

I Love My Rain, But Oh, You Beautiful Sunshine

THE TWICE-A-WEEK DISPATCH

A PROGRESSIVE REPUBLICAN NEWSPAPER DEVOTED TO THE UPBUILDING OF AMERICAN HOMES AND AMERICAN INDUSTRIES.

BURLINGTON, ALAMANCE COUNTY, NORTH CAROLINA, FRIDAY, JUNE 4, 1915.

REVIVAL SERVICES AT THE HOCUTT MEMORIAL BAPTIST CHURCH, WEST BURLINGTON.

Revival services at the Hocutt Memorial Baptist church, West Burlington, will begin tonight, June 4th, and continue ten days or more. It will be conducted by Rev. J. C. Owen of Asheville, N. C.

Mr. Owen is the mountain school evangelist of the Home Board of the Southern Baptist convention. He has had wide experience in evangelistic work and is specially gifted in personal work. He was also once a missionary in China, having spent more than ten years there.

Mr. Owen is just closing a two weeks' meeting in Graham, in which there has been more than thirty professions, and everybody is highly pleased with his sermons.

The hours of service at the Hocutt Memorial church, during the week, will be at 8:00 P. M., and 8:00 P. M. On Sundays at 11:00 A. M., 3:00 P. M., and 8:00 P. M.

Everybody is invited to attend and take part in the services, especially the singing.

JAS. W. ROSE, Pastor.

OVERWHELMING DEFEAT GILFORD BOND ISSUE.

Majority Fails to Vote For New Court House.

Greensboro, June 1.—The proposed bond issue for a ten story county building was overwhelmingly defeated in the election today. A heavy rain prevented a large vote. A majority being necessary, every voter who stayed at home counted against it.

WEEKLY WEATHER FORECAST.

Issued by the U. S. Weather Bureau, Washington, D. C., for the Week Beginning Wednesday, June 2, 1915.

For South Atlantic and East Gulf States: The cloudy, showery weather of the beginning of the period will give way to warm, fair weather Thursday or Friday and the latter will continue until the end of the period.

FAIR AND WARMER WEATHER.

Predicted in Weekly Bulletin For All Southern Sections.

Washington, D. C., June 1.—Fair and warmer weather after Friday in all sections of the Southeast was forecast by the weather bureau today in the weekly bulletin for the week beginning tomorrow. Until Friday conditions will be unsettled, says the bulletin, except in the West Gulf States where an entire week of fair weather is indicated. In that section and in the Middle Atlantic States temperatures are expected to rise within a few days to above seasonal averages.

INTERESTING SERMON FOR SUNDAY.

Unless under special obligation to attend elsewhere, Rev. D. H. Tuttle invites the Burlington News' readers to hear the specially interesting sermon at Front Street Methodist church next Sunday. The pre-eminence of Christ in individual life and world government, will be the theme of the morning sermon.

The children of Burlington are doing the can can just now.

I got 39 cans, how many cans can you get?

TO THE VOTERS OF BURLINGTON

We are told that the school house is the temple which we erect to the God of childhood. The school room is the home of the child during the most important hours of the most important years of its life. The school roof, the school house and the school grounds constitute the best index to the degree of civilization and to the ideals of the community.

As are the school and the school house, so will be the home, the city, the State and the Nation. For every community the motto should be: "For our schools, health, comfort and beauty."

We appeal to you in the name of Him who said, "Suffer little children to come unto me and forbid them not," to go to the polls on election day and cast your ballot for the children of our town—the future citizens of a Bigger, Better Burlington. The voters of Burlington are a God-fearing and a God-serving people, therefore put your christianity to some practical use—in building an up-to-date, sanitary, well heated, well lighted and well ventilated school house, you are using your religion in a practical way.

So, go to the polls on June 8th and cast your vote for the children—the future citizens of Burlington.

Mrs. W. H. CARROLL.

RESOLUTIONS OF DAUGHTERS OF LIBERTY ORDER.

Whereas, the order of the Daughters of Liberty stands at all times for the public school system of our country, and is desirous of doing all in its power to uphold the same, and

Whereas, there is now before the voters of the city of Burlington the question of issuing bonds for the erection of a new and modern school building in said city, where the children may be more comfortably and economically cared for.

Therefore, be it resolved, that Purity Council, No. 22, Daughters of Liberty, composed of more than 200 members, many of whom have children in the schools, desire to go on record as being in favor of the proposed bond issue, and urge all voting members of said council to use their votes and influence in every way possible to aid in carrying the bond issue, and thereby reflect credit upon the order, the city of Burlington and themselves.

And be it further resolved, that a copy of these resolutions be spread upon the minutes of this Council, and that the city papers be furnished with copies for publication.

Approved this 29th day of May, 1915.

JAPAN HOUSE VOTES FOR MILITARY DEVELOPMENT.

Tokio, Japan, June 1.—The Government's policy of military development was approved by the House today, in an exciting session.

By a vote of 232 to 131 the House adopted the provision for an increase in the standing army of two divisions, or about 24,000 men. It then approved the entire budget, including the naval program, which provides for construction of three submarines and eight torpedo boat destroyers.

Italy will find that war is no "monkey" business.

SEVEN JOYOUS DAYS OF CHAUTAUQUA.

From June 30th to July 6th, will be Chautauqua Week—a week full of series of entertainments and lectures of an even higher quality than previous.

Some of the world's famous short orators will be given. Among many delightful features will be "Song Our Grandmother Sang," given in costumes of the American period of 1850. This music will be under Signor Pasquale Colangelo, the world's famous orchestra. The organization is versatile to a marked degree and the programs offered will be varied and filled with enjoyable surprises.

The Chautauqua is especially favored by having Mrs. Yarnall as its superintendent. She is a woman of brilliant attainments and extensive experiences.

You are to have the privilege of hearing one of the world's greatest preachers, Dr. S. Parkes Cadman, the noted Brooklyn divine, in one of his most famous lectures, "Life in Modern Babylon."

Dr. Cadman is not only a great preacher himself, but he comes from a race of great preachers who have indelibly stamped the ablest of English's clergy. He was born among the Shropshire hills of England, coming to America twenty-six years ago, and now, in his fifty-first year, he is at the height of his powers, possessed of endless physical and mental vigor.

His lectures are vital messages in the truest sense, and his coming to any Chautauqua platform is an event of marked importance, one that is never forgotten by those fortunate enough to sit under the charm of his wonderful oratory and keen logic. This man has often been compared to Henry Ward Beecher, possessing the same remarkable intuitive and practical knowledge of human nature and the same broad sympathy. Undoubtedly those qualities—as was the case with Beecher—have constituted one of the main elements contributing to his marked success in all things he has undertaken.

Dr. Cadman has declined the presidency of several colleges, but is special lecturer at Yale, Amherst, Harvard and many other universities and colleges, and is in constant demand in many parts of the United States for special work.

He has served his age splendidly, and the metropolitan papers and best magazines of the country have paid frequent and deserved tribute to his talents. He is magnetic in personality, thoroughly entertaining at all times, and his lecture alone will be worth the price of a season ticket.

MR. E. M. LONG WITH CITY DRUG COMPANY.

Mr. E. M. Long, who for the past several years was connected with the Hico Milling Co., and previous to that was a successful merchant in the county, has taken an interest in the City Drug Co., and can now be found at that place serving customers in their drug wants. The drug business is a new line to Mr. Long, but he being a versatile citizen is fast adapting himself to his surroundings and now seems as much at home as if he had grown there. With his addition to the business, it is expected that the concern will grow even faster than it has in the past.

Won't you please loan me a can? I need one to get my ticket to the movies.

This is a cut of the proposed graded school building for which you are asked to vote a forty thousand dollar bond issue, its a beauty, but are you willing for the fellow who drew this picture to receive two thousand dollars out of the bond issue for this picture, it is said there are also plans with it, but there are no plans that can be made that will permit such a building as this to be built for the remaining thirty-eight thousand dollars, we would be glad to have the opinion of our own contractors and tax payers upon this proposition.

THE PEARL OF DAYS, ITS PERIL.

(By Rev. D. H. Tuttle.)

The Lord's Day is the Pearl of Days. A Love-line of divinely tendered rest and spiritual recreation running through the Bible from end to end. Have you tasted of its strength giving sweetness? Are you shortening and saddening your life by stealing God's day? Are you putting the Lord's Day in peril by your example? Are you using your legs, your horse, your bicycle, your motorcycle, your automobile to run down Sunday? Are you trying to put God's authority under your feet? Under your wheels? Look out! This law of God like all others is persistent; not easily overthrown, but permanent for all time. God, nature, Bible, thought conscience, and a great national organization stand for it steadily—they will not let up in exhortation and warning.

The Lord's Day has two classes of enemies: The first are open and avowed, and are the lawless and covetous. Those who regard no law of God or men, and those whose greed for money is their main motive for running their business seven days in the week. The second class are those who profess respect for the Lord's Day, yet indifferent and inconsistent in their practical relationship to it. This second class are very largely church members and is by far the most dangerous. If the church membership of the United States was sincerely loyal to God it could save, not only the Lord's Day but any other religious institution that they wished to save. Every professing christian; every good citizen owes it to himself, his posterity, his country and his God to stand by the day given of God to physical rest and spiritual worship. For the people of the world to slow up one day in seven in this time of break-neck speed for pleasure, money and—well nothing, and use that day for nerve-calming, blood-coating, and soul meditation would bring blessings of every kind to every heart and home. Experience, observation and science all teach us that not only the machinery of the human body, but other machinery will last longer by getting one day in seven for

rest and cooling. Who will begin this much needed work for humanity?

Why not at your home? Organize your family into a "Lord's Day rest and working club?" Get your neighbor to organize. Read Isaiah 58: 13, 14, with Luke 6: 1-9.

P. S.—See the Burlington News of this week for a Bible study on this same subject. Will you look forward to next Sunday in the spirit of these words:

1
Another six days work is done;
Another Sabbath is begun:
Return my soul enjoy the rest.
Improve the day that God has blessed.

2
O, That our thanks and thought may rise;
As grateful incense to the skies;
And draw from Christ that sweet repose
Which none but he that feels it knows!

3
This heavenly calm within the breast
Is Christ's pledge of glorious rest
Which for the church of God remains,
The end of cares, the end of pains.

4
In holy duties let the day,
In holy comforts pass away;
How sweet a Sabbath thus to spend,
In hope of one that ne'er shall end!

NEW ORLEANS JITNEY BUS DRIVERS ARE ARRESTED.

Several Violated New Law Which Require Big Bond.

New Orleans, La., June 1.—Several jitney bus drivers, including one woman were arrested here today for alleged violation of a city ordinance regulating all passenger-carrying vehicles operated on New Orleans streets. It provides that owners shall give an indemnity bond of \$5,000 for each vehicle and went into effect today. An organization of jitney bus owners will contest the law. Each of the 535 cars of the New Orleans Railway and Light Company began operation today under a bond of \$5,000 and the total amount of the company's bond is \$2,675,000.

REVIVAL MEETING IN PROGRESS.

The revival services which began at the Methodist Protestant church last Sunday are in progress this week. Owing to the excessive rains and the unfavorable condition of the streets, the attendance has not been as large as it would have been had there been fair weather.

Rev. A. G. Dixon of High Point, who is assisting the pastor, is giving the people plain, simple and soul-stirring sermons. He is a very able and pleasing speaker, and his manner of presenting the Gospel creates a lasting impression on his hearers.

Two services are being held each day, at 9:30 in the morning and 8:00 in the evening. The meeting will probably continue through all next week. A cordial invitation is extended to the public to attend all the services, and the singers of other churches are especially invited to attend and take part in the song services.

TRYING TO RELEASE AMERICAN GOODS.

London, June 1.—Efforts are being made to settle the case of the American ship Ogeechee, which was seized when homeward bound from Bremen with a general cargo.

The Judge Procurator of the prize court has informed the American Consul General, Robert P. Skinner, that if the American claimants of various parts of the cargo will present papers, proving that they actually owned the goods before March 8, the British Government will not compel these owners to take legal action to recover their property, but will release the goods without further proceedings.

SECRETARY OF STATE IS NOW DOCTOR BRYAN.

University of Maryland Has Conferred On Him the LL.D. Degree.

Baltimore, Md., June 1.—Secretary of State, Wm. J. Bryan was given the honorary degree of LL.D. at the commencement exercises of the university of Maryland here today.

HIGH TRIBUTE TO COLONEL ANDREWS PAID BY DIRECTORS OF SOUTHERN RAILWAY.

New York.—The board of directors of the Southern Railway Company paid a high tribute to the memory of the late Colonel A. B. Andrews, first vice president and for many years a member of the board, who died at his home in Raleigh, N. C., on April 17, 1915, in the following resolutions:

"In memoriam, Alexander Boyd Andrews.

"Alexander Boyd Andrews was born in Franklin county, N. C., on the 23rd day of July, 1841. He tendered his services to the Confederacy in April, 1861, and in June of that year, before he was twenty years of age, was made a second lieutenant in Company E of the First regiment of North Carolina cavalry, Confederate States army. He served with distinguished gallantry until, in September, 1863, he was shot through the chest and lung by the fragment of a shell at Jack's Shop near Gordonsville, Va. After recovering from this serious wound he found when peace was re-established the whole industrial life of the south prostrate as a result of war and the people among whom he lived confronted with the task of rebuilding their social and of creating an industrial system on new lines. He became a factor of prime importance in this creative and constructive work. Realizing the necessity for transportation in any plan of reorganization and reconstruction, he entered railroad life. His first service was with the Raleigh and Gaston and with the Raleigh and Augusta railroads, and as their superintendent for eight years he was the principal factor in their rehabilitation after the ravages of war.

With the R. O.

"His efficiency in this work brought him an offer of promotion from the Richmond and Danville Railroad company, and in 1876 he became superintendent of its North Carolina division. He remained with this and other predecessors of the Southern Railway company and with the Southern itself uninterruptedly until his death, a period of forty years. Beginning with the office of superintendent, he worked his way up through various intermediate grades until he became first vice president and director of this company, which position he held at the time of his death and had held for many years.

"His active railroad work has thus extended over a period little short of half a century.

"During that time the principal construction and organization work of the railroads of the south has been done, and the industrial life of the south itself has been reorganized and rebuilt. In this accomplishment Colonel Andrews was a vital force. Possessing a strong and dominating personality, virile and commanding in character and intellect, he threw himself into his great work with irresistible will and purpose. His achievements, which were many, richly entitle him to a place among the great constructive forces of his state and section.

Completed Western Road.

"Among these achievements was the completion of the Western North Carolina railroad, from Old Fort, over the mountains, through Asheville, to Paint Rock, and its branches. Thus through his efforts was opened up the great industrial section of western North Car-

olina. Population and development and industries followed his pioneer act, and every person in that rich and inviting territory is now and their descendants through all the coming years will be enjoying the conveniences, the opportunities and the blessings made possible by this great piece of constructive work. The Western North Carolina railroad will remain a monument to the useful and honorable achievements of Colonel Andrews, who was its builder.

On the Personal Side.

"On his personal side he was a man of compelling and attractive personality and was greatly honored and beloved. He married in 1869 Miss Julia M. Johnson, daughter of Colonel William Johnson, of Charlotte, N. C., who was president of the Charlotte, Columbia and Augusta Railroad company. With her as his helpmate he built up an exceptionally happy and beautiful home life, which he distinguished by the most cordial and liberal hospitality.

"He was a devoted husband and father and followed his children, even after they were grown, with undiminished parental tenderness and solicitude.

"He took a deep interest in the welfare of Confederate veterans and in the establishment and maintenance for them of the Confederate Soldiers' home in Raleigh.

"Although himself deprived of the benefits of a college education, he was an earnest friend and supporter of the University of North Carolina, being for many years a member of its board of trustees and of its executive committee.

"He came to realize the value of a religious life and connected himself as a communicant with the Protestant Episcopal church, being an active and

zealous member of the church of the Good Shepherd of Raleigh, for which in the latter years of his life his munificence helped to provide a new and stately place of worship.

Devoted to Native State.

"He was devoted in his attachment to the state of North Carolina. No exigency of business or of personal interest was strong enough to persuade him to make his home elsewhere. He believed in the sturdiness, the sense of justice and the patriotism of its people, and if at any time they, in his judgment, erred his faith in the ultimate triumph of their sense of right was unwavering and supreme. He was always willing to leave his name and fame in their keeping, in the confidence that their ultimate judgment would correctly appraise and appreciate his purposes and his work.

"His death has brought universal sorrow and regret wherever he was known, but especially in the south, where his life was spent and his work most largely done.

"The secretary is directed to express to the surviving members of Colonel Andrews' family the respectful sympathy of this board and to transmit to them a suitably engrossed and attested transcript of this minute."

AULD LANG SYNE.

It singeth low in every heart,
We hear it each and all—
A song of those who answer not,
However we may call;
They throng the silence of the breast,
We see them as of yore,
The kind, the brave, the true, the sweet,
Who walk with us no more.

'Tis hard to take the burden up,
When these have laid it down;
They brightened all the joy of life,
They softened every frown;
But, oh, 'tis good to think of them,
When we are troubled sore!
Thanks be to God that such have been
Although they are no more!
—John W. Chadwick.

In the opinion of one of the leading lady delegates to the peace conference at The Hague, "Nothing can be settled by force." This is a broad assertion which will hardly be justified by any one who remembers how the independence of the United States was won.

POOR

FOR SCHOOL BONDS

WHAT OUTSIDERS THINK OF GRADED SCHOOL BONDS FOR BURLINGTON.

Hon. W. R. Carroll, Burlington, N. C.

Dear Mr. Carroll:— I read with a great deal of pleasure your article in the Burlington News in regard to the bond issue for a Graded School building in the city of Burlington. I want to say I am with you on the proposition. If I were a resident of Burlington, I would surely vote and work for the bond issue to build a building that would be in keeping with the progress of your city.

I know of no improvement that you could make that would add more to the progress of your city than a modern up-to-date school building or anything that your people would look to with greater pride. Mebane, Haw River, Graham and Elon College all have large modern brick buildings that are the pride of the towns and why not Burlington join the procession and do likewise.

I am interested because I would like to see your city have a school building that would do you credit and be a blessing to the children of the present and future generations.

When the polls close on the day you hold your election, I hope that a large majority of the voters will have been cast in favor of the school bonds and I feel sure that those who vote for it will always have something that they will be proud of.

With best wishes for your success in this fight, I beg to remain, Your friend, CHAS. D. JOHNSON, Register of Deeds, Alamance Co.

Mr. W. H. Carroll, Burlington, N. C.

My dear Mr. Carroll:— I have just read your splendid article; "Vote for Burlington Graded School Bonds," and I write to congratulate you. It is freighted with vital truth. It is true it should take no campaign. But it may be that good men are not awake to the situation; and if so, your writing should arouse them to their sense of an important duty. Your write-up for bonds is a word fitly spoken and I am sure it will do lots of good. I am glad you wrote.

Very truly, J. B. ROBERTSON.

"The children cannot vote for themselves; so, knowing their need of a better school surrounding, I take pleasure in casting my vote in behalf of the boys and girls of Burlington by voting for the proposed school bond issue."

W. E. ATWATER.

"It is the duty of the State to advocate that every son and daughter, that every child, be he of rich or poor parents, may have an equal opportunity to develop his latent possibilities. With the comforts of a modern school building the child's progress should be at least 25 per cent greater than with a building like the present one. I am willing to pay tax to help the child who is not able to educate himself."

DR. C. A. ANDERSON.

"I am for the school bonds because

I want to see the children of Burlington comfortably situated during the time they are in school. In the present building they are not."

A. F. BARRETT, Of Freeman Drug Co.

"The coming generation will soon take the place of the present. Vote to provide good schools and thereby give the coming generation an opportunity to be trained for the place it will take."

GEORGE L. CURRY, Pastor of M. P. Church.

"Burlington should be a city in which men of capital and character would desire to live. Good schools will help to make it such a place. I am for the school bonds."

C. R. LOVE, Of the Dixie Roller Mill.

"Education is a good investment. I would like to aid in giving the children of Burlington the opportunity of at least a public school education. I shall vote for the school bonds."

J. H. FREELAND, Ex-Mayor.

"Better schools will make the conditions under which we live better. We can make better schools by supporting the school bond issue. I am for the school bonds."

G. L. AMICK, Of the Standard Grocery Co.

"I consider the schools of Burlington one of its chief assets. I take great pleasure in voting for the school bonds."

DR. J. C. STALEY, Of the Alamance Loan & Trust Co.

"A vote cast in favor of school bonds is a vote cast in the interest of every child in Burlington."

THOMAS SEWELL, Of Aurora Cotton Mill.

"I have been for better schools and better school buildings all the while. Now that I have the opportunity it gives me peculiar pleasure to cast my vote for school bonds."

DR. T. S. FAUCETTE.

"Schools are a necessity that cannot wait. The people of Burlington take little or no pride in their present school facilities. The remedy is a vote for better school buildings. I am for the school bonds."

G. D. SMITH, Of Smith & Qualls Grocery.

"I am for the school bonds and shall vote for them."

DR. R. A. FREEMAN.

"The children of Burlington are as capable as any children I know. They should have advantages equal to those of other children. They should have advantages in keeping with what the progress of the town along other lines can afford."

REV. D. H. TUTTLE, Pastor of Front St., M. E. Church.

"A community is judged largely by the attention it gives to education, and the quality of the work is dependent in some manner upon the tools with which the work must be done. New school buildings are absolutely necessary that our schools may be properly housed and that the best results

may be obtained."

D. R. FONVILLE, President of Chamber of Commerce.

RESOLUTIONS OF JUNIOR ORDER

In view of the pending election on the question of issuing bonds to provide school buildings for the City of Burlington, the North State Council No. 34, Junior Order of the United American Mechanics, standing for education and realizing the pressing need for better equipped schools in this city, desires to go on record as in favor of such bond issue. Now, therefore, be it:

Resolved: That it is the sense of said Junior Order that every qualified voter in the city should cast his ballot for school bonds. And be it further:

Resolved: That a copy of these resolutions be spread upon the records of the Order, printed in the Burlington News and in the State Dispatch, and otherwise used as may be deemed advisable to aid in carrying the school bond election.

Passed this 28th day of May, 1915.

"The prime consideration of the homeseeker in any community is the educational advantages it offers. I am enthusiastic for the school bonds."

W. W. BROWN, Of the Central Loan & Trust Co.

"I favor school bonds because adequately equipped schools are necessary in order that Burlington may maintain her place among the progressive cities of the state."

W. S. COULTER, Attorney.

"I am for school bonds, because I realize that the present building is entirely inadequate for the needs of our growing town."

JNO. R. FOSTER, Of Foster Shoe Co.

"Interest of our children and a patriotic pride in our town should inspire every voter to vote for the school bonds."

WALTER L. CATES, Of Holt-Cates Co.

"I am going to vote for the school bonds that Burlington may better provide for the education of its children."

MILTON A. ISLEY, Of Aurora Cotton Mill.

"It is the duty of every patriotic citizen to vote for school bonds and give every child a fair chance and an equal opportunity to obtain the educational advantages afforded by an up-to-date and well equipped school."

E. S. W. DAMERON.

VOTE FOR BURLINGTON GRADED SCHOOL BONDS.

Duty of Every Patriotic Citizen is to See That He is Properly Registered and Then Vote Right.

Do you live in Burlington? If so you have cause to be proud of your environments. No better climate, no better people, no better surroundings from a natural standpoint can be found anywhere. But our conditions can by us be made better. But unless we pull together and place our shoulders to the wheel a "Bigger, Better Burlington" is but a vision and a dream.

The one great thing we all ought to strive for, is to make our growing little city the best place in the world in which to live. Our surroundings should be such that men of character and capital would desire to live here. Let us do something worth while which will bless every man, woman and child in Burlington now and here after. The opportunity is at hand. The crying need for better school facilities appeal to us from every side. It should take no campaign, no argument no persuasion to induce every patriotic son living within our city to answer this call. We are proud of our business enterprises, our factories, our churches and our people. We deserve the very best. The poorest among us should have every facility to educate their children and prepare them for places of usefulness in this electric age. Without an education of some degree, life in this country for the next generation will offer very few advantages. Let us have the very best for our children. In building a large, up-to-date school building we are making no sacrifice. We could make no better investment than to spend this little pittance for the benefit of the children now here and for those to come after them.

This school ought to be under one roof, centrally located. Here the rich and the poor ought to mingle together and all to fare alike. Let there be no difference. We shall oppose placing schools in the suburbs and saying to factory children you are excluded from the center, from the best. Nature made no difference in you. Your mind is as bright as that of any child or children and you should have the same advantages. The best and greatest men of the world come from the homes of poor but respected parents. The little distance traversed is an advantage. Growing children need exercise. Our town is not so large but that all our children can meet every day at our present school site.

I want to make a earnest appeal to every voter in Burlington to vote for school bonds. No appeal should be necessary. Your own consciences ought to urge you to register and to vote for them. Our taxes will not be materially increased and if the matter is properly managed will not be increased and if the matter is properly managed will not be increased at all.

Every member of patriotic orders in the city, every young man who loves Burlington and wants to live here and see it grow, every parent and every citizen who has the welfare of Burlington at heart will certainly vote for these bonds. Other matters may wait. This is a necessity that has already

waited too long. We are all ashamed of our present facilities and it is a continuing disgrace to us not to remedy it at once.

Vote to help the little boys and girls who are not able to vote for themselves. Vote to help humanity and place Burlington on a par with other progressive cities. Vote to help the coming children who will soon take your place, and rising generations will rise up and call you blessed. These bonds should carry in Burlington without a dissenting vote.

W. H. CARROLL.

"The minds of children are influenced by the things they see as well as by what they hear. Well constructed buildings with properly furnished rooms will help to build character. I am for the school bonds."

REV. A. B. KENDALL, Pastor of Christian Church.

"Life in this country for the next generation will offer very few advantages to the uneducated. We should give every child the advantage of a useful education in good schools. I shall vote for the school bonds."

AVERY A. APPLE.

"Strangers passing through our town are struck with the shabbiness of the school plant. By voting for improvements we will make our school grounds an advertisement for the city."

W. E. SHARPE.

"I know of no other town anywhere the size of Burlington that has such poor school buildings for its children. I favor the school bonds."

MARTIN W. BUCK, Pastor of First Baptist Church.

"I have no children to send to school but my friends and neighbors have. I am willing to vote for school bonds that their children may have better school facilities."

D. M. MOORE.

The little town of Chapel Hill voted a \$35,000 bond issue a few weeks ago.

—Exchange. "I am going to vote for school bonds because I think good schools in a community is one of its assets."

JOHN H. VERNON, Representative to the Legislature.

"I shall vote for school bonds that the children of Burlington may have a more comfortable place to attend school."

S. A. HORNE, Of Foster Shoe Co.

"As workmen do better work with good tools than bad, so do teachers give better service when they work in well constructed and neatly kept rooms."

JOHN STEWARD.

"Were I a speaker and were it necessary, I would stomp the town in the interest of the school bonds."

J. G. ROGERS, Of Hico Milling Co.

"As is the home, the children, the school so will be the future generation. Believing this I favor anything that means the betterment of these."

C. H. CATES, Assistant Postmaster.

WOULD INDEED BE A TRIUMPH OF DIPLOMACY.

The chances are, we suppose, that the United States and Germany will reach some sort of understanding, at least for publication purposes. Very few of the people of this country want war, and besides, there would be something rather dispiriting in offering the aid of our battleships to people who say very frankly that they would prefer our neutrality. But if this understanding is reached it is going to be a very great triumph for diplomacy. To make clear our meaning we direct attention to the fact that the Adriatic, of the White Star Line, sailed for Liverpool from New York Thursday. On the Adriatic's manifest were 3,537 boxes of empty projectiles, 5,500 cases of cartridges, 5,674 bars of copper, 1,525 cathodes, copper; 3,360 reels of barbed wire, 6,155 packages of steel, 1,000 cases of spelter, 5,140 barrels of lubricating oil, 1,307 cases of brass rods, 137 automobiles, 780 coils of copper wire, three boxes of tractors and one aeroplane.

These things were made in America. They were sold to people, for a money consideration, who will use them to kill other people. The passenger liner was relatively small. Absolute contraband was thrown about the decks in piles as large as freight cars. There was little room for passengers, but among the small number were three Americans. Now then under the terms of the vote addressed to the Berlin government by President Wilson, the kaiser's submarines would not be permitted to destroy the Adriatic, which at the present moment, is little more than a floating arsenal. We know, and the English know, and the Germans know, that this cargo can never be intercepted, save by the use of undersea craft. Our position is therefore, in effect, that this ship, freighted with instruments of potential death and destruction, must be permitted to move through the ocean lines unmolested, that the cargo must in the end perform the mission whereunto it was sold, because of the presence on board of these three American citizens. The position of our government is that it, too, is thinking in terms of humanity. The Germans position is that it, too, is thinking in terms of humanity; and that the ultimate destination and use of such cargoes bear a very close relation to human considerations, such as the matter of food supply for its own civil population.

A good part of the world is fighting, and the rest of it is trying to maintain neutrality that it is fairly well armed. Diplomacy, as we have before remarked, ought to be to keep us in the last named condition. But in the meantime we apprehend that the Germans and American viewpoints are as wide apart as the distance between Berlin and Washington.

My wife, she cannot hear me swear, the justices have said it. In black and white they put it where the whole wide world has read it although it's strange, I do declare—almost too strange to credit. For this I know so sadly well it needs no more discussing; she may be deaf, but I can tell—and you can by her fussing—she may be deaf to oaths, but h—! she sure can hear me cussing.—From "Sonnets From the Journalase," by A. Calvinistic Club.

The newspapers of the State are collecting a list of the various devices used to "blind tiger" stuff in North Carolina. Thus far the list shows that it is "seed potatoes" for Greensboro "crookery" and "wearing apparel" and "shoes" for Washington, trunks marked "personal baggage" for Wilmington, "apples for Raleigh. The Washington News suggests that "if the blind tigers really wanted to get in their shipments without being discovered, that they label them "beer and whiskey."

"Why don't Senator Simons come out and name the next governor? That's who it will be," says the Laurinburg News. How utterly rude.

There isn't much glory in it, but we have a district choice between cold feet and cold steel.—Columbia State.

SUN GRINS. There is a certain veteran hotel clerk of a certain small hotel up in the Maine woods who is noted for two things—his peculiar choice of words and the fact that every day for thirty-odd years he has inscribed on the top lines of his register the principal items of current news in the village. Not long ago a New York Editor,

who chanced to be shopping at the hotel, so The Saturday Evening Post says, borrowed the register long enough to copy down the following entries: "Monday, October 12. Yesterday, while percolating round the milldam, George Bates fell into the water; and owing to his wife's failing to make him change his wet clothes, he is now threatened with pneumonia."

"Tuesday, October 13, George Bates is rapidly becoming no better." "Last night his wife sent for Doctor Linden, who looked him over, collected two dollars and departed, looking very unsatisfactory." "Wednesday, October 14. George's symptoms are rapidly eventuating into fatalities." "Thursday, October 15. At seven-

thirty this morning our fellow townsman, George Bates, went to his Maker, entirely uncalled for.—Current Opinion. "The convict who escaped was one of the most polite men in the prison." "Yes; even when he knocked the guard down he said, "excuse the liberty I'm taking."—Baltimore American.

It is plain that the leaders of the Administration are very restive because of the widespread opinion of the country that Democracy in control in the nation means bad business for both employer and laborer.

Has not Mr. McAdoo enough to do near at home without writing political letters, and writing them in the lurid style of the campaign orator on the last night of the campaign when he knows that he cannot be answered before the voting takes place?

PLAYING FOR POSITION.

Throughout the German note to this country in reply to our note there is nothing which has in it the idea of finality. In every part of it there can be seen that the purpose is to play for position.

Herr von Jagow, and the others of the imperial German Government have lost sight of the fact that there are no "preliminaries" which have not been thoroughly digested in America.

Germany has not been frank and "open-minded" in its note. It plays for position and spurs for time, evidently of the opinion that the longer the delay the easier will the matter be for Germany.

The news from Washington is that President Wilson will reply promptly to the note from Germany, and that his reply will be short and to the point. He has already made clear the position of this country and no further matter of argument can make it clearer.

Some of our citizens say they walked five miles to school held in a log hut when they were boys and girls, but they now want a state house building for the children of this day and generation, well it is all right to provide nice, large and comfortable quarters for the future generation to be educated in...

THE NOMINEES.

So far there are no candidates for the various city offices, but the Democrats and it does not appear at this time that there will be any other, following are the nominees thus far in the field: First Ward—T. D. Fogleman, R. E. L. Holt.

While the Junior Order members are keeping open house, and discussing the proposed bond issue for the magnificent graded school building, it would be well for them to discuss the amount they are willing to pay the architect for the beautiful picture that he drew, which looks more like a state house than a graded school building.

Truly a wonder of philosophy is our Secretary of the Treasury. He accuses the Republican party of being engaged in a general conspiracy against the United States and its welfare. That party includes within its ranks the principal bankers of the country and the great bulk of the manufacturers and other producers.

Prominent Men in Raleigh Charged With Irregularities.

Raleigh, N. C., May 31.—The cases against Deputy United States Marshall, John Sturdevant, Nicholas Deboy, former assistant sergeant at arms of the state senate, and W. E. Smith, are charged with irregularities in connection with the recent municipal primaries.

The case was docketed with the clerk of court this afternoon and set for trial tomorrow. Sturdevant is charged with attempting to vote fraudulently, Deboy with "stuffing" the ballot box, and Smith with irregularities as a poll holder.

FIVE COUNTIES READY FOR WORK.

Total Appropriation of \$1,800 For Work to Begin on June 21.

The anti-typhoid idea is taking root rapidly. As soon as announcement was made that the State Board of Health would carry on joint campaigns with a limited number of counties, five progressive counties with \$1,800 responded within a few days in appropriations ranging from \$300 from Henderson and Buncombe to \$350 from Cumberland, \$400 from Northampton and \$750 from Wake. Five counties are all that can be undertaken at a time.

Letters of inquiry and applications from a number of citizens of other counties continue to pour in, and already several are talking of providing for such campaigns in their counties as soon as the campaigns are completed in the first five. Among the counties that appear to be considering this matter most seriously at this time are Orange, Iredell, Edgecombe, Halifax, Wilson and Wayne. Of this group it is probable that several will respond at the next meeting of their board of county commissioners which will be held next Monday. It would not be at all surprising, however, to hear that some other counties, from which little agitation has been heard, will also respond. The campaign will start in the first five counties on June 21, and will continue six weeks. The campaign in the second set of counties will not open until August 2nd.—News & Observer.

CARRANZA, THE OPTIMIST.

General Venustiano Carranza is an optimist of optimists. With conditions in Mexico "going to the dogs," he comes smilingly to the front with the announcement that in case the United States will just recognize him and his officials as the government of Mexico that "it is not improbable he

will be able to restore the absolute tranquility of Mexico within two or three months."

At this viewpoint it looks as if General Carranza were having just a pleasant day dream about tranquility in Mexico. The trouble with that country is that it does not appear to be able to stay put. When it was Carranza and Villa working amiably long in double harness, we were told it would be all right just as soon as Huerta had been separated from Mexico. Well, that was done, but on top of it there came the split between Villa and Carranza and there you are again.

The latest state of affairs in Mexico when there is not even safety for Red Cross supplies does not warrant the belief that there is ability among the Mexican factional leaders to get together and restore orderly government to their country. Even if Carranza were recognized there would be Villa for him to contend with, and there is no telling what would be the disposition of Zapata or even of Obregon. It is a case of faction upon faction in Mexico and one is no sooner thought to be rid of when there arises another.

President Wilson has been waiting most patiently for the Mexican's to compose their affairs. Now it is announced that he will give notice that the time has arrived when existing conditions should end, that the position of this country in relation to Mexico is such that it must do its utmost toward the restoration of a government by the people in that country. That in his note to the various leaders of factions in Mexico he will propose some adjustment for them is certain, and that time will be named for such an agreement. It will then be for the various leaders to act, and unless they do so they are inviting those on the outside to undertake a solution of the problems which thus far they have been unable to reach. Whatever the message from President Wilson to the factions of Mexico be, it will be one which goes with the hope of being of aid in restoring government and order for the people of that sadly distressed country.

SHERIFF HURT IN BATTLE WITH AN INSANE NEGRO.

Jailer Also Slightly Injured at Statesville Jail.

Statesville, June 1.—Sheriff Deaton has been confined at home the past two or three days as the result of injuries received while struggling with an insane negro. The negro, George Houston, became very violent and destroyed the padding of the insane cell. Sheriff Deaton and Jailer Gilbert entered the cell to subdue him and a desperate struggle ensued, during which Sheriff Deaton's knees struck the cell floor with such force that one of them was badly bruised. Jailer Gilbert was also slightly hurt. A straight jacket, or insane belt, was placed on the negro, but this failed to hold him. He has been placed in a more secure cell until he can be admitted to the State Hospital at Goldsboro.

DR. GUESS DEAD.

Well Known Physician Died at His Home in East Durham.

Dr. W. G. Guess, probably the oldest physician in the city, died at his home in East Durham last night at 10:20. He has been very ill for the past few months and has been paralyzed for two years. He was 83 years old and his death was not unexpected.

Dr. Guess was born about four miles from Durham on the Guess road, in what was then Orange county. He served in the confederate army and after the war resumed the practice of medicine. He has been living in Durham for the past twenty-three years.

He is survived by a wife and six children. All of his children live in Durham. He also leaves three sisters. They are Mrs. Alice McCown, Durham; Mrs. Maggie Horton, Durham county; and Mrs. Sallie Tilly, Morganton.

The funeral arrangements have not

yet been made, but it is expected that the interment will be made at the family burying ground on the Guess road.

ONLY ONE.

The Record in Burlington is a Unique One.

If the reader has a "bad back" or any kidney ills and is looking for an effective kidney medicine, better depend on the remedy endorsed by people you know. Doan's Kidney Pills have given great satisfaction in such cases. Burlington citizens testify to this. Here is a case of it: J. F. Thompson, liveryman, Means St., Burlington, says: "Quite often I have long drives and I am exposed to all kinds of weather, which causes my back to ache and my kidneys to act irregularly. Sometimes, I can hardly straighten, my back is so weak and lame.

Often sharp twinges catch me across my kidneys, so that I can hardly move for a minute or so. Whenever I feel this trouble coming on, I take Doan's Kidney Pills for a few days and the pain in my back stops and my kidneys act regularly. I believe Doan's Kidney Pills will help anyone, who will give them a good trial."

RIVER TRAFFIC CANNOT COMPETE WITH RAILROADS.

This is Opinion of Prof. Shelton, of University of Georgia.

Chicago, Ill., June 1.—Walter L. Fisher, former Secretary of the Interior; Governor Dunne, of Illinois, and William A. Shelton, of the University of Georgia, were speakers tonight at a conference of the Western Economic Society regarding the proposed Lakes to Gulf waterways, for which the Illinois Legislature has just appropriated

\$5,000,000 for an eight-foot channel from Lockport, Ill., to Utica, N. Y.

Former Secretary Fisher suggested constructive policy of government control to confine the traffic of waterways to low-grade bulk freight.

Professor Shelton took the position that the proposed waterway could be nothing but a wasteful failure.

"River traffic never can compete with rail traffic," said Professor Shelton. "This is demonstrated by the way the roads have driven freight off the Mississippi, and Ohio rivers. Business men prefer to ship by rail."

PRINT

NOTICE.

The citizens and qualified voters in the city of Burlington will take notice of the new registration and election in the city of Burlington.

You are hereby notified that pursuant to the provisions of an act of the General Assembly entitled "AN ACT TO AUTHORIZE AND EMPOWER THE CITY OF BURLINGTON TO ISSUE BONDS TO OBTAIN FUNDS FOR THE PURPOSE OF ERECTING AND EQUIPPING PUBLIC SCHOOL BUILDINGS IN SAID CITY," an election will be held at the several voting places in the above named city on the 8th day of June, 1915 upon the proposition of the adoption of said act and determining whether said act shall become law applicable to said city. You will further take notice that an application in writing of sixty qualified voters of said city has been made to the Mayor and Board of Alderman, the said application requesting the order of a special election in said city upon the question of issuing bond of said city in the sum of \$40,000.00 for the purpose of erecting and equipping public school buildings in said city. That pursuant to said act and petition a special election has been ordered to be held on said 8th day of June, 1915 upon the question of the issuance of \$40,000.00 in bonds for the purpose of erecting and equipping public school buildings in said city, the said bonds, (provided the majority of the qualified voters of the said city shall have voted for the public school building bonds), shall be issued in the denominations of \$1,000.00 each carrying interest at the rate of five per cent. per annum, payable semi-annually, all of which bonds shall run for a term of thirty years. When said bonds shall have been issued they shall be sold by the Board of Alderman at the best price which they can obtain, not to be sold for less, however, than the par value of said bonds, and they shall use the proceeds of said bonds for the sole and only purpose of erecting and equipping buildings to be used as public school buildings in said city of Burlington, and said Board of Alderman shall keep accurate account showing the amount received for said bonds and the manner in which the same is expended.

This the 22nd day of April, 1915.

JAS. P. MONTGOMERY,
Secretary & Treasurer.

Whereas, the General Assembly of North Carolina of the year of our Lord One Thousand, Nine Hundred and Thirteen enacted "AN ACT TO AUTHORIZE AND EMPOWER THE CITY OF BURLINGTON TO ISSUE BONDS TO OBTAIN FUNDS FOR THE PURPOSE OF ERECTING AND EQUIPPING PUBLIC SCHOOL BUILDINGS IN SAID CITY," and whereas, said act thereof provides that an election shall be held for the purpose of determining whether said act shall become law; and whereas, on the 22nd day of April, 1915, a petition was presented to the Mayor and Board of Alderman, at a regular meeting of said Board, by sixty and a great many more than sixty, qualified citizens, taxpayers and free holders of the city of Burlington, asking that the said Mayor and Board of Alderman order an election on the question of issuance of bonds for forty thousand (\$40,000.00) dollars for the purpose of erecting and equipping public school buildings in said city.

Now, therefore, it is ordered that on the 8th day of June, 1915, there shall be held in the city of Burlington an election which shall be held in all respects as provided by law for the holding of elections for Mayor and Alderman of said

city and at which time all the voters who are then registered and qualified to vote, shall be entitled to vote for the purpose of determining whether it is the will of such voters that the aforesaid act shall become law and applicable to the said city of Burlington. Voters desiring to vote for the adoption of said act favoring the issuing of said bonds shall vote a ballot of white paper on which shall be written or printed the words "For School Bonds" and those opposed to issuing said bonds shall vote a ballot of white paper on which shall be written or printed the words "Against School bonds."

It is further ordered that a new registration of the qualified voters of said city be had and to this end the registrars herein-after named shall open registration books for this purpose in their respective wards on the 3rd day of May, 1915, the same to remain open for the registration of voters on each day in the week, Sundays excepted, from 9 o'clock A. M. to 6 o'clock P. M., until 12 o'clock noon on Saturday, the 5th day of June, 1915.

It is further ordered that notice of said new registration and election be published thirty days prior to the holding of said election and once a week thereafter until said election is held, and that said notice be published in some newspaper of general circulation in the city of which notice shall state the date on which said election shall be held, the amount for which it is proposed to issue bonds, how long said bonds shall run, the rate of interest to carry and the purpose to which the proceeds of bonds shall be applied.

It is further ordered that the said bonds shall be issued in denominations of \$1,000.00 each and shall carry interest at the rate of 5 per cent. per annum, payable semi-annually, all of which bonds shall run for thirty years.

It is further ordered that B. M. WALKER be, and he is hereby appointed registrar for the First Ward, and that S. G. MOORE and H. K. HALL be and are hereby appointed inspectors for the First Ward; that L. J. FONVILLE be, and he is hereby appointed registrar for the Second Ward, and that GEO. SMITH AND F. W. HAWKINS be, and they are hereby appointed inspectors for the Second Ward; that RICHARD SEYMOUR be, and he is hereby appointed registrar for the Third Ward, and that J. A. IRELAND and Y. S. MILES be, and they are hereby appointed inspectors for the Third Ward; and that J. T. WELCH be, and he is hereby appointed registrar for the Fourth Ward, and that R. A. FREEMAN and C. B. WAY be, and they are hereby appointed inspectors for the Fourth Ward.

This the 22nd day of April, 1915.

JAS. P. MONTGOMERY,
Secretary & Treasurer.

Many millions of dollars will be expended in this country this year that are usually expended abroad. While all kinds of business in Europe will feel this, and some of it will be a long time recovering, it ought to be a good thing for pretty much all hands in America. Every dollar expended here is just so much to help our own people, so many of whom need help in these Democratic times.

Now that she is in the war, the first thing Italy wants to do is jump in and fracture some rule of international law. She'll feel real lonesome in the fight if she doesn't.

After all, it doesn't appear that anything is happening to China that it cares to worry much about. The embargo which Italy and Greece have put on olive oil will not seriously bother this country as long as there are so many people who cannot tell the difference between olive oil and cotton seed oil; and the latter is the cleaner product anyway.

The denials by Carranza, Villa and other distinguished swashbucklers that there is disorder in Mexico is received in Administration circles in Washington with profound gratitude. As viewed from Washington Mexican conditions at their worst are only psychological, anyway.

WILLS CENT TO EACH CHILD.
Parental Blessing Goes With Bequest From \$15,000 Estate.
Dr. Tyler G. Cooke, of 40 Elm street, Richmond Hill, and his sister, Margaret Gordon Cooke, a nun in St. Mary's Convent, Peekskill, receive by the will of their father, William J. Cooke, 1 cent each and the parental blessing. The remainder of the property, estimated at \$15,000, goes to the testator's widow, his second wife. The will, filed with Surrogate Noble in Jamaica, explains that the children were provided for before the will was drawn. Dr. Cooke said his father had made generous provision for him in his lifetime.

MY AUTO, 'TIS OF THREE.
Some fellow poetically inclined has broken into print with the following effusion: "My auto, 'tis of thee, short cut to poverty—of thee I chant. I blew a pile of dough on you two years ago and now you refuse to go, or won't or can't. Through town and countryside, you were my joy and pride; a happy day. I loved thy gaudy hue, thy nice white tires so new, but now you're down and through in every way. To thee, old rattlebox, came many bumps and knocks; for thee I grieve. Badly thy top is torn, frayed are thy seats and worn; a whooping cough affects thy horn, I do believe. Thy perfume swells the breeze while good folks choke and wheeze, as we pass by. I paid for thee a price, 'twould buy a mansion twice, now are all peddling "ice"—I wonder why? Thy motor has the grip, thy spark plug has the pip and woe is thine. I, too, have suffered, chills, ague and kindred ills, endeavoring to pay my bills since thou wert mine. Gone is my bank roll now, no more 'twould choke the cow, as once before. Yet if I had the man, so help me, John—amen, I'd buy a car again, and speed some more—Selected.
He should have bought a Ford—Editor.

JUSTICE FOR WAR BABIES.
Woman Writer Calls Upon Britain to Enact Laws Norway Has.

There is but one righteous thing for England to do. She has encouraged the loveless marriages of "war brides to assure herself future soldiers. She has been unable to prevent the women of other fighting nations from having motherhood monstrously forced upon them. She has uttered no word of protest when Fellows of the Royal Geographical society of London have publicly advocated polygamy as the only hope of repopulating Europe after the war.

England, then, should stop peddling pale, pink patter about forgiving war mothers. She should study a law that has lately been enacted in Norway, then command parliament forthwith to pass a similar one—a law giving the so-called illegitimate child the right to bear its father's name, if the mother so wishes; a law giving that child equal rights with children born in wedlock in all matters of inheritance—and of war relief.

Then England can safely leave it to God Almighty to forgive the war mothers.

NEW YORK LETTER.

Smocks, Aprons and All The Paraphernalia That Go to Make it Smart.

"What is so rare a day in June, When earth tries heaven if it be in tune?"

So thinks the girl who gathers up her gaily painted sprinkling pot, her shears, her basket, and her kneeling-pad, and trudges off to the garden to enjoy an hour or two of solitude and intimate association with the sunshine and flowers. It is quite a fad—this pottering among your posies; a phenomenon one might almost call it, wherein the artistic finds expression in paraphernalia which blends with the landscape.

The shops abound with gay importations, smocks, bonnets and aprons, to tempt those who tarry within the garden gate. The smocks in themselves are enough to turn one to rakes, spades and garden baskets. I am told the fad originated in England; certainly, it is charming enough to belong to old Brittany. This garment has much the appearance of a middy, grown to greater length, coming just below the knee, being slashed to slip on over the head. Usually it is made with set-in sleeves and yoke, and smocked front and back, and on pockets and sleeves. For the most part, linen, unbleached muslin, cretonne and silk are used in the making.

A Smock of Blue Linen for the Woman on Gardening Bent.

All a garden, with cockle-shells and silver bells, needs is a Mistress Mary, quite contrary, in one of these fetching garden smocks. Can you picture anything more charming than a bright-eyed girl in a blue smock, white hat, skirt and shoes, among the roses in an old garden? Perchance, there is a woven wicker basket on a cane, stuck in the ground to hold the posies, and a few plant-sticks, with parrots, cardinals, and bluebirds, perched on top, scattered among the flowers to make the picture painted by nature quite complete. Just looking at a yellow linen smock, with flowered cretonne collar, hat and skirt to match, brings to mind an old-fashioned garden with its straight rows of bachelor buttons, lady slippers and hollyhocks. So it goes that there is a smock for every garden, and no garden is complete without one.

The woman who makes gardening her summer pastime may even go farther and select the dress she wears with the smock to harmonize with grass, flowers and dovecot. A brown burlap or dark blue linen will give the desired effect, made with plain waist, full skirt, and the broad or gandy collar and cuffs that we have come to call Quaker. She will have no trouble in finding these accessories. The sports shops must have anticipated the craze, for there are hats, gloves, and shoes, galore for the purpose. First come the peanut straws and cane-bottom-chair hats, with floppy brims to protect the wearer from the sun. These are trimmed with a rosette of cretonne to match the smock, or apron, a velvet bow or a cluster of straw flowers. Then there are poke shapes and sunbonnets with streamers of cretonne which have taken their style from a peep in a 1915 fashion book; but the Chinese coolie hats are the novelties of the season. With streamers attached at the side, the milady can wear the plateau on her

head, or when the sun is yet in the East, use it as a basket to carry her flowers.

Since gloves must be worn to protect the hands, the stores are showing chamois, and canvas for this purpose, and if you listen close, you will hear the girl behind the counter tell each customer in a bored voice to buy a size larger than they usually wear. It is easy to tell that this girl, too, has been caught in the thrall of the gardening craze, and is thinking, no doubt, of larkspur and roses, instead of the gloves her customer wears.

Garden etiquette ever reaches to shoes. White canvas is the approved material, and you may have a comfortable, flat sneaker or trim pump, with medium heel in this fabric. With such settings, fittings and clothes, gardening becomes more than a mere pleasure. It now is a real sport of the summer; when you meet a friend, it's not how many miles have you motored, or how many tournaments won, but how does your garden grow?

MISS KATE EDWARDS.

Wilmington, May 29.—There lives at Southport, Brunswick county, a remarkable lady in the person of Miss Kate Stewart, the proprietress of the hotel in that seacoast town. Many years ago this splendid woman saved the little daughter of a captain of the Clyde Line Steamship Company from drowning. From that day to this every steamer of this old company that passes her door takes time to blow a salute to her and it matters not what hour of the day or night when the ship sails by. This is kept up until Miss Stuart appears and can be seen from the boat. The Captain once presented her with a gold watch in appreciation. Not only is she loved by the seafaring men, but the people of all the surrounding country never name her but to praise. Even the sea gulls are among her friends, and often she can be found feeding these beautiful birds on the water near her home. The gulls are found in certain months of the year by thousands. They follow the ships from time to time as they pass up and down the Cape Fear River and again when they put out to sea. They are alive on the waters of all that section by day and they sleep upon the waves at night. It gives this kind-hearted lady a great deal of pleasure to feed them from the shore with bread. The story of her life, which has been so full of usefulness, will no doubt be written one of these days. The good people of Southport, those of this community at large, and the men who have weathered the storms of many seas, will pay tribute to her loving kindness.

Another person who has the respect and confidence and love of all North Carolina, has recently spent some time in Duplin county visiting among his old friends and relatives. Dr. John Dunn Huffman, a native of Raleigh, and one of the oldest and best known Baptist ministers of the State, who is now making his home at Mebane, came down to look his people over, and to view the old scenes of his childhood. Dr. Huffman was born on the farm near Faison and first attended the old district school there along with a large number of other boys of that neighborhood, the most of whom are dead. His life is well known in every county perhaps in North Carolina, and the people of all faiths and beliefs are wishing him many more years of a green old age.

OAKDALE ITEMS.

Rain! Rain! Rain! We guess everybody has all they want this time or need. Crabby has full sway and will have for some time. Everything seems to be growing fine.

Mr. John Soots has got to be about normal again. On Saturday night while it was raining the stork brought him another little girl to make her home with him. In the morning when he went to the barn he found his best horse dead. It seems that he has double trouble altogether.

Everything seems to be quiet, nothing unusual going on, very little sickness that we know of, news scarce.

CHRISTIAN ENDEAVOR CONVENTION PROGRAM.

Some Vital Questions Will Be Considered at the Wilmington Gathering.

The annual convention of the Christian Endeavor society, which will open in Wilmington Friday of this week, June 4, and continue through Sunday, June 6, promises to be the greatest gathering of the Endeavors of North Carolina ever held. Three officers of the society are Greensboro people, E. P. Barker, vice president and district superintendent; Miss Florence E. Ledbetter, press superintendent; and Rev. E. J. Harold, educational superintendent, and these and other workers of the local society will endeavor to have a big delegation go down from here to attend the gathering. They are confident of having such a delegation; and reports from other sections of the state indicate that the attendance is to be record breaking. Delegations from the west are expected to pass through Greensboro Thursday and Friday enroute to the convention city by the sea.

The program this year is considered the most comprehensive yet arranged for a state convention. There will be strong addresses on some very vital subjects; and many extraordinary features are incorporated in the arrangements. A perusal of the program will convince all members of the society that to miss this meeting will be to miss a rare treat. This program follows:

EVEN THE VOICE OF ONE DEAD IS HEARD PLEADING FOR FRANK.

Dead Judge Wrote That he Feared he Had Paid Too Much Defense to Jury—Mrs. Frank Tells Story Of Husband's Life.

Atlanta, Ga., May 31.—The hearing of Leo M. Frank's application for commutation of sentence from death to life imprisonment, which began before the state prison commission was completed late today. It is expected that the commission's recommendation to the governor will be transmitted by the last of this week, or within 10 days at the latest, and the governor then will take final action in the case. No one appeared to argue in opposition to Frank's application.

The principal features of today's proceedings were a letter written a few months before his death by Judge L. S. Roan, who presided at Frank's trial, in which he sought clemency for the prisoner, and a statement by Mrs. Frank describing her husband's actions on the night following Mary Phagan's murder, and denying rumors of estrangement between herself and Frank.

Judge Roan's letter was addressed to the chief counsel for Frank in his trial. It is stated that at the proper time he would ask the Governor to commute Frank's sentence to life imprisonment; that after many months of deliberation he still was uncertain of the prisoner's guilt, and that "it is possible I showed undue deference to the opinion of the jury when I allowed their verdict to stand."

The production of Judge Roan's letter, Frank's counsel stated, obviated the necessity of extending argument and permitted a quicker termination of the hearing.

Frank did not attend the proceedings, but his wife was presently thruout the sessions. There were only about a dozen women present among the spectators who crowded the chamber.

Former Congressman Howard who conducted Frank's case before the commission, submitted a mass of court records, petitions from legislature and societies and letters from prominent lawyers and jurists individuals. His oral argument was brief. At the early session a number of well known Georgia lawyers and jurists made oral pleas in behalf of Frank and at the concluding session arguments were presented by former Governor Eugene N. Foss, of Massachusetts, representing citizens of that state; John M. O'Conner, chief justice of the criminal court of Cook county, Illinois, representing the Chicago Frank committee; Mrs. Mary Delaney Fisher of Chicago, representing 200,000 women from all over the country, whose petition she presented; Dr. J. W. Coughlin, of Boston, and others.

Mr. Howard, during argument for Frank, offered in evidence an analysis of the court record regarding the "murder notes" found beside Mary Phagan's body, and which played an important part in the trial. This analysis, Mr. Howard declared, was intended to show that James Conley, who is serving a prison sentence as accessory after the murder, conceived and wrote the notes; that they were written in his style of expression and

language; that they had to be written immediately after the crime and that Frank would not have had time to learn Conley's mode of expression and stimulate it if he had dictated the notes as Conley testified.

"The purpose of our argument," said Mr. Howard, "would be to show that there inheres in the record without our producing any extraneous matter, such doubt of Frank's guilt, that your course would be clear. When Judge Roan's letter came and he wrote that he had been moved to ask you to commute the sentence because of his doubt as to Frank's guilt, we felt there had been accomplished all that we had expected to accomplish by argument."

FOUR KILLED IN ZEPPELIN RAID OVER LONDON.

Ninety Bombs Dropped When Aircraft Attack the British Capital at Night.

BUILDINGS SET ON FIRE.

Mob Violence Against Germans Breaks Out Afresh Following the Bomb Throwing.

London, June 1.—Four persons were killed and several injured in the raid on London last night by Zeppelin airships. Although ninety bombs were dropped no public buildings were hit and the property damage was not heavy.

The raid brought a recrudescence of the anti-German mob demonstrations today. The feeling against Germans is acute. Crowds have attacked German shops and special constables have had to be called out to deal with the people. As a further mark of German disapproval the Lord Chamberlain revoked the royal warrants given to three German firms trading in London.

This information was contained in an official statement given out today as follows:—

"In amplification of the information which appeared in this morning's newspapers, the following particulars of last night's Zeppelin raid in the metropolitan area are now available for publication.

"Late last night about ninety bombs mostly of an incendiary character, were dropped from hostile aircraft in various localities not far distant from each other. A number of fires, of which only three were large enough to require the services of fire engines, broke out. All of them were promptly and effectively dealt with, and only one of them necessitated a district call. The fires all were caused by the incendiary bombs referred to.

"No public building was injured, but a number of private premises were damaged by fire and water.

"The number of casualties is small, so far as has at present been ascertained. One infant, one boy, one man and one woman were killed, and another woman was so seriously injured that her life is despaired of. A few other private citizens were seriously injured, but the precise number has not yet been ascertained.

"Adequate police arrangements, including the calling out of special constables, enabled the situation to be kept thoroughly in hand at all times."

HIS LEAD.

Those angelic looking little boys, with golden curls, are usually just like other boys; a fact often overlooked by female relatives and other adoring ladies. One of this cherubic brand of small boys came back from school the other day rather depressed because he had no nickname.

"I spoke to the teacher about it," he vouchsafed, his big eyes opened wide, a mournful look about his angelic mouth. "I told her some nicknames that I'd like."

"And what were the names?" inquired a rapturous maiden aunt.

"Bunco Bill or The Slugger," replied the angelic one.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr.

Hughes Would Die, But

One Helped Him to

Recovery.

Pomeroyton, Ky.—In interesting ad-

vises from this place, Mr. A. J. Hughes

writes as follows: "I was down with

stomach trouble for five (5) years, and

would have sick headache so bad, at

times, that I thought surely I would die.

I tried different treatments, but they

did not seem to do me any good.

I got so bad, I could not eat or sleep,

and all my friends, except one, thought I

would die. He advised me to try

Thedford's Black-Draught, and quit

taking other medicines. I decided to

take his advice, although I did not have

any confidence in it.

I have now been taking Black-Draught

for three months, and it has cured me—

haven't had those awful sick headaches

since I began using it.

I am so thankful for what Black-

Draught has done for me."

Thedford's Black-Draught has been

found a very valuable medicine for de-

rangements of the stomach and liver. It

is composed of pure, vegetable herbs,

contains no dangerous ingredients, and

acts gently, yet surely. It can be treat-

ed by young and old, and should

kept in every family chest.

One Experience Convinced Me of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in

Long Distance calls for fifteen merchants within a radius of several hundred miles.

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars.

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters"
