

THE TWICE-A-WEEK DISPATCH

A PROGRESSIVE REPUBLICAN NEWSPAPER DEVOTED TO THE UPBUILDING OF AMERICAN HOMES AND AMERICAN INDUSTRIES.

BURLINGTON, ALAMANCE COUNTY, NORTH CAROLINA, TUESDAY, APRIL 13th, 1915.

The Fourth Annual COUNTY COMMENCEMENT.

Of The Alamance County Schools At Graham, N. C., April 24, 1915.

The Grand Wind Up Day of The Year.

"We believe in the education of all the children of all the people."

In order to graduate students from the Public Schools, and thus give them credit for what they have done, and passports into the State High Schools, to exhibit school products and pictures, to gather information and inspiration, the County Commencement has its existence. In obedience to these several demands the County Superintendent of Schools has set apart Saturday, April 24, 1915, as the day for the fourth Annual County Commencement for the Public Schools. (Should April 24th be a rainy day the Commencement will be postponed one week, or to Saturday, May 1st.) Every committeeman, teacher, patron, pupil and friend to the cause of education in the county is invited most cordially to cooperate in one grand united effort to make this a great day in educational uplift.

Haw River Township—George A. Blackmon, Haw River.

Parade.

The Parade will start at the Graded School Building and proceed down Main Street around the Court House and back to the Baptist Church Grove. It is the purpose this year to make the Parade larger than ever. The Floats, the school floats, the Tomato Club floats, the Corn Club floats, the music floats, all sorts of floats, Corn Clubs, Tomato Clubs, Graduates, Committeemen, Teachers, Children, little children, large children, country children, city children, all will be in one grand parade.

The Brass Band will lead, the floats will follow. Then will come the Graduates and Clubs, after these will follow the schools in regular order. The new Main Street in Graham will be finished by the 24th and it will make a most excellent place for the parade. Schools are asked to provide themselves with such banners as they like. Also such flags and other colors and uniforms. What should be an inspiring sight is the parade.

Literary Address.

The Literary Address will be made in the Baptist Church grove immediately after the parade, by Prof. E. C. Brooks, professor of Education in Trinity College. Prof. Brooks is one of the State's foremost Educators. He is the author of the story of cotton, Editor of No. C. Education and a speaker of power.

Certificates

A Certificate of Graduation will be presented to each student who passes satisfactory examination on the Public School course. These certificates will be presented from the platform immediately after the address. All students who were neither absent nor tardy for the year will receive a certificate of attendance from the Superintendent's office. These certificates may be had any time in the afternoon.

Dinner.

One half hour is given for dinner. Schools should come in groups, and if they do, it will be easy to retire to their vehicles and have a school picnic dinner.

Contest in Recitation And Declamation.

All graduates may contest in Recitation or Declamation by sending his or her name to the Superintendent by April 20th. This contest should be one of the attractive features of the commencement.

Athletics.

The field day part of the program will be given on the Graded School grounds. Basket ball by the girls, Rings games for small children will be given on the girls' ground, and on the boys' ground will be given by the boys at the same time High Jump, Broad Jump, shot put and races. This plan gives both girls and boys a chance at the same time and furnishes a full field athletic feats.

The Exhibition.

The exhibition of School products will be shown in the Oneida Store building on Main Street. This is a large, spacious room and will furnish a splendid place for displaying samples of the year's work. Any school work may be placed on exhibition but we expect especially writing, drawing, compositions, Primary number work, cooking, sewing, boxes, maps, pictures, and reports. The exhibition should interest every one. It instructs with samples of what has been done and what can be done. It is at the exhibition hall that we exchange ideas and learn from the best.

Prizes.

The day will not be without its rewards. Under the auspices of the Country Life Club of Alamance county, the following prizes will be given for donated improvement work:

- 1st Prize—\$50.00 given by the Primary Teachers of Alamance county.
2nd Prize—\$30.00 given by the Local Country Life Club.
3rd Prize—\$20.00—Five dollars given by each of the following: B. A. Sellars & Sons, Freeman Drug Co., M. B. Smith Furniture Co., and J. D. & L. B. Whitted.
4th Prize—\$15.00 given by the Central Loan & Trust Company.
5th Prize—\$10.00 given by the National Bank of Alamance.
6th Prize—\$10.00 given by the Piedmont Trust Company.

Special Prizes.

- 1st—\$15.00 will be given to the school having the greatest number of community meetings.
2nd.—\$10.00 will be given to the school having the second greatest number of community meetings.
The Row-Peterson Company will give to that pupil who makes the highest grade in English grammar, a gold pin.
A silver pin will be given the pupil making the second highest grade.
Float prizes will be awarded as follows: (1) \$10.00, (2) \$7.50, (3) \$5.00, (4) \$2.50.

Individual Prizes.

Graham Hardware Company will give the following prizes:
1st Prize.—\$10 in gold to the pupil in the 2nd, 3rd, 4th, 5th, 6th, or 7th grade who makes the highest average in spelling.
2nd Prize.—\$5.00 in gold to the pupil in any of the above grades who make the second highest average.

WAKE FOREST BEATS ELON.

Elon College, April 10.—In a slow, uninteresting game Wake Forest defeated Elon by a score of 17 to 9 at Hardin park, Burlington. There were no features other than numerous errors. Both teams hit hard, Wake Forest securing 14 safeties, while Elon got 13 to her credit. It was not a test of strength of a team, for no team could show team work under such circumstances.

Batteries for Elon: Bailey, Poythress, Massey and Moore-field. Wake Forest: Ellis, Moore and Holding.

MONUMENT UNVEILED.

An enjoyable picnic and memorial dedication was given Easter Monday on the battle-ground of Lindley's Mill, now known as Sudphin's mill, Southern Alamance.

The exercise began about 11:30 A. M. The student body of Spring Graded School formed a line of March which extended in a crescent shape about the monument as it stood on the top of the hill.

To mark the place of battle where Whigs and Tories fought, the monument selected was one of simplicity, yet very neat and nicely erected. The marble slab which bears an appropriate inscription was placed in a boulder of stone and cement facing the road on the south.

In the opening exercise the song, "America The Beautiful", was sung by the students already assembled. This was followed by a full description of the battle by Miss Venie Lewis of Spring School. Her information given did much to promote interest of the occasion. After this the silence was broken by the words of Prof. Dixon as he named some one to unveil the monument. For this performance, Messrs. Nigal N. Marlett and Rossie S. McBane were chosen. As they began uplifting the veil of "Red, White, and Blue," from the invisible ornament, the waiting audience were in silence to see the monument brought before their eyes. Just immediately after this a short, but appropriate speech of presentation was delivered by Mr. Percy E. Lindley of the student body. Then the emblem was cheerfully accepted by Mr. Edgar N. McBane in behalf of the county. Mr. McBane was acting as a substitute for Prof. J. B. Roberson. Following this a beautiful and inspiring poem was read bearing upon the battle by Miss Alta Marlett. Other patriotic songs were rendered among which were "Alamance," "Carolina," and "Columbia, The Gem of The Ocean." The program was now closed, except a few remarks being made by the teacher, Prof. Dixon.

When the exercise closed a picnic dinner was served in common. This was indeed a joyous event. Every one present seemed pleased to attend the sacred spot where years before a desperate battle had been waged for the cause of "Liberty."

Coble's township Sunday School Convention.
Coble's township Sunday School convention will be held with Mt. Hermon church, Sunday, April 18, 1915. The following will be the speakers for the day: Rev. C. H. Whitaker, Rev. H. S. E. Thompson, L. H. Holt, J. W. H. Isley, W. W. Clapp, Rev. J. A. Branson, W. L. Kinney, Rev. A. B. Kindall. Also Orchestra from Elon College. Dinner will be served on the ground. Come and let us enjoy the day.

"ALLIES ARE ENGAGED IN HOPELESS CAUSE."

Ex-Consul Reiterates in a Book His Pro-German Communications to Bryan.

New York, April 10.—Robert J. Thompson, recently American consul at Aix-la-Chapelle, Germany, who resigned his post because his pro-German communications to Washington displeased Secretary of State Bryan, has published his letters under the title "England and Germany in the War."

Mr. Thompson says that ties of blood, friendship, sentiment and personal relations bind him to England and France; he wears the ribbon of the French Legion of Honor and is of English descent.

Here are some of his assurances to Mr. Bryan, for which he assumes all responsibility:

"I regard the endeavor to isolate Germany effectually to be a futile as an attempt to place the lid on Vesuvius."

"I say all this with reluctance and mortification, for I love both England and France. I believe they are engaged in a hopeless if not, indeed, a wicked cause, measured both by the sacrifice and woes they bring on themselves and by their effort to check the world by laying low its chief and most brilliant exponent."

"Donald Thompson, the Kansas war photographer of the New York World, who was arrested a dozen times by the German military authorities, wounded once by shrapnel, and presented in 30 odd engagements, covering pretty much all of western Belgium, said to me that he learned of no single case of brutality or unprovoked reprisal on the part of the German troops. This man was being paid a large sum of money, both by the New York World and the London Daily Mail for war photographs, and atrocity stories, as well as pictures, were at a premium. The baby with its hands cut off and the nurse with amputated breasts were always in the town or village just ahead of him, until finally these two particular atrocities reached London, in violation of all pathological laws of strangulation and bleeding to death. They have been sought for religiously by many, and Bernard Shaw,

who spent much time endeavoring to locate them, says that when he was finally told they had gone on to Archangel by way of the Arctic he gave up the search."

MISTAKEN FOR ROBBERS.

Sunday night during the rain storm Messrs. Arthur Lankford and Roy Sykes took refuge in a buggy which was standing in the shed at the rear of the store of Midway Store Co. It being very dark around the store they used a flash light to see. The reflection of the light appeared to the nearby residents to be in the store, and thinking that some parties were robbing the store, several men surrounded the store in order to catch the supposed "robbers." A shot gun was secured and when the men approached near where Lankford and Sykes were, one of the boys in the buggy flashed the light to see who was coming, and when he did, the man with the gun supposed that they were intending to shoot, so he fired. The shooting was accidental, neither party knew who the other was. The shooting was not fatal, and the young men are getting along nicely.

TO HAVE CAKE SALE.

The Ladies' Aid Society of the Methodist Protestant Church will conduct a cake sale at Holt Brothers grocery store next Friday and Saturday, April 16th and 17th. They will have on sale some very nice cakes at reasonable prices. The proceeds of the sale will be used for the benefit of the church. You are cordially invited to patronize these ladies and thereby help them in their efforts to aid the church in this way.

VOLUNTARY BANKRUPTCY.

The Alamance Fair Association voluntarily filed a petition in bankruptcy last week and is now in the hands of receivers. The association will be re-organized in the near future.

UGH! CALOMEL MAKES YOU SICK. DON'T STAY BILIOUS, CONSTIPATED

"Dodson's Liver Tone" Will Clean Your Sluggish Liver Better Than Calomel and Can Not Salivate.

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver. If you are bilious, feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine; your liver will be working, your head-ache and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful, full of energy, vigor and ambition.

Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't grip or cramp or make them sick. I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist about me.

REPUBLICAN CHICAGO.
Chicago is a Republican city. It has changed its politics since President Wilson entered the White House, and since Congress imposed a Democratic tariff upon the country.

Many local issues, and the votes of women, had influence in yesterday's balloting. But disappointment with Democracy generally was the chief cause of Republican triumph.

The tide of opinion which began months ago to flow back toward the party of protection to business becomes stronger every day.

THE REPUBLICAN TIDE HIGH COST OF FIGHTING. SWEEPS ON.

The election of Tuesday which gave Chicago a Republican Mayor by a majority of 111,479, a vote unparalleled in the history of that city, is one of the many signs of the disposition everywhere in this country to return to the support of the Republican party. Four years ago Carter H. Harrison, Jr., was elected Mayor by 17,000 majority. That has had Democratic Mayors for twenty-six out of the last thirty-six years. The vote of last Tuesday shows a great increase in the Republican vote in that city and a weakening of the heretofore usually dominant Democratic party beyond all precedent. Not only the Mayor, but all the Republicans on the ticket for subordinate offices were overwhelmingly triumphant. Even a majority of the Aldermen were captured, giving Chicago a Republican Council for the first time in many years.

Over in St. Louis on the same day the entire Republican ticket of twenty-eight Aldermen was elected by a plurality of 25,000. Every bye-election held since last November tells the same story of an increasing Republican vote and steadily swelling Republican pluralities wherever a test is made. Local conditions well explain isolated local elections, but they do not explain such an enormous change as is seen in Chicago and they do not explain an entire Continental drift in the same direction.

It is the dissatisfaction of the people with the present Administration at Washington that will explain the extent and universality of the change in the vote of the people. That was marked last November, but it has been increased by the work of the last session of Congress, which added greatly to the extravagance of the previous session and did nothing to check the steadily growing deficit that is now confronting the national treasury.

The depression in business begun by the tariff changes has become more marked in many lines of industry, as the effect of those tariff change work themselves out in practice. Business continues apprehensive in spite of the partial stimulus created by the war. Less employment and diminished returns have become the almost universal experience. The people are learning the lesson and fixing the responsibility for these conditions and the Chicago election is one expression of the judgment reached.

WOMAN KILLS NEGRO WHO TRIED TO ENTER HOME.

Believed to Be Same Black Who Engaged Sheriff Taylor in Pistol Duel.

Kinston, April 8.—Mrs. Henry Heath, wife of Chinguepin Heath, of Jones county, shot and killed a negro who attempted to get into her home while her husband was away, according to a report which reached here today.

The negro told her to open the door or he would break it down. She told her small son to open it and fired twice at the intruder, who staggered off and died almost instantly.

Sheriff Taylor here believes the man was John Williams, a desperate character who some days ago engaged him in a pistol duel. The negro had several gold teeth and resembled Williams in that respect. Taylor will personally reward the woman if that is the case.

REPUBLICAN SWEEP IN MIDDLE WEST HELD TO REPUDIATE WILSON.

Election in Chicago and St. Louis Regarded as Assuring Republican Victory in 1916.

Washington, April 7.—"The condemnation the voters of the East placed on the tariff and business policies of the Administration last November in traveling to the West. If that part of the country had done as well for the Republicans in November as the voters of Chicago and St. Louis did yesterday, there would be a Republican majority in the House and Senate now." Thus said James B. Reynolds, secretary of the Republican National Committee, this morning by way of comment on yesterday's results.

"Obviously local issues were secondary in Chicago, else the result would have been different," added Mr. Reynolds, evidently referring to the fact that an effort had been made to elect Sweitzer by appealing to religious prejudice, although he did not mention the local issue he had in mind. If that appeal to religious feeling had been the controlling factor, the Republican candidate would have been overwhelmingly defeated.

"Labor and capital are out of work," said Mr. Reynolds, "and obviously, the man without a job and the capitalist working without profit, if not actual loss, united to condemn the policies that brought about their unemployment. No local or extraneous issue can get a hearing from unemployed men and capital who know that the only fact, other than the passage of time, that might have brought about the change from prosperity to comparative poverty, in two years, was the inauguration of the Wilson policies.

"The fact that the Middle West did not vote condemnation last fall, but now falls in line with the East, makes the assurance of Republican victory in 1916 doubly sure. If the House and Senate had gone Republican in 1914, the Administration might plausibly have said, in its own defense that the voters did not give it full opportunity to show that its policies are for the good of the country.

"The result is a stinging rebuke for Secretary Redfield and his ridiculous charges that capital is inefficient."

Secretary Eversman, of the Republican Congressional Committee, whose home is in Illinois, is particularly gratified because Chicago gave Thompson such a magnificent plurality and large majority.

Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health. Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, of Sabin St., Montpelier, Vt., says: "I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are suffering from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice. Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

SELFISH MEN.

Representative Martin B. Madden, in an address in favor of woman suffrage, said:

"It seems to me that the men who oppose the suffrage are selfish. They want to have the best of everything without paying for it. They remind me of the clerk.

"A clerk and a lawyer were on the way down town on the trolley the other morning when the lawyer looked up from his paper and said:

"My, that's a pretty girl over there in the corner."

"The clerk looked up from his paper in his turn. Then he smiled.

"I know her," he said. I know her well."

"Holy smoke, man," said the lawyer, "if you know her why don't you go over and sit with her?"

"I will," the clerk answered, "as soon as she pays her fare." —Washington Post.

HEALTH SUPERVISION OF CHILDREN BEFORE SCHOOL AGE.

(Department of the Interior Bureau of Education.) That special medical attention should be given to children in the four or five early years before school begins is asserted by Dr. David Forsyth, an English physician, whose views are published in a bulletin just issued by the United States Bureau of Education. Dr. Forsyth declares that medical inspection of elementary school children points to a wide spread physical deterioration during the first four or five years of life, which leaves the majority of children with serious but preventable defects.

"Little or nothing has been done as yet by way of solution," says Dr. Forsyth. "Preventive measures limited to the first years are unlikely to have much influence in warding off later troubles. A gap, at present unbridged, stretches from the first year to the fifth, when the school medical inspection begins." As suggested remedy Dr. Forsyth describes a plan adopted in the city of Westminster, England. In January 1912 a medical inspection center was opened for children of school age in the Northern half of the city. Here a staff of health visitors is maintained, to get into touch at once with every family where a child is newly born. Through this staff every child in the district is kept under medical supervision from the time of its birth until the end of its fifth year, the purpose being to hand the child over sound and healthy, to the school authorities.

Of 374 children examined during the first year of the center, 131 were under 1 year of age, 77 under 2 years, 83, 50, and 33 under 3, 4, and 5 years, respectively. The medical record cards showed a rapid rise in the tide of disease with each year of life. It was found that while most children in the first period are healthy, only a small minority come through to the fifth year without at least one physical defect of some kind.

Dr. Forsyth concludes: "Large numbers of children, healthy in all respect at birth, become within five years the physically defective entrants whom the education authorities have to receive at no small cost, to restore so far as possible, to their original state of health. Yet most of these cases are preventable, or, if taken in time, can be remedied more speedily, and therefore more cheaply, than if left until school age, by which time not a few will have received permanent damage—physical or mental. The problem of the defective child largely resolves itself into the problem of the under-school age child, and seems hardly likely to be solved by anything short of a general plan insuring to all children regular medical supervision from birth to school age. And this, to be fully successful, must run side by side with educational measures for instructing the mothers themselves who, from ignorance far more than from willful neglect or even from indigence, are unable to safeguard their children's health."

WHAT CHICAGO DID TO THE DEMOCRATS.

(New York American Democrat) Local issues were, of course, largely involved in the Chicago election which has resulted in the election to the Mayorality of Mr. William Hale Thompson, Republican, by the unprecedented plurality of 139,000. But Chicago is normally a Democratic city. Local issues have always been before the electorate, yet in the last fifteen years only one Republican has sat in the Mayor's chair. It is obvious, therefore, that this tremendous disaster to the Democratic party is of more than merely local political significance.

Throughout his campaign Mr. Thompson persistently pushed national issues to the front. For this he was ridiculed and criticized—and justly so—by those who rightly believe that municipal elections should be determinative of municipal policies only. But whatever may be said of his political ethics there can be no question of Mr. Thompson's political shrewdness. He rung the changes upon the Administration's vapid and futile policy in Mexico. He denounced the Wilson tariff law for its failure to produce revenue and its success in depressing American industry. He levelled shafts of irony at piffle diplomacy and grape-juice naval administration. He excoriated the failure of the administration to seize this opportunity for advancing the shipping interests of American shipping. And he assiduously pointed out the fact that his Democratic opponent was the selection of Roger Sullivan, who as the representative of the Administration in Illinois, had just sustained an exemplary beating in his contest for United States Senator.

All of which was very repre-

hensible on the part of Mr. Thompson. He ought to have discussed the street railway problem, the finances of the city, or the perils and pleasures of a "wide-open town." But with keen political sagacity he saw that the way to overthrow the opposition was to tie its neck and crop to the Washington Administration. This he did, and the plurality of 139,000 in his favor is sufficient proof of the soundness of his judgment.

PARKER'S TRIBUTE TO TAFT

The tribute paid by former Judge Alton B. Parker, Democrat, to William Howard Taft, Republican, at the Suffolk county dinner Saturday night was graceful and sincere. It is true that for the dignity of the bench and for conservative thought in general the former president has been a persistent, dauntless champion, and an efficient one judging by recent election returns, despite one great defeat. The applause with which the name Taft was greeted by the Suffolk county men was warmly spontaneous. Suffolk has never had much patience with the fads and frills of Progressivism.—Brooklyn Eagle.

men's vote was cast for Thomp-
son, according to an estimate by
election officials. Thirty-six per
cent of the women's vote was
cast for Sweitzer. It was the
first time that women voted for
mayor in Chicago. The total
women vote for Thompson was
144,564; for Sweitzer, 89,718.Along with Thompson, Chas-
H. Sergel, for City Treasurer;
John Siman, City Clerk, and
Hosea W. Wells, Municipal
Judge, were elected. Their plu-
ralities were a few thousand
votes short of that piled up by

ing their own bread, owing to
the war, the highbrows of the
Society of Antiquaries at Hen-
gisburyhead, Hampshire, come
forward with the singular dis-
covery that the early inhabitants
of Britain knew how to make
bread and did make it as far
back as the stone age and all
through the age of bronze and
iron.There is evidence that corn
was grown in Britain 800 years
before the Christian era, and in
the district east of Bournemouth
relics of a surprising culture
2,000 years ago have been
found.Those old folk may have come
across the water from Denmark,
or from Norway or Sweden. On
a promontory overlooking the
sea they built a large fort, and
back on the mainland lay their
gardens. They also fished and
hunted at sea with flint imple-
ments. Their artistic stayed at
home, later on, and made bronze
urns for the ashes of the dead.
They worked in gold and amber,
too.The poorer of them dwelt in
huts of wattle and daub, with
floors of beaten clay. They
wove, baked bread and made
glass into ornaments. They
stored corn in sunken jars. The
excavators have brought up 1,
000 coins of gold, silver and
bronze, apparently copied from
Greek originals.**Of Interest To Farmers.**The present number of the

ELON BEATS RICHMOND BIG LAND SALE THE 20TH. COLLEGE, FIVE TO TWO.

Elon College, April 10.—In a fast game of baseball Elon defeated Richmond College, 5 to 2. Sorrell, the lanky youth, pitched a wonderful game. The southpaw had the Spider at his mercy until the seventh, when Bailey, another southpaw, relieved him. Both were effective in pinches.

The Spiders secured only six safeties. Cox, a big left-hander, was at the firing line for the Spiders. He was hit hard by the Elon team. Finch and Massey were the stars with the stick for Elon. Ancarrow, for the Spiders secured two doubles out of four trips to the plate. Moorefield caught a steady game, not allowing his opponents a single stolen base.

The Atlantic Coast Realty Company will sell at auction, April 20th at 10:30 A. M., the property belonging to Mr. John Ireland, located just four blocks from the business part of the town. NAUGHTY BERTHA IS THE CIRCUS CRIMINAL.

Smart Barnum and Bailey Elephant Caught Picking Pocket of the Circus Keeper.

BIGGEST THIEF IN THE CITY

New York, April 10.—The "biggest thief" in New York city was caught in Madison Square early yesterday morning in the menagerie of Barnum and Bailey's circus. The "burglar scare" started the night after the big show arrived from winter quarters in Bridgeport, Conn.

Several of the menagerie attendants reported that they had missed various articles from their working coats, which had been hung on a pipe in the basement near the elephant pens. The following night articles were taken, and to add to the perplexity of the circus detectives the candy "butcher" in the menagerie missed some of his stock.

Saturday night John Patterson, head animal keeper, determined to keep watch in the basement. He lay down on a bundle of hay near the elephant pen after he had extinguished all the lights except one, which is kept burning to keep the elephants from becoming nervous. After an hour of "watchful waiting," Mr. Patterson saw Bertha, one of the younger elephants, swing around suddenly and fumble with the knot of the rope with which she had been tied. After five minutes' work she succeeded in freeing herself.

"As I lay on the floor feigning sleep," Mr. Patterson said, "the elephant came over to me and quiet deftly began to fumble in my pockets. She took a package of tobacco and some sugar lumps which I always carry. Suddenly I jumped up and Bertha was so frightened that she is still nervous and won't eat sugar any more." In solving the mystery of the thefts, Mr. Patterson succeeded in solving another, for he recalled that Bertha had been found standing in her usual place each morning, but untied, and no one knew who untied her.

Mr. Patterson was asked if animals have any moral sense. "I won't go so far as to say that they have," he replied, "but I will say that they know when they are doing wrong, just as Bertha knew it. The worst offenders are monkeys. A monkey would rather steal a thing than have it given to him. It seems to be true with him, as with some of his descendants, mankind, that stolen sweets are sweetest."

The circus is making a feature this season of trained animal acts. No less than fifteen numbers of the program depend upon the intelligence and sagacity of the animals.

SOME FORMS OF RHEUMATISM CURABLE.

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. Sloan's Liniment is all medicine. Get a 25c. bottle now. Keep it handy in case of emergency.

EASY DIVORCE IS SIN OF RICH MEN.**Explains Use of The Word "Obey."**

New York, April 8.—In a sermon in Trinity Chapel which was taken to be a reply to the address made by the Rev. Percy Stickney Grant, rector of the Ascension Episcopal church in which he advocated more liberal divorce laws, the Rev. Dr. William T. Manning, rector of Trinity church, said that divorce was "the shameful luxury of the rich and well-to-do."

"We do not realize the present situation in this our own country," said Dr. Manning. "Reliable statistics show that there is one divorce to every twelve marriages. These statistics misrepresent the situation. It is really far worse. The poor man can't afford divorce, and so he simply follows the example of the illustrious names he reads about in the papers and deserts his home; that is his way of accomplishing the same thing the rich men can accomplish by law. The statistics show only the percentage of wealthy people who are divorced."

Dr. Manning said the tendency toward easy divorces was due to the trend of modern literature, drama, "some newspapers, and so-called reform movements disguised under the names of progress and advancement." "Indecency," he said "is no more respectable when it comes to us in the garb of intellectual cleverness than in the garb of the gutter, and it is infinitely more dangerous. This so-called progress and advancement should be stripped of its mask and called what it is—indecent and plain immorality."

"This present propaganda for easy divorce, this idea that is represented by the name of Reno, is a greater disgrace and a greater menace to the life of our country than the idea represented by the name of Salt Lake City. Mormonism is more respectable as a system than easy divorce. Under it a man must support his wives and his children. Under the new 'progress and advancement' a man is free to turn adrift his wives and children. Progress? No. This is a return to animalism—barbarism—a condition worse morally than that of most tribes."

"The Prayer Book teaches us that marriage is indissoluble till death us do part. What ever judges, courts, or a low standard of morality may say, the Prayer Book and the Church say—because the Lord himself said—that a man and woman once married, are married until death."

"What can be the state of mind of man or woman who have been married with these solemn words, 'till death us do part,' even to want to stand before the world while husband or wife is living and to say the words again, to go through the hollow form and what would be the moral state of mind of a clergyman who would lend himself to such a transaction?"

The rector also dealt briefly with the questions that have been brought up regarding the use of the word "obey" by the woman in the marriage ceremony. To any one who understood the use of the word, he said, there could be no doubt about its real meaning, or any idea that it meant that the woman was to live "in the subjection and subordination which some people have been pleased to read into it."

The word meant, he said, that the man was to assume the position of responsibility and leadership in the household. He referred also to the raising of children and said that it was a great loss that the church's prayer book in this country did not in-

clude the passages this subject. In closing Dr. Manning urged the congregation to do all in its power to discourage elaborate display at weddings and said the solemn wedding ceremony should not be turned into a social function. He condemned clandestine marriages and urged his auditors to do what they could "to hasten legislative action to strengthen our present marriage system and so to do our part to lessen those awful domestic tragedies which we call divorces and to lessen the number of orphaned children with parents still living."

THE FINISH.

Gone are the golden molars
That flashed on a world at bay;
Gone is the regal bearing
That sticks with the champion's sway;

Flat on his back in the resin
With the tale of his glory done—

AN INTERESTING OPENING.

Designs Original and Color Effects Daring

TAFFETA FAVORED.

Two noteworthy events took place in the New York world of fashion this last week. One was the Flower Show, the other was Lady Duff-Gordon's opening. In her wonderful studio, with carefully arranged lights, her latest creations were exhibited to a few especially invited guests. Her dresses are most original in line and daring in color scheme, but she never errs in effect.

A dress which showed strongly its Victorian influence was made of lavender silk, with closely-buttoned pointed bodice. A large fichu of softest maline was draped around the shoulders with ends hanging to the hem of the skirt, which stood well away from the figure in truly crinoline effect.

The bodice with pointed front appeared many times, and in the evening gowns were accentuated by a deep V in the back, which sometimes extended to the waistline.

This Parisian and London designer came here shortly after the war commenced. In the fall she introduced a number of novel styles. One, the Tommy Atkins suit, has had unexpected popularity, being copied and shown with or without variations all over the country.

The charming dress which she designed for Mrs. Vernon Castle, the dancer, has been a distinct innovation, which showed the artistic skill of its creator, in applying a style to the individuality of its wearer. Another novelty is the dress which is held slightly away from the figure by a reed, and lately she has introduced a Russian head dress.

A New Taffeta Smartly Trimmed in Black and White

These last have not been accepted and whether they will or not time can only tell.

Her collection showed a large variety in the treatment of the skirt. For instance, a Persian dancing frock was wired about the hips. A number showed panier effects. A Louis Philippe model was trimmed with two rows of ribbon loops, and a Victorian model had a skirt laced part way down the front. Tailored skirts have patch pockets on either hip. One skirt had a round apron with a pocket on

either side. In the back it was strapped below the waistline with a belt. Altogether it was not unlike the leather aprons worn by iron-workers.

At the Flower Show, the street and conservative afternoon costumes were in evidence and also many handsome motor wraps. There are numerous navy blue suits seen many in the light colors, such as sand and beige. A dress of sand-colored covert was trimmed with black satin collar and revers. Black silk braid is used on the sleeves, on the back of the jacket, and on the hips of the skirt. Silver ball-buttons were used in conjunction with the braid.

Taffeta is used over and over again for evening and afternoon dresses—sometimes, elaborately trimmed with puffs and shirings, flounces shirred on cords, or a series of straight or bias ruffles from the high or normal waistline to the bottom of the skirt.

Afternoon dresses of voile are to be seen with accordion-pleated skirts. One charming white dress was made with a series of box-pleats, the material accordion-pleated between each pleat. Others are shirred or smocked at intervals of two inches from the waist below the hips.

A simple and serviceable model developed in gray taffeta is shown in my illustration. The simple waist with three-quarter length bell sleeves is trimmed with black-and-white striped taffeta. A pointed girle of the stripped taffeta is used around the waist. The skirt is made with an upper section, which is always short enough to be a yoke, to which the lower section is gathered.

The hat worn with this dress is charmingly quaint and is made of very modern glazed barn-straw and trimmed with field flowers and black velvet-ribbon.

Among children's dresses dotted Swiss is taking a decided stand and is charmingly childish. An Empire frock untrimmed except for a narrow lace edge at the neck and the bottom of the short puffed sleeve with a two-inch beading at the waistline, through which a ribbon may be drawn, is charming for the small girl's Sunday-best or party frock.

THE MODEL COOK.

"I hear that you have a college graduate for a cook. Isn't that very expensive?"

"Not very. She works for her board and clothes."

"Why how does she come to do that?"

"She is my wife."

WILSON'S CHANCE TO MAKE A HIT.

Ex-Governor John W. Griggs of New Jersey, who was McKinley's attorney-general, told the silk manufacturers of the country that President Wilson should call a special national election after March 4 instead of a special session of congress. The country would welcome the former, while it deprecates the latter. Is it surprising that the silk men applauded Governor Grigg's very wise suggestion?—New York Mail.

IT'S EASY ENOUGH.

A stiff upper lip and a determination never to say quit, is half the battle in life. A Sunday School superintendent in Frankfort, Ind., gave a penny to each 700 pupils and asked them to invest the pennies to earn the greatest possible amount for a new chapel. The 700 cents earned \$175 in a year. If the average man could turn every dollar into \$25 in a year, money-making would be easy. This is how some of the children did it:

A little girl bought an egg with her penny, coaxed a motherly hen to hatch the egg, raised the chicken and sold it for one dollar.

A boy bought one cent's worth of white corn, got his mother to make it into hominy and sold the hominy for 40 cents.

Another boy bought a cent's worth of popcorn, popped it and sold the result for \$1.00.

A boy bought a toy kinetograph card set for one cent and let folks let into it at 1 cent a look. He cleared \$1.25, being a considerable Mr. Barnum.

A girl lost her cent, cried about it until her father gave her another, then found the first cent, and with the two bought cake materials, baked cookies, sold the cookies for 10 cents and repeated the operation until she had \$2.00.

A brother and sister pooled their 2 cents, planted radish seed and sold the radishes for 80 cents.

SEES VICTORY SURE.

Ex-Secretary Ballinger Confident of Republican Success.

Former President Taft, in the opinion of Richard A. Ballinger of Seattle, secretary of the interior in the Taft cabinet, will not be a candidate for the Republican nomination for president unless circumstances should arise that would make Mr. Taft the most likely candidate. Judge Ballinger is confident the Republicans will win in the next national election.

"I am not authorized to speak for Mr. Taft," said Judge Ballinger. "But my opinion is that he has no thought of becoming a candidate next year. If a condition should arise whereby the nomination of Mr. Taft would appear to be the wisest thing for the Republican convention to do, and he should consent to have his name considered, I have no doubt he would be nominated and triumphantly elected. His administration has been amply vindicated, and every day he is gaining in popularity."

"The Republicans will win next year beyond a doubt. I base this opinion on the utter failure of the present administration to comprehend the necessities of business, and its apparent inability to grasp the administrative functions of government. This is exemplified in all its legislative policies. There can be no doubt the American people want peace, but they also want our flag respected. Peace at any price is not the slogan of Americans; peace with honor is."

"The Progressive party appears to be practically extinct

in almost all sections," added Judge Ballinger. "Therefore, with the Democratic administration dieredited with the people, as it appears to be, I am confident the old organization will triumph in the election of next year, electing not only the president, but the house of representatives."

REPUBLICAN PRINCIPLES UNCHANGED.

"The principles of the Republican party do not differ in any material manner from the principles laid down when the party was organized in 1856," declare dEdward R. Tinker of North Adams, Mass. "The first vote I cast was for Henry Clay in 1844, and I voted for the Republican candidate for president and for every Republican candidate since then. In my opinion the Republican party today is as sound as it was in the beginning and is just as progressive as any party. It does not need any advice how to run the government. It was the constructive policies of the Republican party that made this nation great, and the principle of protection, which has been, and is, the most important principle of the party, is just as great today as it was in the beginning. You will see that in the next election the people will be heard, and that protection and Republicanism will come back, notwithstanding the party has not had a new idea in 30 years."

"I have seen defeat and victory in the 70 years I have voted and the conditions today, as I observe them, are more propitious for Republican success next year than at any time when

the Republicans, out of power, were seeking to return to power. "I believe in a greater navy and a greater army," added Mr. Tinker. "If we are to preserve peace and the integrity of our nation, we must be prepared."

PROPER TO ADMIRE THE FEMALE FIGURE.

Woman's Lines in Art or Nature, Inspiring, Says Miss Cocroft, Author.

Chicago, April 10.—The great outcry of the women visitors at the Panama-Pacific exposition against the display of nude figures in statuary, which greet the visitors at every turn, has brought forth a woman champion of man's admiration for the female figure Miss Susanna Cocroft, author and health advocate.

She believes a woman's beautiful figure is a heavenly gift to be admired. It is a virtue, she says, in that it is an expression of good health.

"Why should she not add to the beauty of the world as well as to its use and why should its purity not be displayed in art?" she adds.

Miss Cocroft, who is devoting her life to the improvement of womankind, intimated that objections to nude statuary depended upon one's attitude of mind. She says one can get good or evil from so many things and she prefers to look for the good.

"Pity the man," she says, "who is so dead that he is not moved by a beautiful statue or a beautiful picture. Pity him more if he is not moved when these beautiful outlines are expressed in living, breathing flesh, with the added attraction of warmth, color and movement. The man who does not appreciate a beautiful woman has his artistic nature dwarfed or crushed.

"Men have more sense in art in the human form than woman. This does not necessarily mean that the material side of their nature is touched; on the contrary, it may mean a strong appeal to the spiritual. They see things in the entirety, not in detail. A man will comment on the style of a certain person who impresses him, but he could not tell you the color of her hair, whether she wore blue or green, or whether her gown was cut after a certain model. He does not see the figure and that she carries herself well.

"A man turns to look at a beautiful, graceful figure, while he passes by without a glance hundreds of women who are out of proportion and who carry themselves carelessly and indifferently. Do not impute to that man a wrong motive; his artistic sense is aroused; his very soul awakens; he sees the expression of his innate love for the beautiful in form and movement.

"There are few women whose pride and self-respect are so dead that a buoyant, spiritual, trim, well-rounded figure does not fill them with a feeling of well being—of being fit. The difficulty is that they are not conscious of their possibilities or are woefully indifferent. When a woman realizes that she can be of good figure, with a charming manner as magnetic a presence as any woman of her acquaintance, that her figure depends entirely upon herself, she will let go the old notion that it must be natural because she grew so. Her pride will be aroused and she will correct it. A good figure is a necessary complement to good health."

The most of us are proper in this respect.—Ed.

AMERICAN COMPANIES TRYING TO MAKE DYES

Six Plants a Work to Replace German Dyestuff Cut Off By War.

Washington, April 8.—American chemical companies are bending every effort toward supplying textile mills and other industries using artificial dyes with home products to replace German dyestuffs shut off by the European war.

Reports to the Department of Commerce made public today show that at least six plants are in course of construction for the manufacture of the coal tar derivatives upon which the colors used in cloth manufacture, varnishes and other products are based. Approximately \$6,000,000 is to be expended and within a few months it is estimated that much of the material for the simpler dyes heretofore purchased in Germany at a cost of \$12,000,000 annually will be turned out in the United States.

The most complicated chemicals, however, will require a greater length of time to develop.

A report of the dyestuff situation called for by a resolution of Congress was given out today by the department. It estimates that American coke ovens are wasting annually \$100,000,000 in by-products that could be saved and employed in other industries. The American coke industry, the report states could produce 20 times as much coal tar as the world needs for dyes.

IDAHO STOCKMAN FINDS RUNAWAY WIFE IN VIRGINIA.

Suffolk, Va., April 4.—G. H. Valentine, a farmer and stockman of Idaho, ended his long twenty-two day search for his runaway wife Friday night, when he found her engaged in cutting a cord of wood on J. T. Williams' farm near Suffolk. With Mrs. Valentine was the man for whom she left home and husband, one Hil Harney. Harney declares himself a preacher. He had passed through Rev. J. D. Hall of the Galilee Mission, Philadelphia, seeing both Harney's changed wife.

Both Harney and the woman were arrested by Constable J. S. Branch, on a warrant sworn out by Valentine, and are now in Nansemond county jail. The runaway wife, who spends most of her time weeping, stated that she left her home in Idaho sometime back, and came East and met up with Harney, who was preaching in a Washington mission. She says Harney told her it would be all right to marry him and that the ceremony was performed in Alexandria. Her life with Harney had been a hard one. They have tramped through bitter cold, slept out of doors, and finally got a job cutting wood at the Williams' farm.

The husband, who came on from the west with a load of horses, helped to bring Harney into Suffolk last night. He stated that he wanted his wife back. He believes that Harney had her "hypnotized." He will make an effort to have Harney tried under the Mann act.

Mrs. Valentine will be held as a witness against Harney. She is a native of Virginia and is 30 years of age. Harney is about 40 years old. Valentine appeared to be deeply concerned about his wife who, he says, is sick from exposure.

B. A. SELLARS & SON

SUFFRAGE, SAYS CONWELL IS CERTAIN TO ARRIVE.

And Good Cooks Are Badly Needed; Next Great Orator Will Be a Woman.

Dr. Russell Conwell of Philadelphia, spoke to a church full of full people at the Central Baptist church last night on the subject of "The Silver Crown—How Men Succeed." Dr. Conwell explained the mythological origin of the superstition concerning the silver crown is a symbol of success and of absolute power.

There was a king of an Indian kingdom who died without heir, and the people thought that no man could rule in that kingdom without the advantage of blood relationship to him who had gone before. Therefore the astrologers got together and studied the stars, asking advice and the stars told them that they must find a man whom the animals followed, the sun served, the water obeyed and mankind loved. The man was eventually found in an uncouth hunter and he was made king and ruled successfully.

The same rule as herein indicated, said the speaker, was necessary to success today. Animals will follow successful men and women, and he declared with emphasis that "if every cat on earth hates you, you might as well get out of the world." This produced a laugh as did similar quips. He said for instance that "if you see a trotting horse and don't love him, you ought to be turned out of the church." Dr. Conwell talked much of generated activity from the animal body and mentioned an invention by which a sewing machine could be run with the bare feet. He thought the time will come when an airship can be made to fly by the simple expedient of carrying a lapdog. Dr. Conwell derided the supposition that a hen has no sense for he remarked, "a hen calls her chickens and they come and she scolds the rooster and he goes!"

Dr. Conwell said that the secret of success lies in seeing what others do not notice and he instanced the case of a milkman who learned the machinery of a

locomotive while carrying milk to the trains and secured a good railroad position thereby, while other milkmen "are still worrying when the brooks freeze over in the winter."

Dr. Conwell observed that there are no real orators in the United States at present, and that Mexico could be saved by the addition of two real men with the gift of patriotic eloquence. He thought the United States is in danger from lack of eloquence. The study of cookery, he thought, is one of the vital necessities of the time, but he held little hope for progress in this science when he declared shortly after that woman suffrage is sure to come, whether we like it or not.

The next great orator America, thought, would be a woman.

What's Her's Insn't

Jones had a quarrel with his bride
About the cost of dress,
"What are you?" he in anger
cried;
"A parasite—confess!
You toil not, neither do you spin,
But live upon the pile of 'tin'
That I perforce must gather in
By means of daily stress!"

The wife in anger made return:
"No more at home I'll slave;
Henceforward money I shall
earn
To buy the gowns I crave."
She got a job that very day.
And for a year she toiled away,
And it was very handsome pay
Her pleased employer gave.

When Jones would gallivant at night
With Tom and Dick and Frank
She stayed at home and skimped
on light

And Croton water drank,
And two years thence she told
her lad
That she was very, very glad
To let him understand she had
A thousand plunks in bank.

"Outrageous!" was her husband's shout.
While anger made him grim,
Immediately he hurried out
And hired a legal limb.

"Beyond her right!" the lawyer's snort.
"Beyond her rights!" affirmed the court,
And adding, "He is her support,"
They gave the cash to him!

MAN TAKES HIS OWN MEDICINE IS AN OPTIMIST

He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating Cold are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for Nature to act. You can't destroy a Cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery today.
