At The Piedmont Opera House Next Thursday, September 17.

One of the distinctive successes of the season, Thomas Dixon's "The Sins of the Father" is booked for an early engagement at the Piedmont Opera House, Burlington, Thursday, Sept. 17.

The play is under the personal management of the distinguished author and dramatist which is rare in the theatrical history. It is staged in strict accordance with ideas of Mr. Dixon and this should be proof positive that it will be as perfect as modern stage directing can make it.

Alamance Fair This Year.

The Alamance Fair Association is looking forward to this fall's fair as the best in the history of the association. They have secured reduced rates on the railroads and have hooked a large number of clean attractions for the week.

Nothing immoral or any gambling will be allowed in the grounds this year so the managers say.

Mr. Kimmons had charge of the Piedmont Railway & Electric Co's. erecting crew.

Mr. and Mrs. Kimmons left on the 11:18 train for Pennsylvania to make their home.

Receiving Time by Wireless.

Mr. C. F. Neese is erecting a wireless time station over the jewelry store. The station is to be 100 feet high and the time will be received from Washington every day at noon.

One of the most interesting results of the discovery of wireless telegraphy has been its application to the distribution of time. Since the completion of the Arlington high-power wireless station at Radio, Va., across the Potomac from Washington, the Navy Department has been sending broadcast wireless time signals every day.

Mr. Neese is one of our town's wide-awake business men and deserves many thanks in placing this wonderful invention, the wireless time, before the public.

Route No. 2 Picnic.

Our Route Picnic at Union Ridge was a grand success, notwithstanding the farmers were very busy four or five hundred of them from No. 2 and adjoining Routes came out for a day's outing. Everybody enjoyed the occasion. About noon a splendid dinner was served by the good ladies present. Lemonade and watermelon were plentiful.

Messrs. Cook, Dameron and Crowson and Hall entertained the picnickers with oratory.

Each one present is cordially invited to come again next year and bring another friend.

Mutt and Jeff All Right.

Mutt and Jeff played at the Piedmont Opera House last Tuesday night to a good size and appreciative audience. The house was not full but a good crowd was present. The show was clean, refined, well-played, and nothing was shown to hurt anybody and if the managers will continue to have this class of refined shows here they will find that the people will patronize them more.

Unlawful Love Leads to Death.

Charlotte, Sept. 9.—Some boys fishing in the lake at Lakewood Park, west of Charlotte, today saw a boat drifting and in it a man's and woman's clothing. Pulling the boat to shore, a man's coat and a woman's blue serge suit coat, woman's gloves, handkerchief and other things were found lying in the bottom of the boat, together with a man's pocket-book containing \$25 and a woman's purse containing \$6. In the pocket of the man's coat was found a note reading "We are in the lake, all on account of love," and signed Charles B. Howell and Lizzie Griffin.

Deputy Sheriff Fesperman and members of the police force went to work on the case at once and learned that Charles B. Howell, head machinist of the S. A. L. shops at Monroe, and Miss Lizzie Griffin, a telephone operator at Monroe, had left there together for Charlotte on Monday, a letter arriving today, shortly after the find at Lakewood, directing the Charlotte officers to look for the couple. It is learned from Monroe that Howell, who has a wife and two children there, has for some time been paying attention to Miss Griffin, who was described as being very beautiful and eighteen years of age, and that her people raised strenuous objections, causing considerable scandal. It is also declared that Miss Griffin had told other girls at Monroe in the telephone exchange that she intended to take her life as the result of complications in her love affair.

The lake is being dragged to recover the bodies, but without result up to a late hour tonight.

The bodies were found Thursday morning by a workman going by the lake.

The French Official news bureau is entitled to commendation for what appears to be a frank, straightforward account of what has happened in the warfare now going on between the French and British on the one side and the Germans on the other. In this respect the French show up to better advantage than any of the other nations involved in the struggle.—News and Observer.

Chairman L. M. Rhodes, of the Board of Directors of the National Farmers' Union, declares "they can talk all they wish about credit, but what we need is cash." Talk is cheap. Talking of the ethics of war, nothing could be more barbarous than putting up a lot of men to be shot at.

The Family Market Basket. These are sad days for the family market basket. Many events seem to have conspired to bring about higher prices and the careful housewife must be wide awake to make ends meet. She cannot afford to purchase haphazard. She must have the best available information of products and prices. In these days the advertising columns of a live newspaper like The Dispatch are immensely valuable. They are the public market place. They keep a woman informed as to the greatest purchasing power of her dollar. The woman who uses newspaper advertising for her guide is more apt to get 100 cents worth plus for her dollar than her neighbor who shops haphazard.

His Diagnosis Was Correct. The soldiers were dining and orderlies were hastening back and forth with pails of steaming soup. Wolsey stopped one of them and ordered the lid of his pail removed. The man obeyed promptly and the General said: "Let me taste it." "But," began the orderly. "Let me taste it, I say," exclaimed the General. "It's for all the world like dishwater." "That's what it is sar," said the orderly, saluting gravely.—Character.

As the Democratic State Convention refused to endorse the Constitutional Amendments and in all probability will oppose them as a party. Perhaps the Winston-Salem Journal can tell us.

Automobile accidents are multiplying. As the machines used rapidly increase in number so will the casualties unless the drivers are more careful for the risks of a run or are made so by enforcing the ordinances against careless and reckless driving.

Collected Cigars by Wheelbarrow Loads. Amsterdam, Sept. 5.—The Dutch army believes it may rightfully boast of being the best equipped army in Europe so far as smoking comforts go. The Boy Scouts, during the first days of mobilization, went all over the city of Amsterdam with barrows, gathering cigars for the soldiers. The total was too big to count, but within two hours one day more than 20,000 cigars were gathered. Passers-by emptied their cigar cases, dealers presented full boxes, and non-smokers contributed money for the purchase of cigars. All along the frontier the sentinels may now be seen comfortably puffing away at these gift cigars. Holland has been so much in ignorance of what is happening that one of the Amsterdam papers expressed the situation by heading its page of war news with the negative in half a dozen foreign languages.

No wonder that cotton, 7½ cents in this country, is 12½ cents in Liverpool. Remember what the pert small boy said he could get for a bucket of water if he could land with it in a certain place? "The food bill of the workhouse amounted to \$156 a month while the town was wet," said Mrs. James White, mayor of Barnesville, Ohio, in a public address, "After the election which made it dry," he continued, "It took thirty four cents for the same period of time."

By Blow With Rifle Woman Kills a Lioness. Reno, Nev., Sept. 5.—Mrs. George Ellery, wife of a trapper, whose cabin is near Unionville, Nev., saved her own life and that of her three-year-old child by killing a big mountain lioness with a blow from a rifle, after the animal wounded, had charged her. Ellery trapped three lion cubs. He believed they were the lioness's litter and that she trailed him to his cabin. Mrs. Ellery saw the lioness watching the cabin and called the baby playing outside. Then reached for a rifle. She took one shot at the lioness, but only wounded it. The animal then rushed at the woman. Mrs. Ellery stepped back to give her a clear swing with the rifle and brought the butt down on the head of the lioness, killing it.

Won't Hurt Business. Champ Clark has stated publicly that the calculable wealth of this nation is \$140,000,000,000. The census reveals that the total capital and property of the entire liquor industry of the country is about \$800,000,000—that is one dollar out of every \$175 of the total wealth of the nation. Guess the abolition of the liquor traffic won't send the country to the bow-wows!

Criminal Waste. American distilleries last year turned into poison 34,039,277 bushels of grain. This amount would have made 1,768,697,393 loaves of bread—enough to supply two loaves a day for six months to five million families. In addition, breweries destroyed grain that would have made 3,236,168,904 loaves of bread.

POOR P

Plan is Proposed for Paying Debt.

Washington, Sept. 8.—The Bankers Committee plan for meeting American obligations to Europe with gold payments, proposed to the Federal Reserve Board last week, was taken up today by the board. It contemplates a gold fund contributed by National banks in reserve and central reserve cities of \$150,000,000 of which \$25,000,000 is to be made immediately available. A decision may be reached by the board tomorrow after an examination of every possible result of its approval.

Following is the committee plan as made public tonight:

"That the banks of this country, especially those located in reserve and central reserve cities, be requested to contribute to a gold fund of \$150,000,000, of which \$25,000,000 is to be immediately paid into the depository of the Bank of England in Canada for which a participation deposit receipt will be furnished to each contributing bank. The remainder of the contributed amounts to be subject to call by the New York committee through the local committee of the respective cities and to be paid for in New York Exchange.

"Said New York committee to be appointed by the New York Clearing House Association and said local committees to be appointed by the clearing house associations of the respective contributing cities. The committee appointed by the New York Clearing House Association to be charged with the duty of handling the said fund, of fixing the price at which foreign exchange is to be bought and sold and is to make requisition from time to time upon the respective contributing cities through the local committee thereof. Said local committees shall have supervision in the respective cities of the shipments and general withdrawals of gold.

"This committee recommends that the Federal Reserve Board take steps to ascertain the amount of gold that will be contributed by the banks in the respective cities and that it use its influence to have the said banks contribute their proper pro rata."

With this fashion of changing the names to suit the prejudices of the peevish nations, we suppose that if the allies are finally victorious there ain't going to be any Rhine.

An Only Daughter Relieved of Consumption

When death was hourly expected, all remedies having failed, and Dr. H. James was experimenting with the many herbs of Calcutta, he accidentally made a preparation which cured his only child of Consumption. It has proved to the world that Consumption can be positive and permanently cured. The doctor now gives his recipe free only asking two small stamps to pay expenses. This herb also cures Night Sweats, Haemoptoe at the stomach and will break up a fresh cold in twenty-four hours. Address: **Chaddock & Co., Philadelphia, Pa.**, naming this paper.

Snakes Trap Themselves.

Marion, Ind., Sept. 5.—E. M. Temple, deputy clerk of Grant County, and C. J. Paulus have returned from an outing at Tippecanoe lake with a combination fish and snake story for which they submit photographs as proof. A day's fishing in the lake netted the two men about 50 bluegills. These were placed in a live box near the wharf for the night. When the fishermen examined the box the next morning they were surprised to find that they had trapped other game than the fish the box held the night before. Two water snakes had succeeded in pulling through the wire netting, which formed the sides of the live box, some of the smaller fish. The appetites of the snakes not being satisfied with these, they thrust their heads through the netting and each swallowed one larger fish. Gorged with fish inside and outside their point of contact with the wire netting, the snakes were securely trapped.

Old fishermen at the lake informed the Marion men that dead fish are about the only thing dead a snake will eat. Since some of the bluegills were dead when placed in the live box it is believed these attracted the snakes. When cut open the larger snake was found to contain eight fish and the smaller snake five fish. The larger snake measured four feet, five inches in length and the smaller one three feet eight inches.

An Observing Boy.

A young student—named Millard—in a city high school was disturbing the study period by attracting the attention of another pupil to an object laying within reach on the floor. The pupil near it reached to lift it to his desk when suddenly Millard pulled it away by an invisible cord. The teacher in charge of the room at that time was a pretty girl who asked Millard if he realized that was a child's caper and he replied he did so, she suggested that he take a short course in the primary department which he willingly consented to and she immediately escorted him down there. He remained a little while enjoying the children's work and was on his way back to the academic room when he met the pretty teacher who confronted him with the question, "Well Millard, how did you like he primary?" "Real well," he replied. "Did you learn anything?" she asked.

"Yes, I noticed all the pupils down there kiss the teacher."—In National Monthly.

One City Where the Nations Are at Peace.

Panama, Sept. 5.—War in Europe has brought to the Isthmus hundreds of reservists of practically all the nations involved, called to the colors from South and Central America, but since the first movement when a few French and Germans obtained passage home, there has been no chance for them to get across the Atlantic. Germans, Austrians, Hungarians, Frenchmen; and Russians, are all making themselves at home in Panama City and Colon.

In one hotel in Panama there are nearly 100 Frenchmen waiting for a ship that will take them home to fight. Close to the table they sit at for meals, is a table surrounded by 25 Germans, equally anxious to be available. The French will have no vessel in port for a long time. Germans ships are no longer sailing out of Colon, and the British ships have refused to transport the men, even for double passage money.

Prisoner in Four Jails in Period of Three Days.

Webster, S. Dak., Sept. 5.—Confinement in four jails in three days is the record established by Henry James, a thief, who was lodged in the city jail here by Marshal Chaddock on a charge of stealing shoes and an overcoat. James was discharged from jail at Mitbank early in the week, but followed up his arrival at Waubay with a theft that landed him in the cage there. Pleading guilty to the indictment here, he was transferred to the county jail for thirty days.

Tired of War?

A beautiful quiet Sabbath morning, and pleasant labor to do the ordered corners of the vineyard. There is walking together to the kirk in a goodly company. Praise any prayer, edification and instruction; and in the intervals pleasant paths for the exploring, prospects swelling with beauty, books to be perused in the running brooks, sermons to be had from stones.

There are the woods, God's first temples, in which to pass a contemplative hour. There are the fields, rich laden. There are copses with their leafy grottoes of deep green shadow. There is the broad picture spread by nature, done in the full strength of her summer palette, the season's masterpiece, soon to be painted over with gorgeous autumnal scheme. And over it all, crowning it all, the benediction of peace.

Tired of war? Then rest from war and the thought of war.

Got the Florist

MRS. PRESCOTT had just heard of the illness of a dear friend. She was about to leave town that morning for an extended trip. There was no time to call. Turning to the telephone, she got the florist and ordered a choice selection of roses sent with her card to the address of the invalid.

Without the telephone she would have been unable to do this little act of kindness.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

Farm Demonstration Work for the Negroes of the County.

The authorities for the Federal Government offer to put a demonstration agent in the county to work among the negroes. Rev. S. G. Walker, who has been a first class teacher of the county for nearly forty years, has been largely instrumental in bringing the above work to the negroes of this county. He has accepted the position of Demonstration Agent, and will at once proceed to organize the worthy or more progressive class of negro farmers in the several sections of the county, for the purpose of developing a more correct knowledge of the principles underlying successful farming. Through addresses and lectures, at stated times during the year by competent men. His work will also be by personal visitations to one or more negro farms in each of the different sections of the county, where real demonstration work will be done for the benefit of the negro farmers of those respective communities.

He wishes to have the hearty co-operation of the progressive class of negro farmers. And that he may be able to have a creditable exposition arising from the products of this work in the latter part of 1915. And that the possibilities of a comfortable living from the products of a small farm may be fully proven.

The interested negro farmers will be required to pay an annual membership fee of one dollar, which will be to supplement the demonstration fund and used for carrying on the work in the county. The money thus paid will be turned over to County Treasurer subject to drafts drawn by the County Superintendent of Public Education for Alamance County; in the interest of Negro Farm Life Work of County.
