

WOMAN ASSAULTED AND HER HOME RANSACKED

Spencer, June 22.—Mrs. C. A. Rozzell, wife of a well known employe of the Southern Railway at Spencer, was knocked into insensibility tonight and the house robbed by an unknown young white man. The house was entered by a window which was broken. A bed slat was used by the burglar, who assaulted Mrs. Rozzell when she was awakened. Her screams were heard by neighbors and she was found unconscious on the floor. Every room in the house had been ransacked by the burglar, who accomplished a greater part of his work before awaking the family. Mrs. Rozzell was sleeping with a 3-year-old daughter and her husband was at a lodge meeting.

A physician was summoned and rendered every possible aid, and while her condition is precarious, it is thought Mrs. Rozzell will recover. Bureau drawers, bed clothing and wearing apparel were scattered over the premises by the burglar.

Efforts were made by Chief of Police J. R. Cruse to get blood hounds from Lynchburg, Danville, Statesville and other places, without avail.

The burglar is described as being six feet tall, wore a black soft hat and was in shirt sleeves. Officers are working hard on the case and are watching every road from Spencer. Great crowds are on the streets here at midnight and excitement runs high on account of the crime. A posse, headed by Chief of police J. R. Cruse, and Sheriff J. H. McKenzie, is making every possible effort to catch the culprit.

GOT MORE THAN WANTED

Winston-Salem Ministers' Union Asks For Closing of General Delivery Window on Sunday and Gets Entire Postoffice Closed.

Winston-Salem, June 24.—The one paramount topic in Winston-Salem is the order of the Postoffice Department closing the postoffice from midnight Saturday until midnight Sunday, the same being in response to a petition gotten up by the ministerial union, but which is not what they had expected, apparently, for the president and secretary of the ministers' union has issued a card, saying that the responsibility for the rigid general order rests with the local postoffice authorities, since the most that the union had contemplated was the closing of the general delivery window.

Postmaster Reynolds has issued a long document in reply, in which he calls the card of the ministerial union as stated a "cowardly attempt to shift the burden of responsibility from their shoulders to mine, and they have stooped to misrepresentation in this effort."

Many citizens, who are known as among the staunchest churchmen in the community and who signed the petition, are saying openly that the order was a surprise to them, that they did not believe that the petition was intended to effect such a drastic imposition upon business, for the postmaster says it will be impossible to handle the mail on schedule time Monday, with the heavy accumulation of the twenty-four hours preceding.

It is not believed that the order will be effective very long, for it is the general opinion, apparently, that with the light of understanding upon the matter, the great majority of people will petition for a rescinding of the order.

Card of Thanks

We wish to thank our many kind friends for their kindness during the sickness and death of our little babe. May the Lord's richest blessings rest upon them all, and may we all be prepared to meet our loved ones in that Haven of rest where there will be no sickness or death, but peace and joy for evermore.
Mr. and Mrs. J. W. Sykes.

Raleigh, June 23.—The contract for the erection of a modern seven-story hotel building at the corner of Martin and Salisbury streets was yesterday awarded to J. H. Pierce and Son, of Norfolk, Va., by Messrs Jones and Bailey. The building itself is to cost \$50,000, exclusive of the plumbing, wiring, etc. When fully completed it will have cost \$75,000.

The building is to be of reinforced concrete and absolutely fire-proof. The outside walls along Martin and Salisbury streets will be of pressed brick, trimmed with granite and Indiana limestone. The building is to be 54 by 100 feet, extending on Martin street from the Mutual Publishing Company to the corner; thence up Salisbury street to the Elks' temple. It is to have 75 rooms, and the lobby and dining room will occupy the ground floor.

The work of tearing down the present building occupied by Messrs Jones and Bailey will begin Monday; the actual work on the new building is expected to begin about July 1 and will be completed in January.

GOES TO JAIL BECAUSE HE WOULD NOT TELL

Charlotte, June 22.—For his refusal to divulge the names of the person or persons from which he has purchased liquor illegally in Charlotte, William Owens, formerly a member of the fire department of Charlotte, was sentenced by Desk Sergeant J. M. Scullion, yesterday afternoon to serve a sentence of ten days in jail. Owens was summoned to testify under the capias ad testificandum proceedings. He was given two opportunities to answer Sergeant Scullion's questions, but stoutly refused to "peach" on his friends. He is now in jail and as the sentence is for contempt of court there is no way to obtain his release except through the means of a pardon.

The examination of Owens was part of a general campaign being waged by the police department, led by City Solicitor John A. Parker, against violators of the prohibition law. Three other witnesses were examined and all gave testimony which will lead to the issuance of warrants. One of the witnesses, however, hesitated until stared in the face by a jail sentence and he then reluctantly gave in.

WAKE COUNTY LADY IS DEAD OF GRIEF

Raleigh, June 23.—Miss Clarice Robertson, the nineteen-year-old daughter of Mr. and Mrs. George Robertson, died at her home in Eagle Rock, this county, Wednesday afternoon as the result, it is said, of grieving over the death of her brother, Buck Robertson, who was killed in a pistol duel by Henry W. Montague some time ago. The funeral was held from Bethany Baptist church Thursday afternoon.

Miss Robertson was a fine Christian girl, taught a Sunday school class and was popular in her community. She and Mr. Montague were sweethearts and the death of her brother several weeks ago is said to have caused the young woman to grieve herself ill. There were many beautiful floral offerings placed on her grave.

WEALTHY CITIZEN ASSAULTS DURHAM EDITOR

Durham, June 23.—City Editor Rufus Isehour, formerly of the Charlotte News and the Salisbury Post, now of the Durham Sun, won fame here today by being assaulted with a cane in the hands of R. H. Wright, the wealthy traction company president and large capitalist. The blow did no damage.

Mr. Wright's anger was aroused by a recent article in the Durham Sun which Editor Isehour wrote, making mention of Mr. Wright's decision to live in Durham and extending to him the glad hand of fellowship. The article grew out of a story that Mr. Wright had listed \$70,000 personal property in Durham "under the gentle persuasion of a county road sentence held over him by the county commissioners." The article telling of his listing his taxes declared that in New York Mr. Wright made affidavit that he lived in Durham and was not liable for claims there, and that in Durham the rich man claimed New York as his home and evaded taxes here. It was caustic and direct in its charges. The Sun declared that he listed twice here, first several weeks ago and last within a few hours of the closing of the books.

When Mr. Wright saw the reporter today he is said to have asked: "Are you the damned scoundrel who wrote that article?" and admission caused him to strike.

It was the cause of a good deal

of fun. Mr. Wright has demanded a retraction under threat of suit.

Orphans at Baptist Church.

Mr. Jno. D. Berry, Manager, of the Odd Fellows Orphanage at Goldsboro, with Miss Lillian McDonnell, music teacher and twelve of the orphans were present at the Baptist church Thursday night and gave an exercise by the children which was highly commented by the large audience present. A small admission fee was charged and the sum of \$50.30 realized. From here they went to Gibsonville and Proximity. They will spend several days next week in the western part of the state. The Orphanage which is under the care of the Odd Fellows is caring for 160 children the maintenance of which cost more than \$13,000 during the past year.

The proceeds which are received on their trip will be spent for the purchase of more farming land.

Until four years ago Miss McDonnell the music teacher was an orphan in the home, and after completing her course decided to return to the home.

The Children were carried out automobile riding in the afternoon which they enjoyed very much.

SAMUEL M. HOLTON DIES AT HIS HOME IN DURHAM

Durham, June 23.—Samuel M. Holton, a prominent member of the Durham bar, died unexpectedly at his home in West Durham tonight at 10 o'clock. Mr. Holton had been absent from his office only a few days and although his health has not been good for sometime his family and friends did not anticipate any serious results. The physicians have not announced the cause of death. The funeral arrangements as arranged provide for the service tomorrow, Saturday, afternoon at 5 o'clock. Mr. Holton was the son of Rev. Quentin Holton, a Protestant Methodist minister of Guilford county, and a brother of District Attorney A. E. Holton of Winston-Salem and Rufus E. Holton of Yadkin county, locating in Durham seventeen years ago, and during these years has achieved success in the practice of his profession, being a man of marked ability. It will be recalled that Mr. Holton was connected with the trials of the "usury" cases in Durham about a year ago and his conduct of these cases gave him considerable prominence.

THE TRUE TEST.

Tried in Burlington, It Has Stood The Test.

The hardest test is the test of time, and Doan's Kidney Pills have stood it well in Burlington. Kidney sufferers can hardly ask for stronger proof than the following:

Mrs. Sarah Andrews, Webb Ave., Burlington, N. C., says:—"I am always willing to give Doan's Kidney Pills my endorsement, knowing from personal experience that they are a good remedy for kidney trouble. I suffered a great deal from pains in the small of my back and I had such bad headaches and dizzy spells that I could not get around. Finally I decided to try Doan's Kidney Pills and got a supply from the Freeman Drug Co. They restored me to better health than I had enjoyed for years, not only strengthening my kidneys but driving the pain away." (Statement given Dec. 19, 1907.)

A Lasting Effect.

On January 14, 1911, Mrs. Andrews was interviewed and she said: "I am glad to make the fact known that the cure effected by Doan's Kidney Pills three years ago has been permanent. My health since that time has been excellent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A STONECUTTER IS HURLED FROM 28 STORY BUILDING

New York, June 16.—The financial district witnessed a gruesome incident at its busiest hour this afternoon, when Wm. Anderson, a stone cutter, fell from the 28th floor of the Bankers' Trust Company's building, nearing completion at Wall and Broad streets. In reaching for a stone Anderson slipped and fell. His one wild cry as he realized his doom attracted the attention of bankers and brokers as the body came hurtling down through the space. On a stone coping at the fourth floor the body struck, and its impact at that point was so tremendous that an arm was torn off and left lying on the sill as the body bounded out and crashed onto the heavy wire netting at the first floor, which had been spread over Wall Street to protect traffic while the building was being erected.

The screen acted like a spring-board and threw the body into the air again. It dropped finally, horribly mangled in front of the Wall Street entrance of the Stock Exchange. Excitement in the street was so intense and the crush so dense that the police reserves had to be called out from the nearest station to restore order.

Blind, Dizzy Spells

Wilmington, N. C.—Mrs. Cora L. Ritter, writes from this place: "I used to have blind dizzy spells and weak cold spells went all over me. Different doctors could not tell me what was wrong. After taking Cardui, I am all right and in better health than for 10 years." Cardui is a remedy for woman which has been used by women for nearly a lifetime. It prevents the unnecessary pains of female troubles, such as headache, backache, dizziness, dragging down feelings, etc. Try it.

Improvements at Spencer.

Spencer, N. C., June 15th.—Details of the extensive improvements being made at Spencer by the Southern Railway, including the pumping station at Yadin River, the new boiler shop and the storehouse and office building are given in a statement just made public by Vice President and General Manager E. H. Coapman.

Two twin-volute turbine pumps driven by steam turbine engines and a 250 horse power boiler are being installed at the pumping station, which is about three miles north of Spencer. A 200,000 gallon steel tank on steel frame is being constructed in Spencer, together with the necessary pipes, connecting it with the pumping station. With this improvement an adequate supply of water will be available for the shop and road purposes as well for necessary fire protection to the entire plant.

The new boiler shop will be a building of steel frame, brick construction, 100 x 210 feet, about 40 feet high with riveting tower at one end. It will be equipped with traveling cranes, riveting machine and all other tools and machinery necessary to a well equipped modern boiler shop.

The demand for increased storage facilities and more and economical handling of material and supplies resulted in the construction of a storehouse and office building, which will be of brick, 50 x 200 feet two stories in height and provided with an elevator. The platform for the storage of castings will be removed and rebuilt to dimensions of 46 x 325 feet, with 2470 feet of connecting track.

Change of Heart.

Sevierville, Tenn.—"I never did believe in patent medicines," writes Mrs. Martha Hown, of this place, "until I took Cardui, and it cured me. For six months I could not do anything. Now I do all my housework, and it don't tire me. Doctors failed, but Cardui saved my life." The benefit from taking Cardui is not confined to one part of the body. Cardui improves the whole womanly system. It helps headache, backache, falling feelings, and female weakness. Try it. It will help you. Price \$1.

It is reported from Honolulu that the United Fruit Company is preparing to develop the banana industry in Hawaii and will put on fast steamers to the United States.

To the People of the South.

Roanoke, Va., June 14.—There are many millions of idle land in the South, but there is really no need why we allow it. It is simply a question of getting people into the South. Why that's the veriest platitude, you say. Of course it is. It is one of those certainties which, by oft repetition, grows trite, until we go into action.

Getting people into the Southern States has grown into a question because we have been speculating about, instead of working to settle it.

We have tried to make it a public matter when it is, in fact, a work for us as individuals. We know absolutely that no great work is accomplished in any other way, but somehow we have made immigration a matter of mystery. For years past we have seen an annual inflow of millions of foreigners into the United States. Some of them we have desired to bring into the Southern States, but have not proceeded very far in doing it. Now how come the foreigner to set out for our shores? What was the beginning point of his wish to come to this country? Just this: some individual already here wrote him a letter, that's all. Someone personally advertised this country to his friends and relatives in his home country, and they came. Anything easier to be understood than that? Do you not begin to "catch the point" of the "Back Home" movement? If the Italians, Hungarians, Poles, Greeks, Armenians and Russians can, by personal letters, bring hundreds of thousands of their countrymen to this country every year, can we not take the trouble of writing to our acquaintances in the north, west and northwest about present conditions and opportunities here in the South? It is useless to debate whether it will do any good or not, just DO IT.

A Strange Story

Argyle, Mich.—Mrs. Wm. H. Carson, in a letter from Argyle, says: "I was almost wild with pain in my head, and other severe pains from womanly troubles. After using Cardui, I obtained great relief. Further use of Cardui raised me from my bed of agony. Cardui saved my life, when nothing else would help me." Whether seriously sick, or simply ailing, take Cardui, the woman's tonic. It relieves pain, regulates irregularities, builds weak, nervous women back to health. Ask your druggist about it.

Justice John M. Harlan is in his thirty-fourth year as a member of the United States Supreme Court, and he will not have to live many more months to exceed the record made by Chief Justice Marshall and Justices Story and Field, each of whom served 34 years in the court. It is said of Harlan that in all this time he has been absent from the sittings of the court less than 20 days.

"Now For North Carolina."

The National Magazine for June is splendidly dedicated to the present and coming prosperity of the Old North State. There have been more or less efforts made by some periodicals to "write up" the South. But in the National Magazine is shown a timely and well focussed picture of in viting opportunities in North Carolina. The article shows results of wide travel and familiarity with the whole state.

The "Coast and the Coastal Plain," "Prosperity on the Piedmont Plateau," "In the Land of Sky," "Sojourning 'Neath the Long Leaf Pines," and "In the Wake of the Electric Wave" are topics ably illustrated and discussed.

The handsomest cover design appearing on any magazine for months and in four colors is also dedicated to North Carolina. This is a reproduction of Sir John Millais' celebrated painting, "The Boyhood of Raleigh," showing him under the spell of the sailor's wonderful narrative of the New World, and which actuated Sir Walter in after years to send his colonizing expedition to Roanoke Island. The four-color, double page map of the state which is also furnished is very convenient for reference while reading the story. Every North Carolinian should buy a copy of the National Magazine for June. It's a "booster" edition that calls for everybody "to help boost," and every body who reads the story will be a bigger "booster" than ever before. The National Magazine, address is Boston, Mass., and the subscription price is 15 cents per copy, \$1.50 a year.

"A Welcome Chance to Those Who Suffer."

Coming to Burlington, N. C. On Monday July 10th 1911. To Stay at Hotel Ward. Dr. Francis S. Packard of Greensboro, N. C. One Day Only Consultation and Examination Confidential, Invited and FREE.

From a Late Snapshot

To see all of his regular Patients and such new Cases, as may wish to consult him. Dr. Packard enjoys a wide reputation, among the profession and the Public of North Carolina, where for more than 25 years he has devoted his entire time to the Study, Treatment and Cure of Chronic Diseases. The Doctor has had wonderful success in his chosen work, that of curing chronic sufferers, Men, Women and Children. The Patients he has restored to Health after they had given up all hope of being Cured are numbered by the Thousands. He is a kind, generous, democratic gentleman to meet, of high scholarly attainments, and dignified personality. Coupled with a Brotherly interest, in all who seek his advice. He does not take a Patient for Treatment unless he can foresee a Cure of the Case. The most commendable feature of his work, and one that appeals to the ordinary sick person, is the fact of his charges being as reasonable and moderate as to make it within the reach of even the very poor. At no time do the charges amount to more than \$7.00 a month or about \$1.50 a week. He gives his own medicines, and there are no extra Charges. It takes him never more than from four to six Months to Cure a Case under Treatment. All Cases, even those who have been given up as incurable or Hopeless, have been Cured and restored to perfect health by this Brilliant Physician and the wonderful methods he employs. If you want to meet him and have him examine you, go to see him, and talk the matter over with him. It will cost you nothing if he does not put you under treatment. If he takes your case, it will cost you a very small sum to get well.

Wednesday, June 28, 1911.

The tax assessors have been more numerous than blind tigers.

There is a time coming when you can get even, don't forget it.

Good morning! Have you seen the tax assessor, and what did he do to you?

Most men do not mind being told that they are wealthy except by the tax assessor.

Democratic government comes high, but you are getting what you voted for, so don't kick.

While the tax assessors are after the tax dodgers, the blind tigers are getting in their work.

The sanitary committee are up against a proposition, but here is hoping they will be able to handle it.

Better have a high tax rate than a high tax valuation. The rate can be reduced, but it is hard to get the valuation down.

Everybody says it's dull, and that money is scarce, but we notice that all excursions are well patronized, especially when they run to Danville, Va.

The Chamber of Commerce seems to be doing good work these days, there are more empty dwellings and business houses here now than ever before.

Governor Kitchin is kept busy these days ordering special terms of court to try the "blind tiger" cases. Yet, it does not appear to stop the illegal sale of the stuff.

Perhaps those Winston preachers had not been accustomed to getting what they asked for. But when they offered their petition to "Uncle Sam" he dealt it out to them proper.

Democratic government means high property valuation and high taxes, but don't kick, they need the "mun", and must have it, take your medicine, but change doctors at the next election.

About the only solution to the blind tiger question is to destroy all the ingredients from which the "joy juice" can be manufactured. A jail or road sentence has no terrors for engage in the traffic.

Many people are finding themselves much more wealth after a visit from the tax assessors than they ever were before. But they will wish they did not own so much when the tax collector comes around.

The North Carolina Editors are enjoying their annual summer outing in the mountains at Lenoir this week. They deserve all the good they may be able to get out of the cooling mountain breeze these hot sultry days.

The Dispatch goes into more than twenty-five hundred homes every week, and is read by more than five thousand people, this ought to make it a pretty good advertising medium don't you think. Try it. Others get results, why not you.

We would like to see the improvements made upon our streets and side walks for which bonds were voted more than a year ago. If the present board of Aldermen do not carry out the wishes of the people, they deserve the severest criticism.

The Windsor Ledger reached our desk last week in a new dress of body type, which has added greatly to the appearance of that live up-to-date paper. The people of Bertie should appreciate Brother Kennys' efforts to give them the best there is going, by patronizing him liberally.

Do the people of Burlington want the Postoffice closed on Sunday? Your Uncle Samuel would like to know your wants in regard to it. Let the Ministerial Association, Chamber of Commerce, (?) and other organizations of the city get busy if they want anything done. There is a wave of general reform going on all over the country along this line, but not quite so drastic as it applies to Winston-Salem.

The Expected Has Happened.

The distressing automobile accident which occurred in this city last Friday afternoon brings us face to face with some stern facts, facts that should be heeded before more serious results are recorded. And that is the speed limit and the handling of automobiles.

In the accident that occurred last week we are glad to learn, and so to state, that no blame is attached to Mr. Sharpe for the distressing affair, though admitting that he is inexperienced in the manipulation of the machine leaves room to conjecture that perhaps had he been an experienced chauffeur, the accident might have been avoided. Be that as it may, it is a small wonder that more accidents have not occurred here than has up to this time, with the reckless manner in which some machines are being handled on the streets of the city.

It is up to the city authorities to look into this matter at once, if there is no law in the city governing the speed limit and the handling of automobiles, it is their duty to make some, and not make them for the purpose of ornamenting the pages of the book of ordinances, but see to it that they are enforced. This may appear a little drastic at first glance, but it will be the best in the long run. Because one happens to be able to own an automobile should not cause him to lose sight of the fact that he is not immune from the law. When the law is violated, the offender, should be punished, whether he rides in an automobile, or pushes a wheel barrow.

One human life is more precious than all the automobiles in the city, and we do not believe that there's a chauffeur in the city who would wilfully run down a pedestrian, yet, when extreme care is not observed it is liable to occur. Hence the necessity of drastic laws for the protection of human life. The mayor and the board of Aldermen know their duty and if they fail to perform this duty, then the responsibility is upon their shoulders. Gentlemen it is up to you.

On the 4th, of July a picnic and family re-union will be held at the Solomon Shepherd old homestead near the Brick (Reformed) Church in Guilford county, where Alphonso Shepherd now lives. All the Shepherd's and their family connections are invited to be on hand at 10 o'clock, a. m. with well filled baskets. A regular program with recitations, patriotic songs and addresses will be carried out and a good time is assured to all who go.

Painfully Injured.

Augustus Bradley, Jr., second son of Mr. and Mrs. Augustus Bradley of East Davis Street, had the misfortune of being run into by an automobile last Friday evening. Young Bradley was on his bicycle when he met Charles Sharpe in front of Dr. Stafford's, in the automobile which was filled with ladies. Young Bradley attempted to pull out of the street for the machine but his wheel wobbled and caused the machine to catch the bicycle, dragging him beneath. The bicycle was badly broken.

Examination showed the boy's leg laid bare for six inches above the knee. The wound being almost to the bone. Physicians were summonsed and the boy placed under chloroform for more than an hour while the wound was dressed.

Every precaution possible is being taken to prevent blood poison. No blame is attached on the part of either, for the accident seems to have been unavoidable.

Retail Merchants Meet.

Mr. J. R. Hoffman returned last week from Hendersonville where he attended the annual meeting of the North Carolina Retail Merchants Association. He informs us that the report of the President and Secretary was better than any previous year, there being 101 associations in the state.

The visiting members were loyally cared for by the local association. On Wednesday afternoon they were carried to Laurel Park two miles out from Hendersonville where a fat banquet was given. Thursday afternoon was spent at Kanuga Lake six miles out of the city.

The next annual meeting will be held at Raleigh.

England is going to a lot of trouble to crown its king and queen, but it seems to enjoy the excitement like preparing her graduation dress.

Excursions.

The annual celebration of St. John's Day at Oxford last Saturday was attended by a large crowd, although only a few from our town. The excursion train passed Saturday morning with the crowd quiet.

The excursion of the season was run Monday from Durham to Danville. The round trip fare was only \$1.50. The train which consisted of five cars for colored, one refreshment and two for whites passed here about nine o'clock. The cars were all packed and everybody raising a racket.

There's no use talking, but when an excursion runs to Danville people will go.

Our people, believing in large Sunday School attendance and being strictly prohibition, of course few went.

To Whom It May Concern.

Burlington, N. C., June 27. This is to certify that the Chamber of Commerce of the City of Burlington, N. C., have examined thoroughly the Guaranteed Stock of the Holt Engine Co., and find that the plan is entirely safe and that all a stockholder can possibly lose is the interest on the money invested. The Chamber of Commerce takes pleasure in recommending this plan for securing a new industry for our town.

Respectfully submitted,
W. E. Sharpe, Pres.
Chamber of Commerce.
Attest, J. H. Vernon, Sec.

In Memory of Mrs. Cox.

A beautiful and impressive service was held Sunday evening at five o'clock in the Macedonia Lutheran Church when the large window in the front of the newly erected edifice, representing "Easter Morning," which has been paid for by popular subscriptions by the congregation as a memorial to Cordelia Spangler Cox, the beloved wife of the pastor, Rev. C. Brown Cox, in loving remembrance of her beautiful life of service to the church and devotion to the Lord was consecrated to this noble purpose.

The Vesper Service was led by Associate Pastor, Rev. G. I. Lenker, followed by the address by Rev. J. Henry Harms, D. D., President of Newberry College, Newberry, S. C. President Harms is a fine orator and delighted his audience, picturing in his beautiful language that true greatness and power does not exist on the battlefield where some heroic deed is done, but in the simple word, kindness. He refreshed the vivid picture of the true, beautiful and noble life in whose memory the services were held.

After the address the window was dedicated to her memory by Rev. Lenker.

Special music was rendered. Mrs. J. L. Scott singing a solo very appropriate for the occasion.

In the Burlington Sunday Schools Sunday, June 25th, 1911.

State Normal and Industrial College

We desire to call attention to the advertisement of the State Normal and Industrial College which appears in this issue. Every year shows a steady growth in this institution devoted to the higher education of the women of North Carolina.
 The College last year had a total enrollment of 909 students. Eighty-seven of the ninety-eight counties of the State had representatives in the student body. Nine-tenths of all the graduates of this institution have taught or are now teaching in the schools of North Carolina.
 The dormitories are furnished by the State and board is provided at actual cost. Two hundred appointments with free tuition, apportioned among the several counties according to school population, will be awarded to applicants about the middle of July. Students who wish to attend this institution next year should make application as early as possible, as the capacity of the dormitories is limited.

What Is Rest.

That no consumptive can hope for a cure of his disease without following the most rigid routine with regard to rest is the conclusion of four interesting articles in the Journal of the Outdoor Life for June, by Professor Frederic S. Lee of Columbia University, New York, Drs. Lawrason Brown and F. H. Heise of the Adirondack Cottage Sanatorium, Trudeau, N. Y., Dr. Joseph H. Pratt of Boston, and Will M. Ross of Stevens Point, Wis.

Professor Lee, writing on the subject "The Physiology of Exercises and Rest," shows by experiments on dissected frogs the way in which exercise tires the muscles and, in fact, all the organs of the body. He says:

"There is no known antidote to fatigue, unless it be rest, with all that rest implies. Sleep allows the reparative process of rest to be performed most quickly and completely. A moderate degree of fatigue, or even a considerable degree when not too often incurred, is not detrimental to a healthy body and is even to be advised. The healthy body is provided with great recuperative powers, and does not rapidly succumb to even excessive demands on its energy. But it should be allowed the proper condition for recuperation, and that condition is adequate rest. There is danger when the fatigue of one day's labor is not eliminated before the next day's work is begun. The effects may then be cumulative, the tissues may be in a continued state of depression, and the end may be disastrous."

Drs. Brown and Heise in an article on "Properly Regulated Rest and Exercise in Pulmonary Tuberculosis," hold that the action of the poisonous germs of the disease on the body is very similar to that of over-exercise. The poisonous irritation caused by the germs gives the organs and tissues of the body a double load to carry. They emphasize the importance of rest in the treatment of tuberculosis, but also insist that properly regulated exercise is very necessary. They state their conclusions thus:

"Exercise when properly regulated and systematically graded is an important factor in the treatment of pulmonary tuberculosis. Through it the patient is in many cases returned to home and family with lessened chances of future relapse. At the same time part of his earning capacity is restored and he is consequently financially less dependent upon others, relieving him of much worry, expense and hardship."

Dr. Pratt, who was founder of the first Church Tuberculosis Class in the United States in the Emmanuel Church in Boston, claims that in the treatment of tuberculosis absolute rest, often in bed, must be extended over a period of months, before the consumptive should take any exercise. He says, "Prolonged rest in bed out of doors yields better results than any other method of treating pulmonary tuberculosis. Patients will have a better appetite and take more food without discomfort and gain weight and strength faster than patients with active disease who are allowed to exercise. Complications are much less frequent. When used in the incipient stage recovery is more rapid and surer."

Mr. Ross, who is himself a cured consumptive, and a writer of considerable prominence, holds that unless resting becomes a business to the tuberculosis patient, he might as well give up his fight for health. "The period of infection with tuberculosis," he says, "is not a vacation. It is a twenty-four-hour-a-day job. True it is a period of idleness, but one of intelligent, directed idleness. The day's work should consist of rest; rest should be the only business on hand. The light exercise, or hour of reading should be considered as the reward of a good day's work, like the evening of slippers and ease to the tired business man at the end of the day. This recreation, however, should be considered only as an incidental result of the patient's work, not the main object."

Mrs. Cook Tells Truth

Dexter, Ky.—In a signed statement, Mrs. Cook tells the truth about how Cardui brought back her health and strength. She says, "I could not get any relief, until I tried Cardui, the woman's tonic. I suffered more or less for 10 years, and was so weak and nervous I could hardly do my house work. Now I am in better health than ever before, am regular as clock work, do not suffer at all, and gain strength every day." Thousands of women have been helped back to health by Cardui. Try it.

Public Health Dept. of W. C. T. U.

Edited by MRS. R. L. BOYDE, Supt.

"Public health is the foundation upon which rests the happiness of the people and the power of the State. Take the most beautiful kingdom, give it intelligent and laborious citizens, prosperous manufacturers, productive agriculture; let arts flourish, let architects cover the land with temples and palaces; in order to defend all these riches, have first rate weapons, fleets or torpedo boats, if the population remains stationary, if it decreases yearly in vigor and stature, the nation must perish. And that is why I consider that the first duty of a statesman is the care of Public Health."—Disraeli.

"We are that bold and adventurous piece of nature, which he that studies wisely learns, in a compendium, what others labour at in a divided piece and endless volum."—Religio Medici.

"The lives and health of the people stand first amongst all the duties which an enlightened State owes to a loyal citizenship. Grand conceptions of human worth demand that preventable diseases must be subdued as the common enemy of all."—Hon. A. H. Ellor

Dr. Morgan is qualified to be of the most practical benefit to those taking up dairying, being splendidly equipped and having large experience. He is a graduate of the Iowa State Agricultural College and also is a graduate veterinarian. He taught and did practical work in the development of the live stock industry in the Northwest and then spent three years in the Philippines for the U. S. Department of Agriculture. Since September 1910 he has been special agent in South Carolina and Georgia of the Farmers' Co-operative Demonstration Work of the U. S. Department of Agriculture, devoting his efforts to live stock development in that territory. This experience gives Dr. Morgan an intimate knowledge of the problem that confront the stock grower and dairyman throughout the Southeast.

In naming Dr. Morgan as dairy agent the Southern Railway is following its policy of aiding in the general development of the territory it serves in every possible manner. All authorities agree that there are great opportunities in this field in the South and the Southern Railway will endeavor to do all it can to assist farmers along its lines in this work.
