

# THE TWICE-A-WEEK DISPATCH

A PROGRESSIVE REPUBLICAN NEWSPAPER DEVOTED TO THE UPBUILDING OF AMERICAN HOMES AND AMERICAN INDUSTRIES.

BURLINGTON, ALAMANCE COUNTY, NORTH CAROLINA, TUESDAY, OCTOBER 13, 1914.

## ALAMANCE COUNTY VOUCHERS GOING TO PROTEST.

Alamance County vouchers, given by order of the Board of County Commissioners for wares, goods, merchandise, and labor performed, are going to protest because there is no money with which to pay them. Every voucher that is protested for non-payment bears an extra dollar and fifty cents besides its face value. The tax payers are not only having to pay the face value of these vouchers, but a dollar and sixty cents extra, and what is the cause. The present county administration has run the county in debt, until there is no money with which to pay these vouchers. The banks and merchants of the county will not even take them. Democratic merchants, if you please refuse them along with Republicans and Progressives. They will not bring face value. Those who have them and they are numerous, cannot get rid of them, they will not even buy cotton, the most despised commodity in this year 1914. IS IT NOT A SHAME THAT A RICH COUNTY LIKE ALAMANCE has its county vouchers hawked about by note shavers, all because they will not bring face value, Men, Tax Payers, Voters, What are you going to do about it. This is no campaign lie, this is no radical lie, this is no political lie, this is the naked truth. This condition can and will be testified by the Democrats, honest Democrats if you please, men who would not have believed this condition existed unless they themselves had seen and know of it. In fact they are the ones that hold these vouchers, we have seen the protested and refused vouchers, they bear the signature of the Clerk to the Board of County Commissioners, the name of the register of deeds, if you please, and yet they are not worth face value. What would the people say if this happened under a Republican administration? What are they going to say and do now? It is up to them. There should be action, quick action. This condition should not be allowed to exist, it must not exist. There is a remedy. Will you apply it. The remedy is at the poll, to which party will you give it?

### WARNING TO TAX PAYERS.

I understand from a reliable source, that our county has a very large outstanding floating debt, probably more than sixty thousand dollars, the interest alone would be three thousand and six hundred dollars per year. From my understand of the county exhibit published in a county paper for the year ending November 3rd, 1913, there has been the awful sum of one hundred and seven thousand dollars worth of bonds issued in the last ten years by the Board of County Commissioners, without submitting the question to the vote of the people or tax payers, in fact I do not believe that there is twenty-five people in the county that knows this has been done, and yet it has been done, and your property and mine is called upon to pay the sum of five thousand six hundred and thirty five dollars every year upon these bonds in interest. Add to this the three thousand and six hundred dollars interest upon the sixty thousand of floating indebtedness, and you have the grand total of nine thousand two hundred and thirty-five dollars in interest money that you and I have to pay from our hard-earned money, earned by the sweat of our brow by going from early morning until late at night in all kinds of weather. People, tax payers, do you catch this. What are you going to do about it? Another ten years of such extravagance and inefficiency and our county will be bankrupt, it is upon the verge of it now. This amount does not include the two hundred thousand dollars of supposed good roads bonds, the interest upon which is another ten thousand dollars per year. The tax payers of this county, (you and I) paid out for interest upon borrowed money and bonds during the year 1913, the huge sum of nineteen thousand dollars. Does this not stagger you, and right now in my opinion the present county administration is planning to have the Legislature authorize another bond issue of at least a hundred thousand dollars in bonds without submitting it to a vote of the people. The last hundred and seven thousand dollars in bonds was authorized by the legislature, a Democratic Legislature at that, and they will do it again, if the present Democratic ticket is elected. Friends, Tax payers, you must wake up, it will be too late to lock the stable after the horse is stolen. Let's get busy and put a stop to this high-handed method of running our county in debt without our knowledge and consent. Every dollar worth of property in this county is bound for this debt. This debt is a lien or mortgage upon your property and mine until every cent of it is paid. There are many other things going on in this good county, just as bad as this, but I have not the time to call your attention to them, but wake up, be alert, ask about these things, there are others that know about them. Look out for your interests. Ask yourself this question: Why will not the men who I helped elect to office as my representatives tell us how the county finances are, Why do they try to keep it a secret? When you have asked yourself this question, there can be but one answer, and it is this, conditions are so bad, that they are ashamed to tell the true condition. Are you willing to re-elect the men who are responsible for these terrible conditions, and me thinks I hear a thundering No.

Respectfully,

H. T. KERNODLE.

We learn that Mr. H. Curry Walker is making an aggressive campaign for the position of high sheriff of Alamance county. He is running upon the independent Democratic ticket, steering clear of factions, cliques, rings, and other entangling alliances, if this kind of candidate suits you, give him your support.

The county candidates will open the campaign at Hornadays store, Pattersons township, next Thursday, Oct. 15th. Let everybody voter and tax payer come out and hear the war discussed.

**Caswell Convention.**  
The Republicans and Progressives of Caswell country are called to meet at Rascoe's Store Saturday October 17, 3 p. m., for the purpose of deciding as to the advisability of putting out a county ticket to be voted for at the coming election. If it is decided to nominate a county ticket, the ticket will be named at this meeting. Let everybody who is opposed to the Democratic county ticket in Caswell county come out to this convention, the convention will be held rain or shine, everybody welcome.

W. FLOYD DAVIS, Chmn.

### REPUBLICAN CANDIDATE FOR TREASURER.

A Brief Story of the Life and Activities of Charles B. Way, the Republican Candidate for Treasurer of Alamance County.

There is perhaps no citizen in Alamance County that is more worthy and deserving of recognition from the voters in the matter of bestowing positions of public trust than the subject of this sketch—a self-made, Christian young man, who has been honored with the Republican nomination for the office of Treasurer of Alamance County.

CHARLES B. WAY,  
Burlington, N. C.

For the information of the voters of the county, we are pleased to give the following brief history of our young candidate for Treasurer:

Charles Bunyan Way was born in Chatham County, two miles east of Liberty, N. C., May 20, 1889. He is a son of William F. Way, who died several years ago. His parents moved to Randolph County when he was about six years old, where he spent the earlier part of his boyhood days, working on the farm in the spring and summer months and attending a district school during the winter months. In 1901 his parents moved to Burlington, and he began working in Aurora Cotton Mill.

In 1910, after having been a faithful and persistent employe in the cotton mill for more than nine years, his actions indicated that he had an ambition to make a success in life. He realized that the door of opportunity was open to him, and began seeking a better position in life. He left the cotton mill and entered the printing office where he made good as a sober, honest and efficient printer. The next door of opportunity that opened to him was the postal service. He was given a position in the Burlington postoffice and worked there several months. Later he became an employe of the Greensboro postoffice, serving in the capacity of city mail carrier for awhile.

In 1912 he realized that his limited educational training was not sufficient to make a success in the activities of life, so he re-entered the school room. Having spent the greater part of his youth as a wage-earner, assisting his parents in making a living, he was confronted with the task of obtaining a better education himself, without the aid of anyone. So with an unflinching ambition he made the venture of accomplishing his purpose under such unfavorable circumstances. Possessing a spirit of perseverance, he worked his way through school for two years, and has acquired a fairly good education.

The commercial and political conditions in this 20th century are such

that require the best type of men to fill the positions of public trust and to administer the affairs of county, state and national government; men who are morally clean, honest in their dealings with their fellowman, and possess a spirit of patriotism, loyalty and unswerving devotion to the cause of human progress and the development of Christian civilization. The Republican party of Alamance County recognized these noble traits of character in the person of Charles B. Way when it was seeking for a suitable candidate to place upon its ticket for the office of Treasurer.

Mr. Way is a Christian young man, and is a consistent member of the Methodist Protestant Church at this place. He has been very active in church and Sunday-school work during the past five or six years. He is one of the officials of his church, holds the office of Treasurer of the Baraca Class of his Sunday School, and is Chairman of the Burlington Township Sunday School Association. He is identified with two fraternal organizations, the Modern Woodmen of America and the Daughters of Liberty, holding an official position in the former.

The Dispatch is glad to commend to the voters of Alamance County such a noble, deserving and efficient young man as Charles B. Way for the office of Treasurer, and asks for him the support of every citizen in the county in the coming election.

### Announcement.

I desire to announce to my many friends in Alamance County, that I am a candidate upon the Republican ticket for the position of Register of Deeds. And I will appreciate any support you may see fit to give me. If elected I promise to make public all matters pertaining to the county finances, and all other matters that will be of interest to the voters and tax payers of the county. I am accepting this nomination with full knowledge of the salary attached, and if elected I will not take advantage of any technicality to increase my salary above the amount allowed by law. I shall administer the office in the interest of the tax payers and do all in my power to give entire satisfaction. Thanking you in advance for your support I beg to remain,

Gratefully yours,  
W. ROSS FRESHWATER.

### Exports of Cotton.

Reports received by Secretary McAdoo indicate the continued and further opening of the cotton export trade. During the week ended October 1, 74,438 bales of cotton were exported from this country. It was scattered to many lands, including England, France, Spain, Italy, Denmark, Greece, Holland, Japan, Portugal, Mexico and Eastern Africa. The exportation by ports was as follows: Boston 190 bales, New York 3,610 bales, Philadelphia 1,000 bales, Pensacola 320 bales, Charleston 1,250 bales, Savannah 16,000 bales, New Orleans 6,789 bales and Galveston 45,319 bales.

**Editor's Note.** We are told the reason that cotton is so low is because there is no demand for it, and therefore there is no demand for it, read the above and see if you believe the war is responsible. It would seem our foreign friends are still taking a great deal of cotton. The reason why cotton is so cheap, is because our own mills are either shut down or running short time. Start up our own mills and they will consume our cotton at a fair price. Open the mills should be the slogan of the cotton farmer.

If you are a Republican or Progressive and live in Caswell county, attend your county convention at Rascoe's Store next Saturday, October 17th, at 3:00 P. M.

### OWEN PLEADS TO ALL ILLINOIS-ANS TO BACK ROBINS.

Oklahoma Senator, a Democrat, Denounces Sullivan and Sherman.

### LETTER GIVES REASONS.

Washington, Oct. 8.—United States Senator Robert L. Owens, of Oklahoma, strong supporter of President Wilson's progressive policies, in a letter to Raymond Robins, made public today, sets forth the reasons why he as a Democrat will support Robins, a progressive, and actively opposes the candidacy of Roger Sullivan, the Democratic candidate for the Senate from Illinois.

Writing as president of the National Popular Government League, a non-partisan organization, Senator Owen severely arraigns Sullivan as a conspicuous opponent of the initiative and referendum and other popular government principles, a bipartisan boss who secured his nomination by the influence of vicious political methods and the expenditure of his behalf of enormous sums of money, and as having no right to ask votes even on the ground of party regularity.

The letter also arraigns Senator Sherman, the Republican candidate, as an enemy of popular government, backed by the special interests.

### URGES SUPPORT FOR ROBINS.

Senator Owen calls on all progressive Democrats as well as Republicans to support Robins, whom he commends as an able champion of popular government and a man whose character and capacity should commend him to the citizens of Illinois. The senator's letter follows:

"United States Senate, Oct. 5.—Raymond Robins, Chicago.—My dear Mr. Robins: The National Popular Government League of the United States, through its executive council, has advised the friends of popular government to support you for the United States Senate in Illinois against Sullivan and against Sherman. I heartily approve this action.

"You have greatly distinguished yourself in your constant efforts to serve the people. You have shown your great sympathy with the working poor and your active interest in establishing honest government. You were the most notable advocate of the initiative and referendum and corrupt practices act in Illinois. I fought by your side and I know.

"I am not supporting you because of a party badge, but because I know the doctrines you stand for and that you will support the principles of good government and that above all you are strongly opposed to commercialized politics and bipartisan corruption which has humiliated the great state of Illinois in the past.

### ATTACKS SULLIVAN AND SHERMAN.

"I oppose Mr. Sherman on the Republican ticket because he opposed the initiative and referendum in the Illinois legislature in 1911 and because his affiliations do not justify the hope that he could be relied upon, as you can be, to fight for the public welfare and oppose the selfish interests that have indirectly contributed money to his campaign.

"I am opposed to Mr. Sullivan because I believe:

"That he typifies bipartisan, commercialized politics in Illinois as much as Penrose in Pennsylvania or Murphy in New York;

"That he is responsible for the present jokers in the Illinois primary law, which kept thousands of Democrats from the primaries which prevent the secrecy of the ballot, and enable machine methods to be successful in such a primary;

"That his success at the primaries

(in which he was nevertheless defeated in more than two-thirds of the counties in the State) was due to men associated with corporation interests behind him in Chicago, with the gas companies, public utilities companies, liquor interests, and the unwarranted use of money throughout the State.

### CHARGES UNION WITH LORIMER.

"I believe that the affiliation of Sullivan's supporters with the Lorimer supporters and the support of Sullivan by the Republican papers in Illinois caused Sullivan to receive thousands of Republican votes, influenced by the bipartisan machine;

"That Sullivan and Lorimer worked together in accomplishing results through their strikers and supporters in the Illinois legislature;

"That Sullivan's supporters were jointly responsible for the defeat of the initiative and referendum, for failing to pass a corrupt practices act, OWEN GAL TWO, and for selling the senatorship to Lorimer.

"I am opposed to Mr. Sullivan not only because I believe his nomination was obtained by fraud—by less than a majority of the votes cast and less than a third of the normal Democratic vote—but because I think Mr. Sullivan has never in an affirmative way properly shown his appreciation of good government.

"ROBERT L. OWEN."

### Wilson Opposes Federal Loan to Cotton Farmers.

Washington, Oct. 9.—Official announcement was made at the White House today that President Wilson approves the plan to adjourn congress as soon as the war revenue bill is passed.

The President is interested in the cotton situation, but the intimation at the White House today was that he opposes the plan agreed on last night at a meeting of Southern members of congress for a bill to have the federal government loan \$250,000,000 through banks to cotton planters. The President is said to believe private bankers, with the treasury support, can relieve the situation.

Representative Underwood was at the White House today and agreed with the President that adjournment can be taken as soon as the war tax bill is passed.

Of course he does, do you think he would enact legislation to ruin them, and then loan them money to get out with, nay, nay, pauline. That is not Democratic policy. Once they get you down, they keep you down! How much longer will it take to teach our farmer friends who are their friends and protectors? When the Democrats are in power cotton sells for six and seven cents, when the Republicans are in power cotton sells for ten to fifteen cents. Now, who is who.

Four hundred and eighty six dollars spent by your county board last year for auditing the county officers' books, and yet you cannot tell or do not know how much saving is effected by the adoption of the salary system as against the fee system. How much more did you have to spend for a county audit before you can tell where we stand? All of us want to know. Tell us please.

It is high time our tax payers were sitting up and taking notice of our county financial affairs. They are in bad shape in deed. If you want to leave any of your property to your posterity, better wake up. Every dollar worth of your property is bound for this county debt. It can be sold from your children to pay these debts. What are you going to do about it. There is only one remedy. Your ballot at the polls. To whom will you give it?

IN THE GARDEN OF GETHSEMANE.

MARK XIV. 32-42.

32 And they came to a place which was named Gethsemane: and he saith to his disciples, Sit ye here, while I shall pray.

33 And he taketh with him Peter and James and John, and began to be sore amazed, and to be very heavy;

34 And saith unto them, My soul is exceeding sorrowful unto death: tarry ye here, and watch.

35 And he went forward a little, and fell on the ground, and prayed that, if it were possible, the hour might pass from him.

36 And he said, Abba Father, all things are possible unto thee; take away this cup from me: nevertheless not what I will, but what thou wilt.

37 And he cometh, and findeth them sleeping, and saith unto Peter, Simon, sleepest thou? couldest not: thou watch one hour?

38 Watch ye and pray, lest ye enter into temptation. The spirit truly is ready, but the flesh is weak.

39 And again he went away, and prayed, and spake the same words.

40 And when he returned, he found them asleep again (for their eyes were heavy,) neither wist they what to answer him.

41 And he cometh the third time, and saith unto them, Sleep on now, and take your rest; it is enough, the hour is come; behold, the Son of man is betrayed into the hands of sinners.

42 Rise up, let us go; lo, he that betrayeth me is at hand.

THE AGONY IN THE GARDEN.

The agony of our Lord in the garden is one of those events in his life which it is impossible for us to explain. It is easy to ask the question why our Lord should suffer, but none of us can fully answer. Questions of a speculative character are entirely out of place in the presence of the sorrow which bowed our Lord to the earth. We can only draw near with reverent faith and meditate with profound thanksgiving upon that which our Lord endured for our sakes. Nothing in the life of Jesus, except his death, draws him nearer to mankind than his agony in the darkness of the night, when he prayed alone in the garden. Whatever else we may wish to know, this was certain, that our Lord craved human sympathy and his Father's presence. Whatever we may fail to understand, of this we may be sure: our Lord and our Master was

in deepest agony, and his sufferings in some marvelous manner are for the good of our spiritual life. The frame of mind that most becomes us as we study this lesson is one of devout, humble meditation.

A RETREAT FOR PRAYER.

Some time about midnight, when our Lord had finished the Passover supper and the discourse with his disciples, he left the room of his friend in the city of Jerusalem and went to a retired place where he might pray. It is probable that he left the upper room because he did not desire to be disturbed at this moment of communion with the Father. He doubtless knew that Judas had been in consultation with the rulers of the people as soon as he left the meeting place with the disciples. In the quiet of the night, therefore, the Lord passed through the silent streets of Jerusalem and crossed over the brook Kedron and entered into the deep shades of a garden called Gethsemane. The name "Gethsemane" means a wine press and was applied to the inclosure on one side of the Mount of Olives, which in all probability belonged to a friend of the Lord and his disciples. Our Lord was accustomed to withdraw to this quiet place for prayer and meditation, and it was therefore a place of sacred memories both to him and his intimate friends. He left eight of his followers soon after entering the inclosure and said unto them: "Sit ye here while I go yonder and pray." He took with him Peter, James, and John and went farther into the shadow of the trees. It is evident that his heart was craving the sympathy of his friends in the hour that had now come upon him, and yet even the three most intimate friends out of the little group were unable to enter wholly into the mysteries of that solemn hour.

THE MASTER'S SORROW.

Leaving his friends—Peter, James and John—he went forward about a stone's cast, and there he knelt down and prayed. It is said that he was sorrowful and sorely troubled. The word "sorrowful" is not sufficient to explain the depths of his agony. He was "greatly amazed," as one of the evangelists describes, who seems to indicate by that term that the terrible ordeal was almost overwhelming and even to the mind of Christ was difficult to be borne. He said: "My soul is exceedingly sorrowful, even unto death." That dreadful amazement and that crushing sorrow were not produced by the fear of approaching death, for the thought of death had been present with Jesus for many months. He had made frequent and unflinching references to this ordeal in his conversations with his disciples and he was not the spirit now to be alarmed simply because he saw death approaching. Neither was his agony produced by the treachery of Judas, although that experience entered very deeply into his heart of love and devotion to his followers. The great sorrow that now bowed him down was the fact that sin and treachery and the awful fate of the world had collected upon his own soul, and he was the victim of the whole world's wickedness. He was absolutely without sin, and he loved the world with a devotion that no son of man ever before offered or had ever been capable of proving. But his life of love and unceasing labor for the benefit for the world has been misconstrued, and both his own suffering and his revelation of the Father had been rejected, and there were none who were worthy to receive his gift of life. It was the

world's degradation and woe that pierced his heart and caused the amazement and great sorrow which now overwhelmed him. Such grief as the Lord expressed could be felt only by one who loved perfectly and coped continually and labored unceasingly. And yet he found the world unresponsive, uninterested and having the thing that promised the greatest blessedness. Surely in this sad hour he trod the wine press alone. Not even his three most intimate friends were able to enter into the fullest sympathy with their Master in this hour of trial. The boastful Peter and the loving, loyal John and James were sleeping. They were able to endure a certain amount of their Lord's sorrow, and then sorrow itself became a burden, and they went to sleep.

THE PRAYER OF THE LORD.

The hour was midnight, the garden was still, the full moon was casting dark, heavy shadows through the olive trees. The disciples slept, and the distant city was silent, and the light of the houses where the Passover supper was observed had all gone out. Alone in the great world, the Master prayed. He said: "O my Father, if it be possible, let this cup pass away from me; nevertheless not as I will, but as thou wilt." Whatever may be meant by the cup, it evidently meant the sorrow and woe through which the Lord was now passing, the final result of the sin of the world which he was now draining to the bitter dregs.

We cannot wonder that the Lord prayed that it might pass and some other way be found by which his kingdom of love and peace and good will might be established upon the earth; but in his prayer he brought his will into complete subjection to the will of the Father, and in that act the supreme victory was achieved. The strength of his life was that he had always done the things that were pleasing to his Father. The will of God in his life was the most real and the most powerful of all things that he had felt and desired. This prayer of our Master has come to be the prayer of greatest comfort and greatest support to sorrowful souls in the world's struggle. Who can lastly they are able to say, as the Lord said, "Nevertheless not as I will, but as thou wilt," the final victory is not very far off.

THE SLEEPING DISCIPLES.

Jesus returned to the place where he left Peter, James and John and found them sleeping, and he said unto Peter: "What, could you not watch with me one hour? Watch and pray, that ye enter not into temptation: the spirit indeed is willing, but the flesh is weak." Then he left them and retired again for prayer and came again and found them sleeping. He left them and the third time prayed. Then, after the space perhaps of an hour, he came to them and said: "Sleep on now, and take your rest; behold, the hour is at hand, and the Son of man is betrayed into the hands of sinners." At that moment Judas and a cohort of Roman soldiers were coming with a great rabble and had already entered into the outer limits of the garden. They said Jesus as he aroused his disciples: "Rise, let us be going: behold, he is at hand that doth betray me."

LESSON QUESTIONS.

At what time did our Lord enter the Garden of Gethsemane? Where was this garden located? Why do you suppose the Lord sought

this place at this hour of the night?

Explain why he took three of his disciples into the recesses of the garden with him.

What words indicate the Master's supreme agony and distress?

Why did he endure such grief?

What prayer fell from his lips?

What was meant by "this cup"?

How did he show his submission to the Father's will?

What were his words to the sleeping disciples?

**NEW YORK FASHION LETTER**

**Military Effects in Costumes—Combinations in Fabrics.**

New York, Oct. 10.—Naturally costumes designed under such warlike conditions as those which have existed in Paris, the last few months, cannot fail to reflect the spirit and thought of their creators.

In the gowns which have reached us since the mobilization of the army, military effects are supreme.

A great deal of infantry red is used in these gowns, blue, dust brown, and a new gray, which has been created and aptly named "battleship gray." This gray is the shade that warships are painted when in active service. It is a color which blends with the atmosphere until before the observer knows it the ship has faded into the color of the fog and of the sky and can be seen no more.

On many of the gowns designed for Americans the brassard appears upon the sleeves. It is not applied but is a strip of cloth inserted between the upper and lower part of the sleeve on which a conventionalized symbol is embroidered in self color, gold or multicolors.

Panne velvet is being used for evening dresses, for suits and for trimming purposes. It comes in all the known colors. One of the most fashionable shades at the present time being salmon pink. Even the brilliant infantry red is reproduced in this fabric and looks most striking worn by the woman whose complexion will allow such a brilliant and trying color.

Many evening gowns are shown in black relieved usually by a brilliant sash or a vivid flower.

Cloth of gold and cloth of silver are in the heyday of fashion, either made into entire costumes or used in conjunction with yellow, pink, green, black or red. A stunning evening costume which reminded one of the draperies of classic Greece, was made of one entire length of cloth of silver, wound around the figure and up over one shoulder in a most graceful fashion. The only relief from the gray coldness of the silves was a cascade, sliding from pink into red.

Correct Street Suit in Which Striped and Plain Serge is Combined and Trimmed Effectively with Persian Lamb Cloth.

Although skirts are widening the tight underskirt, beneath a tunic of ample width, still continues to be seen. I saw a smart afternoon dress a few days ago, worn by a charming young woman. The basque waist was of black satin wrinkling over the hips, with a collar high in the back held in place and tied high around the neck by a black velvet ribbon. The skirt was of black satin and clung closely to the figure. Over this was worn a redingote tunic of craquele net edged with a deep band of satin ribbon. This tunic floated away from the figure giving a breezy effect to the costume and the skirt glimmered through the sheer net in a fascinating manner. A charming little Cossack hat of black velvet was perched slightly on the side of the head, on which an American beauty rose was laid carelessly on the side, a little to the back. New indeed, is the smart illustra-

tion. The coat is of velvet, with collars and cuffs of imitation Persian lamb. The lower portion is cut away, square, in the front, giving an especially smart air to the coat. A skirt of striped serges are soft in color and are very serviceable, as well as stylish, for the separate skirt to wear with shirtwaists or blouses.

Plaids, in the same soft and shadowy colorings are, also, shown and are most attractive. These combine stunningly with a corresponding plain color.

Wonderful evening wraps were designed in Paris just before the mobilization of troops, and in them are reflected the sumptuousness of the Middle Ages. Wonderful satins and velvets are embroidered, or brocaded, in devices worn on the garments of the crusaders and the robes of the clergy.

A magnificent wrap of cardinal red velvet had large collar and cuffs of sable, rich in its barbaric luxuriousness, with a cape-like panel, rounded at the bottom, falling from under the collar almost to the bottom of the wrap. This cape was divided into four parts through the center, somewhat like a crusader's shield.

**DANIELS IS STRONG FOR STATE-WIDE AND AMENDMENTS.**

**Will Do Everything in His Power for Their Adoption. The Reforms Are Necessary.**

Washington, Oct. 6.—"I am not only for the Constitutional Amendments and the State-Wide Primary but I will do everything in my power to have each and every one of them adopted," said Secretary of the Navy Josephus Daniels tonight when told that a North Carolina newspaper had intimated that he was supporting the measures only half-heartedly. "My only regret," said Mr. Daniels, "is that I cannot go to North Carolina, get into the thick of the fight and make speeches in every county in the State for their adoption. I cannot believe the people of the State will fail to vote for these necessary reforms nor that the Legislature will fail to ratify them at its next meeting. I am with the committee appointed at Raleigh a few days ago. When I was in Raleigh I conferred with this committee and they know that I am with Clarence Poe, Governor Craig, Walter Hildebrand and the other members of the committee who are helping to do this great work." Secretary Daniels reminded your correspondent that the State only recently had been compell-

ed to issue bonds in order to carry on its business. "That kind of a thing cannot last," declared Mr. Daniels.

Mr. Daniels has thrown the columns of his paper open to the work being conducted by the Raleigh committee and he is doing everything he can to help the cause. He is positive, also that the amendments and the primary law will be enacted.

Senator Overman tonight arranged for a conference tomorrow for the two Senators and the members of the State delegation with President Wilson to see what can be done for the relief of the cotton people of the South. It is probable, however, that the cotton subject is already settled. Secretary McAdoo and members of the Federal Reserve Board intimated strongly tonight that the plan suggested by Festus J. Wade, of St. Louis, was not only feasible but that it would have their hearty approval. Mr. Wade's Plan is to raise \$150,000,000 through the banks of the entire country. The banks will not buy the cotton but this fund will be set aside and money loaned on cotton at 6 cents a pound. This, it is believed, would settle the whole question. It is thought too that the Federal Reserve Board and the Secretary of the Treasury will aid the plan by placing deposits in banks to take care of the situation.

Representatives Page and Leves called on Postmaster General Burleson today and urged him to use cotton twine in the postal service instead of jute. Millions of pounds of twine are bought by the Department every year. If understood cotton twine can be furnished cheaper and the Department has already asked for bids.

Plans which Postmaster General Burleson put into effect today in the cities of use sweeping changes in post offices in North Carolina. The new plan went into effect at the Washington office today. It called for the demotion of a number of employees, including the assistant postmaster. It is said that when the plan goes into effect in the smaller cities that the assistant postmaster at Greensboro, Charlotte, Wilmington, Raleigh, Asheville and several other cities will be abolished. It is also planned to demote some of the clerks drawing high salaries. The move is both in the interest of economy and more efficient service. While none of the North Carolina offices were named in the list issued today high officials of the Department here say that it is certain to be applied to such of

these towns as the Department thinks advisable after an investigation.

**Not Proud of It.**  
No honest man, in the opinion of the Democratic handbook, can oppose the plan of taxation laid down there. That plan is word for word the present constitutional provision as to taxation, which the last Democratic legislature proposed to abolish. Or is apt to gather the impression that the makers of the handbook are hardly proud of the record of the last Democratic legislature.—Greensboro News.

**How Do You Stand?**  
We have it upon pretty good authority that a certain corporation doing business in a certain city in North Carolina capitalized a stock representation of twenty-seven million dollars. This concern pays taxes on three million dollars. It works 9,000 hands and those 9,000 hands pay a tax including their \$2.00 tax as poll tax that is greater than the concern pays on their twenty-seven million dollars. Is it right, ask the politicians who are interested in the money contributed by corporations for political purpose. There is a large mill interest in an other city, whose holding amount to fifteen million dollars, who only pay tax on one million this thing is prevalent all over the State. If we get the right kind of an amendment to the Constitution, it will have to end.

We are told that you can get a barrel of apples from New York that has been shipped from Mt. Airy, for less money than you can buy those apples from Mt. Airy and have them shipped to the eastern part of the State. How about it Governor Craig, has your committee correctly reported on the situation. It is time the people were finding out what side their prominent politicians were on. Are they with the people or corporate interest, some one should be made to speak out.—McBane Leader.

The maxim that "honest is the best policy" is one which perhaps no one is ever habitually guided by in practice. An honest man is always before it, and a knave is generally behind it.—Whately.

If the cotton mill men of this state actually believe that the Democratic tariff bill is responsible for the depression in their business the thing for them to do next time is to vote the straight Republican ticket.

**AID THE KIDNEYS.**  
Burlington Sufferers Should Take No Further Risk.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor—why allow themselves to become chronic invalids, when a tested remedy is offered them? Doan's Kidney Pills have been used in kidney trouble over 50 years, have been tested in thousands of cases.

If you have any, even one, of the symptoms of kidney diseases, act now, for gravel, dropsy or Bright's disease may set in and make neglect dangerous. Can Burlington residents demand more convincing proof than the following? E. P. Land, bookkeeper, 109 Eouth Edgewood St., Greensboro, N. C., says: "Four or five years ago I had kidney trouble. I was often dizzy and nervous. My sight blurred and my back hurt me. It was hard for me to straighten after stooping. Doan's Kidney Pills made me better. I still use them once in a while and they keep me well. I am pleased to confirm the statement I gave some time ago, praising this remedy."

Get at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Land had. Foster-Milburn Co., Props., Buffalo, N. Y.

## Resolutions and Platform Of Alamance County Republicans.

We, the Republicans of Alamance County, in Mass Convention assembled in the County Court House, at Graham, N. C., Saturday, October 3rd, 1914, do declare, affirm and adopt the following resolutions as our party platform, and pledge ourselves, if returned to power in this county, that we will use our best endeavor to have the same enacted into law, and that we will faithfully keep this covenant.

1st. We favor the abolition of the office of County Treasury, this office is useless and unnecessary and a heavy burden upon the tax payers of the county. The banks of the county will be glad to handle the County funds free of charge in order to get the county business, thus affecting a large saving to the tax payers.

2nd. We favor the election of the County Board and Superintendent of Public Education by a direct vote of

the people, in this way only can we bring our educational system up to the highest state of efficiency. We believe that every parent should have a voice as to whom they entrust with the care and education of their children.

3rd. We favor a complete reorganization of the county road system, in order that every section of our county may share alike. We are opposed to the warning in system now in effect, whereby some have to work, and some do not. We favor the taxation system under which no favoritism can be shown. We are opposed to listing and collecting the road tax separately and apart from the poll and property tax, but favor the listing of the road tax at the same time and in the same manner as the poll and property tax is now listed, and collecting it in the same way; we favor working all public roads by the contract system, the roads to be laid out in sections of so many miles each, the sections to be let out under contract to the lowest bidder per mile; all contracts to be under the direct supervision of the County Superintendent of Roads, or a competent engineer, said contracts to run for two years with the option of renewal for another two years at the same price, provided the contractor has complied strictly with the specifications of his contract, this provision will be an incentive for the contractor to render good and faithful service in order that he may reap the benefit of his past two years work. We also favor permanent constructive road work by the county convict force, to the end that we may get the full benefit of their upkeep, instead of losing from one to two days work in each week by constantly moving them from one place to another, and in some instances from one remote part of the county to another remote part in the same week, and while it seems to be the general rule under Democratic administrations for laboring men to work only four days or less in the week, we are opposed to putting the county convict force upon this basis at the expense of the tax payers of the county.

4th. We are opposed to the extravagant and inefficient management of our county affairs, whereby we are piling up a large and burdensome debt for future generations to pay, we favor a strict economical pay as you go administration and pledge our best efforts to this end.

5th. We are in favor of the greatest publicity in the management of our county affairs, we believe that the tax payers who pay the money to run the county government are entitled to know how the affairs of the County are being conducted, that they should be taken into the confidence of the county officials and fully informed regarding all matters affecting their interests, we are opposed to secrecy and know-nothingism as now practiced by the present county administration, and condemn the present county officials for their unwarranted and high-handed action in refusing to make public the saving effected to the tax payers by the adoption of the salary system as against the old fee system. Their action refusing to make public this information is a reflection upon their integrity, and inexcusable from even a partisan standpoint.

6th. We favor publishing a statement at least once each year showing the receipts and from what source derived of all monies and other property coming into the County Treasury, as well as the disbursements and for what purpose disbursed. This is the only way the tax payers can tell how the financial affairs of the County are being conducted. We condemn the present county officials for their failure and refusal to do this thereby keeping the tax payers in the dark as to the true financial condition of the county.

7th. We are opposed to court house cliques and rings who use the prestige of their official position and patronage to stifle ambition in the young manhood and citizenship of the county, in order that they may not have opposition for re-nomination to their respective positions. This practice is most rampant in this good County of Alamance, and should be discouraged by all fair-minded citizens regardless

of their political affiliation.

If this platform of party pledges and principles appeals to you as being fair, just, and to the best interests of the citizens and tax payers of this county, we ask your support for the party who promulgated them and are in favor of their adoption. The most effective weapon in politics is a vote at the polls, to which party will you give it?

(Editor's Note) Those who favor all or any part of the above, and intend to support all or any part of the Republican County Ticket, will please communicate such intention to The Dispatch, either by mail, in person, or over the phone. All information given will be regarded as strictly confidential.

### TWO STRONG PARTIES NEEDED.

Fair-minded and thoughtful men everywhere agree on the proposition, that in this country two well matched and well balanced political parties are better than just one. This principle applies to the nation and to the States that compose the Union.

About the most determined opponents to the two party idea are the office seeking and office holding politicians. They think that one party is a plenty and that the party to which they belong is the right one.

The South is peculiarly unfortunate in its blind devotion to one political party. Positive misgovernment in States, notably South Carolina and Mississippi, and a lowering of political ideals and a narrowness of political vision have been the natural consequences.

Fortunately for North Carolina political conditions are not as bad here as in some of the Southern States. Although the Democratic party has dominated the State for a great many years, yet its hold has not been and is not now absolutely secure. The Republican party has always been strong enough to inspire some fear on the part of its opponent and to operate as a check on its ambitions. However the Republican party in North Carolina is not as strong as it should be and it will mean the dawn of a better day for our people when it is able to measure swords successfully with the Democratic organization.

Absolutely no good reason exists why the Republican party ought not to grow in North Carolina. Its principles are humane and just and have found favor in all parts of the Union, with the exception of a few States in one-quarter section of it. To say that the Republican party could not successfully administer the affairs of the State is nonsense and slanderous besides. It is inconceivable that if the voters of the State should divide themselves into two groups of about equal strength, that one group would be any better intellectually, or morally than the other or would possess any higher quality of patriotism. The difference between such organizations of voters would be in their political principles and not in the men themselves.

Of course an idea like that just advanced will be bitterly opposed by professional politicians like Senator Simmons, Josephus Daniels, R. B. Glenn and others of that type. Politics is a business to men of this kind and so long as they can control the Democratic organization they will fight desperately any and all attempts to build up an opposition party.

The voters of North Carolina ought to think very seriously of these matters and not allow themselves to be made the tools of a clique of selfish politicians.

### WHAT ARE THE FACTS.

The Greensboro Daily News, a few days ago made the remarkable statement that the cotton mills of the country were in better shape than they had been in a number of years.

It would be very interesting to know on what facts the News bases its assertion. With a number of mills in this State running on short time and some actually not running at all, it is hard to understand how the mill business is in a better condition than it has been in for years. Perhaps here and there some mill may have a fair demand for a special line of goods that it is making but anybody

Did you know that there was issued in 1903 fifty thousand dollars worth of bonds to pay off a county debt contracted by a Democratic administration, did you know that in 1911, there was issued twenty-three thousand dollars worth of bonds to pay off a county debt contracted by a Democratic administration, did you know that in 1912 there was issued fourteen thousand dollars worth of bonds to pay off a county debt, contracted by a Democratic administration, did you know that in 1913 there was issued twenty thousand dollars worth of bonds to pay off a county debt, contracted by a Democratic administration, did you know there has been issued in the last ten years, (count them) one hundred and seven thousand dollars worth of bonds to pay off a county debt, contracted by a Democratic administration? Yes it is a fact, and not one dollar of this amount was voted upon by the people, the tax payers was not even consulted about it, few if any knew of it, and yet it is the truth. Mr. Tax Payer what are you going to do about it, and lastly, did you know that it will take another hundred thousand dollars worth of bonds to pay off the present floating indebtedness and leave anything in the treasury for working capital, you, yes, boy, these do sure be troublesome times for the taxpayers of this grand Old County of Alamance, and all for what, because the people have blindly voted the Democratic ticket, and more blindly followed a set of leaders who have been deceiving them as to the true condition of the county finances. Ever at this date, with your county credit ruined, your county officials, our county officials if you please, will not tell you how your finances stand, and the true condition of your county affairs. What are you going to do, Mr. Tax Payer, wait awhile longer, will do it if you will, but great will be the penalty that you will have to pay, have a house cleaning. If there is no one running for office that you have confidence in, of whom you have confidence in, or whom you think can or will do any better. Call you another convention. Lay these facts before the people, and nominate you a ticket, whom you can trust, and who will not deceive you. We tell you in all candor, that the Republican party has men now in the field, who will give you good sound, economical, honest county government. They have done it in the past, they can and will do it in the future, if entrusted with the reigns of county government. Try them, you could not do worse than now. We pledge you that you can do better. Your remedy is at the polls will you exercise it? We shall see.

who thinks that there is a good demand for cotton cloths does not know much about the situation.

Most of the mills have heavy stocks of goods on hand which they have been accumulating for many months and for which there is practically no demand. Senator Overman's assertion in the Senate recently that he owned some mill stock that had paid a dividend is not conclusive evidence that they are making money. Has the Senator ever heard of its surplus? A few years ago a well known cotton manufacturing concern in this State went all to pieces and yet it had paid dividends right along on its stock. The cotton mill business may improve, we hope it will, but it is far from being in good shape now.

The war has now only been on for about sixty days, and a great many mills have started up on full time since the war broke out, yet the war is said to be responsible for the hard times. Glencoe, Carolina, Alamance, Belmont, Elmira, Glen Raven, Lakeside, Oneida, Travers, and all the mills at Haw River, besides many more that we cannot recall to mind just now were only running three or four days in the week before we ever heard tell of the war, and some of the mills were standing all the week, yet we are told that the war has played havoc with the cotton mills of the country. Nonsense, pure nonsense. The Simmons-Underwood Tariff Law is responsible, and it is an insult, and a gross prevarication to say that the war is in any way responsible. Should any of the mills have to shut down for want of dyestuff, which we do not think they will have to do, then you can lay it upon the war. But you cannot fool the intelligent voters of this country with the war, war, war.

If you are satisfied with the way your county affairs are being conducted, if you do not want to know anything about the county indebtedness, and don't care how high your taxes are raised, then vote for the present county officers, but if you are not satisfied, and want to know all about how your county affairs are being conducted, and how much your county is in debt, and if you do not want your taxes raised any higher, then vote for the Republican candidates. They are pledged to a strict economical and progressive administration, and can be depended upon to carry out all their pledges.

### VOTE FOR YOUR INTEREST.

What earthly reason can there be for anybody in a manufacturing county like Alamance voting the Democratic national ticket is hard to see. Low tariff or free trade may be of some advantage to a strictly agricultural country that does not have to raise anything in competition with foreign countries, but it certainly is

bad for a manufacturing community. Ever since the Democrats began working on their tariff bill in Congress business has been declining until today it is just about on its last legs. This country cannot successfully compete with the poorly paid labor of Europe and the Orient.

The Democrats say the war is responsible for the hard times; really the war is an advantage to them for they have something to put the blame on instead of on themselves where it belongs. The Simmons-Underwood low tariff had begun to do its damage long before the war started.

Our merchants tell us that owing to the war, their customers will not pay their accounts. Pay up gentlemen and relieve the situation, so far as the war is concerned you need have no fear, if nothing interferes with your job more seriously than the war you need not be afraid. The war is more than ten thousand miles away, and this country is not involved. We could not possibly get into it without hitting in. No nation is rearing to whip up, it will be time enough to hard your money when we get into the scrap.

The United States is the only manufacturing country in the world today which is not at war with some nation, and yet we are told that the war has ruined our business. If not being at war with any nation has ruined our business, suppose we get in the scrap, and let's see if we cannot get our business back. We had just as soon be killed in the war as to be slowly starved to death. What say you fellow Americans.

The Democrats have opened up county headquarters in the Hay building formerly used for the Gem theater if you are in doubt about what is the matter with the country, call to these headquarters and learn how the war ten thousand miles or more away and in which we are in no way involved has ruined the country.

Do not forget to attend the Caswell County Republican Convention next Saturday, October 17th, at 3.00 p.m. at Rascoe's Store, matters of importance will be discussed at this meeting. Let everybody attend and give the meeting the benefit of their presence and advice.

Read the card of H. Curry Walker independent candidate for sheriff, which appears in this issue, if what he says meets with your approval, give him your support, he will appreciate it, get busy there is something doing.

### THOS. C. CARTER.

Thomas C. Carter, of Mebane, Nominated for General Assembly on the Republican Ticket.

Thos. C. Carter, a young and promising attorney of Mebane, was nominated for the General Assembly by the Republican Convention on Oct. 3rd, 1914, at Graham, N. C., to represent Alamance County.

We are more than gratified at the action of our party when they select such men of ability, integrity, high moral character and who hold their citizenship on such a high plane as Thos. C. Carter, of Mebane, and his nomination is a prelude of making many a vote, that would have been cast in the manger of the donkey barn, come where it rightfully belongs to the G. O. P. of strength and prosperity.

Mr. Thos. C. Carter was born in Patterson Township, of poor and honest parents, his father left his mother a widow with a large family while young Carter was yet in his teens. The boy Tom as soon as he became strong enough to work, hired himself out doing odd jobs to help to maintain the family. He attended the public school of his district and by constant application and hard study soon became competent to teach school. His manliness in taking care of his mother and younger brothers and sisters and the fervent Christian life that he led, attracted to him many strong friends of an older generation than he, and helped him to enter the profession of law where his tastes called him, and he graduated from the University of N. C., in 1913. He then located in Mebane to practice law and where ever since he has resided, gaining the respects of all and making rapid strides in his profession.

Mebane and Alamance County should be proud of having Thos. C. Carter as a citizen, and producer that he has been chosen as their representative and champion, a herald bearer "without fear and without reproach. Such nominations as that of Thos. C. Carter always means an election for party lines are dropped when candidates of his standing are put forward by a party.

On to victory Thos. C. Carter, for in these days of low price cotton, no money, scarcity of everything, extreme high cost of living, and war taxes, when the country is not at war, we need you!

JAMES D. GREGG, D. D.  
Liberty, N. C.,  
Randolph County.

Let no one deceive you by saying that all is not harmony within the ranks of the Republicans and Progressives. We are all pulling together for the common good of our country and its fair name. Not only this but men of influence in the financial affairs of the county are with us, and you will hear the rattling of the dry bones ere the ides of November are gone. Do you catch this.

#### Fall of Antwerp May Prolong War.

London, Oct. 11.—The Bordeaux correspondent of the Times has sent out the following dispatch: "In official circles here, it is recognized that the fall of Antwerp may prolong the war. The Germans are certain to rebuild the forts, which will become a base for Zeppelin attacks against the British coast. And yet, it is obvious that, under present conditions, the Germans cannot recapture the city by way of the Scheidt river."

"News of lively fighting between Ghent and Permondefi Belgium, where the Allies repulsed 40,000 Germans, indicates the far northward reach of the Allies' lines."

The Daily News' forecast, made up on reports from its confidential agents in every part of the country, is that the farmers will gather a bumper crop of advice this year.

#### An Only Daughter Relieved of Consumption

When death was hourly expected, all remedies having failed, and Dr. H. James was experimenting with the many herbs of Calcutta, he accidentally made a preparation which cured his only child of Consumption. He has proved to the world that Consumption can be positively and permanently cured. The doctor now gives his recipe free only asking two-cent stamps to pay expenses. This herb also cures Night Sweats, Vomica at the stomach and will break up a fresh cold in twenty-four hours. Address: Cresswell & Co., Philadelphia, Pa., naming this paper.

## TO REDUCE COTTON ACREAGE.

Plan is Started in the South to Reduce the Acreage of Cotton as in the Year 1905.

Atlanta, Ga., Oct. 7.—An aggressive movement to bring about a reduction of next year's cotton acreage through special legislation of cotton belt legislatures was started in Texas the week beginning October 5, by leading members of the Southern Cotton Association, which has recently been reorganized, and through the case movement friends to repeat its success of 1905.

The campaign was started in Texas Monday when Harvie Jordan, of Atlanta, president of the association; former Governor Noel, of Mississippi; Walter Clark, of Mississippi; John L. Hebron, of Jackson, Miss., and John H. Cherrard, of Sherrard, Miss., began a tour of the State.

They were scheduled to hold mass meetings at McKinney, Sherman, Dallas, Fort Worth, Waxahachie, Taylor, Paris, Marshall, Henderson, Temple, Waco, Corsicana, and other points. Delegations from those points will later appear before Governor Colquitt and the Texas legislature and urge that the substance of resolutions which appear below be enacted into law.

The Texas campaign will be duplicated in every other Southern State. The association believes that only through legislation can the acreage be reduced. The next State to be visited will be South Carolina, the plan being to work east and west through the belt.

The resolutions upon which legislation will be based, were adopted by the Convention of the Southern Cotton Association at New Orleans on September 29-30. They are as follows:

WHEREAS, The boll weevil, and other pests and diseases have for many years been destructive to the cotton crop in large portions of the cotton producing states, and their continuous spread now menaces the whole area devoted to the cultivation

of cotton, WHEREAS, Owing to the diminished demand for cotton and the increased requirements for food stuffs caused by the European war the planting of cotton for the year 1915 can be largely reduced or entirely eliminated without imposing undue hardships on the cotton growers or extraordinary burdens on cotton consumers, and,

WHEREAS, There is imperative necessity for early drastic action to destroy the boll weevil, and other cotton pests, and

WHEREAS, Great benefits will be derived by the substitution of other crops for cotton during the year 1915, thereby reducing the cost of living, bringing to the farmers the advantages and benefits of crop diversification and restoring worn out lands to their former state of fertility besides greatly enhancing the value of the cotton crop of 1914 by establishing an equilibrium between supply and demand.

THEREFORE, BE IT RESOLVED, That it is the sense of this Convention that it would be greatly to the interest of the cotton growers, as well as of every commercial, industrial and agricultural interest not only of the South, but of the whole country, that the planting of cotton be entirely eliminated or reduced to the minimum during the year 1915.

BE IT FURTHER RESOLVED, That for this purpose the growers of cotton, bankers, merchants and other allied interests in each county, including the Farmers' Union and the Southern Cotton Congress be requested to meet and organize at once (if no such organization exists) in order to give immediate consideration to the foregoing resolution and especially for the purpose of signing binding pledges to reduce their respective planting of cotton 50 (FIFTY) per cent. or more, or to pledge to omit the planting thereof entirely for the year 1915.

BE IT FURTHER RESOLVED, That, in order to insure that no cotton be planted, or not more than 50 (FIFTY) per cent. during the year 1915, the said associations and organizations

request the governors of the various states to convene the legislatures for the purpose of passing uniform laws prohibiting the planting of cotton, or of reducing the acreage to such a point as to eliminate all future damage from boll weevils and other cotton pests as well as to accomplish the many desirable results above enumerated.

BE IT FURTHER RESOLVED, That this Convention recommend and advise all cotton producers, bankers and merchants to co-operate in withholding from sale as much cotton as possible until it can be sold at a price that will give a fair return to the producer.

BE IT FURTHER RESOLVED, That, these resolutions, as well as proceedings of all meetings of associations and organizations held in connection herewith be given the widest publicity by the Press of the whole country.

## Everything But One.

The extent to which the conflict now raging has made Europe dependent on the United States is clearly indicated by the orders of divers and sundry kinds which are being placed in this country. In New York contracts have been awarded for large quantities of shoes, blankets and bridles and saddles; while the Bethlehem Steel Company is reported to be working day and night to turn out motor trucks, huge tractors for conveying heavy artillery and other supplies which it is obligated to have ready for delivery to the French Government within thirty days. European agents are purchasing horses for cavalry use to the number of from 7,000 to 10,000 a month; while an Ohio town reports the receipt of an order for five million electric light bulbs. Philadelphia firms have contracts from Italy for five million dollars worth of shoes, saddles and other military supplies, and Russia is reported to have placed large orders in New York for motor trucks to be used in military operations. In the matter of wheat, corn and foodstuffs generally European buying within the past sixty days has nearly doubled.

In short, as the Macon Telegraph puts it: "Europe wants everything we have but our cotton." This is, of course, anything but presently gratifying to the South, but if the lesson so clearly taught shall be generally learned and applied, the ultimate outcome will be worth more to this section than all the profits that may be reaped by the North and West from the business which is coming to them as a result of the situation on the other side of the Atlantic. This lesson is the value of crop diversification, the importance to the Southern farmer of ceasing to put all his eggs in one basket. Foodstuffs for man and beast, certainly enough for home consumption, should come first even under normal conditions. In the face of the extraordinary situation now obtaining, they should be given special consideration, to the comparative elimination of the growing of the fleecy staple.

The United States Department of Agriculture officially announces that all American cheeses, rank in the opinion of the experts, fully as high as foreign cheeses of the same class. We are entirely satisfied to take the word of the Department and the experts as to the rankness of some of them.

Doughton and Linney.  
Says the Hickory Times-Mercury, of the debate between Representative Doughton and Mr. Linney, his opponent at Sparta recently: "According to the report in the Greensboro News Linney proved too much for Doughton." That is according to the way one read it. Our impression was that our correspondent had furnished an excellent fair account, indicating a good, lively debate. The story showed there had been a meeting of two able scrappers. We see party organ accounts that, after the antiquated style, make the sweeping assertion that Linney is fairly eating Doughton up, or vice versa, according to the complexion of the paper. Our own opinion is that it is a pretty well matched contest. The notion that either man is literally tearing the hide off the other is nonsense. Doughton is a man of ability, and the Republicans put Linney up as their best bet. They mean to put Linney across, if they can--and Britt, too.

Mr. Britt and Mr. Gudger.  
Mr. Britt, in the Tenth, charges that Congressman Gudger has spent

much more money in his political operations than the law allows, and he has started out to prove his case with figures. We have the suspicion that if Mr. Britt is seeking to set in motion something like a moral revolt he is going to be disappointed. Up to the present writing the public has been inclined to look upon political expenditures, without reference to their magnitude, rather complacently. But it is a method of campaigning that may prove profitable to Mr. Britt in a way not divined by him.

Should Mr. Britt succeed in establishing the fact that Mr. Gudger has shown liberality in his expenditures a number of the boys who, maybe, have been neglected, will want to know why they have not got theirs. In such unfortunate circumstances Mr. Gudger might encounter reprisals at the polls.

Demand that Democrats Explain Tariff Damage.

Scranton, Pa., Oct. 2.—"What I want to know," said Ferdinand Thun, of the Textile Machine Works, in an address this evening to the Berks County branch of the Pennsylvania

Protective Union of which he is the chairman, "is when are Palmer and McCormick going to explain away the damage which has been done to us in Pennsylvania and which they say we falsely attribute to the present Administration at Washington?"  
Mr. Thun's question was loudly applauded by a large number of manufacturers composing the branch, who had been called together in the board of trade rooms for the purpose of reforming the lines in the interest of protective tariff policies and the election of United States Senator Penrose and the Republican candidates for Congress.

"We are assured," continued the chairman, "that all these things would be explained to the entire satisfaction of the voter in Pennsylvania, but not an explanation have I seen. I have heard a long list of so-called indictments against Senator Penrose which Mr. Plmer issued, charging that Senator Penrose favors liquor and trusts and child labor and red neckties.

"I have heard a great deal from Mr. McCormick about the shocking mismanagement which has made Pennsylvania the only debtless State in the Union and a leader in conservation, charitable and educational enterprises, protection of the public health and many other modern movements for the benefit of mankind, but nothing to explain an existing industrial condition which we attribute to the abolition of protection and which the voter must accept as due to that cause until the advocates of free trade have proved that it is due to something else."

Editor's Note. Well, that is easy. They will just tell them that the war did it. This is the rot they give us down here, and presume they will give them the same excuse, but time will tell, but who wants to wait, study these questions well for yourself, then act accordingly.

Lycoming Business Men Advocate Protection.

Williamsport, Pa., Oct. 9.—Manufacturers of Lycoming County who have affiliated themselves with the Pennsylvania Protective Union, held a meeting tonight in this city. Most of the leading industries in Williamsport and the outlying towns of Lycoming County were represented.

N. H. Culver, of the Diamond Wall Cement Company, was elected chairman of the meeting and made an address in which he outlined the reasons which prompted the organization of a branch of the Pennsylvania Protective Union here.

"There can be no doubt that the frank and open manner in which the manufacturer has stated his position to the people at large has been a leading factor in the wonderful re-awakening of protective tariff sentiment that has been noted in this State within the last few months," said Mr. Culver.

"Two years ago Pennsylvania seemed to have forgotten that she was first, last and all the time for protection. For the time being, protection lost its importance in the eyes of the voters--particularly the young voters, who could not remember those dark days in the nineties when we had another experience with the tariff-for-less-than-revenue-only.

"The manufacturers who have identified themselves with this organization have done so because they believe that their businesses and the livelihoods of those who are dependent upon their success for steady and remunerative employment are menaced by the so-called Underwood tariff law and by the application of free trade principles in other directions by the Government at Washington."

Editor's Note: Our people had better pattern after our Pennsylvania neighbors. They are close students of politics, and generally know what they are talking about, but we will learn by and by. Experience is said to be a dear teacher, etc., a few more years will tell the tale, but let's don't wait. Two years is a long time to go without a full dinner pail. Your dinner pail is always full and running over when the Republicans are in power, its the truth, child.
