been notified not to give aid to the enemy, even under threat of bombardment of the city.

FRENCH VICTORY AND REVERSE.

Along with the announcement of the fall of Brussels, the official statement says: "Our troops have met with brilliant successes in Alsace, especially between Muelhausen and Altkirch. The Germans retreating on the Rhine, left in our hands many prisoners and 24 guns, six of which were captured by our infantry after a sharp struggle. "In Lorraine the day was less fortunate for us. Our advanced troops found themselves faced by exceptionally strong positions. They were forced by a counter attack to fall back in a body, which is solidly established on the Scille and along the canal from the Marne to the Rhine."

GERMANS OCCUPY BRUSSELS.

Paris, Aug. 20.—11 p. m.—The German cavalry have occupied Brussels. This official announcement was made tonight. Strong columns are follow-

ing up this movement. The Belgian army is retiring on Antwerp without having been engaged by the Germans.

BRITISH EMBASSY EXPLAINS.

Washington, D. C., Aug. 20.—An official explanation of the Belgian field army's backward movement towards Antwerp was given tonight in the following cablegram from London, made public by the British embassy: "The Belgian field army, based on Antwerp, has fallen back in that direction to cover its communication with that fortress. In anticipation that this might become necessary, the seat of government already had been transferred to Antwerp. "As Brussels is an undefended city and no longer the seat of government, the fact that the Germans may have occupied it is not of great importance. Moreover, the present position of the Belgian field army is a menace to the right flank of any further German advance westward."

SAYS GERMAN MOB KILLED HER HUSBAND AND BABY.

London, Aug. 18.—1:20 a. m.—A Reuter despatch from Rennes, France, says: "Madame Buillon, a wealthy resident of Combourg, a town near St. Malo, has arrived here and told how her husband and baby were killed by a mob in Hanover, Germany. The woman said: "We were expelled on August 2 from Kolberg (a town of Prussia in Pomerania), and tried to reach France through Switzerland. But we were turned back before we reached the German frontier and compelled to retrace our steps and go by way of Holland. "On arriving in Hanover my husband and myself were arrested as spies and stored by a mob. My husband unfortunately lost his self-control and cried: "Long live France," and "Long live England," whereupon he was shot. "Two friends who attempted to intervene were also killed. Our baby that wore a cap bearing the word "France" was torn away from me, dashed to the ground and killed. "My brother-in-law was thrown in prison at Bentheim. I escaped and after various adventures, succeeded in reaching Holland."

AMERICANS IN DITCH TO AVOID BULLETS.

New York, Aug. 19.—First hand tales of the fighting at Liege and other grim narratives of the war were told here today by American refugees arriving on the Red Star liner Finland. Many of them were without money or baggage; some had been held as spies and others had made their way on foot from the interior of Belgium to Antwerp amid dangers of warfare. Captain Barman steered his ship through a little used channel of the harbor of Antwerp to the North Sea where he found the horizon smudged with the smoke of British battleships.

In his perilous passage through the mine strewn waters there were no buoys to guide him. Time after time the ship was stopped by war vessels although she flew the American flag.

James A. Patten, of Chicago, and Mrs. Patten, passengers, said they were in Carlsbad when war was declared between Germany and Russia. They left for Nuremberg in an automobile and arriving there they were taken to the guardhouse and rigidly cross questioned before they were allowed to proceed. They boarded a crowded train for Ostend but got no further than Boulogne, where they found themselves in a vortex of mobilizing troops and marching citizens. After long delay they managed to get aboard another train for the border but got no further than the little town of Herbatha near the frontier, which they reached at 10 o'clock at night in a downpour of rain.

"We managed to make our way into a little cafe," Mr. Patten said, "and there we got one slice of bread apiece—our first meal for the day. Next day I hired a horse and cart to take us over the Belgian frontier at Verriers.

"On the road we passed a pitiful procession of German refugees fleeing from Belgium. Some were in vehicles but the majority were trudging in the dust, pushing or pulling their baggage, in carts. Women with babies at their breast were walking under the noonday sun.

"From Verriers we proceeded by another cart toward Liege. We had not progressed three miles when we came upon a party of Belgian engineers engaged in mining the road. They advised us to go to Liege by another road; we hastened to do it.

"Two hours later another party of Americans were halted at that very spot by a skirmish between the Belgians and Uhlans. They were forced to lie in a ditch while the Belgians fired over them. Next day 3,000 Germans were killed by the mines we had seen the engineers planting.

"We arrived at Liege at 1 o'clock on the afternoon of August 4 and managed to get a train for Brussels two hours later. But we did not leave before we heard the thunder of the forts' cannon repulsing the first onslaught of the Germans. The town was cold with fear."

"The Master Criminal."

The Master Criminal will be shown at The Grotto Monday night, in four reels.

The play promises to be extremely interesting, judging from the synopsis sent in advance of the pictures, which reads: Collins, a rare specimen of criminal with the faculties of a natural born leader, having won the confidence of the habitues of the underworld, is made their leader. Thrown into prison he, escapes with the aid of his accomplices times without number, and after reaching freedom, always manages to elude the police long enough to accomplish his nefarious schemes. How he makes dupes of the men and women he comes in contact with and how he manages to slip through the fingers of the police is told in a startling and surprising series of episodes, but, fortunately, he sees the error of his ways, and reforming, becomes chief of the police. From being Master Criminal, he becomes Master Criminal Hunter.

The birth of history now being constructed is one article which the Kaiser does not desire to have stamped "Made in Germany."—Greensboro News.

THE POPE IS DEAD.

The Head of the Catholic Church Died at the Vatican Early This Morning.

Rome, Italy, Aug. 20.—Pope Pius X died at 1:20 o'clock this morning. He had been ill for several days, but alarming symptoms did not develop until Wednesday morning. Throughout the day Drs. Marchisava and Amici devoted their utmost energies to stimulating their patient and keeping him alive.

The cardinals were notified of the pope's grave condition and some of them who entered the sick room describe the scene as heartrending, especially when the pontiff around himself from time to time, spoke. Once he said: "In ancient times the pope by a word might have stayed the slaughter but now he is impotent."

THE DEATH SCENE.

Prayers were said by thousands and church bells sounded when the sacrament was exposed upon all the altars. When the court learned of the pope's condition there was the deepest confusion. King Victor Emmanuel personally informed Queen Helena and the news was communicated to the Queen Mother.

Extreme unction was administered by Monsignor Zampini Sacristan to His Holiness, amid a touch scene. The pope's sisters and his niece were overcome with grief. Cardinal Merry Del Val knelt by the side of his bed, where other cardinals joined him, members of the household intoning prayers.

The dying pope, in a moment of lucidity, said: "Now I begin to think as the end is approaching that the Almighty in His inexhaustible goodness wishes to spare me the horrors Europe is undergoing."

Attempt Made to Wreck A. C. L. Train at Warsaw.

Warsaw, Aug. 19.—An attempt was made by unknown parties last night to wreck Atlantic Coast Line passenger train No. 42 near Calypso. The train was nearing Calypso station when a cross-tie was discovered across the track and before the train could be brought to a stop the tie had become so firmly wedged between the rails and the engine pilot that the pilot had to be lifted and the tie cut. It was in such a position that the least delay in stopping the train would probably have resulted seriously. The train was carrying four day coaches and six Pullman sleeper cars.

Church Announcement.

The Church of the Holy Comforter, The Reverend John Benner Gibble, rector. Aug. 23rd, Eleventh Sunday after Trinity, services as follows: Sunday school, 9:30 a. m. Morning prayer, 11:00 a. m. Evening prayer, 8:00 p. m. The Rector will return this week from a few weeks' vacation in Wilmington, N. C., and conduct the services and preach.

Passengers and Crew Safe.

Prince Rupert, B. C., Aug. 19.—The passengers and crew of the Grand Trunk steamer Prince Albert, which went ashore on Butterworth Rock last night are safe. They put off in two boats shortly after the vessel struck. After the first message was received the wireless refused to work.

The movements for mediation do not seem to be very effective. Can any body tell where Andy Carnegie is hiding nowadays?

DIG TRADE POSSIBLE IN SOUTH AMERICA.

North Carolina Manufactured Products in Great Demand in Countries to the South.

Washington, Aug. 19.—In reply to a letter from Representative E. Y. Webb, asking for information as to markets for cotton and other manufactured products made in North Carolina, Acting Director General Francisco J. Yanes, of the Pan-American Union, writes Mr. Webb that there is an enormous trade in articles such as he inquired about in the South and Central American countries.

Mr. Webb wrote to the Pan-American union at the request of A. K. Joy, of Hickory, who wanted to know as to the market for goods manufactured at Hickory. Mr. Yanes' letter to Congressman Webb follows:

"Replying, in the absence of the director general, to your esteemed note of August 14, inclosing a letter from A. K. Joy, secretary of the chamber of Commerce at Hickory, I am pleased to say that the articles mentioned in Mr. Joy's letter as produced in the factories at Hickory, namely, farm wagons, school furniture, case goods, compressed pumps, horse collars and tanned goods and cotton goods, including hosiery, are all consumed at present in South America, and some in very considerable quantities.

"Case Goods (canned vegetables).—There is a very small trade in these articles in South America outside of the California fruits. This trade might be extended by proper effort.

"Horse collars, saddlery, etc.—There is a very large trade in all of the South American countries. There are some imports from the United States, but the bulk is from England, Germany, Italy and Spain.

"Cotton Goods.—There is an enormous trade, principally from England and Germany.

"Hosiery.—The bulk comes from Germany. Of the higher grade of goods, some come from England and France.

"School Furniture.—There is very little trade in this, mostly from Germany.

"The above is a general statement as to South America as a whole. "Mr. Joy asks especially as to Argentina. The imports of these articles by that country in 1912 were as follows:

"County goods, over \$40,000,000, of which more than one-half came from England, the remainder principally from Germany, Italy, France and Belgium. The United States was represented in this trade only to the extent of something like \$500,000 and in a few special lines of low grade goods. Cotton stockings, nearly \$2,000,000 of which about three-fourths came from Germany and the bulk of the remainder from France. The United States' share amounted to about \$1,600.

"Saddlery, approximately \$200,000, principally from England and Germany, but with some from the United States.

"Farm Wagons.—There is a very small import trade in completed farm wagons, but there is a very considerable trade in parts, such as axles, wheels, brakes, tires, poles, shafts, etc. The imports of springs alone amounted to \$350,000, and of wheels and axles nearly twice as much. England and Germany, with France and Belgium following, have controlled the great bulk of this trade heretofore."

Mr. Webb thinks that those interested in this trade would receive more prompt replies and perhaps more ac-

WILLIAMSON INDORSED FOR U. S. SENATE.

Indications Are That Williamson or Thompson Will Be Nominated Here This Week.

Z. V. Walser, State Chairman of the Progressives, who in conjunction with C. H. Cowles, of Wilkesboro, State Chairman of the Roosevelt-Republicans, issued recently the call for a State Convention of Roosevelt followers, at Greensboro, August 18, says that the indications are that there will be a big convention. He gives it out that either J. N. Williamson, Jr., of Burlington, or Dr. Cy Thompson, of Jacksonville, will be the Progressive nominee for the United States Senate. Mr. Walser has received many letters endorsing Mr. Williamson for the place, and pressure will be brought to bear to make his accept the nomination. Mr. Walser has just received a letter from Doctor Thompson declaring that he is not inclined to go back into Republicanism and can't be roped in by the specious promises to the "buffaloed" the followers of Roosevelt at Chicago and Charlotte.—The Greensboro News, Aug. 17.

Burlington Defeats Gibsonville.

The Burlington team last Saturday afternoon played the Gibsonville team at Gibsonville, in a fast and good game. The playing was good throughout the game and a very orderly crowd saw the teams at work. The final score was 4 to 2 in favor of the local team.

There were no feature plays in the game, but all the men played together and the result could not be very different when our team works well.

The same teams will play next Saturday afternoon at Piedmont Park at 4 o'clock. Go out to the game if you like good ball and feel that you like to help our boys by attending.

Reunion at Mrs. Crouse.

About thirty relatives gathered at the home of Mrs. M. S. Crouse of No. 4, Monday and spent a day that will long be remembered. The occasion was planned in honor of Dr. Crouse, of Virginia, who is spending some time the guest of relatives in Alamance and Guilford Counties. Dinner was served, consisting of everything good, then after dinner they went in wagons to Alamance creek, where they spent the evening in fishing. After supper music was rendered and the young people engaged in the two-step.

Picnic at Piedmont Park.

In honor of Miss Belle Stroud, of Ore Hill, who is the guest of Miss Hortense Dorsett, a picnic was given Monday evening at Piedmont Park, 8 to 10. The evening was spent very pleasantly and all voted the occasion enjoyed.

Those present were: Misses Flossie Stone, The White, Ola Evans, Sula McCree, Cora and Lula May, Belle Stroud and Hortense Dorsett; Messrs. Joe Thompson, J. C. Lloyd, W. M. Williamson, L. L. and Horace Patterson, W. G. Bridges, W. C. Douglas, Tom Garner and Eugene May.

Notice to Sunday Schools.

The Sunday schools of Alamance County will please send names of delegates who expect homes provided for them to Mr. J. W. Nicholson, Mebane, N. C.

FOOD PRICES CONTINUE SOARING.

Sugar Has Advanced 116 Per Cent.—Meats and Grains Go Up.—Speculation the Cause.

The cost of many articles of commerce classed as commodities, and also of articles classed as luxuries, has increased from 25 to 200 per cent. as a result of the European war, according to information gathered yesterday from several Greensboro merchants. While the increases are the result of the war, yet they are considered in several instances as having been made arbitrarily and unjustly by some of the larger supply houses, speculating wildly on future possibilities and looking over the supposed fact that there is still a great shaply of the raised articles in the country, and imposing for private gain on the consumers throughout the land. There is a contrary view with regard to many of the increases and reported shortages that it is an effort on the part of the large houses to distribute equally to the jobbers throughout the nation rather than to be extortionate.

While not being the largest increase yet having perhaps the broadest and most serious effect, is the increase on sugar. According to quotations received yesterday this has gone up 110 per cent since the war was declared and had signs of climbing further. Before the war it was \$3.80 per 100 pounds. It has now reached \$8 per 100 pounds.

There is said to be no reason for this sharp increase, since little of the raw sugar received in the United States comes from Germany, an excuse made for raising. Ninety-eight per cent of the raw sugar in the United States is said to come from New Orleans, Porto Rico and Cuba. "Absolutely highway robbery" was an expression used in describing this advance. While the sugar costs \$8 per hundred at the refineries, there is an additional cost of 31 cents for freight.

Flour has gone up from 50c to \$1 per barrel in the face of the largest crop of wheat that has ever been known in this country. Potatoes are up 50 cents per barrel, probably because of the foreign demand, the first crop in this country being practically used up.

Hams have advanced 2 cents per pound. Dry Salt meats have advanced from 1-2 to 2 cents per pound. Pure lard has advanced 2 cents per pound.

Steaks have advanced from 2 to 5 cents per pound, and it is expected that there will be a demand of cash on receipt of goods. In feedstuffs there has been an increase of from \$3 to \$5 per ton. Oats have increased 7 cents per bushel. Corn has increased 17 cents per bushel. Wheat has increased 19 cents per bushel.

There has been an advance in canned goods of 2 cents per pound, for which there is said to be some excuse. Cakes and crackers have gone up about 1 cent per pound.

Dry beans have increased from \$2.15 per bushel to \$3 per bushel, for which there is said to be no earthly excuse. It is the highest beans have ever been known to go here.

Swiss cheese has increased 13 cents per pound. Spanish sweet peppers has increased 4 cents per can.

Coffees, teas and spices have gone up 3 1-2 cents per pound generally. This is said to be caused by a raise of the insurance rates and the indications are said to be that the insurance people will raise them more.

In the United States there is said to be a world of lemons, yet they have increased from \$4.50 per box before the war to \$7 or \$8 per box. One excuse for the raise is said to be that lemons cannot be shipped from Italy, but the supply on hand is declared to be such that the increase is not necessary at this time.

Vegetables have increased only on account of dry weather, making the production in these parts considerably smaller than it has ever been known. Black-eyed peas, which once sold for 5 cents per half-gallon, are now going at 20 cents per quart.

Another place where there have been sharpest kind of advances is in the drug business. These advances, of course, are laid to the fact that most all chemicals come from Germany. Yet there is said to be in the United States somewhere, or ought to be, a supply that would last for 60 to 90 days, and that the big manufacturers are engaged in some profitable speculating. On the other hand there is a suggested possibility of this being necessary to have an equal distribution of supplies. Even with efforts made to secure supplies before they should go too high local people have failed to receive in some instances as much as they had ordered.

Liquid paraffin, a white Russian oil a laxative and flesh builder, has advanced 120 per cent. Vitric acid has advanced 200 per cent. Bismuth has gone up 33 1-3 per cent.

Potassium iodine has increased 100 per cent. Iodine is up 75 per cent. Effervescent sodium phosphate has increased 200 per cent.

Asperine tablets have gone up 90 per cent. All opiates have gone up 25 per cent.

Extract oils have gone up approximately 50 per cent. Peroxide has gone up 50 per cent.

People Met in Hotel Lobbies.

"If all the people in the world had the same amount of optimism that possesses William Flinn, the Progressive leader of Pennsylvania, there would be no unhappiness on earth," said Frank A. Shiveley, of Philadelphia, at the Raleigh. "Everybody in the Keystone State except Mr. Flinn knows that the Progressive candidate for the United States Senator, Gifford Pinchot, has no chance of winning. But Mr. Flinn thinks so, it appears."

"Speaking of Pennsylvania politics, I am reminded of anecdote of the late M. W. McAlarney, who was editor and owner of the Harrisburg Evening Telegraph. McAlarney, in addition to being a newspaper editor, was also postmaster, and a Scotchman, and was inclined to be thrifty. He had been appointed to the postmastership by President Harrison, and he was exceedingly anxious that the Indiana man should be renominated. It will be recalled that in the Minneapolis convention when Blaine belted Harrison, there was a big struggle between the different factions, and it was only after a week's balloting that Harrison was renominated.

"McAlarney was on the job in his newspaper office every day and always held his paper from the press for the latest news. It was a very hot day in July when Harrison finally won, and McAlarney went home to dinner late, tired out, irritable, but pleased, nevertheless.

"Whom did they nominate?" inquired Mr. McAlarney's wife when the head of the family sat down to dinner.

"Oh, Harrison, thank goodness," replied the editor.

"And whom did they name for vice president?" asked his wife.

"No one yet," returned McAlarney. "But that is a matter of secondary importance. I presume they will name someone with money who can help out in the campaign."

"Then the McAlarney heir, aged 7, who had been an interested listener up to that time, but quiet, withal, broke in with:

"Say, papa, you're the vice president of this family, ain't you?"

What it Costs to Kill a Man.

The cost of killing a man is obtained by dividing the total cost of a war to any of the belligerents by the number of men killed on the other side.

In 1870-1871 France spent \$40,000,000 in actual expenses of the war. Repairing materials and giving succor to the victims of the war, expenses that are justly to be added cost another \$200,000,000. France paid \$1,000,000,000 as war indemnity, plus another \$400,000,000 in interest on the sum; loss of revenue, forced contributions by the enemy, and upkeep of the German army of occupation. The third category of expenses, not being inevitable in all wars, cannot be properly included.

On a similar basis, here are some facts about other wars:

Russo-Turkish war (1877-1878)—Turkey, \$400,000,000.

Russo-Japanese war (1905)—Russia, \$1,200,000,000.

The number of men killed or who died of wounds in these wars were: Franco-Prussian war—Germans, 28,000.

Russo-Turkish war—Russians, 16,000.

Russo-Japanese war—Japanese, 58,000.

Whence it results that the cost of killing each man was as follows:

In 1870-1871, \$21,000.

In 1877-1878, \$15,000.

In 1905, \$20,400.

What will kill the greatest number and reduce the effective force most will be not the rifle or cannon, but fatigue, typhus or cholera.—Gen. Perrin, of the French Army. Condensed translation of an article in La Science at la Vie.

WOMEN'S WOES.

Burlington Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pain that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Keeping the kidneys well has spared thousands of women much misery. Read of a remedy for kidneys only that is endorsed by people you know.

Mrs. P. King, 1916 Dixie St., Burlington, N. C., says: I had nervous headaches, my back hurt me and I had pains when I lifted anything. The kidney action was quite irregular. Doan's Kidney Pills removed this trouble and made my back strong."

Mrs. King is only one of many Burlington people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the name that Mrs. King had—the remedy backed by home testimony. 50c. all stores. DOING THEIR DUTY.

Scores of Burlington Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are weak. Backache and other kidney ills may follow.

Help the kidneys do their work. Use Doan's Kidney Pills—the tested kidney remedy. Proof of their worth in the following:

N. Foster, shoemaker, Mill Street, Graham, N. C., says: "I am never without Doan's Kidney Pills in the house. I know that they are the best kidney remedy to be had. I was rheumatic. My joints and back were stiff and lame and my kidneys acted irregularly. The kidney secretions contained sediment and were painful in passage. Finally, I took Doan's Kidney Pills and they did me more good than anything else I had ever used." The above is not an isolated case. Mr. Foster is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Foster had. 50c. all stores. SALARY AND FEES.

Some of Our Readers Are Writing Pro and Con on the County Officers.

Graham, N. C., Route 2.

Mr. Editor:

I desire to thank you for your efforts to secure a statement of how the salary system is working. I have heard this matter discussed now for sometime and all my neighbors are anxious to know the saving to the county by the salary system. I do not agree with all that your paper advocates but I am with you upon this proposition, and if you can secure the publication of this statement I may be with you farther, we all want honest clean government and men that will conduct our affairs in this manner, we have been fortunate in the selection of our county officers, but it looks like there is a nigger in the wood-pile somewhere now. Again thanking you for your efforts and wishing you success, I am,
DMEOCRATIC TAX PAYER.

Elon College, N. C.

The Dispatch:

I hope you may be successful in securing a statement as to how the salary and fee system is working, as for me and my two boys we want to know what is being done with the money that they are saving, if they are saving any, and if they are not saving any we want to know it. Our crops are short this year and taxes are hard to pay. We farmers are imposed upon any way and pay more taxes than are our justly due. If your paper can save us anything we are with you, but we are afraid that they will not pay much attention to you. I heard one say the other day that he did not see why you Republicans wanted to know about this thing as he allowed you did not pay much taxes no how, but I told him the fellow who paid a dollar had as good right to know these things as the fellow who paid ten dollars, but he pretended he could not see it that way. This fellow always wants me to vote the whole Democratic ticket, but I ain't going to do it this time unless them county officers tell us how they are doing our business. I have voted

part of the Republican ticket once or twice before and think I will vote more of it this time. Keep jogging them we will help you enough to make up for your trouble.

TAXPAYER.

Snow Camp, N. C.

Editor Dispatch:

We in this part of the county want to thank you for the brave stand you are taking in the matter of salaries and fees. We all want to know how much we are saving, and if the officers we have not will not publish the statement, then I am for another set of officers. I want to see a statement of how this law is working, and if my party will not ettl us then I am for your party, keep the fight going, I feel sure you will get the information, you never fail.

TAX PAYER.

Altamahaw Route 2.

The Dispatch:

I am sending you by my neighbor Mr. a dollar for renewal to your paper, I had thought of stopping it, but cannot quit a paper that is trying so hard to protect the tax payers of Alamance County. Unless this statement is published and that speedily there will be something doing in Alamance county politics. The good people of this county will not stand for this secrecy much longer. Wishing you success I beg to remain,

A FRIENDLY DEMOCRAT.

Sweepsonville, N. C.,

August 17, 1914.

Editor Republican Paper:

As I have not seen much from this section about the salary system, will say I want to see how much we are saving, and hope you can make them show it. We people down here who have been voting the Democratic ticket, when a majority of our neighbors are the other way, it makes us feel bad to have our county officers act in this way. I for one cannot understand why they would do this. All honest men want to know about this, and all honest men ought to want us to know about it. Unless our officers will furnish the information as called for, I think I will join my neighbors and vote with them. It will be hard to desert my party after 32 years of loyalty but I cannot stand for such actions as our officials are now giving us. Wishing you success in your undertaking and thanking you in behalf of all tax payers I am.

A WAVERING DEMOCRAT.

Graham, N. C.

August 15, '14.

Mr. J. Zeb. Waller,

Burlington, N. C.

Dear Sir:

I do not agree with you politically, but I admire your fighting qualities and I am with you in your efforts to have a statement published showing the saving to the tax payers of the county by the adoption of the salary system. We were told if this system were adopted, Alamance county would save from three to five thousand dollars per year, but if we have saved

a cent, we do not know it. Our county officers said at the time that the salaries were too small, that they could not live upon them, but they must have changed their minds since that time. I was doubtful of the workings of the salary system at the time, but like many others thought if we could effect any saving I was for it. If we had have left the fee system like it was there would not have been any statement to make, and we would not have been interested how much they are making, but since we have adopted the salary system I want to know how it is working and am willing to lend you my moral support in trying to get at the true workings of the system. It is useless for me to say keep up the fight. I know you will do that but I will say that I heartily am in accord with your efforts in this direction along the line you are pursuing. Enclosed find fifty cents for renewal of my subscription.

A WILSON DEMOCRAT.

Graham, N. C., August 17.

The Burlington Dispatch:

I am a Democrat but I want to know how much we are saving in the salary system. I feel that you are going a great thing for the farmer tax payers in this fight. Please keep up your efforts until this report is published. I am enclosing a dollar bill to renew my subscription and will continue to take your paper as long as you stand upon the side of the tax payers.

Well, we are having mighty nice weather along now, and crops are looking fine and people in the neighborhood are having good health.

The protracted meeting closed at Mt. Zion the 14th, and began at Mt. Pleasant Sunday.

Mrs. H. B. Foster and sister are visiting at Mr. J. R. Foster's this week.

Mr. and Mrs. W. J. Foster, of Greensboro, were visitors at Mr. Tom Murray's and Henry Foster's last week.

Mr. and Mrs. Will Councilman, of Juck, were visitors on the Route last week. We are glad to have them and hope they will come back again.

Wesley Gartain and wife were welcome visitors at Tom Murray's the other day.

Messrs. Tom and Bunny Foster, of Graham, visited their cousin, Mrs. W. M. Foster, Sunday. We are glad to have them on the Route and hope they will come back again and bring their wives with them next time.

Cross Roads Items.

Refreshing showers are ascending on this community now, and if continued the farmers will be blessed with good corn crops. As wheat was by far better than most people expected.

Among some of the happenings, quite an interesting play was pulled off at Mt. Pleasant School House Aug. 15th. A large crowd witnessed the sight. Music by Sodom String Band.

Mt. Zion revival came to a close Friday evening, Aug. 14. Good preaching continued until the close with very large congregations.

Quite a number of lady friends visited us during the while—some from Burlington, Graham, Greensboro and Windell, of which have returned to their homes and other remain with us still. As the young men understand.

The writer has been informed of some wedding bells which will ring soon on Burlington Route 1. R. A. Coble says his gain will be the other fellow's loss.

Quite a fast game of ball was pulled off between our home team and the Alamance team (Guilford County) Saturday, August 15th, the feature of the game was Euliss who allowed only one hit, while Coble for Alamance, allowed out boys 5 hits. The score being 3 to 1 in favor of Cross Roads. The local team is expected on our home ground Saturday, Aug. 22. Come out to see this successful team. They promise another victory.

It is hard to figure out what a man with a job in this country expects to gain by going to Europe to fight.

Double Wedding Takes Place at Elon College.

Elon College, Aug. 20.—One of the prettiest double weddings ever celebrated in the little town of Elon College, took place Wednesday evening at the home of Rev. and Mrs. T. B. Dawson, when they gave away their two daughters, Misses Laura and Jessie to be the brides of Messrs. M. A. Van Billiard, of Florida, and A. L. Hooks, of Elon College.

The ceremony was performed under very unique circumstances. The large veranda was beautifully decorated with ivy, ferns and other evergreens. A beautiful arch was erected under which the bridal couples stood. The guests, one hundred or more, were gathered in a circle on the lawn. The words that made the two couples man and wife were pronounced in a very impressive manner by Dr. J. U. Newman, assisted by the veteran minister, Rev. J. W. Wellons.

The eldest daughter, Miss Laura, entered the porch from the right room with her sister, Miss Fannie Pearl, as bridesmaid. The groom was ushered in by his best man, Mr. Carl Dawson, of Greensboro, a cousin of the bride. Master Dan L. Newman was ring-bearer. The bride was handsomely attired in a suit of cream silk crepe de chine and carried a beautiful bouquet of bride's roses. Her long flowing veil was held in place by an elegant diamond brooch, a gift of the groom.

Mr. Van Billiard is a native of Philadelphia, and for several years has held a position as traveling salesman. The bride is accomplished and attractive and is a former student of Elon College. For several years she has been engaged in teaching in Virginia. This couple will make their home in Florida, where Mr. Van Billiard is proprietor of a large orange grove.

The second daughter, Miss Jessie, entered the beautifully decorated veranda from the left room with her sister, Miss Mattie Dawson, as bridesmaid. The groom came in on the arm of his best man, Mr. Staley Wicker, of Elon College. Little Miss Wauzell Lambeth was ring bearer. The bride looked lovely attired in a suit of white crepe de chine and carrying a handsome bouquet of bride's roses. Her pretty veil was also held in place by a handsome diamond brooch.

Mr. Hook is one of Elon College's most estimable young men and is a member of the faculty of the college. Mrs. Hook has been a student of the college for several years, is very attractive, and accomplished, and a favorite with all who know her.

Mrs. J. W. Patton played very beautifully Mendelssohn's Wedding March, as the couples entered the veranda. During the ceremony she played very softly, Schubert's Serenade. Little Misses Mary Graham Lawrence and Gwendolyn Patton were the flower girls.

Immediately after the ceremony the bridal party left in automobiles for Greensboro, where they boarded trains, Mr. and Mrs. Van Billiard going to Florida, where they will make their home in a pretty little town on the West Coast. Mr. and Mrs. Hook went to Washington and from there they will visit Niagara Falls and other places of interest. After their return they will be at home at Elon College.

The high esteem in which these young people are held by their friends was shown by the large number of beautiful and useful gifts presented them.

CHARTER VESSELS TO BRING AMERICANS HOME.

Germany and Austria Will Aid the Proposal—Problem Appears To Be Solved.

Washington, Aug. 15.—The United States Government has notified the powers of Europe that it will regard as neutral "ships chartered for the sole purpose of repatriating American citizens stranded in Europe," and has asked the belligerent governments for a declaration on the subject.

"The State Department has issued instructions to its diplomatic representatives in Europe to notify the different governments to which they are accredited that this government will regard ships chartered for the sole purpose of repatriating its citizens who are now stranded in Europe, due to the lack of transportation facilities resulting from the war, as neutralized under the principles of international law and as coming within the meaning of Article 4 of The Hague convention in 1907, having to do with the rights of capture in naval warfare of neutralized vessels that are charged with a humanitarian mission. The different European governments have been asked for declarations to this effect."

The government took this position, it is believed, after indications from some of the belligerent powers that ships bearing Americans would not be molested.

Dispatches from Berlin today still the German government would endeavor to neutralize any vessel bearing refugees Americans and it is known the Austrian government has sought definite assurance that other powers would regard its neutral German-owned ships now in Austrian ports ready to take Americans home. No objection is reported from England or France and State Department officials look on the success of the project as assured.

Article four of The Hague convention that to make the American powers neutralized.

"Vessels chartered with humanitarian service or for humanitarian mission, are exempted from capture."

This article, pointing out that in the opinion of the American government, with the neutralization of ships on every sea, and with the facilities provided by the international American, the problem of bringing Americans home from Europe is believed to have been solved.

The most immediate needs of ships in German ports, Americans who have been detained in Germany because of lack of railway facilities during the period of the winter, the new laws. The International Convention was held in London, the Secretary of State.

"The Department of State has received early advice from the American ambassador at Berlin that the German government is proposing American citizens to leave the country as fast as train service is restored, and that if the Government blockades any part American will be allowed to leave."

From Antwerp, the German also came advice that the American order Tennessee heading gold for Americans, would be allowed to land at a German port.

Reports from American ambassadors and diplomats indicate that the situation has been considerably relieved by the release for trans-Atlantic service of the lines, Lusitania, Mauretania, Olympic and Saxonia. The restoration of these vessels will help solve the transportation problem, though some steamship authorities estimate that 1000,000 Americans await passage.

The demands of stranded Americans for ready money have been relieved somewhat. Banks now are honoring letters of credit held by American travelers. In cases of Americans without letters of credit American ambassadors, ministers and consuls are extending assistance.

The deposits of money with the treasury and state departments and the sutreasuries in other cities to aid Americans abroad increased to \$1,196,000 today.

Says Second Coming of Christ is Near.

"The second coming of Jesus Christ is just at hand. The signs of this solemn event are multiplying on every hand, and the surest of them all is the great conflict in Europe," said Elder W. W. Eastman, of Washington.

He read a large number of passages from the Bible containing predictions of the happenings of certain things, which, when they should occur, were to be regarded as signs of the return of Jesus to this earth. Elder Eastman made it plain that when Christ came again He would not come secretly, but His return would be personal and with great glory and power, and in the sight of everyone on earth.

Directing attention to the 24th chapter of Matthew, the speaker pointed out in verse 29 the words: "Immediately after the tribulation of these days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven, and the powers of the heavens shall be shaken." He declared that the signs of the darkening of the sun had taken place on the 19th day of May in 1780, at which time there was a most unaccountable darkening of the sun. He said that the falling of the stars had taken place on the morning of November 13, 1833.

Elder Eastman also considered that the situation existing in the world of capital and labor constituted a sign of the coming of Christ, believing it to be a fulfillment of the prophecy recorded in the 5th chapter of James. He pointed out that in the third verse of this chapter it is definitely predicted that such conditions were to prevail in "the last days."—Greensboro News, Aug. 17.

POOR

ORGANIZED LABOR TO BUY COTTON GOODS.

Movement Started in Atlanta in Interest of Cotton Farmers Expected to Spread Over South.

No News since the commencement of hostilities in Europe, has been more favorably received or more generally welcomed, than the action of organized labor in rallying to the assistance of the farmers, not only of Georgia, but the entire South.

When it was learned through The Journal Saturday afternoon that several of the thirty chapels of the Atlanta Typographical Union had passed resolutions at noon of that day, pledging themselves to use cotton goods in lieu of any other wherever possible in order to prevent the depression in the price of cotton, there was a general rally to join in the movement and help carry it through to a successful culmination.

But this is merely the start of the project. Promoters of the movement will not be content to confine their activities to Georgia, but will insist that about throughout the South join with them. The matter will first be taken up with the local federation of trades and then to the Georgia Federation of Labor. Once the State is in line, plans will be laid to take the movement before the Southern Labor congress, even if it is necessary to call a special meeting of that organization.

STAND BY FARMERS.

In their determination to stick by their farmer brother, the labor organizations wish it distinctly understood that their action cannot, in any manner, be construed as antagonistic to any other commodity from which the goods and wearing apparel are made. Leaders in the movement declare that the Southern farmer is being most seriously effected and for that reason they have determined to stand by him to the extent of their power.

It is pointed out that while the effect of the war will be the closing of the European mills, an exigency which would sadly curtail the export of the raw cotton, that the decline in price can be checked and even held at a profit insuring level, through an increasing demand for cotton goods in this country.

Labor leaders believe too, that their movement, while affecting them only at this time, will be joined in by the farmers and others in every walk of life. The possibilities of the project are far-reaching and enormous and it is practically certain that a tremendous following will co-operate.

The resolutions follow:
The resolution which has already been adopted by the chapels of the three Atlanta dailies and others in the city, is as follows:

Whereas, It has been stated that the European war will interfere seriously with the exportation of the cotton of this country; and

Whereas, We believe it is our duty to aid our farmer brothers in every way possible in a crisis of this character, and we wish to make out aid as substantial as it is possible, and

Whereas, It has been stated that the addition of just a few inches more of length to a garment in China will cause the exportation of thousands of additional bales of cotton to that country, and

Whereas, There are many garments—of both male and female wear—which we now wear made of other material which we could just as well purchase of cotton material, it is hereby

Resolved by the Chapel of The Atlanta Journal that from this day, wherever possible and without reservation we pledge ourselves to purchase cotton-made goods in preference to those of other materials for every member of our families, and we ask every organization and person in sympathy with this movement to adopt the same plan, and in this way we will use a large amount of the cotton which is kept from our European sister countries through the war, and we help our farmer brothers and at the same time use a real bona fide home product.

Summer Constipation Dangerous. Constipation in Summer-time is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much water during the hot weather, thus injuring your stomach. Colic, Fever, Ptomaline Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the Bile, the natural laxative, which aids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmor's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmor & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root on receipt of ten cents to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50c. and \$1.00. For sale at all druggists. Be sure to mention this paper.

A Family Remedy for 12 Years.

Burlington, N. C.
I bought one bottle of Indian Blood Purifier from old Mr. J. M. Pearson in the year 1900 for my wife. It helped her so much that later I got the second bottle and it completely cured her. Since then I have kept it in my family until Mr. Pearson died and I could not get the medicine. It is being made again and I can safely say that it is the best all-around family remedy I have used.

Indigestion.

My wife had been suffering with indigestion for three years and everything she ate hurt her. She was also afflicted with female trouble. After using Genuine Indian Blood Purifier she is now in the best of health and recommends it to all who have suffered as she has.
